ELMER E. RITCHIE CONVICTED.

But the Jury Made a Recommendation to Mercy.

It was 10:40 p.m. when the case of Elmer E. Ritchie, charged with a criminal libel on Frank E. Nelson, reached the jury in Judge Hartch's court yesterday, and nothing was heard from them until 8 o'clock, at which hour a message was received that an agreement had been reached.

A few minutes later the jurors came into court and returned a verdict of "guilty," accompanied by a recommendation to mercy.

Prosecuting Attorney Howat, after the reading of the verdict, said that as Ritchie was out on bail and the bond was a continuous one, he would not asked that the defendant be committed to jail. He might be allowed to go as the bond until sentence was passed.

The court so ordered.

Rudy's Misfortunes.

BURR, Fremont Co., Idaho, March 17, 1895.

Editor Deseret News:

The people in our ward are having a serious time this spring with the measels and pneumonia. We have had four deaths of children, but we hope as spring is advancing this sickness will disappear.

A short time ago we had a very pleasant call from Brother Lammer, of the DESERET NEWS office, and while here he gave a lecture under the auspices of the Y. M. M. I. on the subject of Duty. It left a desire among the youth to search more diligently for the truths of the Gospel.

Last summer we lost a good portion of our crops in this vicinity on account of the water, but we are now building a canal to supply this part of the country. The capacity is 110,000 inches so that there will be trighter times for the future. There is now a good chance for men of little means to get homes in this part of the country. Any inquiry as to homes and terms will be cheerfully answered.

Yours truly,
WILLIAM F. HARRIS.

Anti-Prohibitionists Win.

The Y. M. C. A. parlors were crowded to overflowing last evening on the question of the prohibition debate between the Pollux (Y. M. C. A.) Debating society and the Washington Debating club. The question was as follows: Resolved, That a clause should be placed in the Utah State Constitution prohibiting the manufacture or sale of intoxicating liquors to be used as beverages." Each club was represented by three speakers and all showed that they were "up" on the side they represented. Messrs. Dewey, Boyer and Robinson acted as judges and decided in favor of the negative champions. A musical and literary program was rendered before the debate, and a gymnasium exhibition under the direction of Mr. J. T. Axton, after the debaters, closed the evening's entertainment.

Either Stock or Money.

Emery Ward, of Davis county has brought suit against the American Gas & Fuel company in the Third district court. Plaintiff alleges in his complaint that he and J. H. Wanlon entered into an agreement with John H. Taylor, manager of the company, in 1891, by the terms of which they were to deed forty acres of land to the company in Davis county and receive therefore 2,000 shares of stock each in the company. He further alleges that the land, the northwest quarter of the southwest quarter of section 14, township 2 north, range 1 west, in Davis county was owned as agreed, but that the company has refused to transfer the stock. Finally, Mr. Ward sets out the assignment of Wanlon's interest to him, and prays the defendants be directed to issue to him 4,000 shares of their capital stock or $8,000, its alleged value.

Ezra A. Zerr sues Mr. Ward's attorneys.

Science and experience combine in the judgment that Dr. Price's Baking Powder is the purest and healthiest made.

Action Against an Assignee.

The National Bank of the Republic et al, creditors of the Revolutionary Mercantile company in the sum of $1,464.11, has brought an action against Joseph W. Mayne, assignee of the company, in the third district court asking that Mayne be enjoined from selling of the property now in his possession, and that he be also compelled from paying out any money in his possession except for costs of the court, and that he be directed to render a statement of his acts and doings as assignee. Also that a receiver be appointed to take charge of the property a delegate to the same, and collect all outstanding accounts and for expenses of the court, and pending suit appointment that the United States marshal take possession of the same as temporary receiver. The plaintiffs further pray that the proceeds be distributed according to the rights of the several parties to the action. Defendants have been ordered to show cause on March 30th.

Transcript on Appeal.

A transcript on appeal has been filed in the Territorial supreme court in the case of M. C. Sullivan vs the Northern Sky mining company. The plaintiff is the appellant.

URGING THEM TO VISIT DENVER

Efforts to Save Many of Utah's School Teachers Afloat the N. E. A. Convention.

Utah's National Educational association officers, consisting of Territorial Commissioner of Schools Lewis, Dr. Talmage of the Utah University, W. H. Mellen, principal of the Salt Lake City High school, Ella M. Dolan, of the same school, and Dr. Millspaugh are sending circulars to all the teachers in the Territory urging them to attend the great meeting of educators to be held in Denver from July 8th to 12th. These circulars say in part:

Utah is especially fortunate this year. The National Educational association comes quite to our door to hold its annual session, extending over a period of eight days. Our neighboring city of Denver is selected for the great convention, the opening day being the 8th of July. Here will come together the leaders of educational thought in America. Representatives of the university, college, academy, private, city and district schools, state and city superintendents of instruction, and others interested in educational matters will meet in one great assembly. The educational interests of our state are embraced in the six circle-fifth organization; for it is national in its scope and sympathies. The meeting will be one of absorbing interest to Utah teachers, neither, as they are, to gain the valuable information which the meeting promises, to invite the influences sure to affect sections of the country, and to enlist the masses which attend the educational army of the nation.

From season to season we have employed such men as White, Roberts, Hinsdale, Parker, and Gordy, to come among us at prices ranging from $100 to $200 per week. Here is an opportunity to see the great men of America and hear educational truths expounded by their chiefs at a small expense.

A near neighbor, touching Colorado on the west, Utah will be expected "to turn out," and may we not say that Utah welcomes the occasion and prizes the opportunity? We can go, seven hundred strong, in special trains, if desirable, carrying with us exhibits of the work we are doing, to display at our headquarters, together with photos of our institutions of learning, prospectuses of the courses of study, statistical charts, reports, etc., indicative of the status and progress of educational work in our midst. We have many striking evidences of an advanced progressive spirit and should not be ashamed to show them.

The true friends of education will be more than glad to meet us and will appreciate such efforts as we shall make to acquaint them with our purposes and aims.

The object of the association is to elevate the character and advance the interests of teaching, and to promote the cause of popular education.

It was organized at Philadelphia in 1857, under the name of the National Teachers' association, by leading teachers from various sections of the country. James L. Enos was chairman of the first meeting, Wm. E. Hinsdale the first secretary, and A. J. Rickoff the first treasurer. The name was changed in 1870 to National Educational association. It was incorporated in 1886, and has a permanent fund of over $50,000.

Thirty-four annual meetings have been held in leading cities of the country.

Desert Land Patents.

The following desert land patents have been received at the local land office, for their owners:

No. 1023, Alfred E. Rose, of Box Elder county, 320 acres.

No. 1024, Jared Taylor, of Piute county, 120 acres.

No. 1025, Mels Treppmann and Louis Hansen, assignees of Wm. J. Dobbins, of Salt Lake county, 240 acres.

No. 1026, Julius H. Christensen, of Sevier county, 320.24 acres.

No. 1027, Alex Butler, of Salt Lake county, 80 acres.

No. 1028, Seth W. Smith, of Beaver county, 80 acres.

No. 1029, John D. Dalton, of Beaver county, 80 acres.

No. 1030, Elizabeth Hamilton, of Beaver county, 80 acres.

No. 1031, Wm. A. Twitchell, of Beaver county, 320 acres.

No. 1032, Alexander N. Rosenbaum, assignee of Leonard M. Harry, of Carbon county, 320 acres.

No. 1033, Wm. T. Owens, of Garfield county, 240.35 acres.

No. 1034, Harriet F. Dunlap, of Tooele county, 480.18 acres.

No. 1035, Lettie Curry, of Iron county, 194.19 acres.

No. 1036, Wm. L. Brown, of Millard county, 160.36 acres.

Brown's crystals, made from acids, form the base of Cream of Tartar. Cream of Tartar is the foundation for the best of baking powders—Dr. Price's.

THE SMOKE QUESTION.

Council Committee Hold a Meeting But Make No Decision.

The special committee appointed by the City Council to investigate the practicability of enforcing the ordinance regarding smoke consumers, held a meeting last night. A large number of prominent operators and officials were present, besides representatives of the street railway and electric light companies.

Messrs. Cohn, Auerbach and Wallace, Councilmen Clawson and Engelbert Young told how they had been injured by soot and smoke soiled. The question of consumers and smoke generated by different varieties of coal was also discussed, Mayor Maloney, of the city railway company, stating that he had reduced the smoke from 60 to 15 per cent, but that it was impossible, with the devices now in use, to reduce it further.

Mayor Hayward then spoke of the difference in the smoke from different varieties of coal, and said that the most effective remedy for the smoke nuisance was the mechanical stokers, but these would force the company to double the dollars at an expense of $15,000 to $20,000. He said he would see that the smoke would not annoy anybody hereafter. It was thought that when the power from Colorado arrives there would be no end to smoke.

After some further discussion the committee adjourned to meet with the fire and police commissioners to-morrow morning. Meanwhile, in the meantime all movements against the electric light company have been suspended, the trial of their employees being continued until Wednesday next.

A Veteran's Strong Testimony.

MORRISVILLE, Utah, March 21, 1895.

Editor Deseret News:

By request of Pattie Dickie, through O. H. Huntington and your valuable paper, I send you the following, asking you kindly for the publication of the same: I was born the 27th day of May, 1816, in the town of Lima, Livingston county, N. Y.

In 1828, I went with my Aunt Elizabeth, the wife of Sydney Gilbert, to the town of Mentor, O. In 1829, I went to Kirtland with Uncle and Aunt Gilbert, and in 1829 I went into the store of Whitney & Gilbert. In October, 1830, Oliver Cowdery, Peter Whitmer, Parley P. Pratt and Ziba Peterson preached their first discourse in Kirtland and brought with them the so-called "Gold Bible," of which I did have a copy. Myself, Mr. Gilbert and many others of our friends were strongly impressed with the truth of the doctrines set forth and we obeyed the gospel. In September, 1831, I went with Sidney Gilbert, W. W. Phelps and others from Kirtland by water to Independence, Mo. On account of unfavorable judgment I did not arrive at Independence until Jan. 1st, 1832. After arriving at Independence I went into Gilbert and Whitney's store as a clerk. I saw Bishop Partridge and Chas. Allen tarred and feathered. Allen was to be whipped but, being a cripple, he gave the sign of distress as the whip was drawn to strike him, which I saw go like an arrow out of the house of the man into Col. Lucas's lot. I was in the upper story of the brick house, where I had a good view of all that was going on. I assisted in removing the lot from Allen with case knives. I saw the Morning and Evening Star printing office broken into and destroyed by the mob. I was in the store of Gilbert & Whitney when the mob commenced their depredations after night on the store and stood my ground until the Bishop sent for me to come away from there. On November 13, 1833, about 200 of our people came driven that day across the river, lay all night on the sand beach, after which our family moved to Liberty, in Clay county, Mo. In the spring of 1834 we moved to Diahmon Bush creek, after which Zion's Camp came up. I saw Governor Boggs every day with the mob and at other times.

I feel that I have made this report too lengthy, but I wish to bear my testimony to the truth of this work, and all that I have passed through has been the strongest testimony to me that Joseph Smith was a Prophet of God and that Brigham Young was a Prophet in the wilderness in this gospel, and that President's John Taylor and Wilford Woodruff were and are the proper leaders in the whole.

Your brother in the Gospel,
JAMES H. ROLLINS.

Small savings make great fortunes. No economy so helpful as that attained by using Dr. Price's Baking Powder.

THE ALICE MINE.

Annual Report of the Officers of the Company.

The annual report of the Alice Gold and Silver Mining company for the year 1894 has been issued. It is published in pamphlet form and covers eighteen pages. According to the report the total product for the year at the old standard value of $1.29 per ounce, was $405,000, but the amount for the year, through the demonetization of silver, was $231,124.92, which leaves a total net product of $234,338.32. This it is seen that the entire silver product of the company was sold at less than one-half of the old standard value. The gold product for the year amounted to $29,341.79. The total income exceeded the disbursements by $173.21.

The report from the superintendent shows that the number of men employed during the year was 115. During the entire year, thirty shifts of ten hours each were worked, and after the first of December, two more were added, making a total of forty. The total value of the business expenses for the year was $443,501.08, the average price for which the silver product was sold being 62.84 cents per ounce. The loss of gold bullion during the year is shown to be 2,142 pounds, and the total bullion through 11,942,962.

TEMPLE NOTICES.

The Salt Lake Temple will close on Friday evening, March 29th, and remain open for work on Monday, April 8, 1895.

LORENZO SNOW,
President.

The Manti Temple will close on Friday evening, March 29, and open for endowment work on Tuesday, April 9, 1895.

JOHN D. T. MCALLISTER,
President.

The St. George Temple will close on March 29 and open April 8th.

DAVID H. CANNON, President.

The Logan Temple will close on Friday, the 29th of March and open again on Tuesday, the 9th of April, 1895.

M. W. MERRILL,
President.

Cheap Rent!

Water Heaters bought and sold. John C. Cutler Jr., Broker, 75 Main.

SEE THEM

Millinery Reception.

Friday, March 29th, 2 to 5 and 7 to 9 p. m., will be the crowning event of the season in millinery circles of Salt Lake City. Remember the date, Friday, March 29th. 20 to 30 Main Street.

Take all your greenery home to old reliable Godbe Pitts Drug Store.

Dr. Shoemaker's prices are reasonable and his glasses are unsurpassed.
