FORTY-SEVENTH CONGRESS.

HOUSE.

WASHINGTON, 26.—The conference committee disagreed on the general deficiency bill as to the payment of the privilege of Senators for attending the extra session.

The House by a vote of 115 to 65 refused to recede from its position. A new conference was then ordered.

Page called up the conference report on the river and harbor bill rejected yesterday, and the House by a vote of 114 to 27 moved to reconsider the vote refusing to agree to the conference report and it was then agreed to by a vote of 111 to 82.

The House proceeded to the consideration of business under the Pound rule.

Pound (Wis.), from the committee on public lands, called up the bill providing that in all points, civil or criminal, for any trespass on the public lands, or for any conversion of timber or material taken therefrom, the actual expense of survey, scalement or estimate necessarily incurred in ascertaining the trespass shall be included in the costs. The bill passed.

On motion of Butterworth, (Ohio) a joint resolution passed authorizing the Secretary of War to loan tents to the colony of Russian Hebrews in Foote County, Ks.

Horr, of Mich., from the committee on agriculture, reported back the bill to regulate the exportation to Europe of butter and cheese; calendar.

On motion of Hazelton, of Wisconsin, the Senate bill passed creating the Oregon Short Line railway company, a corporation in Utah, Idaho and Wyoming Territories.

On motion of Williams, of Wisconsin, a joint resolution was passed granting the widow of S. A. Hurlbut and Judson Kilpatrick, late ministers to Peru and Chili, full amount, equal to their husband's salary for one year.

A joint resolution passed granting the widow of Henry Highlander Gannett, late minister to Siberia, an amount equal to her husband's salary for one year.

The floor granted to the committee on Indian affairs.

The next bill called was the Senate bill for that part of the Omaha Indian reservation in Nebraska, lying next to the right of way to Grand Island, Sioux City and Nebraska railroad company.

Adjourned.

AMERICAN.

Internal Revenue.

WASHINGTON, 26.—Commissioner Ramsey gives the returns of the internal revenue taxes for the past fiscal year, $146,520,274 have been accounted for and turned into the treasury. During the past six fiscal years $784,884,107 have been collected for internal revenue taxation and paid into the treasury without any loss by defalcation. The excess of the collection during the last fiscal year, including the expenses of the office (less than 3½ per cent. on the amount collected). The expenses for collection for six years have been about $27,087,800, or 8 per cent. on the amount collected. This sum has been disbursed without loss to the government.

Nominations and Confirmations.

Confirmations—M. L. Joslyn, of Illinois, as Assistant Secretary of the Interior; J. R. Brierly, of California, as collector of customs at Wilmington, Cal., L. Richmond, of Rhode Island, as secretary of legation and consul general of the United States at Rome; Geo. M. Sabin, United States district judge of Nevada.

Nominations—H. Allen, of Pennsylvania, as United States marshal for the Territory of Dakota.

His Name is now Westgate.

NEW YORK, 26.—The *Herald's* St. Thomas special says: The assassin of Lord Cavendish, who was arrested at Puerto Cabello, Venezuela, gives his name as Wm. Westgate. He was arrested on the 16th instant on his own confession. He shipped on the 8th of May under the name of O'Brien on the British bark *Gladstone* from Swansea to Caracas. He says he left Dublin on the 6th of May by a steamer to Swansea. The names of three of his accomplices and other details of the murder were taken by deposition before the British consul. He says he was employed by O'Connor and other persons. Parties who have seen the man give credence to his confession.

In appearance the man is tall and slender. He says the price of the deed was £20 to each of the assassins. He said £20 was worth more to an Irishman than an Englishman's life. It is believed the Venezuelian government will surrender him although there is no extradition treaty. The foreign office has been telegraphically communicated with.

London, 26.—The foreign office confirms the report of the arrest at Puerto Cabello, Venezuela, of one of the assassins of Lord Cavendish and Thomas Henry Burke.

Chicago's Water Supply.

CHICAGO, 26.—A new engine for the West Side Pumping Works has been ordered, which, when completed, will increase the daily capacity 30,000,000 gallons, making the united capacity of all the engines in the city 1,300,000,000 gallons per day.

Destructive Tornado.

RALEIGH, N. C., 26.—A tornado swept through a belt of country half a mile wide, in Durham and Orange counties, to-day, doing great damage. Houses were blown down and cotton crops injured. Another destructive tornado is reported from Pinder county.

Safe Robbers.

BELLAIRE, O., 26.—Seven masked men overpowered the watchman at the Zanesville & Cincinnati railway station yesterday morning, and blew open and robbed the safe. The amount secured is not stated. There is no clue to the robbers.

Another Man Wants to Hammer "Tug."

NEW YORK, 26.—Ex-Alderman James Dunn, of Brooklyn, and "Tug" Wilson are matched to fight in Louisiana or Mississippi for $2,000 a side and the championship of the world; $1,000 forfeit money has been deposited.

That Cooked Indian and General Crook.

LORDSBURG, N. M., 26.—The party who saw the roasted Indian say he was well done, nice and brown. The citizens are preparing to take the settlement of the Indian question into their own hands. A secret organization with New Mexico and Arizona is being formed to wipe out the Apaches. New Mexico has already over 600 and Arizona will furnish more than this number. Globe City and Gila Valley have already over 300. The other sections are organizing rapidly. The citizens throughout Arizona are praying for the arrival of Gen. Crook.

The coach that left this morning for Lordsburg with the mail and passengers had to return for an escort. Twenty citizens volunteered. The Indians numbered about 40 and after a fight they left in the direction of the Gila Valley, where so many settlers were killed during the last outbreak. Great fears are entertained for the safety of the exposed settlement.

Alaska's Fleece.

SAN FRANCISCO, 26.—Port Townsend dispatch: The steamer *L. L. Mastick* has arrived from Sitka. The *Wachusette* dropped into Sitka June 17th. A quarantine was enforced. After coaling she sailed for Wrangel June 21st, taking both surgeons and leaving no medicine for the sick. A number of the guard have been attacked. The deaths among the Russian creoles from the plague—a combination of scarlet fever and measles—continue, causing much destitution and want of the actual necessaries of life, and only a lack of material will cause a cessation. The mortality is simply fearful. Much indignation is felt at the course pursued by Commander Pearson in not leaving a medical officer at Sitka. He was fully conversant with the situation and put his ship in close quarantine, sending his surgeons ashore to investigate the trouble, and they reported disease as on the increase. No brandy is obtainable, which is much needed. If a man imports a gill of brandy into Alaska to save a dying child, he is liable to be sent to the penitentiary.

Mining matters look favorable. The placers are turning out well, and new diggings are reported to have been discovered near Bernen Bay. A large number of miners came up on the *Idaho*.

Murdered With a Wooden Leg.

News from the Bridewell prison says that last night two prisoners, J. Clark and John Pettigill, were confined in the same cell. Pettigill was considered an imbecile, but not dangerous. This morning, however, it was discovered that he had unbuckled Clark's wooden leg during the night and with it beaten him to death. There seems to be no doubt that it was a crazy freak, though Pettigill refuses to say a word.

Shot His and Wife and Disappeared.

SAN FRANCISCO, 26.—Samuel L. son of Lewis Sacks, and a member of the prominent importing dry goods firm, of Sacks, Heller & Co., shot his wife at his residence on Vannes Avenue to-day. He then left the house and has not since been seen. Mrs. Sacks is the daughter of Thomas B. Shannon, late collector of the port. The wound is not dangerous, the ball passing through the arm. The cause is jealousy, which the intimates of the family say is unfounded. Sacks is a Hebrew and his wife a Christian. The marriage was distasteful to the parents on both sides, and the parties eloped. Subsequently a reconciliation took place. Sacks lately received anonymous letters accusing his wife of infidelity, and recently assaulted her, knocking her down and kicking her.

FOREIGN.

Egyptian Items.

ALEXANDRIA, 26.—It is believed that Arabi Pasha receives daily communications from friends in London giving accurate accounts of the measures to oppose.

It is stated that the first detachment of troops sent to Egypt will number 16 battalions, and arrangements are made to send 64 battalions if necessary.

The Governor of Damascus has been ordered, as a precaution, to arrest several Sheiks just arrived from Egypt.

The Porte denies that there has been rioting at Smyrna.

Ismail Pasha has just returned from Arabi's camp. The latter's proposals are regarded as preposterous. He seems to have his offences condoned and on this condition he consents to disarm the portion under command of General Allison. He will not listen to the demand, and drawing closer to Arabi's camp has considered measures to prevent hardships if the water supply fails.

The Khedive was informed that Arabi had sent orders to the prefect of police at Cairo to send all the police officers to his camp and fill their places with refugees from Alexandria, who now have quarters at Geizrah.

A dispatch from Constantinople says that four British ironclads and five transports are ready to start for Egypt. In spite of the preparations and doubts expressed the expedition will actually be dispatched.

The *Times* correspondent at Alexandria confirms the report that Arabi Pasha has regular communication with parties in England. The correspondent also says the Khedive has ordered a commission to inquire into the reports of looting by the English. General Allison insists that an investigation be made.

The Egyptian soldiers at Aboukir refused to embark upon Charkich. At the last reports a flag of truce was flying there as a vessel was leaving Aboukir a train was seen carrying troops in the forts.

The Eleventh Hour.

LONDON, 26.—The *Times* in a leading article says: Neither as Soverign, Suzeraine nor any other title will there be room for the influence of the Sultan in Egypt, after the responsibilities of the sovereignty have been cynically thrown aside in the hour of trial. The Sultan may have amused himself by forming new alliances and complimenting his new allies with decorations, but it remains to be seen what help these sympathizers can or will give the Porte. England by acting alone will acquire and assert her right of controling in the future the country she saved. Those who object to that prospect have even an eleventh hour opportunity of sharing the labor and obtaining a voice in determining events; but if England is left to act alone, the engagements she took when the situation was wholly different will be abrogated. We must plainly show the Sultan to the Powers. We intend to work thoroughly to retain control. When that is done Gladstone and his colleagues must yield to the compulsion of events. Our commanding naval force and well organized army will insure the establishment in Egypt of a strong government under English protection, if the Ministers do not hesitate entering upon the path which lies straight before them.

The Sinews of War.

The *Pall Mall Gazette* says there is not an excuse for charging one penny of the expense of the Egyptian expedition upon the finances of India, except temporarily. If the Government is weak enough to yield to this temptation, it will break up all its members. They cannot be expected to swallow their words and belie the whole spirit of their previous utterance about the only legitimate application of the Indian taxes.

V. Huntington, E. H. Miller, Jr., and E. W. Hopkins. The directors elected Leland Stanford, President; C. P. Huntington, first Vice President; Charles Crocker, second Vice President; E. H. Miller, Secretary; E. W. Hopkins, Treasurer.

The local editor of the Springfield, (Mass.) *Republican*, Mr. J. H. Mabbitt, says that his father suffered from rheumatic pains in the back, which nothing would relieve until he commenced the use of St. Jacobs Oil. The doctors failed to afford any relief, but the Oil did, and he speaks enthusiastically of the Great German Remedy.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long, as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvelous cures, that have won for it a confidence in its virtues, never equaled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their painful effects, that is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely defence. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its early use in sudden attacks.
