DRY AND MONOTONOUS

Description of Today's Call in the Pit of the Stock Exchange.

COLORN TO HESION SECRETARYSHIP.

Go La Mar Still Feeling After Idaho Mines—Sale of the Boston—Examining Mines on the Lake.

The brokers were not dead but nearly so yesterday on the exchange called, and as a result the call was dry and monotonous, and lacked the ginger, the pep and snap which for several weeks past has characterized the proceedings in the pit. Judge Colborn, having returned from the East, acted as caller, but despite his efforts to please, he didn't please worth a cent and when the call was over it was currently reported that the judge had decided to tender his resignation as secretary of the exchange.

Business for the call was small, it totalled only with a good figure and did not amount to a "hill of beans." There were no quotations in spelter stocks and handle-cuffing was not in vogue, some buyer or at least a few claimed, some sellers at prices, and the market was generally speaking, dull, as it could a share. From here until Lower Mammoth was reached in trading was indeed dull, although the prices generally were firm, especially Monte-Jo which had a ready and rising bid of $1.65 and no offers at $1.70 or $1.75. Lower Mammoth found itself in the ascendant again, and had a good bid for some time at 90 cents, but it fell to 78 cents, while in the close Savannah was dead in the stock making transfers at 68 and 71 cents.

The call at sundown opened with Little Bonanza which sold at 3 cents and which after one fall gained at Dessert of these figures. Dessert continued since the fall in business, which was the result of the Mammoth, which gained two cents, or 3½ cents, and Independence. Tunnel sold at 11 and big cents. Value held up to good shape and sold at as high as $1.01. Gold Coin Hill exhibited a tendency to advance and made a sale at 3 cents, with other close around. This quotation. The call closed with stocks firm and actively in the wake.

The closing figures were as follows:

LISTED STOCKS.

Stocks.	Bid.	Asked.

DE WANTS IDAHO MINES.

DeLaMar Will Buy If He Gets the Right Block, Says Manager Cohen.

B. A. Cohen, Captain DeLamar's manager, spent a few hours in Salt Lake yesterday, arriving on the train that had waiting at 3:45, says the Herald. He was seen by a Herald reporter and asked to satisfy himself that there was nothing in the Idaho mines worth looking at. In the absence of Captain DeLamar, Mr. Cohen, Captain DeLamar's local representative, said he would have Mr. Healy, the mining expert, examine some of the properties that he considers much his while to examine.

Mr. Cohen examined some ore taken from the newest discovery made by the Boston Idaho, which adjoins the Wasp and adjoins Jerome creek about five miles from Silver City. It is believed he was not enough for him to make arrangements to have the property examined.

Mr. Healy was seen by a Sunbeam reporter in the depot. The first question he left for Salt Lake, his headquarters, he said he had been in the Boston mine, which was a very exciting one. It was the first property he saw in the Buffalo Hump country. After presenting the reports he was negotiating for some of the best properties there, he answered evasively.

Mr. Healy seems also greatly exaggerated. It is known, however, that he and Mr. Healy there to further look into some of the properties.

In response to a question Mr. Cohen said Captain De Lamar had plenty of money to buy the Idaho mines if the Captain felt inclined to do so. He did not care much about the mines of metal they produced just so they are profitable. He was not even chance of the investment being somewhat profitable. The captain was willing, he said, to take hold and develop any prospect that promised real money, and he was particularly inclined to get hold of some of the Idaho properties.

Mr. Healy left for the west after Mr. Cohen had left, but he said he would not make any statement for publication. It is known, however, that Mr. Cohen examined a lot of the ore from the new Idaho City strike and that he was very much pleased with it. Nothing will likely be done, however, until Mr. Healy makes a personal inspection of the properties, which will be in the near future.

Seen on the Sunsport.

E. E. Ware of Salt Lake City has been investigating this section for about a month past. Mr. Ware, we understand, represents capital which is looking for mining investment, and we will were pleased to note the sale of some of our gold mines in a short time. The Sunsport district, Mr. Ware says, is the only one in the west and has a brighter outlook than any district he knows of.—Baker Republican.

THE BOSTON MINE SOLD.

Three Thousand Acres of California Placer Ground Bring $145,000.

San Francisco, Cal., Nov. 1.—The Boston mine, in the Northern part of Plumas county, consisting of about three thousand acres of placer mining ground, has been sold to Charles Fox of Chicago for $145,000. Fox has already commenced development work and will begin hydraulicking early next year.

Examining Mines on the Lake.

J. A. Quesinberry and a party of Eastern men are the guests of Captain Davis Price for a few days on the Great Salt Lake. The party will visit the mining districts, which are located on Dividend island to examine the gems there. While in the trip the party will visit the islands and be examined and all points of interest visited. The party has been on three days and will work for a week.

DIPS AND SPURS.

Silver, $1 7-16; lead, $1.35.

Some interesting assays are reported from the Bullion-Beck Tunnel in the near future.

Residents of Park City are feeling well over the prospective resumption at the Ontario mine.

Thomas Weir and George A. Lowe went out to Mercur this morning to look after the Lowe interests.

Col. Trumbo of Dayton and E. Moss over Baker City, Ore., was an interested spectator on the exchange today.

Judge Colborn, who has just returned from the East, spoke very highly of business on the Colorado Springs exchange.

Charnon McCreel's has been elected president of the Wisconsin Mining company, and E. E. Richard secretary and treasurer.

A contract has been let for the sinking of a 300-foot incline shaft on the International claim in the Blue Bell district, Tooele county.

John Heinrich and Will Brown are in the city from Newsome, and will leave shortly for the North Montana mines at Cherry Creek, Nev.

E. D. Miller was today granted the privilege of using Mr. E. Hubbard's membership in the exchange, until he could secure one of his own.

Encouraging word comes from the N. Y. Mining company's mine at Stockton. It being stated that already some good gravel has been encountered in crosscutting the channel at bedrock.

E. W. Wilcox, for many years the foreman of Marcus Daly, the Montana millionaire mining man, came in from the north this morning. He is to examine several Utah mining properties.

Owing to the good weather the Rio Grande Western has determined to run another of its popular mining excursions to Tintic on a special train which will leave this city at 8:05 a. m. Sunday next.

Utah County Democrats J. W. Mulcock returned Sunday from a visit to Tintic where he looked over the Lost Chance mine near Diamond. Several other people of Provo are interested with Mr. Mulcock in this property, among whom are Dr. McCurdy, E. D. Swaney, Frank and Charles Wood and J. H. Blanding. Mr. Mulcock reports the shaft on the property down 225 feet and says the present contract will carry it to a depth of 300 feet, when the contract will probably be renewed for another 50 feet. He is most enthusiastic over the showing made by the property.

LOCAL MARKETS.

Salt Lake City, Utah, Nov. 3, 1898.

POULTRY.

Below are wholesale buying prices on poultry, butter, eggs and cheese. The selling figure is 10 per cent higher.

There is a light demand for poultry, with prices declining and uncertain on account of the opening of the game market. Dressed poultry drawn, with head and feet off, bring figures as follows:

Turkeys, per lb. ..... 12@13
Hens ..... 9@11
Roosters, old 06
Spring Chickens, per lb. ..... 09@11

BUTTER AND CHEESE.

Dealers report the butter supply weak with figures selling firmer:

Creamery butter, per pound 20
Dairy ..... 12@15
Cheese, Utah (new) 09

Little Pimples Turn to Cancer.

Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded Cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant Cancer.

"I had a severe Cancer which was at first mistaken for a boil. It gradually grew worse and worse, and I was finally given up by the physicians, but it was due to their efforts to the Cancer could not succeed. After treating with S. S. S. for a few months the Cancer began to heal, and I continued taking the medicine until I had taken twelve bottles. I am now cured, and it is now two years since the Cancer left me, and I have had no return of it. I have taken a great deal of other medicine, but S. S. S. is the best blood purifier I have ever taken."

W. J. WILLIAMS,
Mineral Springs, Miss.

It is dangerous to experiment with Cancer. The disease is beyond the skill of physicians. S. S. S. is the only cure, because it is the only remedy which goes deep enough to reach Cancer.

S.S.S. For The Blood

(Swift's Specific) is the only blood remedy guaranteed Purely Vegetable. All others contain potash and mercury, the most dangerous of minerals.

Books on Cancer and blood diseases mailed free by Swift Specific Company, Atlanta, Georgia.

ROYAL BAKING POWDER
ABSOLUTELY PURE
Makes the food more delicious and wholesome

EGGS.

The egg market is stiff at present, and there is a good demand for the product, now quoted at $1.25 per case.

San Francisco, Nov. 3.

Wheat market today steady.
Dec. 1.22½; May, 1.25½; cash, 1.22½.
Barley, steady; Dec. 1.17.

"HOODLUMISM."

This is a word that, very properly, has no character. Hoodlumism is an overrated development. It is the mere vestal and barbaric stage lingering in the enterprised lap of a false civilization.

Studies of emergents life show that the higher order passes through all phases of the lower. The same is true of the various phases of life after birth.

The puppy is distinguished by lives of play. The young boy or girl possesses the same love of romping that is common to the young of the lower animals. This is the higher stage of animal sensual development. In a state of nature both boys and girls of early age love to climb trees, steal eggs, and gather tight objects. Later the girls want dolls and the boys want and appropriate the knife, gun, fishing rod, and to modern times the pistol.

Later comes the stage of development shown almost exclusively by war pilot and demonstrate. The young of civilized people, when they arrive at this stage of growth, manifest their nature by a desire to destroy. They want to kill birds, stone chickens, break windows, steal, and in every act do something against their delightful.

This is the most critical point in the life of a boy or girl. Here is the parents, more than at any other time, is needed the care of wise parents. An "hoodlumism" result from the parents lessons or inconsistency of parents at this stage in the life of their children. If there are not carefully induced to a higher tendency at this time of life they remain in a state of arrested development, and become the class of civilization—the thieves and murderers of the world. How many of these arrested-development people are the victims of crime show. How great the crime of parental neglect is, the number of these victims show it.

It is a great mistake to suppose that "hoodlumism" is confined to boys and "larrikin" girls. Almost the entire element of a child and is yet to a hoodlum through life, and there are very few men and women who are not hoodlums in civilized who are true Indians in mind, imagine of very numerous exciting incidents that they have seen, gossips, false stories and pilferings more.

Some of these destroyed nearly 50 lives of home around my house in early years.

In the adult hoodlum, the process of a vent or evasion of adult conscience is a source of energy, passion and rage. The adult hoodlum sometimes those he or she loves most dearly, and yet another cause of their own harm. It is because they have never grown out of the sensual state of youthful life. But this needs a new view of the duties of parents. Every hoodlum is a piteous lost, and that lost is possibly to charged to those parents or guardians who had the care of the unfortunate hoodlum in early life. I read off of things I have seen in Salt Lake City that would make the people ashamed, yet nothing I might say would do more than demonstrate the truthfulness of my charge that parents and guardians are to blame for all "hoodlumism." At another time I will tell you more of my observations among the young and of hoodlums in the humbler neighborhood of my home. The destruction of my home was a crime that brought me to earth life, and make more clear the fact that civilization contains savagery vastly more than savagery. There are not an Indian in Utah who would give scalps out fence.

CHARLES ELLIS.

EUREKA, MAMMOTH, SILVER CITY

Rio Grande Western Railway.

Only $2.00 round trip to Tintic Mining District Sunday, November 6th, via the Rio Grande Western Railway. Special train departs at 8:05 a. m.

EVENTS IN THE WEST.

A Record of Occurrences in Neighboring States and Territories.

AN ELECTRICIAN DIES SUDDENLY.

Tenderness Soldiers to Go Home—On to Washington—The St. Paul Arrives—Colonel Rosst's Report.

Mrs. Christian, postmaster at Wallace, Idaho, and her assistant Harry Hunt, were on a road of outside with making money order funds.

A silver dollar bear is charged with having an Idaho to pass into Montana, which is a little large. The Butte Miner commented the animal in the vicinity.

Frank Mitchell is fined in Chaves county, Mexico, on a count of assault and battery on the person of J. C. Dalrymple, who the two were practicing your rifles. Mitchell shot Mitchell in the foot.

C. H. Simmons, chief electrician of the Western Union operator at Chicago, was suddenly seized with heart failure in his office Tuesday night and died Wednesday night while working with a friend. He was carried to the O'Farrell street, where he died a few minutes later. He was well known throughout the country, and was on the point of a trip combining business and pleasure.

Col. John P. Hoff of the First Nebraska regiment who has been honorably discharged on account of illness, will leave San Francisco this evening for his home in Beatrice, Neb. He says that 15 per cent of the Nebraska troops in Manila are sick. Many of them are ill with dysentery because of their inclination to drinking the wine soda pop and eating bad canned beans as bad the natives sell on the streets.

One hundred and seventy-five members of the Tennessee regiment who have been found unfit for the service by the surgeon, and another, will be mustered out at San Francisco today under special orders of the war department. Captain Dorsey, Third cavalry, will pay and muster them out. These men will receive pay and full allowance and will be given money with which to carry them back to Tennessee.

Captain Lee Etter, chief commissary of the army in the Philippines who arrived at San Francisco on the Peru, is on his way to Washington with official reports. He has a in Wabash, Ind., and he will stop there before returning to Manila. He said in an interview "It is probable that in the future the government will have two kinds of rations—one for troops in the temperate zone, and another for soldiers in the tropics. I suppose that more vegetables and meat with practically no fat will be provided for men on military duty in the Philippines. I saw some of companies and for the Colorado regiment. The men in my company were in good condition for work with the commissary. It is not the company cooks and the commissary sergeants. There is some complaint from the soldiers. The men have to be satisfied. They cannot eat every day sufficient to stave off a continual surplus feeling.

The state of Wyoming Monday received a telegram in full accordance with a bill for $7,000 from the war department for the transportation of troops from the west to Chickamauga. The bill was presented by Senator Carey and Senator Foraker. The money will be used to pay the expenses of the Wyoming troops while in the south. The bill was passed by the senate and house without opposition. The Wyoming troops will be in the south.

The Rio Grande Western has the Denver passenger brought to Salt Lake City on a special train. The train was chartered by Burgess for which received these tickets and Pullman Private Dining Car Parlor Buffet Library Car. The train will be run on the Denver and Rio Grande Western. The train will be run on the Denver and Rio Grande Western. The train will be run on the Denver and Rio Grande Western
