5 O'CLOCK.

DESERET EVENING NEWS.

Sunday, December 18, 1892.

FRAGMENTS.

No suits had been filed in the office of the Third District court today up to 5 o'clock.

JOHN DAVIES, a resident of Wasatch, was admitted to citizenship by Judge Zane this afternoon.

E. G. BARNES has filed an attachment suit against J. H. Clark in the Third District court to collect $[illegible].

R. G. LARRIEU, Esq., is traveling through Sevier and other southern counties in the interest of an eastern life insurance company.

JACK GOLIGHTLY, a drunken individual with a broken ankle, was arrested by the police last night and sent to the Sisters' hospital.

THE regular monthly meeting of the First quorum of Elders will be held this evening in the Fourteenth ward assembly rooms, commencing at 7:30.

ONLY one order was made by Judge Bartch in the Probate court this morning. It was in reference to the estate of Niels Petersen, deceased. Tuesday, January 3rd, 1893, was set for hearing the petition for appointment of Commissioners to make partition.

ROBERT MCDONALD, a youth of 13 years, whose record as a wrong doer is well known in this community, was arrested by the police this Evening on a charge of stealing a sled from Margaretta Brow's store. The boy and the sleigh are both at the police station.

THERE are thirteen boys, ranging from ten to fourteen years of age, now confined in the city jail on charges of petty thieving. Some of them have been arrested time and time again for similar offenses before and will now in all probability be sent to the Territorial Reform school.

IN the case of the Wasatch Mining Co. vs. Joseph A. Jennings et al., the stipulation was submitted to Judge Zane this afternoon on testimony taken at the former trial. The matter was argued by Attorney Dickson on the side of the plaintiff and by Attorney Rawlins for the defendants.

A session of the County court was to have been held this morning, but as Statesman Bartch and Clerk Cronin were the only members of the board present, an adjournment was taken until the afternoon. The question of the reopening of the new city and county building will again come up at this session.

A RUSSIAN, whose name the unpronounceable name of Petrovinkolovsky was taken before Justice Cox on a charge of vagrancy. He was given his freedom on recommendation of the prosecution, who thought that Julius Raleigh would not be able to accommodate both the defendant and his name, and he knew of no way whereby they could be separated.

AUGUST WEIS has filed a suit for divorce against Andreas Weis in the Third District court. The parties were married in Berlin, Germany, in 1877, and came to this country several years later. Plaintiff alleges that since their marriage the defendant has continually treated her in a cruel and inhuman manner, and upon this ground prays for a decree and the custody of a minor child.

Fire at a Shoe Store.

There was a lively scene on Saturday evening, about 5 o'clock, at the Main street shoe store of Spencer & Lynch, caused by a fire in their artistically arranged show window, which was lined with cotton batting to give it a wintry-like appearance. The flames spread rapidly for a time, and it looked as though the building with its contents was in danger. The department responded promptly to a call for assistance, but its services were not needed as the attaches of the store had extinguished the blaze by means of a quickly organized bucket brigade. The fire is supposed to be the result of an imperfectly insulated electric wire. The loss will reach several hundred dollars but is amply covered by insurance.

THE CITIZENS' RAILROAD.

Schemes Which, if Successful, Will Prevent Its Building.

THE COAL FIELDS A BONANZA.

Three Offers to Buy the Utah Central Who the Would-be Purchasers Are Said to Be.

"Anything new today?" was the rather time-worn but very convenient question asked by a representative of this paper of a prominent business man this afternoon.

"Well, I should say so," was the emphatic response. "Go and see Mr.—— and ask him what he knows about certain railway negotiations which are now pending and which may mean very much to the citizens of Salt Lake."

The gentleman was seen after found by the reporter and after considerable hesitation and in response to numerous questions said: "There has been a good deal of talk in business circles and in the newspapers of late regarding the more than apparent necessity of a citizens' railroad from Salt Lake to the coal fields to enable us to cut off, so far as possible prevent the robbery that has been perpetrated upon the people for three many years. If I read the signs aright this may and may not be done. In either event prompt action will be the only way to win. You may not be aware of it, but it is nevertheless true, that three offers have been made to the Utah Central people for their road between here and Park City. I know this statement is correct because the superintendent of that road gave me the information himself. The other of each of the would-be purchasers is to secure the right of way and control the building of a road from Park City to Coalville. Of course they all regard the coal fields of that locality a priceless bonanza, and it goes without saying that they are such."

"Are the Utah Central people willing to sell out and if so, who are prospective purchasers?"

"As to that I can say authoritatively that the Chicago & Northwestern is one of them; that the Southern Pacific, which is building for the Rio Grande—all reports to the contrary notwithstanding—is another, and I am quite certain that the Union Pacific is the other. The Chicago & Northwestern has already been trying to secure the right of way of the Wyoming, Salt Lake and California, of which H. G. Raybould is president, W. S. Peckham vice president and S. F. Walker secretary and treasurer. This line has a right of way from Lake Point (second Garfield) to the Wyoming state line. Extension of this road will satisfy the Chicago & Northwestern providing it cannot get control of the Utah Central, but the prospective purchasers are anxious to buy the Utah Central and the right of way of the Wyoming, Salt Lake & California. This done and the scheme to build a citizens' railway to the coal fields is no more. I am prepared to say this, however, that the Wyoming, Salt Lake & California company, which is composed entirely of business men, will be willing to at once, if necessary, so hand in hand with the citizens in any movement tending to the construction of a road to the coal beds. I do not mean to say that those gentlemen might not sell out to the Chicago and Northwestern if they received a big offer, but I do mean that they would be satisfied with any paying percentage in a joint road and those who are arranging the monster monopoly that is now sapping the finances of the people."

AMUSEMENTS.

MARLOWE—Julia Marlowe concluded her engagement in this city Saturday afternoon and evening, rendering As You Like It and Romeo and Juliet. At the matinee the attendance was as light as it always is at daylight performances; in the evening the gathering was good. Miss Marlowe never always fe scored of a green spot in Salt Lake judgment. Probably not since Adelaide Neilson played Juliet here sixteen years ago has any such beautiful delineation of that character been seen on the Mathew gave Saturday evening. In face and form, of course, she was the ideal Juliet—her beauty even shown to more perfect advantage. Her reading of the part was equally impressive, and the audience hung spell bound by her enthusiasm from first to last. Mr. Tabor's Romeo and Orlando were most excellent. He is a young actor who will assuredly be heard from.

THE CHORAL—The Light of Asia is now in its closing rehearsals, and everything is represented as being in good condition for the performance Monday evening next. Tonight's rehearsal will be held in the Tabernacle at 7 sharp.

THE BALL POSTPONED.

The Chamber of Commerce Gives Way to the Columbian Ball.

It was a very courteous thing the Chamber of Commerce committee did on Saturday. As soon as they learned that the World's Fair people were contemplating a ball on Jan. 2, they at once sent word to Manager Barton to cancel the date, Dec. 29, being held for the Chamber of Commerce ball, and decided at once to postpone their affair to a later date. The meeting was held at Mr. W. G. Webber's office, and the following named gentlemen were present: Messrs. Webber, Adams, Howe, Dinwoodey, Wells, Simon, Clark, Morrison, Cohen and Williams.

A sub committee, consisting of Messrs. Wells, Adams and Howe, was selected to ascertain the date and terms on which the Theater may be had some time in January, and also to arrange for music. The public generally will commend the action of the committee in making this postponement, as both are worthy causes and each should be given a date outside the influence of the other.

Later in the day the sub-committee waited on Col. Dunnellan, president of the Chamber of Commerce, to acquaintain if there was any essential objection to making the date of the ball after the annual election of the chamber, which occurs on January 16th. The president replied that while it would be desirable to secure necessary funds to place the chamber upon a good financial footing before the election, the delay of a week or two would really not make much difference, and all things considered he was in favor of a date about the middle of January. The sub-committee thereupon fixed January 18th at the theater for this important society event, but this is subject to change by the general committee.

The general committee will meet tomorrow (Tuesday) at 4 p.m., at Mr. Webber's office.

Wonderland.

Increased attendance marked each performance during last week, the apparent result of the popular show company and of the special attractions in the Curio hall. The reward due the management for placing superior amusements within the patrons has been recognized in a liberal audience. "Colleen Bawn" has a run of two days more, and will be succeeded by "Divorcee," an emotional drama of great strength.

THIRD DISTRICT COURT.

Formal Opening of the December Term Today.

The December term of the Third district court opened this morning.

The case of the banks vs. the city and county collectors, the inquiry in regard to which began on Saturday evening, were again taken up, and some further evidence was received. The facts were reported in Saturday's NEWS, the action having been brought on the ground of excessive assessment of the banks' property.

The arguments began soon after 11 o'clock and concluded at the time of the NEWS going to press, when the cases were submitted.

THE BELT MOVE.

In the case of the American Publishing company vs. Albert Fisher et al., two days' stay was granted in which to file a bill of exceptions, on motion of the plaintiff's counsel. This is the matter which compelled an entire week in hearing and resulted in a victory for the defendants.

DIVORCE.

In the divorce suit of Mary F. Kimball vs. Washington H. Kimball a decree was granted and an allowance of $20 per month alimony made. The petition was based on the grounds of desertion and failure to support, and the case went by default.

BY WIRE TO-DAY

Ex-Secretary Blaine's Condition To-day.

CANADA PROCURING EVIDENCE.

Solemn Requiem over the Remains of Congressman Gibson.

THE SEATTLE HARBOR CASE.

Electrocution in Sing Sing—Killed in a Slot-Money Mac-Appropriated.

WASHINGTON, D. C., Dec. 18.—At 9 o'clock this morning a reporter who called at the Blaine residence was told that the ex-secretary was awake and his condition is worse than yesterday afternoon. The physicians has not yet visited him this morning.

The statement given out that he is no worse seems to preclude the possibility that he shows any marked improvement. Not since President Garfield by mortally wounded by Guiteau's bullet has there been such a display of public interest in the condition of a sick man as manifests itself in the case of Blaine. The room in the historic house on Lafayette square in which the sick man lies is the one to which the attempt was made to assassinate Secretary Seward.

Later in the morning it was stated at Blaine's mansion by one of the attendants that Blaine had passed a fairly good night and was little better this morning.

Although the doctors do not hold out the hope of permanent recovery, the family feel that the crisis of yesterday is past and perhaps the patient may be spared. It is said he sat up a short time this morning and talked in a very cheerful frame of mind. To an old friend of the family this morning Hattie Blaine said her father had a very comfortable night and when this morning refreshed and bright, he was apparently stronger than before yesterday's sinking spell. There were many inquiries at the house this morning by prominent people regarding the condition of the distinguished patient. Emmons Blaine arrived this morning, making the family circle complete. Dr. Lounsbury, New York, arrived this morning and went at once to the Blaine mansion. He went into consultation with Drs. Johnson and Hyatt. He agreed in every particular with them as to the diagnosis and treatment. At the close of the consultation the doctors gave out the following: Although Blaine's condition during the last week has given serious anxiety, yet at the present moment he is decidedly better and is no immediate danger. It is impossible to predict what change may occur, but the condition this morning gives a more hopeful feeling as to the progress of his disease.

The doctors will not say, however, that Blaine is not anything near out of danger. Still one of them said he had very strong hopes that Blaine might improve so that it would be safe for the committee to move to some more congenial climate, presumably California, where the change would, he thought, be beneficial, if it did not work a complete cure.

ELECTROCUTED.

The Crime for which McIntire Paid the Penalty.

SING SING, N. Y., Dec. 19.—Fred McIntire was electrocuted in prison this morning. McIntire was a farm hand employed by Noah Gregory, at Middleton, N. Y., and the crime for which he paid the penalty, was the brutal murder of his employer's wife for the purpose of securing $100 known to be in his house. He first shot her, then stamped on her head, crushing it like an eggshell. The bloody foot prints on the door step led to the arrest and conviction.

The execution was the most successful yet performed in Sing Sing prison. There were only two applications of electrodes and the second was only a pressure-nary measure, as the condemned man was dead from the first shock of 1800 volts. The flesh where the electrodes were applied gave no signs of burning and the witnesses detected no odor of burning flesh, as in the previous executions. McIntire was very cool and collected throughout. The attendant physicians say he was dead in twelve seconds after the first shock.

Evidence in the Boring Dispute.

OTTAWA, Ont., Dec. 19.—Major Sherwood, commissioner of the Dominion police, has returned from the Pacific coast after an absence of two months. He has been collecting evidence confirmatory of the position of Canada in the Bering Sea controversy. Three weeks ago Sherwood was among the Indians of the Queen Charlotte Islands from whom, it is said, the officers of the United States navy obtained evidence favorable to the American case by the exercise of unfair means of persuasion. It is stated that important evidence bearing upon this phase of the difficulty has been obtained by the commissioner. A month ago Sherwood left Victoria for San Francisco, and there prosecuted his mission with such secrecy that not until the day following his departure any intimation of his business was made public. San Francisco is the headquarters of the United States sealing fleet and in furtherance of his inquiries within the precincts of the golden gate, Sherwood visited, it is said, a number of officers from American sealing captains corroborating Canada's contention.

A RIOT.

Colored Laborers Go on a Strike and Make a Speech.

CINCINNATI, Dec. 19.—Word has been received from Hog Run, Kentucky, of a riot among colored railroad laborers on Saturday night, in which two were killed and two fatally hurt. Wm. Jackson, Wm. Grimes, Dudley Warner, and another known as "Sitting," after receiving their pay, went on a drunk. Jackson and "Sitting" quarreled and a fight ensued in which the other and Emmit were shot as above invoked. The colleague contributed for some hours. The trouble was caused by the men being paid off, and the others quietly slipped with money that they thought they had paid.

A BOW OFF A DOZEN TIMES.

HOUSTON, Tex., Dec. 19.—In a row over a horse trade last night between Richard Smith on one side and John Mason, Lige Dunkin and Frank Tubbs, all colored, on the other side, Smith fired with general at his opponents, wounding all of them and two fatally. Smith is in jail.

NEW YORK MARKET.

NEW YORK, Dec. 19.—The stocks opened firmer with continued gains in some leading issues, but the renewal however, on the announcement that $3,000,000 gold had been engaged for shipment tomorrow and the subject became weaker.

While depressed for the industrials the railways remained fairly steady with fractional improvements. Whisky trusts dropped to 31 cents. Sugar rallied to 109.

At 11 the market was quiet, steady. Half a million more gold was taken for export.

The stocks after 11 o'clock showed advances to railways, but later lost the improvement owing to the renewal of the weakness in industrials. Whisky trusts dropped to 31. Chicago gas lost 3 compared with saturday's close. At noon the railways were firm, with industrials weak.

ALMOST A PANIC.

Shortly after noon there was a wild rush for bordering on panic on the stock exchange. It appears a pool in Chicago gas had decided to double and the members were compelled to take in their short things. Gas rose 20 to fill their stock and the rush soon caught the drift of affairs and began to raid industrials indiscriminately, and to add to the fever money call up to 40 per cent. Traders were trading to throw over their holdings regardless of price. Chicago gas broke from 72 to 62, whisky dropped from 31 to 27, American sugar from 109 to 101. After 12:30 the excitement subsided somewhat and substantial recoveries were made, but the improvement was not fully maintained.

$16,000 Misappropriated.

NEW YORK, Dec. 19.—It is stated that the amount which Edward F. Chamberlain, the missing executor of the estate of John W. George and other large properties, is accused of having misappropriated is $16,000. The warrant which has been issued charges Chamberlain with misappropriating $16,000 in Northern Pacific and Minnesota first mortgage bonds. Not since it was issued further examination has shown, it is said, that good in cash were also misappropriated.

CONGRESS.

HOUSE.

WASHINGTON, D. C., Dec. 19.—The House has passed the bill increasing the pensions of Mexican War veterans.

A FIRE AND A SHOT.

The Occurrences Which Seem to be Connected.

ST. LOUIS, Dec. 19.—Early this morning the watchman at the city hall discovered fire in a closet in the private office of the city treasurer, J. Forstel, in which papers and documents of various kinds, pertaining to the business of the office were stored. The fire was soon quenched with little damage as the papers burned were of little value. Later the fact that Edward Forstel, son of the city treasurer, and child clerk had shot himself at his home became known. This event was at once connected with the fire as it was known that the young man had negotiated loans through a man named Yew, who it appears was only a go between for the endorsement of M. I. Forstel. The affair is thus in mystery complicated. Treasurer Forstel says his son's accounts are straight and he cannot account for the shooting. The young man's wound is fatal.

Young Forstel died at half past 10, never regaining consciousness. He shot before a mirror and shot himself to the heart, firmly intending to indicate the cause of the act.

THE LAST JOURNEY.

The Remains of Congressman Gibson Taken to Lexington.

LEXINGTON, Ky., Dec. 19.—The body of Congressman R. L. Gibson arrived here this morning and was taken to the residence of his brother, Hon. Hart Gibson. The congressional delegation from Washington arrived soon afterward and the procession including the Brown Bight Infantry, state college guards and Confederate veterans' association, with a great concourse of citizens, proceeded to St. Paul's cathedral, where the solemn requiem mass was tendered.

There were no services at the grave. The remains were inferred beside those of his wife and daughter.

DISMISSED.

A Case Involving Harbor Rights in Seattle.

WASHINGTON, Dec. 19.—The important case of Henry L. Yesler, plaintiff in error vs. the board of harbor line commissioners of the state of Washington, involving harbor rights of great value along the water front of Seattle was today dismissed by United States Supreme Court on motion of plaintiff in error. Yesler is the owner of wharf property at Seattle and sought by writ of injunction to restrain the state board of harbor line commissioners from changing the outer lines, it being the purpose of the commission to direct harbor lines they would recline within their Yesler's property. Yesler claimed that his action would amount to the deprivation of property without due process of law, contrary to the Constitution. The court below decided against him, holding as against the state, the fiscal owner, shortly at such owner can assert no valuable rights below the line of the ordinary high tide. The supreme court dismissed Yesler's appeal chiefly on the ground that the difficulty involved was so defective as not fully to raise any federal question. Chief Justice Fuller announced the decision.

An Assignment.

CHICAGO, Dec. 19.—Dennis E. Sheehy, member of the board of trade, failed to get assignment this afternoon. The liabilities are $20,000.

REPORTED DYING.

W. H. Sherman, an Old Resident of Salt Lake, is at Death's Door.

Mr. W. H. Sherman of this city returned home on Saturday from a five weeks' business trip to California, somewhat impaired in health. Last night he was taken very sick and today, at the time of the NEWS going to press, he is said to be sinking fast. Drs. Pierce and Gage were there at the patient's bedside, and express no hopes for his recovery.

It was rumored on the streets this afternoon that Mr. Sherman was dead, but inquiries by a NEWS reporter effected the foregoing facts.

Within Our Gates.

A. E. Stone, of Durham City, placed his name on the Templeton register in such a hand as the British lion could read, without putting his specs on.

Walter Kingsbury of Manti, took a run up this way Saturday p.m. and had a real good time. He takes considerable pleasure in seeing the sights in that place, and seems to thrive on the atmosphere of Sanpete and the meals he receives.

L. N. Hinkley, of Millard county, is in our midst. He is a stock owner of considerable extent and has never yet been accused of having any he couldn't account for. He is one of the "close" counties, but he failed to have word as to his political preferences.

The editor of the Journal of Logan, the same being Noble Warrum, did some down on Saturday, accompanied by his better half, and went to the Shakspearian entertainment at the Theater. Salt Lake is about 80 miles from Logan, but within any Logan is more than 100 miles north as the delighted cackler flies, he says it is as Warrum there as here.

Dr. George H. Funemaster, of Beaver, came up on the Union Pacific train which got into Salt Lake Saturday. He was one of the victims of the recent severe fire in that place, though his losses were not severed in fact, compared with some of the others, they were striking. All hands are expected to recoup as rapidly gold from the profile gorges which begin the coming sunbeams of the south round and about.

Harry Nelson, of Castle Gate, accompanied by his wife, took a trip this way on Saturday and had quarters at apartments at the Templeton. The gentleman to the east and front of the Wasatch Store company at that place was delighted, the business which is so good that he had to come in to see whether or not the places named are rivaling Salt Lake. He says the only difference he can see is big buildings and a few more people in our favor, with good streets and coal that you don't have to frame in theirs. The weather, he claims, is a "stand-off."

A. B. C. Bottled Bohemian Beer.

Made by The American Brewing Company of St. Louis is brewed of the best barley and Bohemian hops. It has a beautiful amber color, a delicious hop flavor and sparkles like Champagne. Phone S. Hanks, 44 East, First South Street, Salt Lake City, Agent.

Special sale of Silks, Satins, Brocades, Rice silk Tweeds, China ware, etc. All must be sold.

Special Sale of Silks, Dec. 20th 21st; sale commences at 1:30 p. m., daily. Goods sold at private sale at all times. 279 S. Main St.

J. A. Hickenbotom, Auctioneer.

From the Daily Ne Ws, Whatcom, Wash.: "T. C. Burnett, the democratic candidate for sheriff, was taken violently ill at Clearbrook. He had all the symptoms of Asiatic Cholera, and for an hour or two it was feared he would die. They finally gave him a dose of Chamberlain's Colic, Cholera and Diarrhœa Remedy, which revived him until a physician arrived." That is precisely what the manufacturers of that medicine recommend it for. Never let a physician, but give their medicine until a physician arrives. If cholera becomes prevalent in this country next summer, Chamberlain's Colic, Cholera and Diarrhœa Remedy, which never fails to be in great demand because it can always be depended upon.
