MINING, BUSINESS AND STOCKS

BLACK JACK MINE WILL SINK DEEPER

Installs Small Engine on 1,400 Level to Send Shaft Down.

VICTOR HAS SHIPMENT READY

Provo Mining Company to Consolidate With East Tintic Development —Machinery for Latter.

(Special to the "News.")

Eureka, Feb. 8.—Another Tintic property which intends to be in line with deep mining is the Black Jack at Mammoth. This mine already has a shaft down 1,400 feet, but it is understood that work commenced Thursday to sink the shaft to the 2,000 level. The Black Jack has other workings besides the main working shaft which extend 250 feet deeper than the 1,400 level. A small engine has been installed upon the 1,400 foot level to handle the work of sinking the shaft, which consequently will not interfere with the other work which is going on underground at the mine. The Black Jack is shipping its ore to the Tintic smelter at the rate of two to four carloads a week and the showing on the lower levels is such that the officials of the company believe that an entirely new mine will be opened up at greater depth.

Another car of ore will be sent out from the Victor this week, making four carloads shipped since the mine was reopened a few months ago. The ore goes to the Yampa smelter at Bingham and carries good values in copper, and there is a pretty nice showing of this copper ore in the mine at this time. The prospect is that a considerably larger body of the ore will be opened up as work progresses on the 800 level.

GETS EUREKA PROPERTY.

H. V. Hart, who is a representative of eastern capitalists, visited Eureka last week and before leaving the camp succeeded in tying up a group of claims near Eureka, owned by local people. These claims are almost surrounded by the Eagle and Blue Bell, Victoria, Plutus and Little Chief properties, and everything indicates that they will form the basis of a new company which will be organized shortly, and commence the development of these claims.

The Provo Mining company, which owns ground out in the eastern part of the district, will hold a meeting at Provo on Feb. 20, when its is thought that a proposition will be considered for the consolidation of its ground with the holdings of the East Tintic Development Co., where the recent ore strike was made. The option which the Eureka Lilly company had on the stock of the Provo Mining Co., expired last week and the latter company would not listen to tying up its holdings any more.

PUT IN NEW MACHINERY.

As quick as the East Tintic Development people had time to think it over since the opening up of the big ore body on the 225 level, preparations were commenced for the installation of new machinery and estimates have been secured covering the equipment which the company will purchase. The matter will be decided upon at the next meeting of the directors which will be held in Provo this week. It is quite probable that an electric hoist and a compressor will be put in. The new ore body is opening up in good shape upon the 225 level, but as soon as the new equipment is installed, the company will drop its shaft down to the 300 or 400 level and then drift out to tap the ore already encountered above at that depth.

HEAVY SALES OF SMALL STOCKS.

Bullock and Tintic Central Are Strong Features of Local Market.

Tintic securities were again the center of activity on the local stock exchange this morning and Bullock, Tintic Central, Iron Blossom and Swansea extension were the star performers. Bullock fell a whole point before the close of the morning market. A bear raid was made on most of the Tintic stocks and several of them were driven lower but not to any material extent.

Several other stocks besides those from the Tintic district showed activity. Pioche Metals went higher and closed at 27½ cents. Western Nevada also jumped up two points during the session.

Silver King has been off for several days and a block of 55 shares of stock was disposed of for $3.80. Sioux Consolidated remains at $1.32½, while Iron Blossom continues to jockey with the market quotations. It opend at $2.50, fell to $2.45 and closed at $2.47½. Colorado is slightly higher than it has been for many days and the stock was remarkably active.

On the Curb market Uintah Treasur Hill was the strongest stock. It sold for 19 and 19½ cents. Bingham Central Standard was sold at 32 cents.

NEW MILL AT CHERRY CREEK.

F. P. Callow has just left Ely for Cherry creek where he will superintend the erection of the new mill of the Star Mining company. This mill Mr. Callow expects to have in working order by the middle of April. The plant will have 20 stamps and is a combination concentrating plant and cyanide mill, capable of handling 80 to 90 tons of ore a day. Cherry creek promises to be one of the liveliest camps in Nevada during the coming year. Many of the properties are being opened up on a large scale and plenty of activity will be seen.

ARE PLEASED WITH ORE.

(Special to the "News.")

Mt. Pleasant, Feb. 7.—Joseph Carlson and three other men who have been doing assessment work on claims in the Frisco mining district, declare that they have uncovered a vein of ore that looks favorable toward carrying a high grade of copper, silver and gold. The vein is more than six feet wide and indications are that it will improve in quality as development work advances. The owners of the property have taken steps to organize and incorporate a company to develop the property.

CONCENTRATES.

Local interests are planning for the erection of a $50,000 hotel for the mining camp of Ploche.

The Alta mine of the Columbus Consolidated Mining company is to be examined by an expert and a report of his findings mailed to all the stockholders.

The Palmer Oil company, a Los Angeles concern, is preparing to sink for oil at Promontory, on Great Salt Lake. The Utah Liquid & Asphalt company will soon be sinking for oil in that region.

R. S. Oliver, manager of the Apex mine in Bingham canyon, is registered at the Knutsford. Mr. Oliver reports the snow fall of last night so deep as to prevent the men from going to their work in the mine this morning.

The receipts at the United States Assay office for the past week were 1,000 ounces of gold bullion. It is probable that the bulk of the January output of the mines will come to the local office and that the fore part of this month will see still heavier deposits made at the assay office.

The shaft on the Bingham-Butte property is being sunk as fast as possible. According to Manager Sam H. Treloar the first 100-foot level below the present workings will add stoping ground for a long period to come, and that the second 100 feet will more than double the reserve as the ore bodies are going down stronger and richer. At present there are 3,000 tons of ore on the dump carrying $10 to $12 in values.

The discovery of manganese ore carrying 300 ounces of silver on the Colfax group at Pioche last week caused a stampede to the vicinity. The Colfax adjoins the Black Wonder on Mendha hill. L. H. Beason, Dr. Irvine, Ernest Hodges and many others have located property near it. The Colfax and 26 claims surrounding it, seven miles south of Pioche are owned by Efl. E. Freundenthal and associates.

But nine directors are now serving on the Giroux Consolidated Mining company instead of 13 as was formerly the case. They were elected to serve one, two and three years. To the first division were elected Edward J. Manney, John Un O. Sebenius and Ralph C. Lupton. To serve two years, F. L. Giroux, J. A. Snedaker and C. F. Piper. To serve three years, J. L. Giroux, Thomas F. Cole and Joseph B. Cotton. The new directors are Thomas F. Cole, Edward J. Mayney and John Uno Sebenius. Mr. Cotton is known in association with North Butte, at the head of the legal department of which company he has been. Mr. Sebenius is also a North Butte man, being a member of the board of directors of that company.

G.A.R. APPROPRIATION ON LUNCHEON MENU

Governor Spry and Those Interested Will Discuss $35,000 Proposition At Commercial Club.

As the result of a conference with Governor William Spry this morning, a luncheon will be held at the Commercial club tomorrow afternoon, at which the case of the Grand Army appropriation of $35,000 will be fully gone over. At this luncheon there will be present all who are interested in the measure in an official capacity. At the head of the list will be Governor Spry and from the legislature there will be the members of the appropriations committee of both the house and the senate. Representing the Commercial club will be Joseph Geoghegan, chairman of the finance committee; Mayor Bransford, chairman of the reception committee; Fred J. Kiesel, Jos. E. Caine, Col. Geo. B. Squires, Major Richard W. Young and Dr. Fred Stauffer, members of the sub-committee on legislative appropriation; Fisher Harris, and Col. F. M. Sherrett executive director of the encampment. Soon after this luncheon it is expected that the matter of passing the G. A. R. appropriation will be taken up and finally acted upon.

SHOPLIFTING CASE SET.

J. Davis and Ola Hayden, jointly charged with shoplifting, will be placed on trial March 8. Council for both appeared before Judge Lewis this morning and consented to an arrangement of District Attorney Loofbourow for setting the case on the date named.

LOCAL MARKETS.

Today's local markets are fairly well supplied with eatables. The receipts include considerable local celery for which there is a strong and steady demand, with vegetables from southern California, three cars of oranges, a car of bananas, a car of Idaho potatoes, etc. There is a slight advance in barley which is used here mostly for horse feed, except what the breweries call for. In the east barley is largely used for bread and in broth, as it is very wholesome. Herring is in the market now, at 15 cents, but striped bass is not to be had. As a general thing, fish are arriving freer now, as the stormy conditions that have been obtaining for so long, are easing up. The following prices are quoted in the local markets today:

LATE LOCALS.

Festival Chorus to Meet—The Festival chorus will hold a special meeting next Wednesday night at 7 o'clock.

Local Bank Clearings—Today's local bank clearings amounted to $863,711.02, as compared with $764,382.63 for the corresponding day last year.

New Commanders Hero—Ensign Thomas A. Pitt and wife of the Salvation Army are now in command of the post in this city. They held their first services here yesterday. Mrs. Pitt will do special evangelical work among the women in the city and county jails.

"Sing" A Decided Success—Yesterday's Sunday afternoon sing at the Y. M. C. A. was one of the best ever held there. Organist Berkholl of St. Paul's church was at the organ, and "everybody sang." H. K. Hooper formerly of Boston sang a solo, and C. J. Nettleton gave a violin solo.

Post Installs Officers—The George R. Maxwell Post, G. A. R. installed its new officers Saturday night, when Colonel Sterrett, executive director of the Forty-third national encampment made an address on the coming event. It was decided to attend the Lincoln memorial exercises in the state armory next Friday evening.

Prisoners Attend Services—The W. C. T. U. service in Judge Bowman's court room yesterday afternoon for the benefit of prisoners, was attended by only a few of the inmates of the jail. The prisoners did not seem to take kindly to religious exercises and only eight out of twenty-four would consent to attend the meeting.

Plans Big Building—E. J. Hough of Butte, Mont., is in town in the interest of a syndicate which proposes to build a large office structure on Main street below St. Paul's church. He expresses himself as much pleased with the appearance of Main street now that the forest of poles has been removed.

To Hold Annual Meeting—The Veteran Odd Fellows association of Utah will hold its annual meeting next Wednesday night at the Manitous hotel, for which occasion an elaborate program is being prepared. The reception committee is composed of William Gaby, J. T. Thomas Edward Pearce, R. Aiff, Capt. C. R. Barry and Ben E. Rich.

Y. M. C. A. Financial Plan—The Y. M. C. A. will try to raise $245,000 with which to square up all its accounts, and leave the association firmly on its feet. The amount mentioned includes mortgages, defaulted interest, shrinkage, and operating deficit for 1908 and 1909. A financial crisis confronts the association through recent filing of foreclosure suits, making prompt action on the part of the association necessary.

Were Drinking on Sunday—William Strom, proprietor of a saloon at 64 Commercial street, was arrested early Sunday morning by Patrolmen Yeager and Eddy. The police were informed that the "lid" had been pried off and policemen were at once sent to make an investigation. They found two men drinking in the place it is said and Strom was arrested and taken to the station. He deposited $100 for his appearance in court.

MARKET MADE AND MAINTAINED RISE

New York, Feb. 8.—Opening changes in prices of stocks today were quite evenly divided between small gains and losses. The dealings were light. Denver & Rio Grande preferred advanced 1¼ and Reading and People's Gas ¾ while Denver & Rio Grande, Kansa & Texas preferred and Brooklyn Transit declined large fractions.

Prices dropped a fraction in spots and then rallied to a higher level. Union Pacific, Reading, Missouri Pacific, Chesapeake & Ohio and the Denver & Rio Grande stocks covered the widest range. Northwestern and American Sugar lost a point.

A few individual stocks showed strength but the general tone was heavy and lethargic. People's Gas advanced 2, Wheeling and Lake Erie 1½, and Western Maryland and Sloss-Sheffield Steel 1. Colorado & Southern first preferred, United States Realty and American Cotton Oil declined 1, National Lead preferred 1¼ and Westinghouse Electric first preferred 2.

Bonds were firm.

Increasing firmness was shown in the stock market and for a time there was some show of activity. Union Pacific, Southern Pacific, St. Paul, Norfolk & Western, Erie first preferred, Amalgamated Copper, Brooklyn Transit and National Lead 1.

The market maintained its rise, the rise on Consolidated Gas having a good influence. That stock rose 2¼ points, General Electric 2¼ and Chesapeake & Ohio, Denver & Rio Grande and Anaconda 1.

The market closed firm, but dull. Prices continued to improve upwards, but the rise was slow and added but little to earlier gains. There were some slight concessions in the late dealings.

PRODUCE.

Chicago, Feb. 8.—Wheat for May delivery touched a new high record mark for the season when it sold here today at 111⅛ per bushel. This point was reached on initial transactions after which prices eased off a trifle on profit-taking. The bullish sentiment was due to an advance of one pence in the price of wheat at Liverpool and to a predicted cold wave for the winter wheat belt in this country, a large part of which is now without snow protection. Prices at the opening were ¼ to ⅝ to ¾ higher, compared with the previous close. May opening at 1.10⅝ to 1.11⅛. During the early part of the day May held within the opening range

The bulge in wheat caused considerable strength in the corn market.

May opened ¼@¼ higher at 63⅞ and held within that range.

Notwithstanding the strength of wheat ano corn the oats market was barely steady and dull. May opened a shade higher at 51⅞@52 and sold at 52.

Provisions opened steady, but weakened on the liberal stocks of provisions in this country. Prices at the opening were a shade lower to a shade higher.

The opening high point was surpassed during the last half of the day when May wheat advanced to 111⅝ on a fresh burst of bullish enthusiasm. This high lever, however, was maintained only for a short time, prices declining
