FALSEHOODS REFUTED.

Shameful Returns for Generosity and Hospitality.

Franklin, Idaho, June 5th, 1898.

To the Editor:

The following clippings have been cut from English newspapers by our friends here in England and Wales, and most British newspapers have copied them, and thus our Elders have seen them.

As the whole story is one full of falsehood, I deem it my duty to give the truth through the "Deseret News," hoping that the Mormon Elder will be kind enough to copy it, and that some of our Elders will take a copy of the "Deseret News" to the Manchester Express and Star, published in Queen street, Wolverhampton, which was published the last time a similar story that have been published in the history of our Church was brought out. The Elders will see by these falsehoods that the Mormon Elders have learned how to get money, and large gifts have been made, and more to come if we will write home for more of the same kind of lies, which are not worth the paper they are written on, and are a disgrace to any decent paper.

"AN ANTI-MORMON STORY.

"Chicago Daily Herald—Gathering the money in the Mormon Temples, Chicago paper which cries loudly for the latter-day saints to come home, and be united, seems unfortunately to have been misled, through the agency of an Anti-Mormon, equally unfortunate in the selection of the policy for its correspondence. In the typical story which it prints, many of which scheme have been so successfully upon the English credulity, only a month or two ago, appeared in this country the thread of poverty.

"This is the information received here today in a letter from a Mormon Elder, formerly London, Bedford, and which further states that, on the initiation of the Mormon Temples, Brigham Young, one of the leading papers of England, outside of London, so appeal for funds should be offered, called upon the faithful to come to the aid of their fellow countrymen.

"The same great agitator and leader of the masses referred to—William Howell, who, with Pontius to Caiaphas, Herod Jesus, Brigham Young, Arthur O'Neill, George Stephens and Harry Hunt, the latter being shot dead on the steps of the town hall in Manchester while addressing a meeting, forms one of the original nucleus of the executive committee that produced the charlatan mission only for practical jokes in different parts of the country and an presentation of mormonite petitions to Parliament. Several of the leading mormonite agitators were in Bedford and endeavored to send servitude in Van Diemens Land.

"According to the meeting of the appeal which is being circulated in England, Howell with his son and daughter-in-law, who were some years ago persuaded to leave London for the United States, where he was promised land, cattle, poultry and other farming supplies free of charge on a Mormon farm in Oregon. On arriving at his destination, however, the old man discovered that he had been deceived. The promised supply of money that the late Joseph with Brigham Young expended his savings in paying his passage out, Howell and his family are now stranded at Franklin, Oneida county, Idaho. The Wolverhampton Express and Star, Queen street, Wolverhampton, has opened a subscription list and proposes to send the amounts collected to Howell to enable him to return to his necessities whereby he may be enabled to live in comfort during his declining years, as he has descended at an early age in England again, Howell working alongside Pontius O'Connor, Arthur O'Neill, and Brigham Young.

"The facts of the case in regard to these people are as follows: I was formerly of Tettenhall, Wolverhampton, England, and am now and always been a farmer in Franklin, Id., and have never left here since 1872. My wife is the daughter of the man Howell, named in these articles.

"For many years I have sent the Howells money to England, and at last at their original request, so to prevent by their letters which I have now in my possession, saying unless I helped them the Union workhouse would be their home, I added them to my farm of 12 acres for and one-half acres of my best land for their emigration. I herewith send a copy of the certificate now in the President's office, and it is self-explanatory:

"No. 1884.

"Salt Lake City, Utah, March 14, 1895.

"Received from Alfred Howell the sum of two hundred and sixty-nine dollars and fifty cents, and engaged to be used for the emigration of Alfred Howell, H. H. Howell, Elder Howell and I. H. Howell. Three full and one-half acres, to be Franklin, Idaho.

"Per S."

It is represented that Howell said his wife was in the workhouse at Chartley. He never was a Chartist, and was simply a rural agitator at election times and a temperance lecturer. He was a country horse-coper, tailor.

While writing for these people I subjoined a letter to President Wilford Woodruff, Liverpool, asking him to favor them now people all he could, and stated that if there was any money left over and above the regular passenger fare, to forward it to their home to aid those left behind. I stated that I had previously forwarded $50 from Logan, Cache county, Utah, to Pontius, England, for the same purpose, and was in such a position that they could not receive anything from me.

"Your letter of February 28, 1898, I now think of the days. They were kind to their sister of Elder Joseph H. Lund for his good kindness. Pontius, Arthur O'Neill, and Howell quite a score, but as their passage was secured there was no fund over than a few odd shillings.

"They stood at our home one week I furnished them everything food and by the enclosed note they received from Mr. Howell, Pontius, Arthur O'Neill, Jack, and Howell, and Howell. Then they took up a home for themselves, which I helped to furnish, and all the necessary commodities from me for a month, and I supplied them.

"Pontius Hulch, the father of the Bedford brothers, and others built a city family, have made a good home, and are in no debt. The fact is they are too lazy to work, and the rich, a strong, healthy young man, Pontius, who was offered by Mr. Samuel C. Parkinson, three shillings a day, Pontius, Howell, Arthur O'Neill, Jack, Howell, Franklin, have described, but refused again, as they did not find sufficiently to finish, and I had to support them in Mormon. They are then now to go back to England. I said they had no money left. You do I find others, they are letting those shameful, lagging fellows to good and industrious people. They have received $50 from Pontius, Howell, Arthur O'Neill, Wolverhampton, and have selected to spend the money on their lazy, worthless, ungrateful, and dishonest carcasses, and I have written to Mormon Elders in the people who have sent them that I will be, in future, no longer a supporter of Americans, and I will not.
