The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 284. TUESDAY, OCTOBER 29, 1895. SALT LAKE CITY, UTAH. VOL. XXVIII.

MOST FOUL MURDER.

The Mutilated Body of a Young Woman Found on the Road.

BLOODHOUNDS AFTER THE FIENDS

A Large Posse Searching the Vicinity of the Place Where the Crime Was Committed.

TYLER, Tex., Oct. 29.—Mrs. Leonard Bell, a 19-year-old wife of a farmer, who has been visiting her mother, started to walk to her home half a mile distant, last evening. On the way she passed a gin where men were working, and afterwards her mutilated body was found a quarter of a mile from home at the side of the road. There was evidence of a terrible struggle, the body being almost nude. The fiends, after assaulting her, cut her throat from ear to ear and completely disembowled her. Superintendent Edson, of the Gulch Rail railway, sent a special train to the Rusk penitentiary, 45 miles distant, for bloodhounds, and the bloodhounds began the search immediately and have been joined by a large posse from this city.

Colombia Needs Peace.

NEW YORK, Oct. 29.—A Herald dispatch from Panama says: General Aldaro sends this communication to the Herald:

"I am continuing the disbandment of the army with a view to giving my earnest attention to the work of building the railway to the interior. The country enjoys tranquility and I propose to devote my energies while in office to the attainment of that object."

This communication is the response to a telegram asking him to express publicly the attitude he intends to adopt toward Colombian liberals who are plotting to overthrow the conservative government established by President Caro.

It is inferred here from the tone of General Aldaro's reply that the government does not fear any interference in Colombian affairs from Ecuador and it is expected that, under such circumstances, the mobilization of Colombian forces on the frontier is now unnecessary.

AS IMPORTED BRIDE.

Difficulties of Passing the Immigration Officials.

NEW YORK, Oct. 29.—Mrs. Catherine Jaquet, a pretty German woman of 23 years, is a prisoner on Ellis Island. She has three children, Albert Lucy, of Chicago, wants to marry her. She is engaged in photographic work and is in love with each other although they are separated them. The Woman has no money and the immigration officials refused to liberate her until Cury would claim her as his bride. Cury is without funds too, but he has lots of courage. He sent this cable from Chicago: "To Dr. Senet, of the immigration bureau, New York: I want to marry her by telegraph or telepathy. It has been done before. Can you recommender me?"

The immigration officials will decide today if they can satisfy the yearnings of Mr. Cury's heart.

Three Expeditions for Cuba.

NEW YORK, Oct. 29.—The World today says: No news has been received in this city of the arrival in Cuba of the party of revolutionists who started from the Delaware river eight days ago under the leadership of Carlos Manuel de Cespedes. The revolutionary party in New York hope to hear this week that the expedition has escaped the vigilant Spanish gunboats. There are a number of prominent Cubans and Colombians in the party among them being General Cesteri, general in the Colombian army. De Cespedes is the son of the first president of the Cuban provisional republic of twenty years ago. It has been decided by the junta to fit out three expeditions simultaneously from this city. The first was to be commanded by Colonel Enrique Collazo who fought in the last revolutionary war in Cuba. The Spanish authorities reported some time ago that Colonel Collazo had landed in Cuba. The second expedition was the one which came to a sudden end at Wilmington. General Francisco Carrillo, who was said to be at the head of this party, being arrested and spoiled.

The third expedition is that which is commanded by de Cespedes. The company of Cuban patriots under his command is called the "Secrets of Jose Marti" in honor of Senor Marti, who started the present revolution in Cuba and who was killed in battle. The de Cespedes followers are fully equipped and uniformed.

CHARGED WITH EMBEZZLEMENT.

An Ex-City Treasurer to be Arrested for Your Offense.

SAN FRANCISCO, Oct. 29.—A Tacoma dispatch to the Chronicle says that ex-City Treasurer Bogg who held office from 1892 to 1894 is an embezzler to the extent of $159,000 and that the sheriff is now on road to Jacksonville, Ore., to arrest him.

The recent bank failures here have dazed and the fact that Bogge while treasurer deposited a large sum of city warrants in the banks, receiving credit as cash. The warrants so deposited are supposed to aggregate $[illegible]. The German-American and Columbia national banks have brought suit to have their accounts with the city office with these warrants, claiming them to be illegal because issued in excess of legal indebtedness.

The city's deposits in these banks aggregate $[illegible], and if their contention is upheld it is claimed the city would lose this amount, as it would be morally bound to redeem and pay these warrants.

These facts have led to a close investigation of Boggs alleged wrongful transactions by the city officials and prosecuting attorney, with the result that it was decided Saturday to put him in trial. Just how the sum of $159,000, the alleged stolen amount, is accounted, or cannot be told, as the officials will not talk until the arrest is made.

When the banks were failing in 1893, Bogg redeemed all the warrants where issued with cash out of the regular order, with the object of upholding the city's credit. In this manner he accumulated a large quantity of warrants which were deposited in four or five banks as cash just before he went out of office. Most of them were issued in the east.

In September, 1894, he was arrested on a similar charge in the present one and acquitted, the evidence being strictly circumstantial, and some of the officers was ruled out. Boggs has been at Jacksonville developing a gold mine situated thirty-six miles across the California line. He was recently sold the mine, and intimates he will receive $75,000 between now and January 1. It is believed he will come back without resistance.

Defects in the Maine.

WASHINGTON, Oct. 29.—The secretary of the navy, being asked today about the statement published relative to the defects in the Maine, particularly about the drought forward and aft, said: "The Maine was assigned to be even on her keel at her normal drought of twenty-one feet six inches, with 400 tons of coal on board. She has now been loaded with over 600 tons of coal, and he thought forward is two feet five inches greater than aft. Many ships when fully loaded are down this way. When the ship has her coal on board we hope this will be corrected in a great part at least by using the coal, which is generally taken from the forward part of the vessel, by the time of the after trimming tank provided for this purpose and by some shifting of stores after store rooms not now used. It may perhaps be also necessary to add some permanent ballast. As to the listing of the Maine to starboard, this is not a matter of importance. The Atlanta and Boston have both proved to be serviceable ships, but in each of these the trials show a list nearly double that of the Maine, and this is also corrected by loading."

Looking for Lady Douglas.

LOS ANGELES, Cal., Oct. 29.—An injunction is restrain Lady Sholto Douglas from appearing on the stage of the Burbank theater with the Frawley company was issued by Judge Van Dyke this morning. The papers were served on Saturday night, at the instance of the People's theater of Oakland. Officers are now looking for Lady Douglas. The injunction is the result of a report that some rival theatrical managers as to which one should have Lady Douglas's services.

A Crank Who Wants Money.

WASHINGTON, Oct. 29.—C. B. Magnum, a middle-aged crank, who claims to come from the state of Washington, called at the treasury department and said he had written a letter to President today and presented a claim for large sums against the government. At the corner he demanded that Treasurer Morgan give him $[illegible] for use of gold he said he contained by the sinking of the steamer Victoria. At the interstate commerce office he renewed his claim for $[illegible].

He also called at the British embassy but failed to see anyone, and threatened to see the President. He was taken into custody by the police.

Storage Battery Patent Trust.

CHICAGO, Oct. 29.—A local paper says: The storage battery people of this country have formed into the control of a trust. The trust's official name is the Electric Storage Battery company. It is capitalized at $10,000,000. Its headquarters are in Philadelphia. W. W. Gibbs, of gas trust fame, is its president.

FLOURNOY LAND CASE DECISION.

Authority of Indian Policemen Acting Constables.

LINCOLN, Neb., Oct. 29.—Judge Shiras, of the Federal court, has rendered another important decision in the Flournoy land case against the Indians. Some of Tourtelot's deputies, who been indicted for assaulting and obstructing Indian policemen while engaged, by order of Agent Peck, in ejecting the tenants of the land company from Winnebago reservation. The court declined to quash the indictment. William Burns and J. F. Meyers were indicted for assaulting Indian policemen in the discharge of a similar duty. They sought release on habeas corpus. The writ was refused. The judge considered the two cases as almost identical and held that the Indian agent was an officer of the United States and that Indian policemen acting under his orders were officers of the United States with authority of government officials and that any one resisting their authority should be punished as provided.

RECRUITS FOR CUBA.

Twenty-five Thousand Young Men Wanted for the War.

CHICAGO, Oct. 29.—A special from Rockford, Ill., says:

"W. H. De Cleas, who is interested in Cuban affairs and in communication with the revolutionists in Cuba in New York, will, it is said, open a recruiting station in Rockford after November. He is found to be secretary, but without knowing his whereabouts, let drop the hint that a supposed recruit that 25,000 young men of good habits and physique will be doubtless called for after the movement begins and are to be held in readiness to go to Jacksonville, Fla., to arrest him.

The recent bank failures here have dazed and the fact that Boggs while treasurer deposited a large sum of city warrants in the banks, receiving credit as cash. The warrants so deposited are supposed to aggregate $[illegible]. The German-American and Columbia national banks have brought suit to have their accounts with the city office with these warrants, claiming them to be illegal because issued in excess of legal indebtedness.

The city's deposits in these banks aggregate $[illegible], and if their contention is upheld it is claimed the city would lose this amount, as it would be morally bound to redeem and pay these warrants.

These facts have led to a close investigation of Boggs alleged wrongful transactions by the city officials and prosecuting attorney, with the result that it was decided Saturday to put him on trial. CORBETT'S ARREST.

A Scheme to Bring the Pugilists Together in Sight.

ST. LOUIS, Oct. 29.—A special to the Republic from Hot Springs says: Attorney General Kingsworthy was surprised last night when informed that a warrant had been placed in the hands of Sheriff Houpt of this county for Corbett's arrest, and that it had been served and that he was in the custody of a deputy at his training quarters. The action of the attorney general was asked for the champion's dismissal by Judge Rose upon the case which had been remanded by the supreme court, was anticipated, and so soon as Corbett was dismissed a warrant charging him with conspiracy to create a breach of the peace was issued and immediately served and he was placed under arrest by the sheriff. The action was taken to forestall the attorney general who intended to have him restrained and the case transferred by change of venue to Fayetteville, Washington county. If the same course is pursued as to Fitzsimmons by the local authorities, which in all probability will be done, no power on earth can prevent the fight. The pugilists will simply give bond in a reasonable amount to keep the peace and proceed with the course. Everything has been conducted on the quiet and this information just leaked out at a late hour last night.

SENATOR DOLPH FOR WAR.

The Monroe Doctrine Should be Abandoned or Vindicated.

PORTLAND, Ore., Oct. 29.—Ex-Senator Dolph, who was for several years a prominent member of the foreign relations committee of the United States Senate, in an address delivered at the Chamberlain club on the foreign policy of the United States, said of the Venezuelan question:

"There are but two courses for the United States to pursue; one of which is to abandon the Monroe doctrine, and to be the pliant servant of European aggression, monstrous combination on the hemisphere, and submit to the humiliation such a course would bring upon us. The other is to enforce our policy concerning affairs on the continent by protest, and if necessary, by intervention and the ultimate arbitration of the sword.

"We should also extend to Cuba the Monroe doctrine, and take that island under the protection of the American flag if necessary."

WAS HIRED TO TESTIFY.

An Alleged Plot to the Durrant Murder Case.

SAN FRANCISCO, Oct. 29.—The Examiner claims it have in its possession a composition given to the statement made by Deloris Reynolds to the coroner about the Durrant case. The Examiner says that since September 21 it has had in its possession a letter written by a man who signs his name Richard Smythe, who says that he was hired to testify in the Lamont case and Durrant's might be acquitted. Smythe says that he plot to implicate Lamont in the murder caused him to draw out. In the statement which he was to have made on the stand Smythe says that Blanche Lamont was a friend of his wife and that on April 5 Mrs. Lamont visited his house in Oakland. She came direct from school and had her books with her. She remained at his house overnight and on Thursday went with his wife to call on a Mrs. Richardson. She returned to his house and remained Thursday night, leaving on Friday, April 5. She left her bookstrap at Smythe's house and borrowed one belonging to Smythe's son, having on it the initials R. A. S. Smythe also identified another strap as belonging to Blanche Lamont. This is supposed to be the mysterious strap produced in court by General Dickinson. Smythe's statement goes on to say that he was instructed by Mr. Dickinson to remain silent and not discuss the case. He was introduced to Miss Lamont at a Methodist church in San Francisco in 1894 by his wife. He was then her district of a trust. The trust's official name is the Electric Storage Battery company. It is capitalized at $10,000,000. Its headquarters are in Philadelphia. W. W. Gibbs, of gas trust fame, is its president.

CLARKE SAYS "NO!"

As to the Proposed Fight at Hot Springs,

AND REALLY SEEMS TO MEAN IT

The Sports, However, appear Confident the Event Will Be "Pulled Off."

HOT SPRINGS, Ark., Oct. 29.—The flank movement made last evening by Governor Clarke and Attorney General Kenworthy appears to have effectually settled the question of the possibility of Corbett and Fitzsimmons ever meeting in this state, and all hopes of pulling off the fight at Hot Springs have been abandoned. The attorney general made the affidavit upon which the warrant for Fitzsimmons's arrest was issued. The papers were issued by a magistrate in Little Rock and passed to the hands of the sheriff of Texarkana. The plan is not to allow him to reach here.

Attorney Kenworthy remained in this city waiting for the purpose of having the Australian arrested here in the event that he should slip through Texarkana without being apprehended. It is the intention to have Fitzsimmons placed under a heavy bond to keep the peace and thus prevent the fight.

CHICAGO, Oct. 29.—The following dispatch, addressed to the Associated Press and signed by the governor of Arkansas was received by the Associated Press this morning at noon:

"LITTLE ROCK, ARK., Oct. 29.—I intend to stop the fight at all hazards, regardless of the place and time when attempted, or the cost of money. Signed, JAMES P. CLARKE."

THE SPORTS ARE GOING.

DETROIT, Mich., Oct. 29.—So confident is "Parson" Davies that the defeat carnival will consist at Hot Springs that his entire aggregation, comprising John L. Sullivan, Jake Kilrain, Tommy Ryan, Jimmy Barry and others, will leave for the springs tonight, arriving there Thursday morning. In a move, however, it is necessary to secure Tommy Ryan's forfeit and claim that of the Florida Athletic club, in case the contest is not pulled off.

John L. Sullivan said: "Will they fight? Well, I guess they will, or leave the country. They have been hammering the public long enough with their windy war, and have got to do business now or get out of the."

Tommy Ryan is declared to be in excellent condition and down to weight now.

WARRANT FOR FITZSIMMONS.

HOT SPRINGS, ARK., Oct. 29.—Sheriff Houpt and deputy left here last evening with a warrant for Fitzsimmons. It is their purpose to meet Fitzsimmons in Texas, and return with him to this place to be in possession a letter written by a man who signs his name Richard Smythe, who says that he was hired to testify in the Lamont case and Durrant's might be acquitted. Smythe says that the plot to implicate Lamont in the murder caused him to draw out. In the statement which he was to have made on the stand Smythe says that Blanche Lamont was a friend of his wife and that on April 5 Mrs. Lamont visited his house in Oakland. She came direct from school and had her books with her. She remained at his house overnight and on Thursday went with his wife to call on a Mrs. Richardson. She returned to his house and remained Thursday night, leaving on Friday, April 5. She left her bookstrap at Smythe's house and borrowed one belonging to Smythe's son, having on it the initials R. A. S. Smythe also identified another strap as belonging to Blanche Lamont. This is supposed to be the mysterious strap produced in court by General Dickinson. Smythe's statement goes on to say that he was instructed by Mr. Dickinson to remain silent and not discuss the case. He was introduced to Miss Lamont at a Methodist church in San Francisco in 1894 by his wife. He was then her district of a trust. The trust's official name is the Electric Storage Battery company. It is capitalized at $10,000,000. Its headquarters are in Philadelphia. W. W. Gibbs, of gas trust fame, is its president.

FLOURNOY LAND CASE DECISION.

Authority of Indian Policemen Acting Constables.

LINCOLN, Neb., Oct. 29.—Judge Shiras, of the Federal court, has rendered another important decision in the Flournoy land case against the Indians. Some of Tourtelot's deputies, who been indicted for assaulting and obstructing Indian policemen while engaged, by order of Agent Peck, in ejecting the tenants of the land company from Winnebago reservation. The court declined to quash the indictment. William Burns and J. F. Meyers were indicted for assaulting Indian policemen in the discharge of a similar duty. They sought release on habeas corpus. The writ was refused. The judge considered the two cases as almost identical and held that the Indian agent was an officer of the United States and that Indian policemen acting under his orders were officers of the United States with authority of government officials and that any one resisting their authority should be punished as provided.

RECRUITS FOR CUBA.

Twenty-five Thousand Young Men Wanted for the War.

CHICAGO, Oct. 29.—A special from Rockford, Ill., says:

"W. H. De Cleas, who is interested in Cuban affairs and in communication with the revolutionists in Cuba in New York, will, it is said, open a recruiting station in Rockford after November. He is found to be secretary, but without knowing his whereabouts, let drop the hint that a supposed recruit that 25,000 young men of good habits and physique will be doubtless called for after the movement begins and are to be held in readiness to go to Jacksonville, Fla., to arrest him.

The recent bank failures here have dazed and the fact that Boggs while treasurer deposited a large sum of city warrants in the banks, receiving credit as cash. The warrants so deposited are supposed to aggregate $[illegible]. The German-American and Columbia national banks have brought suit to have their accounts with the city office with these warrants, claiming them to be illegal because issued in excess of legal indebtedness.

The city's deposits in these banks aggregate $[illegible], and if their contention is upheld it is claimed the city would lose this amount, as it would be morally bound to redeem and pay these warrants.

These facts have led to a close investigation of Boggs alleged wrongful transactions by the city officials and prosecuting attorney, with the result that it was decided Saturday to put him on trial. Just how the sum of $159,000, the alleged stolen amount, is accounted or cannot be told, as the officials will not talk until the arrest is made.

When the banks were failing in 1893, Bogg redeemed all the warrants where issued with cash out of the regular order, with the object of upholding the city's credit. In this manner he accumulated a large quantity of warrants which were deposited in four or five banks as cash just before he went out of office. Most of them were issued in the east.

In September, 1894, he was arrested on a similar charge in the present one and acquitted, the evidence being strictly circumstantial, and some of the officers was ruled out. Boggs has been at Jacksonville developing a gold mine situated thirty-six miles across the California line. He was recently sold the mine, and intimates he will receive $75,000 between now and January 1. It is believed he will come back without resistance.

Defects in the Maine.

WASHINGTON, Oct. 29.—The secretary of the navy, being asked today about the statement published relative to the defects in the Maine, particularly about the drought forward and aft, said: "The Maine was assigned to be even on her keel at her normal drought of twenty-one feet six inches, with 400 tons of coal on board. She has now been loaded with over 600 tons of coal, and he thought forward is two feet five inches greater than aft. Many ships when fully loaded are down this way. When the ship has her coal on board we hope this will be corrected in a great part at least by using the coal, which is generally taken from the forward part of the vessel, by the time of the after trimming tank provided for this purpose and by some shifting of stores after store rooms not now used. It may perhaps be also necessary to add some permanent ballast. As to the listing of the Maine to starboard, this is not a matter of importance. The Atlanta and Boston have both proved to be serviceable ships, but in each of these the trials show a list nearly double that of the Maine, and this is also corrected by loading."

Looking for Lady Douglas.

LOS ANGELES, Cal., Oct. 29.—An injunction is restrain Lady Sholto Douglas from appearing on the stage of the Burbank theater with the Frawley company was issued by Judge Van Dyke this morning. The papers were served on Saturday night, at the instance of the People's theater of Oakland. Officers are now looking for Lady Douglas. The injunction is the result of a report that some rival theatrical managers as to which one should have Lady Douglas's services.

A Crank Who Wants Money.

WASHINGTON, Oct. 29.—C. B. Magnum, a middle-aged crank, who claims to come from the state of Washington, called at the treasury department and said he had written a letter to President today and presented a claim for large sums against the government. At the corner he demanded that Treasurer Morgan give him $[illegible] for use of gold he said he contained by the sinking of the steamer Victoria. At the interstate commerce office he renewed his claim for $[illegible].

He also called at the British embassy but failed to see anyone, and threatened to see the President. He was taken into custody by the police.

Storage Battery Patent Trust.

CHICAGO, Oct. 29.—A local paper says: The storage battery people of this country have formed into the control of a trust. The trust's official name is the Electric Storage Battery company. It is capitalized at $10,000,000. Its headquarters are in Philadelphia. W. W. Gibbs, of gas trust fame, is its president.

FLOURNOY LAND CASE DECISION.

POLITICAL PABULUM.

Three Republican Precinct Rallies Held Last Night.

WHERE THE POLLS WILL BE.

The Democratic "Declaration of Independence" to be Read Throughout Utah Tomorrow Night.

There are days when reports of political excesses, diverse and contradictory are being received at the headquarters of the respective parties. From precincts far and near the Republicans report numerous enthusiastic gatherings and Democratic issues. From districts remotely located and close at hand the news still continues to pour into the state camp of the disciples of Jefferson that the returns indicate that this will be a "Democratic year" with extraordinary emphasis. From Cache county where the Republicans claim to have made great inroads into the ranks of the opposition the information that the figures show it to be more of a Democratic Gibraltar than ever. But to that claim the Republican stakes his head and says "wait till the 5th of November." What is true of this county is correct of several others. And out of all the contradictions comes the forced conclusion that it will require a counting of the ballots to determine who shall wear official shoes.

REPUBLICAN PRECINCT RALLIES.

Republicans held rallies in three precincts last night as follows: In the First at the Ninth ward meeting house the speakers were Elmer B. Jones, John L. Lawson, George Busbie, John E. Wilcomb, D. C. Emmons and C. O. Whitmore. In the Second the meeting was held in the M. I. A. hall, Fifteenth ward, and the speakers were C. E. Stanton, George F. Goodwin and Attorney Harris. The Fourth precinct Republicans held forth in the Eighteenth ward and listened to speeches by Glen Miller, D. H. Wenger and J. M. Tanner. There were also club and instrumental music recitations at all of the rallies.

THE CITY POLLING PLACES.

The city polling places as announced from the office of County Registrar Wilson today are as follows:

First Precinct—Exposition building between Fifth and Sixth South and Sixth and Seventh East.

Second Precinct—Shuff's Hall, corner Second West and Fourth South.

Third Precinct—Old Sixteenth ward schoolhouse, corner Second North and Fourth West street.

Fourth Precinct—Burlington school house, corner of H and Third streets.

Fifth Precinct—Richelieu building, corner of Third East and Second South streets.

WHEN THE POLLS WILL OPEN AND CLOSE.

Under the orders of the Utah Commission the polls will open one hour after sunrise and close one hour before sunset, standard time, which is twenty-seven minutes faster than sun time. The exact time of sunrise, therefore, will be, according to the circular of the Commission, 6:27 a. m., and of closing, 4:57 p. m.

THE DEMOCRATIC PARADE.

As a prelude to the ratification of their municipal ticket, and in accordance with an order issued two days before, a large number of Democrats fell in line last evening and formed what turned out to be an interesting parade. The line of march was along West Temple to Second South, thence east to East Temple, thence south to Third South, thence east to the Knight-Ferguson, countermarching to East Temple
