ONTARIO TUNNEL ONCE MORE OPEN

Drift Around Break is Completed At an Early Hour This Morning

MINE IS NOW BEING DRAINED

A Subject of Congratulation Both to Ontario Stockholders and Their Neighbors as Well.

The good news reached the city this morning that water is running through the Ontario Tunnel at Park City. The workmen broke through the drift at 5 o'clock this morning, and workmen had to scamper out of the tunnel to save themselves. Manager Rood, when seen, said that he had heard no details, but that a dispatch informed him that the water was running through the drift into the tunnel and that the mine was being drained. The management is to be congratulated on the completion of this work, which has occuped a portion of the summer and caused the all operations else at the mine. There can be no question but that a campaign will be soon started and that the old producer will again come to the front. It means much to Park City and other mining companies which are contiguous to the Ontario. A mine owner remarked that it was the best news for some time, not only for the old mine, but for its neighbors.

MORNING ON 'CHANGE.

Stocks Continue Strong and Volume of Business Fair.

After a holiday, the Mining Exchange opened up to a good business with prices generally strong. Daly is in the raise and sold at an even dollar, closing with $1.05 bid and $1.25 asked. Daly-Judge recovered at sale on $6.65, while Daly West was held at $14.50. Little Bell sold as high as $1.90, while Wabash was dealt in at 75. Beck Tunnel is still going up, holders asking 26 cents for the stock. Boston Con. is strong, with $19.25 offered, and U. S. Mining was held at $39.85 per share. Columbus Con. was something of a feature at figures from $2.14 to $2.20 per share and upon the whole may be said to be stronger. The remaining stocks have but slightly changed, the market closing as follows:

To Inspect the Cactus.

Samuel Newhouse and a number of eastern investors left last night in his private car for a visit to the Cactus in Beaver county. Before leaving Newhouse stated that he had received eastern advices to the effect that Boston Consolidated stock had gone up to £4 5s. or $20.50 in our money on the London stock market.

DRILLING CONTEST.

New York Millionaire Hangs Up a Purse Of $1 000.

El Paso, Tex., Nov. 8.—Col. W. C. Greene, of New York and El Paso, the noted copper miner and millionaire, has wired a draft for $1,000 for first prize in the rock drilling contest to be held in this city during the meeting of the American Mining congress, Nov. 14 to 18.

The committee in charge of the contest has reduced the entrance fee from $50 to $30, and with the first prize increased from $800 to $1,000, it is expected that the list of entries will be large.

Already entries have been made from Cananea, Mexico; Tombstone, and Bisbee, Arizona; Tonopah and Goldfields, Nevada; Cripple Creek, Colo., and several places in Sonora.

The best drillers in the country will contest for the prizes and attempt to make new records. The world's record was established here two years ago and has never been broken.

SCHWAB AT GOLDFIELD.

Reported That He Has an Eye on Salt Lake Smelters.

According to the Goldfield News Chas. M. Schwab, the noted steel magnate, is about to enter the smelting trade. The News began by stating that Schwab has started by forming a company for the purpose of building a sampling plant at Tonopah, capitalized at $200,000. Of this 30,000 is to be issued at once and the money used in constructing the plant. Mr. Schwab has subscribed for one-half of the stock and the remainder is being subscribed for eagerly by Nevada mining men at $1 per share.

Enlarging on the steel king's intentions the News goes on to say:

"He and his associates are now negotiating for the purchase of the mines and smelter properties of the United States Mining company, which owns some of the largest mines and one of the largest copper plants in Utah, and also the Mammoth copper mine and smelter in Shasta county, California, the price being $7,000,000. They have also taken an option on the Pacific Coast Copper smelter at Martinez, on San Francisco bay. To acquire these holdings and build the plant at Tonopah the outlay will be close to $10,000,000, with the possibility of further large investments once Schwab settles down to business. His record in the steel industry has proved his aggressiveness and it is not probable that he will rest content until he has reached a greater acme of success in the smelting trade than he did when he captained the greatest amalgamation of iron and steel interests the world has ever known."

While not calling in question the honesty of the Goldfield News, the Deseret News has made careful inquiries of the Utah companies mentioned and can say that there was nothing in the story.

BUDDING BONANZA AT GOOD SPRINGS

Salt Lakers Coming Up From the Camp Speak of it in Glowing Terms.

WILL SOON BE BIG PRODUCER.

Cyanide Mill for Red Cloud—Potosi is Shipping Six Cars of Lead Silver Zinc Ore Weekly.

James M. Kennelly, the well known mining man, reached this city yesterday from Good Springs, Nevada. He brings an interesting budget of news from the new Lincoln county camp, which he says bids fair to be one of the best in that portion of Nevada. Good Springs is about to be a big copper producer and several of the mines, notably the Doubleup group are developing a large amount of the red metal and a string of prospects are being worked, any one of which may turn out to be a mine in the near future.

Speaking of the older mines in the camp Mr. Kennelly, says that the Red Cloud people have about completed their cyanide mill and will soon be turning out an amount of cyanides enough ore having been blocked out in the mine to keep the mill running for a long time. This property is managed by Mr. Byrum, the son of one of the original owners of the Horn Silver.

The Potosi, a lead-silver-zinc producer, is shipping at the present time six carloads of ore per week, and the mine is developing into a bonanza of no mean proportions. This mine is under the management of P. H. Mahoney, who is also in the city at present.

Mr. Kennelly says that there are a great number of other properties which will be worked during the winter and on the whole that the camp is in a fine condition.

WROTE OF DIAMOND QUEEN.

Bullfrog Booming and No Idle Men in The Camp.

W. H. Tibbals was in receipt of a letter this morning from Manager Waugh of the Diamond Queen Bullfrog, Nev.; in which that gentle man gives a fair account of this mine. Though not a strike in the strict sense of the word, he has uncovered in development a fine body of ore and is shipping ore which assays $77 gold per ton. He reports Bullfrog booming and says there is not an idle miner in the district and that men are put to work the same day they reach camp.

OPENING THE LITTLE MENDAH

Force of Men Will Leave for Nevada Camp This Week.

President Weight of the Little Mendah, Pioche, Nevada, has about completed arrangements for starting a winter's campaign at the mine. A force of men have been engaged and will leave for this Nevada comp before the end of the present week. Mr. Weight says that he has the capital in sight to keep the work of developing of the mine up for an indefinite period.

Opening Up Old Emma Mine.

Wm. Wantland returned yesterday afternoon from a trip to Alta. He states that Supt. Beveridge has opened work on the old Emma mine. This property is controlled by the same crowd which is now developing the Flagstaff. The mine is in the center of the ore bearing territory and will be heard from beyond a doubt.

Ore and Bullion.

The ore and bullion settlements reported by McCornick & Co. yesterday were as follows: Silver, lead, gold, copper ores, $39,700; base bullion, $48,400; total, $88,100.

CONCENTRATES.

Nevada exchanges are full of the greatness of the recent Stone Cabin strike.

M. M. Johnson of the Newhouse aggregation has gone to Colorado on mining business.

The Pioneer sampler reports 2 cars of Alta ore, 2 from Bigham and one each from Tintic and Nevada.

Manager Spiro and Supt. Kletley, of the Silver King Consolidated are at Park City today inspecting the mine.

Contractor Dedrichs will begin on the timber work for the additions to the Yampa smelter, Bingham, within the next two weeks.

Eastern papers aver that a squeeze is preparing for T. L. Lawson of "Frenzied Finance" fame. He is short on Utah Consolidated.

There will be a meeting of the directors of the Fortuna Mining company this afternoon, when a plan of campaign will be mapped out.

The Taylor & Brunton sampler had at their works this morning 8 cars of Tintic ore and one each from Idaho, Big Cottonwood, Stockton and Nevada.

The name of R. L. Colburn, figures in many mining items from Goldfield. The latest is in connection with a strike in the Hill Top group of which company the ex-Salt Leker is the secretary.

John M. Dick, vice president of the Majestic Mining company, and Director Schramm of the same company, together with Mrs. Dick left with the Newhouse party for Beaver county this morning. They will inspect the mines before returning.

The carload of ore in transit from the Pioche-Nevada Con. is composed of samples of different grades of ore taken from the ledge during development. The management says it does not expect sensational results, but the shipment is merely to demonstrate values. The car is expected in Saturday.

TEA

Is there anything good that isn't advanced by good tea? Is there anything bad that isn't kept down by good tea?

STOCKS OPENED SOME HIGHER.

Advance Not Long Retained, Professionals Realizing and Putting Out Large Lines.

SELLING WIPED OUT GAINS.

Seven Per Cent Rate for Call Loans Induced General Selling.

New York, Nov. 8.—Opening prices in the stock market today were higher than on Monday and a number of specialties shot up with some activity. Union Pacific and Amalgamated Copper made declines. Stocks did not retain their opening gains long, professional traders realizing and putting out large lines of the more volatile specialties. This selling wiped out the advances and drove a number of the standard stocks nearly a point below Monday's close. Northern Pacific, Atlantic Coast Line, Duluth, South Shore and Atlantic and Brooklyn Transit lost 1. Consolidated Gas 2 and General Electric 2¼. Metropolitan Street Railway, which had sold 3 points higher at 125½, reacted to 122½. A bulge in Reading to 140¼, or 3⅜ over Monday's final price, benefited the general railroad list slightly, but the local tractions remained heavy.

Large transfers of currency to the interior through the sub-treasury and a 7 per cent rate for call loans induced general selling and declines of a point or over resulted in the Pacific, Pennsylvania, Amalgamated Copper, Locomotive, Smelting, Republic Stee, preferred and others. Metropolitan Street Railway lost 2 and Reading reacted 2. Later Reading was run up again to 142, and Smelting rose 1¾ over Monday. Nothwestern gained 2 and Minneapolis, St. Paul and Sault Ste Marie, Reading second preferred and Lead 1. Lackawanna sold at 400, a decline of 25 points.

When the furious buying of Reading slackened the price went off to below 141 and the general market began to get ket began to get heavy. U. S. Rubber, U. S. Steel, Sloss-Sheffield Steel improved a point and Delaware & Hudson and Tennessee Coal 1½.

Concern over the monetary outlook led to an outpouring of stocks late in the day that drove some of the laders of the lowest. Prior to teh weakness referred to, Reading was practically the whole market, the speculation in it being on a colossal scale. Its price was steadily lifted on 1,000 share blocks to 143¾, a rise since Monday of 6⅝. The price relapsed to 141½ when the pressure became pronounced elsewhere. Rock Island declined 1⅞, the preferred 1¾, L. Paul 2¼, Missouri Pacific 2¾ and Consolidated Gas 2⅝.

Bonds were steady at noon.

PRODUCE.

CHICAGO.

Chicago, Nov. 8.—Active general demand for wheat today imparted strong tone to the market here. One reason for the urgent demand was a liberal decrease in receipts at Minneapolis and Duluth. Higher prices for wheat at Liverpool helped to stimulate bullish sentiment. May opened ⅜ to ⅝ higher at 89⅝ to 89⅞. With only light offerings the price soon advanced to 90.

Improved demand from exporters had a strengthening effect in the corn market.

May opened at ⅛@⅜ to ⅜@½ higher at 47 to 47⅛, and sold at 47⅛@47¼. The local receipts were 697 cars, with 42 of contract grades.

Oats were firm in sympathy with other gain. Decreased receipts favored the bulls. There was a fair general demand. Cash houses were the chief sellers. May opened a shade to ⅛@¼ higher at 32½ to 32⅝ and for a time held within the opening range.

Provisions were firm on moderate demand for pork and lard. Packers were fair purchasers of pork. May pork was up 7½ at 12.32½. Lard was up 5 at 7.02½. Ribs were 2@5 higher at 6.80.

Cash: Wheat—No. 2, red, 89½@91; No. 3, red, 87½@90; No. 2, hard 88@90; No. 1, northern, 90@92; No. 2, northern, 87@90; No. 3, spring, 82@88.

Corn—No. 2 —; No. 3, 46½.

Oats—No. 1, 32@32½; No. 3, 29¾.

Demand continued excellent the entire day and the market gained in strength as trading advanced. For May the highest point of the session was reached at 90⅝. The market closed strong with May up 1¼ at 90½.

Corn—Later May sold up to 47⅜. The market closed strong with May up ⅛@¼ at 47¼.
