The Consideration of Cost

often prevents thoughtful housekeepers from adopting improvements which they very well know would add to their comfort and save their strength. No such obstacle however, stands in the way of the use of

GOLD DUST WASHING POWDER

the modern cleaner, which is a blessing to any home. It helps keep house by keeping the house cleaner. It is not only the best preparation of the kind, but it is also by far the cheapest—larger packages cost only 25 cents. Get a package to-day. Be sure it is the genuine. Look for the darkey twins—the trade mark of the sole manufacturers—

NEWS OF THE WEST.

California Stockmen Agitated Over the Stopping of Cattle at Ogden.

SUGAR BEET HARVESTER CLAIM.

New Political Party Organized—The Man who Spanked Grover—Utah Cattle in Omaha.

Max Lowy died suddenly at San Francisco Sunday, of apoplexy.

The recent stopping in Ogden, Utah, of cattle en route east has stirred up a hornet's nest in the west.

There is danger of another great strike on the Northern Pacific, caused by a reduction of wages.

James McCarthy dropped dead in Oakland, Cal., last Sunday, from the effects of too much whisky.

South Omaha Stockman, March 16: J. Eldredge was here from Ogden, Utah, with two cars of range cattle. T. Yount also had one carload from Ogden.

John Buckley, 30 years of age, got into a row with Charles Gordon, at San Francisco, on Sunday, and received a blow from Gordon's fist which fractured his skull with fatal results.

The Deming, New Mexico, Headlight, in giving the account of the arrest of parties charged with cattle-stealing, says they were "engaged in branding steers not belonging to them."

The organized trades and labor unions of California have formed a new political party, called the [illegible] Labor Alliance. Twenty-three labor organizations are represented in the new party.

Thomas Davids, the man who spanked Grover Cleveland, when the latter, as a boy, was insubordinate in school at Hamilton college, Clinton, N. Y., in 1850, died at Los Angeles, Cal., on Sunday, aged 73 years.

On Sunday morning the doors of many residences in Oakland, Cal., were discovered to have been marked with hieroglyphics during the night. Many women and superstitious people were very much frightened over the markings, which the police declare to be the work of mischievous boys.

An Italian named Antonio Fuscari was fatally injured Sunday afternoon by being struck by a falling tree while cutting wood near Lorys, Cal. His legs were broken and he was pinned to the earth by the tree, and found to a prisoner for two hours. His companion was so badly frightened that he could not render no assistance, simply sitting beside his injured friend and crying until help came.

Ex-Governor Pennoyer has consented to become a candidate for mayor at Portland, Oregon, at the coming election. He says: "I will not accept the nomination of any party, but if it is a mere to the otherwise, I may consider it." Pennoyer is the individual who, when governor of Oregon, sent an insulting message to the President of the United States shortly after Mr. Cleveland's inauguration.

Mr. John Higgins of Schuyler, Neb., confirms the report that water is welling up from the ground in that locality. On his own land where there has been practically no rainfall for two years water is now found in the runs and creeks that have been dry for months and wells that have long been dry are also filling up. Reports from others throughout the state are similar and indicate that moisture is coming from below. Various reasons are assigned for this, the most plausible being that it seeps through the ground from the mountains. This is further strengthened from the fact that springs that have been dry for two years are again flowing freely.

A Nebraska man has patented a sugar beet harvester that he claims will both top and dig one row of beets perfectly, and as rapidly as the team is driven. The machine is elevated on four wheels, the forward wheels being placed nearer together than the rear ones and only striding one row, while the rear ones stride three rows. The cutter or topper is operated by the driver, who by means of a treadle elevates or lowers the knife quickly and at will, as may be necessary to cut off the top of the beet at the base or the bottom of lower leaf. He makes the further claim that he has had a crude machine made, and worked the past season with the above results. By using this machine a saving of $4 per acre is claimed over other methods of harvesting.

California cattle-raisers are indignant at what they claim is a willfully perverted application of the law for the inspection of live stock in the interest of Eastern beef-packers. In accordance with instructions from the department of agriculture, cattle shipments to the East have been stopped for an indefinite period under the assertion that the cattle are diseased. A trainload of thirty cars shipped from Amadee, Cal., was quarantined at Ogden Friday by government officials. An inspection showed the animals to be free from disease and in excellent condition, yet they have been detained in quarantine and the shippers say the promulgation of the order through the bureau of animal industry is due to the influence of Eastern packers, who fear California competition. A circular has been issued by that bureau, notifying dealers and transportation lines that contagious and infectious disease known as splenetic or southern fever exists in the cattle in California, as well as in Arizona and New Mexico, among the coast states and some of the middle and southern states as well. California cattle-owners claim that the disease does not exist among their cattle and that the quarantine is a scheme to boost the market by shortening the supply.

HIS NOVEL IDEA.

To Prevent Fowls From Crowding at Feeding Time.

I note your article, Oct. 15, says a writer in Farm Poultry, in which Mr. Campbell offers a 200-egg incubator free to any one giving him an idea which will keep chickens from crowding at feeding time. Now I have for the past five or six years raised about 100 for myself, and have had partly the care and feeding of a flock of about 300 for my employer, and have had just experience enough to know that chickens will crowd at feeding time and receive more or less injury. I have an idea which to me seems perfection. If I understand Mr. Campbell aright, he wishes to raise 200 or 300 in one flock, which I do not think prudent. However, my idea is that to raise this number in one flock requires quite a large run.

Take the end or side, whichever it may be, nearest where you enter. Cut off a small feeding yard by means of a board fence; this yard to be used only for feeding purposes. The fence is to be built zigzag or saw tooth, commencing at one side of the yard with a 10 or 12 foot board running an angle outward. Then at the end of this board leave a space of one foot; then with another board come back to the line from which you started, and so on across the yard. This fence to be 6 or 7 feet high. Then with a board a foot wide close up the space to within a foot of the ground, which leaves an opening a foot square. Then put on a drop slide attached by a cord at the top, passing through pulleys to the center of the fence, serving all slides the same, making all cords fast to one piece of rope.

The feeder comes in, places the feed at his leisure, steps up and pulls the rope, and the chickens come in at all slides, preventing all crowding whatever, for the very reason they have no particular slide to crowd to, as they get in at one as soon as another. They will not crowd at the inner angle, because they do not get in there. If they try to crowd to the outer angle, it will split the flock, and half will go each way.

A NO-TO-BAC MIRACLE.

Physical Perfection Prevented by the Use of Tobacco.

An Old-Timer Cured After Using Tobacco Twenty-Three Years—He Gains Twenty Pounds in Thirty Days.

LAKE GENEVA, Wis.—Special.—The ladies of our beautiful little town are making an interesting and exciting time for tobacco-using husbands, since the injurious effects of tobacco and the ease with which it can be cured by No-To-Bac have been so plainly demonstrated by the cure of Mr. F. C. Waite. In a written statement he says: "I smoked and chewed tobacco for twenty-three years, and I am sure that my case was one of the worst in this part of the country. Even after I went to bed at night, if I woke up I would want to chew or smoke. It was not only killing me, but my wife was also ailing from the injurious effects. Two boxes of No-To-Bac cured me, and I have no more desire for tobacco than I have to jump out of the window. I have gained twenty pounds in thirty days, my wife is well, and we are indeed both happy to say that No-To-Bac is truly 'worth its weight in gold' to us."

The cure and improvement in Mr. Waite's case is looked upon as a miracle—in fact, it is the talk of the town and county, and it is estimated that over a thousand tobacco users will be using No-To-Bac within a few weeks. The peculiarity about No-To-Bac as a medicine is that the makers, the Sterling Remedy Co. of New York and Chicago, authorize every druggist in America to absolutely guarantee the use of three boxes to cure or refund the money, and the cost is so trifling, as compared with the expensive and unnecessary use of tobacco, that tobacco-using husbands have no good excuse to offer when their wives insist upon their taking No-To-Bac and getting weight in the way of pure, sweet breath, wonderful improvement in their mental and physical condition, with a practical revitalization of their nicotinized nerves. No-To-Bac not only cures the tobacco habit but restores vitality and nerve vigor. It is indeed a miracle worker for weak men, and the public is warned against having imitations palmed off on them, as the great success of No-To-Bac has brought out a host of counterfeits.

Marvelous when undergoing much strain of Body or Brain.
