MAY LEASE THE SIOUX.

Road Control, It is Said, Will Mill Its Low-Grade Ores.

NOTHING KNOWN OF IT AT PROVO.

Deals Said Imminent in the Fur—New Strike at Park City—Report Mills Strike in the Iron Blossom.

It is now currently reported on the streets that the Union Pacific and Rio Grande will lease the Sioux mill and the Plant to enable a resumption of operations. The "News" entered investigation with the company in consideration of the facts in the case. It is understood the facts in the "News" report hold that there is nothing in the report that the company is prepared to take action in the matter, that so far as was known the matter had not even been considered, although what may be done in the future could not be said, as it was now premature to speculate.

It is well known fact that the Grand Central has an abundance of low grade ore in addition to its own, and that it would seemingly pay it to lease the mill which indicated, with a little or no outlay, it can do the work of other mines at and in the vicinity. Ores from such a source would be a valuable asset to the company, and it is not improbable that the mill could be leased for a term of years, if it is a machine in the company's opinion which would make quick returns, if not, it may be leased.

STOCKS STILL SEASONED.

Light Business in the Pit, Only Three Sales—Little Making Transfers.

As it was in the pit yesterday, so it was in the pit today, the tone was firm, but the business was small, only a few sales being made, and the tone was attributed to stocks that will shortly come on the market, and, only incidentally, to the fact that the new figures were not mentioned, and, as one place there was a degree of uncertainty, while on the other hand, the week called quite active, offered good strength.

To start with, Boston Stock did not sell at this week, and it sold at $2.12 a month afterward. In cents bodies, Colorado Stocks was not sought after, it at $2 while the bulls were quite anxious to buy. Deseret Mining advanced a little from the figures of the last time. The stock made the best transfer of the week, with the stock offered at 75, and Central was inquired for at 80. Alice Consol sold at 15.75, while Comstock stood well to the front, and Horn Silver was valued at $1.35. Ontario Silver was valued at $1.35. Ontario Silver was valued at $1.35. Ontario
