OVER $20,000 IN— GOLD FOUND

The greatest find in the history of Utah; by which over seven hundred people are made to rejoice, and the end is not yet.

When we look into the past for a few months it seems impossible to dig up this much gold; but on the other hand, when you see how it is done you will not wonder, or be surprised, although times are hard. For the past few months we have only been doing that which we thought her, and have secured for those interested the above amount, one of the best records ever known.

And when we consider that there is now $10,000 to be divided among the people, we can only say to the public, come early and get your share. There will be no partiality shown, as we have made arrangements for plenty of help, who will make it pleasant for you.

Now, the above $10,000 consists of Dry Goods, Notions, Boots, Shoes, Clothing and Gents' Furnishings, Plush Capes and Wraps, which we must get rid of at your own prices. So we say once more, and especially to the stockholders, that you cannot afford to miss these great reduced prices without investigating. Sale now on at the

DESERET EVENING NEWS.

Wednesday, September 6, 1893.

FRAGMENTS.

CHIEF JUSTICE ZINN has been sompiled in consultation today.

COMMISSIONER PEARY has had quite a run of criminal cases on his docket during the last few days.

THERE will be a meeting of the Lakeside Shooting club at Browning Bros.' store tomorrow night.

THE city schools will open on Monday next on which date some of the new buildings will be opened for the first time.

THE County court held another session this morning. It was simply for the purpose of hearing of bonding up the appropriation taken in hand yesterday afternoon. It was an unusually long one this time.

MARRIAGE LICENSES have been issued to David J. Wade, 24, and Mary E. Pinchard, 20, of Salt Lake, to Thomas James, 23, of Salt Lake, and Mary Ann Cartwright, 23, of Box Elder; to John G. Peart, 26, and Sarah Hilton, 21, both of Salt Lake.

AT a meeting of the stockholders of the Taylor-Spaulding company it has been resolved to change the name of the organization to that of the Utah Produce and Construction company. This amendment was filed with the county clerk today.

THE accidental shooting of Valentine Clays, son of Dodd and Mary Clays, by a companion in Emigration canyon a couple of three weeks ago proved fatal last evening. The deceased was in his fourteenth year and his death comes with crushing force to his parents. Funeral services will be held at the family residence No. 231 south, Eighth East street, at o'clock tomorrow afternoon.

REFERRING to a certain motion at the meeting of the City Council last night Moran said: "The committee (city building committee) now itself up on knowing a great deal." But who is chairman of that committee hastily interrupted Mr. Moran by saying: "I beg to differ with you. We make no such claim or pretension." This frank confession so promptly deserted Moran that he dropped into his seat without saying another word.

AMUSEMENTS.

"Urania" at the Theater Thursday and Friday Evenings.

"A TRIP TO THE MOON" will be presented Thursday evening and "Wonders of America" Friday evening. This entertainment is not a panorama but a grand scenic spectacular marvel such as has not been seen in the west before.

THE SUDAN.

Among the rare productions in a meritorious way which the citizens of Salt Lake will witness during the present season, is C. H. Jefferson, Klaw and Erlanger's company in the Sudan, which comes to us after a whole season's run in Boston and over 200 nights in New York. The leading parts from all accounts are sustained with intelligence and zest. The engagement here begins on Monday evening next, and is limited to three nights.

CITY COUNCIL DOINGS

Mayor Bachin's Sewer Last Condemnation Title Sustained.

SUB-PAVING CONTRACTORS' CLAIMS

Westland Introduces a Home Industry Resolution.—Folland's Warrant Ordinance.

The City Council met in regular session last night. The members in attendance at roll call were: Rich, Hardy, Kerrick, Bell, Evans, Hoba, Simondi, Beardsley, Westland, Lawson, Moran. President Lambourne being absent Councilman Hardy was called to the chair.

THE PROCEEDINGS.

Henry W. Lawrence and others asked that Romes be placed in the open ditches at the crossings on Birch and Herbert streets on the west side of State street, being the first street south of Ninth South street. Committee on irrigation.

G. M. Barlow and others asked that certain alleged tannery nuisances be stated. Committee on sanitary rules and regulations.

St. V. Lechtenstein in a communication stating that the Cummer-Jennings Paving company was indebted to him in the sum of $198.15, which he was unable to get, and asked that a committee be appointed to investigate the claim. He also stated that he was unable to complete his paving contract for the want of funds. Laid over temporarily and then referred to the board of public works.

Joseph S. Walden, county registrar, represented that there was some dispute as to the boundary line between the Third and Fourth precincts. He asked that it be officially defined at some to prevent election difficulties. Referred to the city engineer with power to act.

The Rocky Mountain Bell Telephone company sent in a communication asking a reconsideration of the ordinance levying an annual tax on its poles. Referred to the Mayor.

Charles Ringquist applied for the position of special policeman without pay from the city. Committee on police.

Spencer Clawson, George A. Lowe, M. S. Sowles and D. C. Roberts, executors of the estate of Rolfrar Roberts, deceased, asked that the special tax levied against that portion of their property (Broadway, a private alley) facing on First South street between East Temple and State street be remitted on the ground that said alley was a greater benefit to and wanted more by the public than by the owners. Committee on streets.

Angus M. Cannon Jr. and others asked that Third East street between Sixth and Ninth South streets be graded; also that an electric light be established at the corner of Eighth South and Third East streets. Committee on streets.

AGAINST LE SUEUR.

J. N. Estes sent in a communication accompanied by an itemized statement, stating that St. V. Le Sueur was indebted to him in the sum of $457.41 for work and material furnished upon the streets. Mr. Estes further stated that Mr. Le Sueur admitted the indebtedness and had given orders to the Cummer-Jennings Paving company to pay the same, but that the latter had refused to do so, alleging that they were not indebted to Le Sueur. Estes was of the opinion that the company owed Le Sueur a large amount of money and asked that the city withhold an amount sufficient to pay the bill, also that steps be taken by the board of public works to secure payment for work done on the streets of the city, which the contractors fail or refuse to pay. Referred to the Mayor.

THE SUGAR HOUSE WATER DEFUTE.

The communication of John R. Smith and other Sugar House ward residents published in full in last evening's NEWS, in relation to a disputed water right, was referred to the land and water commissioner, committee on Jordan canal and irrigation and city engineer associated.

CONDEMNATION PROCEEDINGS.

The following veto message was received from the Mayor:

I herewith return disapproved the resolution passed by the City Council on the 27th day of August last, "instructing the city attorney to cease to institute proceedings to condemn for sewer purposes, the tract of land recommended" by a majority of the special committee appointed by the City Council to investigate and report upon the subject of the purchase of land at the terminus of the gravity sewer, for sewer purposes, for the following reasons:

Only about thirty acres of the eighty-eight acre tract which it is proposed to condemn is at all suitable for the purpose for which it is intended. While thirty acres of this land would do in a pinch, its qualities and location are not near up to the standard of what is required in a system of the sewage extraordinary. Its elevation and qualities are deficient because the surface is low, rather down in comparison by a very hard gas which is impervious to water. In consequence of this such water shall have been turned on, in a short time the surface will become flooded to a degree sufficient to retard the growth of vegetation and when turned off the surface will soon become dry, hard and cracked in a degree to greatly injure anything planted on the same.

The location is defective because from it the distribution of the sewage over the adjacent arid lands cannot be advantageously accomplished. If the proposed location be chosen it will shorten the length of the sewer about one-half mile, and as the distance mentioned is already trenched, ready for the sewer superstructure, the advantage of the line will require the lifting up of this trench, the payment to the contractors several thousand dollars for excavating the trench and a loss of the amount paid for the right of way over the half mile thus abandoned.

If the sewer shall be pushed to its intended terminus, about 150 yards beyond the point up to which it is at present convenient, it will come out on the surface on a piece of land owned by the Cummer estate, at a point where the water can be easily and advantageously distributed to the south, southeast, west, northwest and north, over many thousand acres of land well adapted to the absorption of the sewage. The Cummer estate is composed of about 135 acres. The soil is gravelly, very much deeper and more fertile than the proposed tract of eighty acres, and infinitely superior in its adaptation to the purposes mentioned.

The city representatives of this sewer will consent to condemnation proceedings, and will agree that in assessing damages it could not be fixed at a sum in excess of $125 per acre, as I have been informed by some of the parties interested in the section.

The city engineer made no mistake in carrying the sewer to the point indicated by his course, and if the way was put to be done under my own supervision, I would, in the light of the information which I have since obtained, direct the sewer to be carried to the point where the present sewer terminates it.

I therefore recommend that you stop the land claim the city engineer or surveyor and seizes to take a part of the Cummer land, on which shall be indicated and described the portion of the same that is intended for the disposition of the sewage, and necessary for that purpose, and upon the return of such plan that you authorize the city attorney to institute proceedings in the proper court for the condemnation of the same.

The veto was sustained on a vote of eight to four and on motion of Rich the recommendations to the mayor were adopted and referred to the engineer and attorney with authority to commence condemnation proceedings at once.

HEAVY APPROPRIATION.

The board of public works reported recommending the payment of the eighth partial estimate to the city engineer on paving and curbing East Temple street, in favor of Cummer-Jennings paving company to September 1st amounting to $25,278.42; 80th partial estimate of the engineer on paving and curbing West Temple street in favor of the Pacific paving company of Utah to September 1st, $13,368.41.

A NEW BRIDGE NEEDED.

The street superintendent represented that it was necessary to construct a new bridge on Ninth South and State streets and that it would take 400 feet of lumber. Committee on streets.

SEWER ASSESSMENTS CONFIRMED.

An ordinance confirming the assessment made by the treasurer and recorder of Salt Lake City, as corrected by the City Council, as a board of equalization and review upon the lands and lots and parts of lots on the west side of Sixth East street between South Temple and First South streets, sewer in district No. 4, for the purpose of constructing a sewer in the aforesaid boundaries was passed under a suspension of the rules.

ENGINEER'S ASSISTANT.

The special sewer committee recommended that the city engineer be given an assistant on the gravity outlet sewer. After being discussed for forty minutes the communication was referred to the to the board of public works.

COMMISSIONER PENDLETON.

Land and Water Commissioner Pendleton sent in a communication stating that his duties in Emigration and Parley's canyons had been multitudinous since his last report. He had served notices on several squatters and reported the matter to the city attorney and had filed a protest with the county court in the matter of one J. Hansen, who claims certain springs in Parley's canyon. He had also constructed about three miles of sleigh trail, disposed of a num er of dead animals and done other work beneficial to the city's interests in the localities mentioned. Irrigation committee.

A HOME INDUSTRY FIAT.

Westland sprung the following resolution at the point of adjournment:

Whereas, In the present condition of business it is the duty of the people to give loyal support to the manufacturing interests of the city.

Resolved, That each employe of the city be required to sign an agreement that he will, in good faith, give preference to purchase for himself and family to home manufactured goods.

Resolved, That the uniforms of policemen and the department employes must be of Utah material.

Resolved, That the clerks now in the employ of the city be required to put in such overtime as may be necessary to prepare a statistical report covering the manufacturing interests of the city, and that the work be performed under the supervision of the committee on statistics.

The resolutions was defeated on the following vote:

NOES—Beardsley, Bell, Hoba, Kerrick, Moran, Rich—6.

AYES—Evans, Hardy, Lawson, Simondi, Westland—5.

FOLLAND'S WARRANT RESOLUTION.

City Attorney Rogers, reporting on the matter of the ordinance introduced by Councilman Folland at the last meeting relative to authorizing the county collector to receive city warrants and certain receipts for city taxes, stated that he saw no objection to the first section of the ordinance authorizing the receipt of warrants in payment for taxes, but suggested an amendment to the second section, as it did not come within the provisions of the law. He was of the opinion that the legislature intended that companies should be named in the ordinance whose receipt should be received in lieu of taxes, such as the Mag or ar treasurer or others. Filed.

APPROPRIATIONS.

Appropriations were made as follows:
