THE TWO PUGILISTS

Corbett Is In a Bad Condition—Not Fit for the Ring.

FITZSIMMONS WORKING HARD.

Doubts as to Whether the Fight Will Take Place After All.

NEW YORK, Sept. 9.—A morning paper will print a report that Charles Jim Corbett's friends do not believe the fight with Fitzsimmons will come off and that consequently he is not training.

An interview is given with Parson Davies, who says: I saw Corbett about a week ago, and I did not like his looks. He did not appear to have the life and energy which he formerly possessed, and his eyes were dull and listless. I attributed this to the fact that he had been knocking around the country a great deal, playing ball, attending theatrical performances, keeping late hours and other dissipations. Corbett is a wonderful man, though, and a great fighter. If he trains and gets the ring in fit condition there is no doubt but he will whip Fitzsimmons. But, however, he is in great condition right at this time and will put up an awful fight. If Jim is not right he is the man he may actually defeat. I don't attach much importance to what I hear of the condition of the two men, for I don't believe they will meet, at least not in Texas. When a governor of a state announces that he will stop a prize fight, he usually means what he says, and in this instance I think Governor Culberson is in earnest."

Another of Corbett's friends, Al Smith, says: "Oh, Jim don't need much training. Five or six weeks will suffice. He will do simple training in order to meet his opponent. Fitzsimmons is working hard and will do credit to himself, but the fight, if it comes, will result in a victory for Corbett."

DEFENSE OF DURRANT.

Attempt to Prove that Other Persons Were in the Church.

SAN FRANCISCO, Sept. 9.—An evening paper prints a sensational story about the silence which will be offered in the trial of Theodore Durrant for the murder of Blanche Lamont. The following statement is credited to a person connected with the defense:

"The alibi will be strong, but the defense has witnesses to show that Durrant not only did not commit the murder, but will indicate who did commit it. There will be more than one implicated in the murder. Witnesses will testify that they saw the girl enter the church on the fatal afternoon with a certain man and that at that time a second man was within the church. There the defense will rest its inquiry. It will not attempt to prove that these parties did commit the murder. The statements as to this are so direct that they will leave no ground for the prosecution to proceed on, so far as Durrant is concerned."

Cutting Excise Laws.

NEW YORK, Sept. 9.—The question whether the clubs of the city were amenable to the excise laws, as well as saloons and hotels, has been a point of much discussion during the present administration. Today the police commissioners had a conference, after which President Roosevelt gave out the following:

"A club or corporation can go more viable the law than an individual. When evidence is secured against a club that it is violating the law by selling liquors, it, or its employes, will be prosecuted against just as a saloonkeeper or his employes. If an officer has evidence of violation in a club, it is his duty to make an arrest, and he will do so if he is called to account. I say person has evidence and applies for a warrant, I have no doubt the court will grant it without discrimination."

Promotion of Naval Officers.

WASHINGTON, Sept. 9.—The President has approved the recommendations of the naval examining board promoting officers to the grades as follows:

Rear Admiral, Lester A. Beardslee; Commodore, John A. Howell; Lieutenant Commanders, George W. Tyler, Percy Grant, James K. Cogswell, John R. Bridgey; Lieutenants, John Hood, Charles C. Maas, John P. Blue, Charles W. Jungen; Lieutenants, Isaac Green, Guy W. Brown, Marcus Johnson, Harry T. Ford, Albert M. Beache, Frank E. Hill, Roger Wells Jr.; medical directors, Thomas C. Walton, George H. Cooke, George H. Wood; passed assistant surgeon, Louis L. Young; passed assistant paymaster, Samuel McGowan; pay inspector, Henry T. Wright; passed assistant engineer, W. P. Wiseman.

Chief Engineer Hemenway and Naval Constructor Hanscom have been retired on disability incurred in the service. As the result of the above promotions and others that are expected to receive the President's approval in a day or two the signaling in the naval personnel will be greatly relieved.

Eating freely can not shake the fame of Price's Baking Powder on the public.

SURROUNDED BY TURKS.

Armenian Villages Subjected to Fearful Atrocities.

LONDON, Sept. 9.—A special to the *Daily News* from Karsi, Armenia, says that the entire district of Kenaska is surrounded by Turkish troops dispatched by Zekki Pasha, under the pretext of arresting Armenian revolutionists.

The villages of Karst, Tirtiguenner, Turan, Baraout and Marlga are reported to be completely sacked, and the population, numbering 3,000 people, were hotly dealt with. The women were tortured and the women were ravished. The four monasteries of Aukwaik, Sourgkoor, Tourountchog and Soupkagop were sacked and the altars and crosses were destroyed.

The excitement and alarm are intense. Authentic information from Moush is to the effect that an anti-Christian society of Turkish officials has been formed there and at Bitlis, with the avowed intention to slaughter the Christians in the event of the acceptance by the Porte of the reforms of reform presented by the powers. It is rumored that Consul Hampson is to be the first victim.

Harrison With the McKees Family.

SARATOGA, N. Y., Sept. 9.—Ex-President Harrison, it is expected, will pass the fall and early part of the winter here. His son-in-law, J. R. McKee, has rented for three months and will take possession on September 15th of the William H. McCall cottage on Circular street. Gen. Harrison will be the guest of the McKee family.

Spanish Soldiers for Cuba.

HAVANA, Sept. 9.—The steamer Leon has arrived here with 600 soldiers of the engineer corps. The steamers Manzanillo and Buenos Ayres have also arrived, with 140 officers and 4,100 men.

During a skirmish near Santa Cruz the insurgent captain, Serien Reno, was killed. On the side of the troops, two soldiers were wounded.

Campbells and McDonalds.

EDINBURGH, Sept. 9.—Lord Archibald Campbell and his Highland pipers marched through Glencoe tonight playing a dirge. Lord Archibald devised this project as an expiation for the historical massacre of Glencoe by the Campbells. The project, however, was not accepted by the inhabitants of the glen in the spirit in which it was intended, and the descendants of the massacred clan and their friends notice that if he or any others belonging to the clan who murdered their ancestors should attempt a demonstration in Glencoe they would send round the fiery cross and break their heads.

Lord Archibald, however, determined to put through his ceremonies. Boh, however, is in great condition right at this time and will put up an awful fight. If Jim is not right he is the man he may actually defeat. I don't attach much importance to what I hear of the condition of the two men, for I don't believe they will meet, at least not in Texas. When a governor of a state announces that he will stop a prize fight, he usually means what he says, and in this instance I think Governor Culberson is in earnest."
