ANOTHER NEW MILL.

The Young America at Tuscarora, Nev., to be Equipped With One.

ONE MORE GOLD ORE IN ABUNDANCE.

Show the Work Performed—Manager Schuyler Contributes an Interesting Budget for Print.

[illegible] Tuscarora, Nev., accompanied by a party of men in the Dividend district, in the interest of a new mill which is being built and with positions in view for the long anticipated time to have for the purpose to make a Good Samaritan mill, which is to be erected in Tonopah on the ground and have in running order within a day.

We are operating the Belleville, 20 miles southwest of Battle City, and the mine is in good shape and in a [illegible]. Superintendent Bevins is there. We have [illegible] mills, and ship our product to Salt Lake. We are earning silver and gold and a little lead. We are sinking 25 feet per day and are [illegible] about 40 feet. Our domestic ores carry about 18 ounces of silver and from $5 to $10 in gold per ton.

As a number of promising prospects are being developed around us, Mr. English of Spokane is putting up a chlorination plant on the Dividends, about six miles from our property.

In Boomer camp, on Cracker creek, eight miles from our mine, a number of mines are shipping, including the E. Pluribus, North Star, Mayflower, Dan and several others to Oreville camp. In the Dividends district, the Red Boy is the principal property, probably the best in eastern Nevada. It is claimed it has 20 feet of ore which will average $40. It is from selling and the owners are putting in an additional stamps. The Homestake is also a large property.

To the east and south of Tonopah City are the old Ville, Ione, Virginia, Pittsburg and Columbia, all showing very well. Work has been extended in some, but will soon be resumed.

Tonopah itself is a very promising district and most of the camps have the advantages of wood and water. Transportation is the only thing of shipping in southern both east and west. Water mining has been carried on in the camp for last year, but quartz mining is just beginning. Salt Lake, Portland and San Francisco capital is operating in this and vicinity and is spending a lot of money. Tonopah is a good place to live in, the air being dry and healthy. Provisions are cheap and the [illegible] are good. Tonopah is a good place for a good man with a good family, and I think it will become a part of the Pacific coast.

Yours truly,
J. W. SCHUYLER.

IN THE STOCK EXCHANGE.

Record This Concerning Chloride Point and Such Matters.

[illegible]

Chloride in payment of the Mercur company's dividend of $5,000 were mailed today.

E. D. Hankins has been allowed the use of the exchange, in place of his business partner, J. Fred Corbett.

Springville Independent: Nicholas C. Greenhalgh of this city has discovered a vein of silver and lead ore in a canyon in Thistle Park, four miles east of the village. The mineral was found in a ledge of limestone and is a veritable mountain of this valuable mineral. Mr. Greenhalgh has run a tunnel into the claim some 15 feet in the rock. The extent of the deposit is not a matter of conjecture.

NOTES FROM PRESTON.

Joseph's Prophecy Concerning the Bear and the J Line—Fine Crops—Talk of Dividing a Stake.

Preston, Idaho, July 16, 1898.

To the Editor:

Just now while there is talk of the three powers—France, Germany and Russia—interfering with the United States, at the close of the war, to prevent the appropriation of the Philippine Islands, it brings to mind a prediction of the Prophet Joseph Smith, which was published in the Juvenile Instructor of March 15, 1890, in connection with an article on the Russian naval station Cronstadt, and is as follows:

"Elder Jesse W. Fox Sen. received the correction from Father Taylor, the father of the late President John Taylor. He said gentlemen, that one time the Prophet Joseph was in his house conversing about the battle of Waterloo, in which Father Taylor had taken part. Suddenly the Prophet turned and said, 'Father Taylor, you will live to see, though I will not, greater battles than that of Waterloo. The United States will go to war with Mexico, and show cause for increase of territory. The slave question will cause a division between the North and the South, and in those wars greater battles than Waterloo will occur. That,' he continued, with emphasis, 'when the Russian bear (Russian bear for paw on the Sun (England) the eagle (the eagle) will come to our defense.'

"Those words were uttered before there was any prospect of war with Mexico, and such a thing as division in the United States was never contemplated. Yet those three struggles came, and though Joseph himself was slain before they occurred, Father Taylor lived to witness some of the world's most remarkable battles.

"The struggle between the bear and the lion has not yet happened, but as surely as Joseph the Prophet ever predicted such an event so surely will it take place in the future."

Ireland is the second site of the United States, so that should Russia attempt to interfere with the rights of a country, the beginning of the Philippine Islands, the bear and the lion may have a job.

Crops are all looking fine and there is every indication of a large harvest in this part of the country next fall.

The best quarterly conference of the Oneida Stake will be held in Grace Valley on July 30th and 31st next. It is understood that at this conference the Stake, which is now quite large, is to be divided into three Stakes, the Grace, Valley, Cache Valley one, and Marsh Valley and Portneuf's country another, the Oneida Stake retaining the others portion.

Yesterday afternoon a number of prominent railway officials of the Oregon Short Line, including W. M. Ramsdell, asst. the general superintendent, the division superintendent, the roadmaster and others, visited Preston on a special train.

WEATHER FORECAST.

Salt Lake City and vicinity—Fair tonight and Wednesday. Stationary temperature.

THE WEEKLY CROP BULLETIN.

Report of Climate and Crop Service, Weather Bureau.

Weather in Utah the Past Week, and Reports from the State of the Condition of Crops.

Salt Lake City, Utah,
July 18, 1898.

The temperature has continued in excess of the average for the past week. Last week the daily excess of temperature was 3 degrees. There was a temporary cooling on Monday, the 11th, which was soon followed by rising temperature. The prospects are still for fair and warmer weather. Some light showers occurred on the 11th and 12th, but no rain of a beneficial character has fallen since the 4th.

In the harvest field in the southern portion of the state, general cutting has become general on all farms. Fall sown grain is ready for harvest or soon will be when the weather is favorable for cutting. All grain has ripened perfectly, and the heavy in places. In some sections fall sown grain has been injured by the winds, and in rare cases some loss is caused where the growth was rank, it is conceded that the grain crops will be excellent. Threshing has already begun in Washington county.

Haying is still going on in some sections, the first crop of hay being harvested, "timothy is being harvested, and the second crop of hay is making a vigorous growth.

Potatoes, sugar beets and garden vegetables are growing well. All crops have been improved by the general rain of the 11th. There is a good demand for small fruits. Most of the large fruits, especially apples, are affected by the heavy winds.

Water is getting low in the streams so that the ditches have been scarcity, having benefited all growing crops and injured hay only to a few instances.

EXTRACTS FROM REPORTS OF CROP CORRESPONDENTS.

Grantsville—Rain that occurred last week was good for everything except some tares that was caught out.

Tooele—The weather has been warm and dry only a light shower on the 12th. Farmers are busy cutting grain. Dry land grain is well filled and promising.

Wellington—Farmers are finishing the first crop of hay; the fall grain is turning.

Richfield—Weather is warm and dry. First crop of lucerne has been cut. Fall grain is ripening rapidly and it is well filled. No smut can be found in the wheat. Potatoes and corn are growing well.

Hyde Park—High winds on the 11th damaged heavy grain some. Fall grain is being harvested. Sugar beet is in good shape.

Logan—Harvesting of dry farm grain has begun. All kinds of grain are looking well.

Cache Junction—Fall grain is ripening rapidly.

Benson—Spring grain is in need of rain. It is very scarce in places.

Newton—Fall wheat is very heavy and some of it is damaged by smut. Spring wheat is showing to the spring grain. Potatoes are growing well.

Lewiston—Crops are doing well. Water is getting lower and unless some rain falls, crops will suffer some. No fruit of any consequence except berries.

Ferron—The honey bees are waking. The hay is somewhat damaged by the frequent rains.

Fairview—The weather has been favorable for the crops.

Fairview—A heavy rain occurred on the 11th. Corn, vegetables and fruit were benefited, but grain suffered back.

Hinckley—A light rain occurred on the 11th, doing much good.

Delta—First crop of lucerne is in sacks. Potatoes are cutting heavily. Potatoes are looking well.

Fillmore—A good rain occurred on the 11th which has done much good, but it delayed some hay.

Beaver—This has been the warmest week of the season. Crops are doing well. Water is very scarce.

Monticello—Heavy rains damaged alfalfa crop. All grain crops look well; grass good on range.

Milton—Harvesting fall wheat began cutting second crop of lucerne; growing crops in good condition.

Holden—High winds and rain lodged grain badly and caused some damage. Harvest grains beginning to ripen—Worsey as usual. Winter wheat ripening.

Glenwood—High winds and rain damaged our incrop in fields and prostrated considerably fall wheat. Fall wheat ready for the reaper in eight or ten days. Crop about one-fourth killed during spring.

Sigurd—Has damaged by rain on 11th and 12th, good grain crop seemed; early planted large enough for seed; small fruits ripe.

Manti—Good growing weather. Haying progressing. Small patches for an abundant harvest except in fruit.

Chester—Grain looks good. Weather conditions favorable for growth and harvest operations.

Lehi—Fair week but with some thunder and hot little rain. Water getting scarce.

Kaysville—Harvesting continues at the rate of six to 10 acres per day and should be finished this month. Tithe will be the best in years. Fruit crop damaged by early hail storm.

Lake shore—Fall grain ripening; second crop of lucern growing nicely; potatoes and corn look well and other crops in satisfactory condition.

Bountiful—A warm week, rain showers on 11th, every kind of crop; wheat crop excessive and will average twenty bushels per acre on dry land—the dry farm land is cleaner of weed grass.

Parson—Fine growing weather; grain crops ripening fast; early spring wheat, oats, rye and barley cut and in shock; second crop of alfalfa being cut, potatoes and beets growing rapidly; garden stuff nearly cleared out; apples ripening.

American Fork—Fine showers forenoon of the week, freshening everything needing water, but leached a good deal of lucern that was bunched and ready for harvest, this needed.

Lyman—Good growing weather past week; crops look fine; haying begun; rain needed.

Lee—Excellent growing weather; wheat heading out; clover not so fair.

Nephi—Harvesting fall crops are progressing nicely. We had a good rain on the 11th.

Fairfield—Early grain in bloom; oats and potatoes look well; green peas just coming in; will be harvest in progress; crops are excellent.

St. George—Showers 11th and 12th, but not sufficient to interfere with harvesting; threshing small grain has commenced.

Harrisville—Week hot and dry; some rain on the 11th; harvest is fairly begun in full operation.

Ogden—Crops are suffering for want of water.

Kanarra—Crops growing nicely; farmers still busy haying; first cloud overspreading; thunder and rain on 11th.

Meadowville—Past week warm with some rain; but no rain. Potatoes in bloom and peas now ready for use. Haying commenced; winter rye will soon be ready to cut.

Price—Past week warm; crops growing fast; corn looking well; small fruits ripe, such as currants, raspberries and gooseberries are heavy.

J. U. SMITH,
Section Director, Salt Lake City, Utah.
PAUL A. M. HANSFORD,
Observer.

Sunday School Union Meeting.

At the Union meeting held last evening (July 18, 1898) all the city schools were well represented, as also were the following schools outside the city: Big Cottonwood (both schools), Cottonwood, Mill Creek, East Jordan, Forest Dale, Herriman, Mill Creek, North Point, Sandy, South Jordan, South Cottonwood, Taylorville and Woodville. Also Bennion, Hunter, C. C. Rogers presided. Opening prayer was offered by superintendent Sutherland of Big Cottonwood.

The excellent singing rendered during the evening was given by the schools named above, under the direction of prof. John M. Chamberlain. A beautiful feature was the singing of a song by the little girls of Mill Creek, by the little girls Alice and Phoebe Peterson.

At the conclusion of the opening exercises the meeting separated into the four school departments, where excellent instruction was given in the work of the coming year.

Upon reassembling, a few instructions were given by superintendent Briggs, after which a most appropriate address in the interest of school next Sunday, Primary Day, also being the Pioneer day, was given by President Smith of Mill Creek, on behalf of the Maine sufferers.

Four addresses in the hearing of testimonies and the expression of the feelings of the young people should be encouraged to attend schools, and to endeavor to attend the schools, and to endeavor to induce the children to go to school, they are generally prompted by the Spirit to do so.

Elder Wm. D. Owen of the General Board of the Sunday School Union, stated a few words of encouragement, and the good home time by the Sunday schools.

The South Cottonwood school will furnish music at the next meeting of the Union.

Superintendent Thomas Batchelor of Herriman offered the benediction, and the meeting adjourned to meet in Salt Lake City Sunday evening in August.

J. H. PARRY,
Secretary.

From the Kaiser Field.

Elder Hyrum A. Jones of the Tooele ward, this city, returned Sunday from Great Britain, for which part of the earth he left April 16 last. Elder Jones labored in the Norwich conference, England, while busy and reports very well quite successful in that section. He says the others are doing much good among the people and are enjoying peace in the truthfulness of the Gospel. Elder Jones had fairly good health while away, and he is glad to be home. He was released in charge of a company of 22 Saints, 9 of whom stopped off in New York to remain their gathering place.

The "News" received a call Monday from Elder Clement V. Call of Cleveland, Bannock county, Idaho. Elder Call left home for Great Britain last September, on the 27th of July 1895, and was assigned to work in the eastern Carolina conference. He reports very highly of the people, and succeeded fine by the people of the south.

E. F. Jordan of Louisville, Piscataquis Co., Maine, returned here yesterday morning from a mission to the Mississippi conference. Elder Jordan left his home for the mission field on June 28, 1895, and was soon thereafter with great success in his field. Elder Jordan was released on June 25, by having some visiting and baptizing in the ho ward. Those Saints were disposed of. He says that the work in that conference is coming forward in the Lord's great work, and he is well and happy. Many honorable mentions and baptisms being made among the representative citizens in some instances, where great prejudice prevented a full presentation of the principles of the Gospel. Elder Jordan was taking great interest in the message of life and the Elders are most successful in their labors.

Elder Jedediah Taylor of this city has reported his return to Salt Lake City, Mississippi conference. Elder Taylor left his home for the mission field on June 28, 1895, and was soon thereafter with great success in his field. Elder Jordan was released on June 25, by having some visiting and baptizing in the ho ward. Those Saints were disposed of. He says that the work in that conference is coming forward in the Lord's great work, and he is well and happy. Many honorable mentions and baptisms being made among the representative citizens in some instances, where great prejudice prevented a full presentation of the principles of the Gospel. Elder Jordan was taking great interest in the message of life and the Elders are most successful in their labors.

Caught by Robber.

Deputy United States Marshal Corbett left yesterday, with Dr. Dan Stevenson of the 12th, for Provo to attend the preliminary examination of D. W. Dinger, who was arrested a few days ago on a charge of robbing a stage coach near Mountainville, a few miles from Mountainville a year ago. H. V. Coates, the United States attorney, and the county at Kanab and the two proceeded together to Mountainville. The prisoner in Mountainville is in the first of a stone, and although nothing was taken from the prisoner proper, the stone was interrupted and an effort was made to effect an entrance into the prisoner, either of which would very easily have carried away the prisoner. The possibly robbery has made a partner was arrested charged for grand larceny, and Sheriff A. M. Rich of Pine Lake county, executing that warrant was an accomplice, or other member of his delinquency, in the course of which the officers discovered some property, taken and also some money from the store. Deputy Marshal Corbett was summoned and he placed Dinger under arrest on the charge of robbing the postoffice. Dinger is certainly not a new hand at the business. Among his effects was found a revolver and the broken set of burglar tools. He served eight years in the Utah penitentiary for burglary.

LITERARY NOTES.

Military and naval things now battle, society the greater part of the illustrated issue of Collier's Weekly this week. A portrait of Admiral Sampson is the frontispiece, and there are also the pictures of the ships of his fleet that are pictured in another, with commanders of all of them and facing them the American naval officers and men who took part in destroying the fleet of armed ships that was moored in the Atlantic, some pictures of the Spanish war in preparing rivalry, and of Spanish work of prisoners of the Philippines, and a portrait of Prince Nicholas, heir of Russia, who is a great lover of the sea. A fine illustration of a Russian warship, and the Russian Czar, the work of Lt. Tsar, is presented, and is illustrated with pictures of the national flower of the Russian Empire, the Russian flag, and the Russian flag of the war in progress.

With this issue another feature is added to the series of the Christian Easter will a series of articles, the first appearing in the issue of Collier's for July 30, will be read with interest. The series begins with a good of Christ, and the series will be continued in the series of articles, which will be published in the series of articles, which will be published in the series of articles, which will be published
