MINING, BUSINESS AND STOCKS.

AN UNSETTLED STOCK MARKET.

Bears Take a Fall Out of Mammoth.

PETRO AGAIN THE FEATURE

Thousands of Shares Sold at Lower Prices—Yankee Con Takes a Spurt—Sale of Silver King at $10.50.

TODAY'S METALS:
SILVER 57¢
LEAD $4.40
CASTING COPPER 16¾

The stock market this morning showed a rather unsettled condition, and nearly all of the favorites kept the bankers guessing.

Mammoth, which sold on Saturday at $2.07½, went down to $1.94. Shares selling and making the market to sell numerously.

Four Aces was again weak, selling at from 10½ to 12½.

Petro was the feature of the call, thousands of shares changing hands. The prices ranged all the way from 40 to 38.

A sale of Star Consolidated at 47 was announced and the stock was freely offered at that figure without buyers, it being the highest bid.

Yankee Consolidated, selling as low as 42½.

The first sale of Silver King made in more than a week occurred. 50 shares changing hands at $10.50.

Yankee Consolidated was very active, selling at 43 down, while 50¢ was offered at the close, 10¢ asked.

Northern Light was offered at 18 cents, with 17¢ was the limit on the bidding side.

The closing quotations were as follows:

PRICES SHOWED GAINS.

Opening of the Stock Market was to Improve and Our Saturday.

A Reaction in the Leading Speculative Checked the Rise—Bond Market Generally Held Firm.

New York, Oct. 22.—Wall Street—Practically all stocks showed gains over Saturday's in a majority of cases the higher prices indicating buying. Amounts lost a point.

Active bidding for a few of the highest speculative stocks followed strongly throughout the market. The purchases were started in London, Sugar and Pacific Mail, which advanced 1@1½.

Improvements of a point or better occurred in Tennessee Coal, Louisville with General Electric leading for 2½. Delaware and Hudson, Rock Island, Lackawanna, Western Union and Pullman were especially active, Western Union and some of the markets and market leaders were taken freely at substantial prices.

Toward 11 a. m. Sugar, American Tobacco and Pacific Mail, Tennessee Coal, Brooklyn Rapid Transit and Pullman were offered freely for the first mentioned being a point.

A reaction in the leading speculative checked the rise all around and soon became dull. When the standard stocks were off, Sugar was off 1 and of importance, New York, Chicago and St. Louis and Brooklyn Rapid Transit and Tobacco 1 each.

The bond market generally rules firm.

The market fell forward on rumors. The last quotations were made at some to nearly all some equaled as a rule from one to one three points.

RICH CLAIMS IN PARK VALLEY.

Promising Property of C. J. White, of Salt Lake.

FREE GOLD PROPOSITIONS.

Camp is Seventy-Six Miles from Kelton—News from Park City, Marion, Bingham and Tintic.

A. J. White, who was for many years one of the leading real estate dealers of the city, and went to the wall as a result of the collapse of the boom, is in a fair way to retrieve his fortune.

Mr. White has, for a considerable time, been quietly at work on his claim, the Only, in Park Valley, twenty-five miles from Kelton.

Mr. White, not having the means to open up the ledge and has now reached a good depth, he has taken down with him a high grade free gold ore.

Mr. White thinks that he may soon be able to see on the ledge a vein of mineralization as the ore shows which, he believes, gives some of the best indications possessed by any district in Utah.

THE FORLORN MINE.

The First Payment is to Made on September 1.

Manager Hill, who returned from the city yesterday, reports the probability that the Forlorn mine will change hands on the first of November, or at the expiration of the option given by the first payment, now amounting to $10,000, is to be Samuel Newhouse, who is expected to be in Salt Lake about the end of the week. The new people are also hourly expecting a visit from Mr. Hill, who is coming at double the present capacity.

Everything is running along smoothly at the Chesler Foot and a sequence of 20 pounds of gold specimen was sent in the mail yesterday. The ledge is considerable over in Little Hill.

The Confidence mills and cyanide for the adjoining property, which is owned by the Mayor and are to and the adjoining and soon be ready for the tanks. About 1,000 pounds of the gold crushed is now in from the mill but week.—Herald-Mirror.

The Kenyon Suspends.

Last week the Kenyon property were subject to subject work to the Mammoth and Mammoth Merging Consolidation. There is talk that the Kenyon, Chicago and Midland mines will be operated under one management, with H. G. Lees in charge. He is one of the best men in the district for the purpose, having had years of practical experience in the mines on that side.—Bingham Bulletin.

AT THE MAY DAY.

Encouraging Reports and Extensive Improvements to be Made.

The reports from the May Day are most encouraging. The ledge is quite a bonanza under the Mark Twain claim. There is talk that the Kenyon, Chicago and Midland mines will be operated under one management, with H. G. Lees in charge. He is one of the best men in the district for the purpose, having had years of practical experience in the mines on that side.—Bingham Bulletin.

He is one of the best men in the district for the purpose, having had years of practical experience in the mines on that side.—Bingham Bulletin.

AT THE CENTENNIAL-EUREKA.

Use Our Contract with Scandinavian Extension Improvements.

The recent contract between the Centennial-Eureka Mining Co. and the Scandinavian Mining Co. has given the men who are operating the latter property a fair chance of exploiting the new properties at the lower and intermediate levels of the Scandinavian, which are underground. All the men who were laid off on the first of September are to be at work by the first of November, or as soon after that as the work can be started properly. The company has in a contract in Jesse and Jacobs of Salt Lake, who are interested in the Scandinavian, to run the Tonn Mine, another one of the properties, a tunnel to intersect the Centennial-Eureka. This will take the company by surprise, as it was not thought that it would be finished at a fair point for some months, perhaps longer. Advices from the City of Mexico, received by the last mail, state that the Mexican Central has ordered 1,000 tons of Utah coal for its plant.

Word has been received in the city that the Ontario Silver Mining Co. intends to resume its mine at Park City, which has been idle for some time. The company has 10 a contract in Jesse and Jacobs of Salt Lake, who are interested in the Scandinavian, to run the Tonn Mine, another one of the properties, a tunnel to intersect the Centennial-Eureka. This will take the company by surprise, as it was not thought that it would be finished at a fair point for some months, perhaps longer. MUNYON'S INHALER CURES CATARRH

Colds, Coughs, Hay Fever, Bronchitis, Asthma and all Diseases of the Throat and Lungs.

Clouds of Medicated Vapor are inhaled through the Inhaler and escape from the nostrils, clearing and healing all the diseased parts. Catarrh quickly yields to treatment. Sold by druggists or sent for $1.00. Munyon, Philadelphia.

put and nothing can be the man will be already refused to the new management. A number of the old directors, in having and another company is going to come down the mountain amounts to the tons of ore per day. It is thought a large number of people will come in. After this, with the increase will people arrive, there will be a boom in Park City. Everything will be well and prosperity for all the mountains is reached.

SCARCITY OF MINERS.

Why that Condition Exists in Colorado—Men is to Blame.

A well known conference agent (after you right about the alleged scarcity of coal miners in Colorado. "Yes," said the man, in response to inquiries in the matter, "there is a scarcity of coal miners. Who is to blame? Is it the miners or is it the mine owners? Why, the miners, of course. They have allowed the the mine owners to dictate to them. The miners have allowed the mine owners to dictate to them. The miners have allowed the mine owners to dictate to them. The miners have allowed
