THE JUDGES OF ELECTION.

Preparing the Machinery for the November Election.

The Utah Commission Naming Those Who Will Receive Ballots at the Polls.

The opening of the second day's work of the Utah Commission since it resumed its session in this city was made today, when the members of the board continued their labors of naming the judges to act at the general election in November. The commissioners present today were Chairman Williams and Messrs. Parsons, Godfrey and Lyle. The first county taken up was Sanpete, and others followed in the order named. Of the judges appointed yesterday afternoon, as mentioned in last evening's NEWS, the list was prepared too late for publication yesterday, but is given herewith. The politics of each appointee is indicated wherever known, as D., R., Democrat and R. Republican. The commission has aimed, in the appointments made thus far, to select two Democrats and one Republican, though in a few cases this rule has been departed from because in some precincts there were not enough Democrats to find two of three judges, and occasionally there were precincts which the county register said he had been unable to find Republicans for. There were also instances where it was not known whether the persons suggested were either Republicans or Democrats, as partisan politics had not caused any market division. The judges named go to the wilderness are as follows, the list of counties being given in the order of selection by the commission:
