Highest Award

For Supreme Excellence, to the PUTNAM HOT FORGED AND HARDER POINTED HORSE NAILS.

At the World's Columbian Exposition at Chicago. A medal and diploma worded: "Supreme excellence in material, method in manufacture, and quality of finished product; elasticity and smoothness combined with holding power in clinch. It allows the use of very small nails."

There is nothing lapped extreme convenience as is there anything compared to a horse not shoed? Can superior from which it is made, "the method of manufacture," and "quality of finished product." Putnam Nails, of their "elasticity," give elasticity to the expansion and contraction of the hoof while the head is in motion; hence "smoothness," do not enlarge the nail holes in the hoof, which their "extreme excellence" in "holding power in the hoof" enables them to hold the shoe in the natural service and with ease.

By the "use of small nails" large holes are avoided and danger averted to the shoe.

Think it will be admitted the choice of the World's Columbian Exposition, proves to what qualities are to make up a good horse nail and why the "Putnam" becomes more so.

THE PRICE OF IT.

Ah, there is the rub in these hard times. But consider what you save in so many ways. How you expedite your business, do speedily go around or attend to some duty with little loss of time that might otherwise be neglected. Think of the times you have gone home and been met by the wife of your bosom with the demand to know why you had not sent up the meat, and you recalled how, when you thought of it you put it off thinking to have more time later on, and then forgot it entirely until the inquiry came and your heart sank to your boots. How if you had had that cozy running, light and graceful "Stearns" Yellow Fellow—this acme and climax of bicycle construction—that errand could, say, would have been attended to in a jiffy. Result: Conscience easy; money saved; wife smiling and affectionate; life filled with happiness and contentment.

"Stearns" Special 21½ lbs. Guaranteed Road Wheel.
"Stearns" Model "A" 24 lbs.
"Stearns" "Lady Rosalind" 24½ lbs.

The racer. The only racer. The only racer that is in it. The only racer that is in it and holds 14—four-teen—world's records. Urgent that you find riders who want a racer that will get to the front.

GENDRONS 30 pounds. A splendid machine for light-weights or heavy weights. Backs up their love right up to time.
