A report received from the sheriff at Kingman, Arizona, Thursday, from Cerro Gordo, during every, states that the body of an unknown man was found in an old abandoned mine near Wednesday. The shaft was filled with water and the body was found floating on the surface. The shaft was connected to two places and there is strong suspicion that the man was murdered and thrown into the shaft.

H. Martinelli, a Frenchman, was arrested Thursday for cruelty to his five-year-old daughter, Mary, at Wall and Creek, Cal. Martinelli compelled the child to get up early in the morning and gather milk to customers, over which she herded cows while they grazed all day along the public roads. During the week and the [illegible], a few days ago, the little one was sick all day and suffered severely from the cold and wet.

Henry C. Bonner, the well-known artist of Poets, is again in his accustomed place in the Occidental hotel, San Francisco. Mr. Bonner arrived in the city a fortnight ago in good health, but his long days and nights of work have benefited the physical condition. Three days ago he was completed to take to his bed. The physicians, whom called, at first, to be no more alarming than it has been during any one of the many sick spells he has experienced since he found it necessary to abandon Hickory Work and seek a home for his wasted frame to travel and rest. He spent some time in the semi-tropical climate of southern California before coming to San Francisco, but his stay in the southern part of the state did not improve his health very materially. He took a sailing cough when he arrived and on the pleasant days when he took out to get a little fresh air and exercise he always took great care to return to the hotel before a chill. During his illness his wife, who is his only traveling companion, is constantly looking after all his needs. She has hopes that the present indisposition is not of a serious nature, and expects him to resume his labors in the near future.

It is quite unknown for someone man to meet with accidents that result fatally, but occasionally a single fact comes with what seems a miraculous escape. Following is an instance of the latter kind: William Mulvey, a [illegible] with an electric car, at 11 o'clock Thursday night in Sacramento, Cal. He had been out during the evening with some friends and, being of a compassionable nature, he had had a social nip or two. This being the case, he did not care for a street car or anything else, loaded or unloaded, and when he saw a car coming he set his hat on one side of his head and drew a tee line for it. They came together like a couple of boiling goats, and the car being more heavily loaded than Mr. Mulvey, won the knock-out. The gentlemanly waiter went down like he had been kicked under the mule by a mule and before he could regain his feet for a second of the attack, the car took hold of him and rolled him over and over and down with him for a distance of twenty feet or more. When the car got through with Mr. Mulvey, it stopped, and Mr. Mulvey crawled out from under the wheels with his hat [illegible] the wheels of his foot, and after getting at the car a moment to exercise [illegible], he started down the street, apparently none the worse for the encounter.

Take Simmons Liver Regulator now. It's just the remedy for the spring of the year to wake up the liver and cleanse the whole system of the accumulated waste of winter. My wife combated [illegible] Malaria in Alabama in 1881 with Simmons Liver Regulator than all the doctors in the neighborhood. We've had a siege of Malaria in our own family, and it helped us."—W. S. TRUTH APPROACHING.—Miss Annette N. Moss, Fountain, Minn., says: "Ayer's Cherry Pectoral has had a wonderful effect of cure on my brother's children of a severe and dangerous cough. It was truly astonishing how speedily they found relief after taking this preparation."

The sooner you begin to fight the fire, the more easily it may be extinguished. The sooner you begin taking Ayer's Sarsaparilla for your blood disease, the easier will be the cure. In both cases, delay is dangerous, if not fatal. Be sure you get Ayer's and no other.
