TRUTH AND LIBERTY.

NO. 228. TUESDAY, AUGUST 29, 1893. SALT LAKE CITY, UTAH. VOL. XXVI

## THE WORLD'S FAIR.

### Interpretation of the Ancient Aztec Calendar.

A MOST IMPORTANT DISCOVERY.

A Paper Read by a Lady at the Anthropological Congress at Chicago.

CHICAGO, Aug. 29.—At the anthropological congress at the World's Fair today, Mrs. Zelia Nuttall read a paper setting for the first time the interpretation of the ancient Aztec calendar. Scholars declare it the most important discovery of the kind in this century, as it furnishes a key to much of the life and acts of at least six nations of the early inhabitants of Mexico and promises to lead to the translation of the hieroglyphics on the ruins of early Indian and Central America. The accuracy and perfection of the calendar, which is pronounced in advance of any system now in use, gives evidence of the high civilization and methodical establishments of the ancient inhabitants of America. It is entirely different from any system known to ancient Egypt or Rome or Africa. It is conceded that at least four thousand years of astronomical observation was necessary to perfect the calendar. It has always been thought to be religious, astronomic and domestic life of that people.

There was a parade of over two million Brazilian worth of blooded horses through the Fair grounds this morning, including the finest specimens of the United States, Great Britain, Russia, France, Germany. The day was cloudy, cold and raw, the first of the cold snap last May.

WHEAT HARVEST.

Foreign Fair Commissioners Interested in American Methods.

LARSONE, N. D., Aug. 29.—The foreign agricultural commissioners to the World's Fair and their eyes opened today by an exhibition of the methods of harvesting wheat in the great fields of the Northwest. In a field one mile square on the estate of N. F. Larrimore, 45 harvesters manned by 180 men were set to work and before noon half of it was harvested. It was a revelation to foreigners of the methods by which the United States economizes time and money in wheat raising.

A Tax Seizure Marshal.

Special Telegram to the NEWS.

CHEYENNE, Wyo., Aug. 28.—It is rumored that City Marshal T. J. Carr will soon tender his resignation. Marshal Carr has maintained very strict quarantine and there has been some complaint that he is too severe. A probable successor has not as yet been mentioned.

Cattle Business of Wyoming.

Special Telegram to the NEWS.

CHEYENNE, Wyo., Aug. 29.—Although the cattle business has not with many reverses during the past few years, it is still the principal industry in Wyoming. To obtain some reliable information as to the extent of the business at the present time a number of the prominent stockmen have been interviewed. Among them was ex-Governor George W. Baxter, who as president of the Western Union beef company, is in a position to have a practical knowledge of the situation.

He said that during the past year quite a number have retired from the business and in consequence there is probably 20 per cent less cattle in the state than at this time a year ago. On an average prices are lower than they were a year ago. Meanwhile the weight raises have been increased, so that the net returns are materially received. Shipments up to the time of the failure of Cudahy at Chicago were quite heavy, but since then there has been a wonderful falling off. The outlook for winter is not an encouraging one. The drought during July and the late part of August burned up the grass, and the rains came too late to do much good.

Will Not Fill the Vacancy.

SEATTLE, Wash., Aug. 29.—Governor Mattoon says he will not call a special session of the legislature to fill the vacancy caused by the refusal of the Senate to seat J. R. Allen, notwithstanding the people in the state demand it.

A Bonanza Bank Reopens.

DENVER, Aug. 29.—The German National bank reopened its doors this morning and received large deposits. The other two failed national banks expect to resume this week.

DESTROYED BY FIRE.

The Long Island Famous Summer Resort.

NEW YORK, Aug. 29.—Rockaway Beach, the famous Long Island summer resort, was almost destroyed by fire last fall and has just received from the owner, was visited by another big conflagration early this morning. The flames reached the station of the Rockaway Beach railroad. A number of cottages, with their outside steps to the piazzas and encased with difficulty, several being burned or otherwise injured. A fierce gale was blowing at the time and the flames spread with the utmost rapidity.

Duly's Hotel was next to go. The flames had barely time to escape to the eight stories.

Dr. Frank's Hotel followed; then the Beach House, the largest in the place. A heavy rain began falling, and the fire ceased to spread. The damage is heavy, as the structures were all new.

FEVERISH RACE.

An All Absorbing Topic in Sporting Circles.

NEW YORK, Aug. 29.—The race for the country stakes is the all absorbing topic in sporting circles. The largest regular stake in the American turf was won for this afternoon. There have been fabulous and incredible bets made in the history on it. Now, one in the north and a bowling gale. The speedies ever seen in America, along the turn with accelerated speed, the wind moaned, howled, whistled through the grand stand as over the stretch of some gigantic Aeolian harp, while the composite hell fire in all things breaked and wailed for the fair race. The wind made not keep the crowd away. The betting came in not after the order of those in attendance. Every available space was occupied with well dressed spectators in all the stations of the European family from a one 1000. When Chant opened his heels in two-three other work younger. The track was somewhat heavy.

Defending a Statement.

PARIS, Aug. 29.—Paris papers say the Italians have discovered that large quantities of corn and grits have been imported as grain seine and now demand, defending the government of Italy, that the Italian consuls have ordered an analysis for future samples of all consignments of such articles.

Southern Storm of Lightning.

TEXAS, Aug. 29.—A storm of lightning in Southern Texas lasting over the city for three hours passed over the city.

Settlers Rush to the Water.

LONDON, Aug. 29.—The prince of Wales's yacht Britannia was the queen's cup today.

Cholera in New Jersey.

JERSEY CITY, N. J., Aug. 29.—A woman said to be suffering from Asiatic cholera was taken to the city hospital this morning. Her house was quarantined.

LAST NIGHT'S STORM.

Complete Reports not yet Attainable.

NEW YORK, Aug. 29.—The storm which swept over this city and surrounding country last night from midnight till 2 o'clock this morning, the heaviest of the season, assigned to the West Indies, and followed in following the same swept more inland and reached out in every direction for a distance of more than three miles. As almost all telegraph connections are broken the signal service is unable to give a complete report of its course of the exact direction, but most observers are inclined to think it probably made its way to sea through the St. Lawrence valley. The tides in the bay became unusually high. Owing to violently stormy and angry-looking waves, vessels found difficulty in making headway.

CHARLESTON REPORTED UNDER WATER.

WASHINGTON, Aug. 29.—The storm did great damage to shade trees. The electric light and telephone service in Alexandria and Georgetown are crippled. Telegraphic communication with the West was broken at 7:30 last night and with the East about midnight. This morning partial communication was restored to Baltimore. Communication was also cut off with of Lynchburg. There is intense anxiety for further news from Richmond, Va., and other points further south. Rumors come by wire from Richmond that trains from the south report that Charleston, S. C., is under water. The signal service indications are that Charleston was right in the path of the tornado.

Heavy Frost.

BLACK RIVER FALLS, Wis., Aug. 29.—Heavy frost visited the cranberry region last night. The crop is considered a total loss.

IN CONGRESS.

The Repeal in the Senate Goes Over till Tomorrow.

WASHINGTON, Aug. 29.—Teller objected to the immediate consideration of the repeal bill. It went over till tomorrow.

The Stewart resolution inquiring into the condition of the treasury was referred to the finance committee.

Morgan adjourned the Senate in favor of the unconditional repeal of the Sherman act.

THE HOUSE.

WASHINGTON, Aug. 29.—Catching called up the report of the committee on rules which the House proceeded to debate.

The Finance Committee.

WASHINGTON, Aug. 29.—The Senate committee on finance decided to report back the Wilson repeal bill with the recommendation that the Vorhees bill be substituted and to set aside the national bank circulation bill, now in the house, in favor of Vorhees' bill and to pass the latter as rapidly as possible.

Setting aside the National bank bill will require a majority vote of the Senate. The silver men say they are indifferent as to which is considered first, both being able objectionable. They believe they will fight repeal with all the force at their command.

The Vorthees bill was reported to the Senate as a substitute this afternoon.

RIFLE COMPETITION.

CHICAGO, Aug. 29.—The preliminary firing in the infantry and cavalry competition, which begins tomorrow morning at Fort Sheridan. The conditions of the wind and weather were favorable. The distances were two, three and six hundred yards. The best score at the first two distances were those of Sergeant Noah Ray, company D, infantry, 47 out of a possible 100, and Private Harry Minnick, 3rd cavalry, 45.

Sixth East Street Sewer.

Councilman Horn presided at the meeting of the City Council last night which acted as a board of equalization and review on sewer assessment.

The superintendent of sewers was ordered to construct a sewer on the west side of Sixth East street between South Temple and First South streets in accordance with notice of intention No. 21. The cost thereof is estimated at $2 per linear front foot, assessable to lots within sewer district No. 4, by a local assessment upon the lots or parts of lots and pieces of ground, described in the notice of intention, viz., lots 1 and 5, block 61, plat F.

## OFF FOR CHICAGO.

### The Great Tabernacle Choir Took Their Departure at 5 O'clock.

A GRAND EXCURSION PARTY

Eleven Cars of Happy, Hopeful People Commence a Most Auspicious Journey.

At 5:10 o'clock this afternoon the largest, happiest and most enthusiastic party that ever left this Territory sailed out from the Union Pacific depot. It consists of the Tabernacle choir accompanied by a host of hopeful and enthusiastic friends. Manager Whitney informed a NEWS reporter this afternoon that 550 tickets had been sold, with the prospective disposal of a considerable number more. He also was the member the following telegram received today by President Hoxford, of the Commercial Commission, which informs you the great choir will be warmly welcomed along their line of travel:

ST. LOUIS, Aug. 29.

W. H. Hoxford, President Commercial Commission:

We will be happy to welcome the Mormon Tabernacle Choir as the Mormon Tabernacle at 11:30 a.m. on Saturday, through with them to arrive in the Union depot at the Exchange closes at 12 o'clock, noon.

W. T. ANDERSON, President.

Telegrams of welcome are also expected from other cities in response to telegrams sent out by the Salt Lake Chamber of Commerce and Business Men's association.

The train is a most magnificent one and will be under the personal supervision of general and popular Dave Bailey, general passenger agent of the Mountain division of the Union Pacific, Harry Gold, City Ticket and Traveling Passenger Agent Taylor will see the party safely over the Wyoming line.

The train consists of one baggage car specially arranged with lavatories and other apparatus, one harmonic and comfortably equipped with Spirella seats and the following Pullman cars, several of which will be put to use for the first time in conveying the choir to Chicago on their eventful trip: Chemuni, Lo-ne, Mentona, Ogallala, Carney, Northwest, Excelsior and Kilbourne. These are all eighteen section cars, the largest that were ever used west of the Rocky mountains. They are thoroughly modern throughout and are elegantly furnished.

Attached to the train will be the splendid car Pickwick, kindly and generously placed at the disposal of the Tabernacle choir by the Chicago. The Pickwick is fresh from the shops and is regarded as one of the most comfortable cars of the kind ever manufactured. It is of solid mahogany finish of the rarest workmanship. It has an observation room in the rear, a large parlor in the center, lay window, dining room and kitchen and six upper berths besides a full section of upper and lower berths and folding beds which during the day time are concealed in the ceiling, mirrors, tables, and other useful articles of furniture. The car is also equipped with toilet and bathrooms which are supplied with hot and cold water and all are lighted with gas.

A trio of colored porters will keep the car in order. The senior of them is an old and faithful servant of Mr. Pullman's.

The baggage cars provided with badges, bearing cuts of the Temple and the Tabernacle, and the words, "Mormon Tabernacle Choir," the time by which the organization is most familiarly known to the outside world.

The Union Pacific Depot was the scene of the utmost activity during the day. This afternoon the Salvation Army discovered appropriate music as hundreds of relatives and friends rade the enthusiastic farewell and good-speed.

NOTES.

Utah's sweet singers will advertise this Territory as it has never been advertised before.

Ogden promises to give the excursionists a grand ovation at the Union depot in that city.

The scene at the depot was a most memorable one and without a parallel in the history of the West.

Dr. J. M. Benedict accompanied the party as medical adviser, tendering his services free of charge for the trip.

The excursionists took with them a large amount of Utah literature for distribution among their eastern cousins.

The Union Pacific officials are to be commended for the efficient manner in which they handled the great throng of people.

The choir will sing in Denver tomorrow and St. Louis on Saturday, and are scheduled to arrive in Chicago on Sunday next, September 3rd.

On the way to the depot and at the cars dozens of persons were heard to say: "Speak well of Salt Lake." The response was almost invariably, "I wish you could."

Huge streamers bearing the words: "Mormon Tabernacle Choir," "Five Hundred and Fifty Voices," "Zion comes to Chicago to sing at the Fair," adorned the full length of three cars on both sides.

It is estimated that not less than three thousand persons waved the depot to wish some the opening of the train. The crowd was so large that it was only with the greatest difficulty that passengers were able to allow their way to their respective cars.

The loyal hilling was most earnest and affectionate. Fathers, mothers, brothers, sisters, sweethearts and lovers crowded close up to the cars to bid their loved ones good bye and when the train pulled out a mighty shout went up from the assembled thousands.

The Salt Lake newspapers have rep-

resented with the choir as follows: Herald, NEWS, H. G. Whitney; Tribune, F. K. G. Hoxley; Herald, Clark Whitney; The Opinion, Joseph F. Smith. Will send a reporter with the excursion.

Young Ladies' Excursion.

The excursion to be given to Saltair on September 1st by the members of the Territorial officers of the Young Ladies' Mutual Improvement Association. The officers are President, Elsina S. Smith; First Counselor, Lucy W. Cowdell; Second Counselor, Martha H. Tingey; Secretary, Adelia W. Eardley; Assistant Secretary, Lillie T. Freeze; Aggie Campbell, day Treasurer; Minnie D. Jones, Secretary and Treasurer; Annie M. Cannon, Corresponding Secretary—Salt Lake Tribune.

A program will be prepared, tickets will be issued, and the whole [illegible] under the direction of President Wilcken's committee.

Prizes will be awarded at 4 p.m. by the invited judges chosen from the assembly.

A PLAIN MISREPRESENTATION.

The "News" Did Not Quote Mayor Baskin in the Morning Interview.

With characteristic prolixity and an apparent desire for misrepresentation, a morning contemporary announced today in an editorial on the Ameriman excuse that "Last evening the News stated that Mayor Baskin would direct every one he has appointed who had connected himself with the order, see sides that in the event, Chief Parvis might be wrong by another before so respect hands." The Tribune.

The News did not pretend to quote his honor as the paper in question would make believe. This every reader of the News knows, and if any, Mayor Baskin is saying the last week in and say, expressed in the following interview:

"It is simply a disgraceful organization and the members of it should hang their heads in very shame."

This is the nearest we can say that the Mayor would discharge every man he had appointed who was connected with the order. What was said in relation to discharging men come from a Liberal councilman who wished for the correctness of the report.

Last Night's Fires.

A slaughter house, the property of George Stevens and Fred Brandt, about a mile south and east of the Union stock yards, was turned to the ground last night. The cause of the conflagration was the accidental explosion of a kerosene lamp. The structure was a low, long, one-story affair, and turned like kindling wood. The loss is estimated at $600, with insurance covering one-third of that amount.

Shortly after 1 o'clock this morning a residence at No. 229 east Third South street, was badly damaged by fire. The building was the property of Ben Rugg, and was occupied by a family named Hess. The loss is estimated at $500.

Indian Civilization.

Pimola (Arizona) Gazette. There is hardly a day passes that does not bring some evidence of advancing civilization among the Pima Indians. They are learning the use of the white man's farming implements and in by rides is wagons, the Indian wants to make their plain little dresses on sewing machines like their palefaced sisters. Yesterday Pratt Ross, said one of these papers, a fine sewing machine, for which she paid cash. She looks a few lessons in the use of the machine and departed for home with a happy smile on her face.

Up at Brighton.

County Registrar Walden is enjoying the pure ozone up at Brighton near the new wigwam residence of Judge Powers. In the meantime Lieutenant Will Lutz is devoting his best energies towards inducing people to see that their names are on the registration lists.

One By One.

It is stated that ways and means will be devoted by the City Council for dispensing with the services of the novel political schemers who have denominated themselves as Americus, at least such as are employed as clerks and heads of departments. If they cannot be saved, one by one, it is stated that they will be removed one at a time on any convenient pretext that may present itself. "This, however, will probably be a difficult proceeding," said a municipal official today, "in view of the fact that so many of the councilmen are members of the organization and are pledged to stand by their colleagues to the last."

The Tufts Case.

The divorce case of Laura G. Tufts vs Don Carlos Tufts came once more before Judge Barton late yesterday afternoon, this time in order to have the amount of alimony fixed pending the trial of the suit. Judge Barton ordered that the defendant pay $50 a month alimony, commencing from August 5th, and fixed the attorney's fees at $100, the alimony to be paid in semi-third party to be agreed upon by counsel.

High Council.

A special session of the High Council of the Salt Lake Stake of Zion will convene at the office of the Presiding of the Stake on Tuesday, August 31st, at 7:30 p.m. The attendance of every member is desired, as business of great importance is to be considered.

JAMES D. STORRS, Clerk.

## BUSINESS AND MINES.

### Suggestion for a Clothing Factory in this City.

THE RAILWAY FROM THE WEST.

Stretch it Rich.—Alaska Gold Fields—Land Office Business.—Mining and Other Items.

"The monopoly on the superiority of the goods made in the woolen mills of Utah, such as to quality and elasticity, is a prominent business note today, "should be taken up by philanthropic capitalists up to equal to doing a still further industry in this line here in Salt Lake. I say philanthropic, for that element has entered into the inauguration of every successful home industry here up to the present, and probably will continue to do so to the end of the chapter. Men who put their money into home industries do not expect an immediate return in the way of dividends or interest. The early returns come to the community in the way of building up industry upon dividends of certainty a little conservative. The Zions co-operative I refer to the establishment of a clothing factory. The trouble with home made goods is not that they are not strong enough or good enough, but that it costs more here to get them made up for men's wear than it should do. This extra cost is not because of high wages in tailors, but by reason of the absence of facilities and system for manufacture in the home mill. Every practical man knows that where a large amount of work is produced, with the proper departments economized to the care of specially trained workmen, the cost of production is reduced to a minimum. Now, I know how is a factory to make up clothing in a methodical way, with the proper outlines of manufacture so divided that the work is produced cheaply, with the proper fitting, cutting, filling, etc. But a dozen men can do more in half a dozen hours than a dozen keeping to one than they can do in a day, from one to another in succession. A clothing factory here could make up clothes just as cheap as elsewhere, if it was started on a sufficiently large scale. There is plenty of room here, too, for a good institution of that kind, and the property invested would soon come the eastern made and be in active demand in the market. I think the subject of such a factory is worth taking up now."

Upon the same subject another gentleman in the clothing business said, "Why, of course, home made goods are as cheap as the same quality in the East. Do not for a moment think that all the no's clothes we import are from eastern manufactured goods. On the contrary some of them are from western goods. The cloth we imported here in Utah is shipped to San Francisco, made up into suits, and sent back here and sold as cheap as goods of the same quality from elsewhere. I know there are few people who think that when they buy a ready made imported suit they are usual Salt Lake goods, yet they are. Prove goods made up in mission jail-n, but it is a fact. It is true it is not much of these goods that come back. When we can have a first-class clothing factory here we will not need to go east for cheaply made goods. They should be manufactured here now."

THE RAILWAY FROM THE WEST.

Frederick Stock, President of the Los Angeles, Owens Valley and Utah Railroad company, states that the work for the proposed first section of the railroad, from Independence to Mojave, California, have been accepted by the London syndicate and that according to the agreement between the company and the syndicate the first installment of money, not less than $25,000, is to be here by September 15, and that work will be commenced on the road as soon as the money is received and orders to commence are cabled from London, says the Los Angeles Express. He says that L. F. Green, who was given the contract to build the 105 miles of road and equip it for $1,200,000, has made a proposition to have it ready to go to work. Mr. Stock states that both the railroad and canal will be built soon. The latter is called the Mount Whitney canal, is 40 miles long and estimated to cost $200,000. A subagram has been received ordering work to commence on the canal in November.

FOUND NEW ORE.

Eli Lowe, of Provo, has been desirous for a long time of being the pioneer in a gold mine, and believed that his ambition in this direction would be gratified in southern Utah. Under this impression he has had an experienced miner out prospecting. Now Mr. Lowe comes in and says he announce to everybody that he feels satisfied with the news which his prospector has just brought. He says everybody who believes in the assertion of the gold miner that he has struck it rich, by showing that no specimens are brought in gave to have found gold in the ledge. Mr. Lowe has started post haste for the new discovery, the whereabouts of which he refuses to divulge at present, and merely asserts that it is in "the southern country." If things are as favorable as he believes them to be now, more will be heard of the affair as soon as Mr. Lowe makes his location secure.

LAND OFFICE.

The register and receiver of the land office have made their decision in the case of Dick Paterson vs Sarah A. Wing, involving the ownership of 160 acres of land in township 8 south, range 3 east. The register and receiver decided that Mrs. Wing did not abandon the claim, but that the prepossession of evidence showed that she resided on the place and showed not good faith in the entering, and that the case should be dismissed.

The commissioner of the general land office has reversed the decision of the register and receiver of the land office in the case of James Rowland vs Diana Nelson. The case involved 160 acres of land in township 1 south, range 2 west. Nelson injured in the final September 25th, 1890, and September 25th, 1892, showed final proof in support of his claim. The decision of the register and receiver was that Rowland was entitled to the land as Nelson had not fulfilled his duty under the law. The decision of the commissioner is in favor of Nelson.

Parks A. Thompson, nominee for James R. Wood, has filed an appeal in the land office from the decision of the register and receiver in the case of Richard P. Clawson vs James R. Wood, involving a desert entry of forty acres in township 1 south, range 1 east. The land appears to be in the commissioner of the general land office, and points out a number of alleged errors in the decision of the register and receiver.

Joseph Rogers, of Salt Lake City, has made final proof in a desert land claim covering 160 acres in township 2 south, range 3 east.

Jacob Gates, of San Pete county, has made final entry in a desert land claim covering 160 acres in township 17 south, range 3 east.

The following desert entry papers were received at the land office from Washington and are now awaiting their owners:

Nov. 1891, by Isaac A. Clayton, of Salt Lake county, for 320 acres in township 1 south, range 2 west.

Nov. 1891, by Lorenzo O. Lee, of Kanosh county, for 160 acres in township 14 south, range 3 east.

Nov. 1891, by Jacob Gulbrecht, of Weber county, for 80 acres in township 6 south, range 1 west.

Nov. 1891, by Mary Jane Stewart, of Salt Lake county, for 80 acres in township 3 south, range 1 east.

ALASKA GOLD.

Captain J. C. Burr, who is expected to pass through Ogden tomorrow or next day on his way from Salt Lake City to the Alaska gold fields, is the owner of the two boats at Miller creek, Alaska, which he will take with the Fairbanks party when they leave Miller creek for the Yukon, in Central Alaska. He has been at the mines a year, and has taken out a very amount of gold, which he has shipped. He reached San Francisco from Alaska on Saturday. He reports the outlings on Miller creek, and on the Yukon as very good. He believes that will be worked out to slight degree, with the present force of men. The prospects of one claim clean up from 80 to 90 ounces to the pressure metal each day, and this claim is worked only days in Miller creek miner $20 to be in gold.

MINES & MINING.

Special Telegram to the NEWS.

HANNER, Wyo., August 28.—In opening the silver vein of said discovery by M. W. Bunn, a large mass of some very hard metal was taken out of the heart of the vein. The lump weighs 175 pounds, is irregular in shape and so hard that it turns the edge of the best steel alloy. Those who have examined it believe it is an old meteor. The metal very much resembles nickel. The metal is charged to a depth of half an inch, silver, and that it must have been subjected to a terrible heat. It is an interesting curiosity.

SALT LAKE CLEARING HOUSE.

Today's clearing house exchanges amounted to $391,626.

TODAY'S QUOTATIONS.

New York—Silver, 75c; lead, $4.82
London—Silver, 34d.

ORE AND BULLION.

T. H. Jones & Co. received today, ore, $2000; bullion, $4000. Total, $6000.

## HE WROTE FROM SALTAIR.

### A Californian Tells of His Visit to Salt Lake.

C. E. Gunzmer, who was here last week with an excursion from the West, writes about to the Los Angeles Express:

Tale of a California desert. It is not to be compared to Nevada and a part of Utah till we reach the Eastern shore of the Great Salt Lake, 100 miles long by 40 to 50 wide; there is not a sign of life, either animal or vegetable, as far as the eye can reach in every direction, excepting stunted sage brush—not a tree or shrub. The railroad is here permeated through a portion of the valley over light depression, and for miles the railroad follows until nearing the high elevation, 1000 feet below we descend on the other side to Ogden.

Now we leave the old lethargic U. P. and get hauled to Salt Lake City by the more progressive R. G. W., where rails we take onward this evening for Chicago. This is a most beautiful and wonderful city in many respects, and the local officials of the Mormon Church are fully alive to the progressive of the age, and have built a new railway leading direct out into the great Lake, eighteen miles from the city as straight as the crow flies due west, and Utah Lake, and their five and very long open excursion cars are all market Los Angeles to Salt Lake, and run eighteen miles in just one-half hour for the week. I am told here the road is to be continued on as direct as possible to connect with your terminal, and to bring Los Angeles only thirty hours away. When completed wont this work a revolution in travel?

Such a road as this there is not to all the world. Had the description of the cards in Salter beach, and you will see what you can come to. The upper portion of the Great Great reminds, in which I am writing, and looking to a grand band performance, is modeled after the Tabernacle, which holds 10,000, and is even more lofty and beautiful all built and owned, as well as the railroad, by the Mormon Church authorities, and the great rank goes field on to business without a friend. The people all say that pastorate is very dull, though this is, I presume, more especially among the Gentiles.

## A CITIZENS' TICKET.

### Prominent Business Men Sick and Tired of Liberal Corruption.

A NEW DEAL IN POLITICS.

The Time Ripe to Spend the Death Knell of Municipal Extravagance and Wrong Doing.

Three score or more prominent business men met at the Walker House last night as foreshadowed in the NEWS in response to the following self-explanatory circular which they had received during the day:

DEAR SIR:—You are hereby invited to attend a meeting composed of business men, to be held at the Walker House parlors, on Monday, August 28th, at 8 o'clock p. m., to consider the advisability of making a movement for the election of men to the approaching city election who will administer the affairs of our city government on purely business principles.

The promoters of our active industry, together with some businesses that seem to be on the wane, both the political issues of our prosperity, are now in a position to demand that a ticket be made up of men who will be in sympathy with the business interests of the community in such a way that they will be able to carry out the wishes of the business and property of the community. The best way of doing this is for the business men to be present at the meeting and take the public into their hands to have best to accomplish the desired object.

W. S. McCornick, E. S. Richards, James Sharp, Jared Park, H. M. Wells, Jos. Scott, J. R. Pattison, John C. Smith, J. Jennings, John C. Cutler, Joseph Thompson, Jas. Sharp, W. W. Lino, George C. Lowe, Frank Armstrong, Spencer Clawson, H. H. Walker, P. H. Dugan, F. W. Mabey, Henry Ingersoll, Geo. M. Ottinger, Henry Ware Williams, Geo. Hill, Thos. Kearns, Thos. Williams, S. P. Teasdel, Thos. Webber, F. W. Dominican, J. Jennings, Wm. H. McIntyre, Henry Dugan, Elias A. Smith.

John R. Dugg was chosen chairman and Heber M. Wells secretary.

Speeches showing the advisability and necessity of the action contemplated in the call were made by Percy R. Williams, W. S. McCornick, James Sharp, J. H. Walker, H. A. Lowe, G. G. Webber, G. G. Salisbury, John Clark, M. H. Rogers, Edward Dougherty, Franklin S. Richards and John R. Dougg.

A motion was made by W. W. Riter that it be the sense of the meeting that a Citizens' and nonpartisan ticket be nominated for the city offices at the ensuing election." Unanimously carried.

G. G. Salisbury offered the following which was adopted without opposition:

Resolved, That a committee be appointed to wait on citizens on the ground seeking fitness for nomination of citizens' ticket, and address to wait on citizens in behalf of the very and the recent maladministration of the affairs, the address to be reported at an adjourned meeting to be held next week and close to be dismissed for the approximate of citizens.

Mr. Williams moved that a committee of five be appointed to arrange the details of the meeting, seconded and that Mr. Dougherty be the chairman of the committee. Carried.

The chair named G. G. Salisbury, W. S. McCornick, P. H. Dugan, W. W. Riter as the other members of the committee.

The committee appointed to draft an address to the electors to be issued with additional invitations to citizens to be held tomorrow they deemed best, to attend the next meeting to be held on Friday evening next, at 8 o'clock, at the Walker house.

### Against a Railroad Company.

In the Third district court last evening the Illinois Trust and Savings bank instituted proceedings against the Salt Lake & Los Angeles Railway company. It is alleged that on May 1, 1892, the defendant company, without the permission of the plaintiff, entered upon and built its tracks over certain lands belonging to the latter, in wit, lots 1 and 2, section 4, township 1 south, range 1 west, in Salt Lake county; notwithstanding a promise to compensate for the condemnation of the land, the company is a bankrupt and the company has failed to do so and has never paid anything for the use of the land and is still using it. A temporary injunction is asked for to prevent the railway company from operating the railroad over said lands also judgment for $500, as value of the land, and damages.

### The "Wasatka" Suit.

In the Third district court yesterday afternoon the hearing of the case of the Wasatka Mineral Springs company vs Theodosia Cook et al, on order to show cause why a permanent injunction should not be issued was concluded. Judge Bartch ordered that the injunction restraining the defendants continue pending the final determination of the suit, the plaintiff to give an bond and submit it to the defendants and then to the court.

### Suicide of a Sioux Soldier.

The death occurred yesterday at Fort Douglas of a Sioux soldier named Frank Bearkeel, who shot himself in the head with his rifle on Sunday night. It appears that the rash act was the result of receiving news to the effect that his father was dead. Bearkeel was a private and member of company I, about twenty-one years of age and could read and write English fairly well for an Indian.
