ON BEAR LAKE'S SHORES.

Laketown Farmers Experience Cold Weather.—An Educational Treat, Etc.

LAKETOWN, Rich Co., Utah, May 25th, 1898.—Our crops — that is the grain—are in, but are greatly retarded by the very cold weather we are having heretofore. At this writing the atmosphere is so cold as to make one wish he had not cached his winter clothes. Overcoats and overshoes are more to be desired than great riches, indeed.

Dr. K. G. Maeser delivered a very effective address here the other evening to a large and appreciative audience, on the necessity of all using their gifts, graces, opportunities, etc., for the benefit of mankind, and to the glory of our heavenly Father. He illustrated very instructively and delightfully an the parable of the ten virgins, and specially impressed his hearers with the great responsibility that rests upon all the older people to set the young such examples, by practice as well as by precept, as will be safe for them to emulate in the formation of their characters. Dr. Maeser was accompanied by Bishops McKinnon and Calder, who added a few well-chosen enforcing remarks. The visiting brethren departed on the morrow for Randolph, where they visited the L. D. S. academy with excellent results.

At a meeting of the water owners held here last Wednesday, Christopher Kearl was unanimously elected water master for the ensuing irrigating season. The "boys" got down to business and no nonsense, and it was the best water meeting we ever remember attending. We hope everything will work like a charm now we have so well begun.

Hoping that ere we shall next write you, a warmer clime, and not too uncomfortably so, will be our lot, we remain,

Yours truly,
JOSEPH IRWIN.

A Criticism.

Editor Deseret News:

With all deference to the doughty Frank G. Carpenter, permit me to enter my protest against the spirit of his article in your issue of last Saturday entitled "Organized Celestial Crime." It sounds as if the great correspondent had so far transgressed his usual desire for fair play as to lend himself, at the least, to misrepresentation. In looking through his article, one has but to read "Mormon" in in the place of "Chinese" to make himself believe he is reading an old time article from the anti-Mormon organ; as for instance, "The people east of the Rocky Mountains do not understand the Chinese question as it exists here;" and again, "They (the Chinese) have no respect for American laws and they do as their Chinese rulers dictate." That last is as familiar as darkness. Here is another: "Were I to tell you that the Six Companies have sentenced not one but twenty men to death, and that the sentence in every case has been executed, I would tell you only what each man as C. R. Harton, a newspaper reporter who has made work among the Chinese a specialty for ten years, has time and again published over his own signature."

How often have we read that sentiment expressed against the Latter-day Saints and wondered if the readers could not see that if it were true, the lives of their delusers must have been marvelously preserved through the years! Without, however, extending this notice, I enter a criticism against the article for this, that it bears on its face the stamp of unfairness, and has the appearance of an intention to justify persecution.

Denmark's Day.

The Danish consul for Utah (Peter Hansen) is in receipt of a general invitation from the Danish consul general at Chicago to all Danes to attend Denmark day at the World's Fair on June 5. An entertaining program has been arranged, addresses will be made by national, political and church leaders. June 5 is the anniversary of Denmark's independence and therefore a Danish holiday which is celebrated by Danes all over the world.

A Graceful Testimonial.

The NEWS is requested to publish the following resolutions, unanimously adopted by the Utah County Teachers, in last Saturday's Institute:

Whereas, Our worthy and highly esteemed friend and co-laborer E. A. Wilson has resigned his position as superintendent of the public schools of Utah county, and

Whereas, It is our knowledge that he has been energetic, unceasing and faithful in the discharge of the various and responsible duties of his office, and has, at all times, devoted his utmost powers to advance the cause of education and harmony, by his courteous and affable manner, together with his fairness and impartiality as president of the Utah County Teachers' association, he has invariably given the highest degree of satisfaction. Therefore be it

Resolved, That we, the members of the U. C. T. A. in session assembled, do hereby unanimously endorse the official acts of E. A. Wilson, and that we, each and all of us, deem it a pleasure especially to declare our most earnest appreciation of his past labors. And be it further

Resolved, That a copy of these resolutions be suitably engrossed, also entered on the records of this association and published in the Inter-Mountain Republican and two or more newspapers having general circulation throughout the Territory.

Later News of the Atlanta.

PAYSON, Utah, May 29, 1898.—I beg to inform the NEWS that the wreck of the lost ship Atlanta has been seen again recently—the vessel which left Bermuda in the latter part of January, 1886, homeward bound with 300 young men and officers, about thirteen years ago, and was never heard of. Three years since a vessel or wreck was seen that answered the description of the above named—a sunken, square-rigged vessel, spars only above water, yard arms with sails attached visible under water in twenty-two fathoms. The steamer Gregory at New York on April 29, on April 24 in lat. 33.11, long. 69.40, passed a vessel bottom up about 150 feet long, very dangerous to navigation; the actual length of the lost ship Atlanta is 151 feet, so the captain judged pretty well as regards the length of the vessel; also that the wreck is in about the same latitude and longitude as mentioned in the last impression made in the DESERET NEWS in February, 1896.

Severe Windstorm.

The windstorm on Monday night approached the violence of a hurricane at times and damaged considerable property. Sheds, outhouses and shade and fruit trees were blown down in all parts of the city while sign boards and awning in the business district were torn about and torn from their fastenings with an ease that was astonishing.

At Saltair the wind caused a good deal of excitement among the workmen and everything in the shape of loose lumber was carried far into the lake while all shavings, chips and scraps of building material disappeared completely.

ARE YOU THINKING

Of what you ought to take when you go to the World's Fair? Your outfit will not be complete without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The change of water and diet, fatigue and irregular habits, during your trip are almost certain to produce diarrhoea and a dose or two of this remedy may save you serious sickness and perhaps much expense. Procure it before leaving home. 25 and 50 cent bottles for sale by Z. C. M. I. Drug Dept. 5d s
