Social and Dramatic Events—Death of a Mother in Israel.

To the Editor:

This has been a season of rejoicing for a while, both in the dance and a few good surprise parties; and on Saturday evening, Feb. 15, our dramatic club gave an entertainment for the benefit of one of our brethren who is shortly to leave us to go on a mission to Denmark.

I am sorry to have to chronicle the death of one of our sisters, Lena Olsen, who died Monday morning, Feb. 17. She leaves a kind and loving husband and fourteen children, two of whom are married, also father, mother and brothers. She was the wife of our Bishop's first counselor, Brother John Olsen, and was the president of the Primary association of this place, which office she faithfully filled up to the time of her death. She was buried Wednesday afternoon, Feb. 19, when counseling remarks were made for the comforting of the bereaved family. The children of the Primary association paid their last respects to their deceased president by following her to her last resting place, formed in procession.

The snow is going very fast and the roads are impassable either for wagons or sleighs.

Your brother,
BENJAMIN EDWARDS.

NEWS OF THE STATE.

Tooele Transcript: Last Tuesday Tooele was thrown into an extremely high state of excitement by the report that Robert Heggie of this city had been arrested on the charge of having attempted to commit rape on Miss Ella Williams, also of this city. He failed in his dasterdly attempt. At an investigation, Heggie was held in $500 bail. The young lady's clothing was badly torn, and in her brave struggle she had scratched and battered her assailant's face considerably.....Roy Nix lost his leg broken on Thursday, by being kicked by a horse.

Spring ville Independent: The Springville Fast and Minute Men of the Black Hawk war are preparing for a grand reunion to the Reynolds hall on the 4th of March. The affair is under the management of George McKenzie, A. L. Heymond, Thomas Dallin and Samuel Bailey. Another good time is in store for the lucky invitees..... Bishop L. Whiting, of Mapleton, died on Wednesday morning, at 5 o'clock, of pneumonia. The Bishop has been ill for some time past, hopes for his recovery were entertained until the very last and his death has caused a gloom to pervade Mapleton and in fact the whole of the city of Springville as he was a man who had the love and esteem of all with whom he became acquainted. He leaves a family of two wives and fifteen children besides many other relatives. The funeral services were held at the Mapleton meeting house at 1 o'clock Friday, at which a large concourse of relatives and friends assembled to pay their respects to the deceased..... News has been received of the recent death of Mrs. Ann Warren, an old resident of Springville who died in Orange county, California, at the good old age of 93 years, 9 months and 9 days. The deceased leaves a number of relatives in Springville. She came here in 1852 with the early settlers, remaining until 1859. She was a member of the Latter-day Saints Church and died in the faith even though there was no branch of the Church in the locality of her late residence.

A Captive Balloon.

The principal danger in captive work is the always present possibility of the wire rope parting, not because of the obvious result that the balloon, being set free, would at once make off at speed, but for reasons of a very simple technical nature, albeit none the more pleasant by reason of their simplicity. It must be understood that when a captive balloon has been sent up the required height, the neck of the balloon has to be tied up so as to prevent the wind from exerting a pressure on the envelope and forcing out the gas, which would result in the balloon very shortly being its lifting power and descending. In free runs the neck must always be wide open, for otherwise any sudden expansion of gas might burst the balloon. Hence if a captive breaks away it is bound to make an unduly rapid ascent, since it is suddenly released from the restraint as well as the weight of the wire rope.

Of course in such an emergency the gas would at once commence to expand furiously, and unless the neck of the balloon were instantly opened and kept open the envelope would inevitably burst. In the shocking accident at the Crystal palace in 1892, when poor Dale and his comrades lost their lives, the balloon was started with too much lift and commenced to rise with unlooked rapidity. Dale, the aeronaut, realizing the danger, opened the neck and in his anxiety to see that it was clear looked into it, and it is supposed that his head checked the outrush of heated gas, with the result that the envelope instantly burst, with terrible results.—Macmillan's Magazine.
