THE SLUMP IN MINING STOCKS.

It Continues, and Bids Fair to Continue for Several Days.

CONDITION THIS MORNING.

Nearly All Suffered a Severe Bear Movement, but Business was Decidedly Active.

The slump still continues. In the language of the learned linguist, stocks are getting no better very fast. There was a little one day are there by, the other down; but it is no longer so; they are going down, and for there to be one not acquainted with the fact, for it is a fact, a fact that is becoming more emphatic day by day, as holders see their dreams of wealth vanishing into thin air. Today's call was no exception to the rule established by the immediate predecessors. Stocks were heard and heard, until men stared wild-eyed astonishment and brokers chuckled in their sleeves at sight of a chance to pick up securities for a mere nothing. It was an awful slaughter, and bids fair to continue during the week, perhaps longer. Despite the weakness exhibited, traffic continued good and amounted to 45,000 shares sold the same with a selling value of $46,304.50.

Judy Wood was the first seller, a board for going at 9-75 and another at 9-87½. Then there were transfers of Dalton & Lark under 9 cents, while Daisy sold for 10 cents and Dexter continued on the road to rain, with shares changing hands between $2.25 and $2.25 and a lot for future delivery at $2.10. Four Aces, however, doubled firm and did business up to 14, while Mammoth felt the influence of bad company and fell along the line at $1.87 and from this to $1.80. Lower Mammoth was also weak and sold down to 84½, while Northern Light fell to $2 and had a closing bid of $1 with offerings a cent and a half higher. Sacramento was dull in all its subdivisions between 48 and 51, and Star Consolidated down to $1.10½, after which class No. 2 was taken up, these stocks contributing shares on a similar basis.

The tide to do business was Bullionback Tunnel at 6 cents. The Tunnel in Le Mar took a hand, the stock selling at 27½, after which Prince was dealt in at 18½ and Dalton threw out 1,000 at 2½. Golden Eagle was picked up at 75 and Hercules at 5, while Joe Bowers continued weak and sold at 14 and Bowers Extension was on the market below 6½. Little Pittsburg also came in for attention and was dealt in at 98, while Manhattan sold for a song, and Minnora fell in line with its neighbors, sales being made between 1 and 1½. Richmond Anaconda made a sale at 8½ and Stakeman declined to 21, while there was business in South Bruneson at 11-31 and in Valeo at $1.30 and $1.25.

The closing figures were as follows:

LISTED MINES.

Stocks.	Bid.	Asked.
Alice	1 40	1 45
Alliance	40	1 00
Alliance, pfd	21	30
Bullion-Beck	4 75	4 90

MARKET REPORTS.

NEW YORK MARKETS.

MONEY.

New York, Feb. 27.—Money on call steady, 2½ per cent.

Prime mercantile paper, 3@3½ per cent.

Sterling exchange steady with actual business in bankers' bills at 4.88@4.88½ for demand and 4.84@4.84½ for 60 days; posted rates, 4.84½@4.85 and 4.86½@4.87; commercial bills, 4.83½@4.84.

Silver certificates nominally, 59½@60.

Bar silver, 59½.

Mexican dollar, 47½.

Government bonds steady. State bonds inactive. Railroad bonds irregular. U. S. 2s, 1.07, new, to reg. & coup. 1.27½; 4s, 1.12½; 5s, 1.10, to reg. & coup. 1.13½.

STOCKS AND BONDS.

New York, Feb. 27.—The stock market betrayed the characteristic vogue of late, calling strongly after the opening with the speculative breaking badly. The standard stocks, however, showed good backing and the failure to promote liquidation in these shares started a strong rally, which was accentuated by shortness particularly the greater group became quite marked. Tobacco, on the other hand, moved steadily downward and there was weakness among the high-priced specialties.

Railroad bonds were quiet and fractionally irregular.

CHICAGO MARKETS.

PRODUCE.

Chicago, Feb. 27.—May wheat opened at 72½, declined to 72¼, rallied to 72⅝.

CLOSE.

Wheat—May, 72⅝; July, 72⅝.

Corn—Feb., 29¼; May, 30⅝.

Oats—Feb., 27¼; May, 28½.

Pork—Feb., 9.20; May, 9.27½@9.40.

Lard—Feb., 5.22½; May, 5.40.

Ribs—Feb., 4.65; May, 4.80; July, 4.95.

CASH.

Wheat—No. 2 red, 72@72½; No. 3 red, 69@71; 2 hard winter, 72@72½; 3 hard winter, 69@71; 1 northern spring, 72@73; No. 2 northern spring, 69@71; No. 3 spring, 65@71.

Corn—No. 2, 29¼@29½; No. 3, 29@29½.

Oats—No. 2, 27½; No. 3, 27½.

LIVE STOCK.

Chicago, Feb. 27.—Hogs—Receipts, 22,000; yesterday, 1,120. Market fairly active, 5c lower; mixed and butchers, 3.47½@3.60; heavy, 3.50@3.62½; light, 3.40@3.57½.

Cattle—Receipts, 12,000. Market steady to strong; beeves, $3.75@5.30; stockers and feeders, 1.75@4.75; Texas steers, 3.50@4.60; stockers and feeders, 3.10@4.60.

Sheep—Receipts, 11,000. Market steady; natives, 3.25@4.40; lambs, 4.00@5.60.

KANSAS CITY LIVE STOCK.

Kansas City, Feb. 27.—Cattle—Receipts, 1,000. Market steady to strong; native steers, 3.70@5.30; Texas steers, 3.15@4.90; Texas cows, 2.50@4.25; native cows and heifers, 2.15@4.50; stockers and feeders, 3.25@4.90; bulls, 2.30@4.65.

Hogs—Receipts, 4,000. Best steady; others weak. Bulk of sales 3.50@3.70; heavy, 3.60@3.72½; mixed, 3.45@3.70; light, 3.40@3.60; yorkers, 3.35@3.50; pigs, 3.30@3.45.

Sheep—Receipts, 3,000. Market firm; lambs, 3.50@4.60; muttons, 3.25@4.20.

OMAHA LIVE STOCK.

Omaha, Feb. 27.—Cattle—Receipts, 2,600. Market steady; native beef steers, 4.40@5.25; western steers, 3.75@4.60; cows and heifers, 2.40@4.10; canners, 2.25@2.90; Texas steers, 3.00@4.60; Texas cows, 2.25@3.25; stockers and feeders, 3.00@4.60; calves, 3.00@5.75; bulls and stags, 2.50@4.25.

Hogs—Receipts, 3,900. Market 5@10c higher; 5.00@5.25; bulk of sales, 5.15@5.20.

Sheep—Receipts, 4,000. Market dull; native sheep, 3.75@4.30; western sheep, 4.00@4.30; stock sheep, 3.75@4.00; lambs, 4.90@5.45.

DENVER LIVE STOCK.

Denver, Feb. 27.—Cattle—Receipts, 138. Market firm; beef steers, 3.50@5.00; cows, $3.20@4.25; feeders, freight paid to river, 3.25@4.60; stockers, do, 3.75@4.60; bulls and stags, 2.75@4.25.

Hogs—Receipts, 500. Market steady; top packers, 5.20@5.25; mixed, 5.10@5.20; heavy, 5.15@5.20.

No sheep.

SAN FRANCISCO MARKETS.

PRODUCE.

San Francisco, Feb. 27.—Wheat—Quiet; May, 81.56½; Dec., 81.87½; cash, 81.75.

Barley—Quiet; new, $1.02; cash, $1.10½.

LOCAL MARKETS.

Salt Lake City, Utah, Feb. 27, 1899.

POULTRY.

Below are wholesale buying figures on poultry, butter, eggs and cheese. The selling figure is 10 per cent higher.

There is a big demand for poultry and the market is very bare. Dressed poultry drawn, with heads and feet off, being figures as follows:

Turkeys, per lb 14
Geese ..... 12@11
Dusters 09

BUTTER AND CHEESE.

Dealers report the butter surely weakening, with prices for creamery gradually getting lower.

Creamery, butter 19
Cheese, Utah (new) 10

EGGS.

The egg market is not so well supplied at present, but prices are still weak.

GRAIN.

Wheat—59@61 cents per bushel.
Oats—$1.20@$1.25 per hundred.
Corn—$1.05 per hundred.
Cracked Corn—$1.10 per hundred.
Barley—$1.05 per hundred.
Rye—90 cents per hundred.
Shorts—$1.05 per hundred.

HAY.

Timothy—$10.00 per ton.
Mixed—$9.00 per ton.
Alfalfa—$8.00 per ton.

FRUITS.

APPLES—Good stock—Utah, in good demand, per bushel, 75@1.00.
PEARS—In good demand, per box, $1.25 to $1.50.
NAVEL ORANGES—$2.00 @ 2.50.
BANANAS—$2.50@3.00.

MINES AND MINING MEN.

One is being raised from the Triumph at Silver City.

It is said that the Anchor at Park City is about to erect a mill.

J. M. Wheeler and L. E. Riter of the south Bingham are in the city from Tintic.

The billing committee of the old exchange was booked for a meeting after this afternoon's call.

Bingham is being critically expected, and it is said that a number of deals are about to be closed up.

George Dern went out to Mercur this morning and will remain for several days gathering up the pay-roll.

The final clean-up on Ontario tailings has been made at the Mayme mill, Park City, and the mill is now idle.

The Bingham Treasure, South Shore Horn and East Bingham mining companies have filed articles of incorporation.

Frank Cutler, A. M. Spencer, Frank E. Knoff and S. S. Pond have made application for membership on the new exchange.

The Tonopah Chief, of Tonopah, Nev., has just made another high-grade shipment, the mine going 476 ounces silver and 6½ ounces gold to the ton.

The Eureka Hill mill at Tintic has been closed down, throwing about 75 men out of employment. Local officers of the company say the shut-down is but temporary, while others say it is to be run on custom ores.

The Juab County Republican has this: It is said that negotiations between the Centennial-Eureka and the Eureka Hill stand about: The C.-E. wants the E.-H. to give them their mill and the E.-H. wants the C.-E. to give them their mine.

Juab Republican: Report has it that this great ore-producer has now, under the intelligent and painstaking supervision of Capt. J. A. Kirby, four or five times more ore in sight than its Mill neighbor ever had, and that their output of ore to the smelters is highly gratifying to the stockholders.

Silver City Star: In the south drift on the lower level of the South Beaconsfield a richness of ore has been met recently that will greatly increase the earnings of the company for some time to come. The ore runs high in both silver and lead, and is of generous proportions.

OPERA EXCURSION
TO OGDEN, MONDAY.

Via Oregon Short Line. Round trip only $1.00. Special train at 8.00 P. M. Returning after performance.

BOOM IN STORE FOR LA SAL MINES

Eminent Experts Now Seeking Copper Properties There.

DEEP SNOW CUTS NO FIGURE

Rich Strike in Rich county—Stock Subphides of Copper—East Dip Incorporated.

A district that is bound to benefit by the present demand for copper is that of La Sal mountain in the southeastern part of Utah. In high altitude and perpetual snow do much to keep it from being traversed at this season of the year, but already, according to reports, mining experts are going in, for no other purpose than to examine properties with a view to investment. The camp affords abundant evidence of rich mineral wealth, and sooner or later some come to the front as one of the producing districts of the State. That it is just now being expected for prospective dials to extract from the Grand Valley. Those who saw Dist Mr. Hooper, the copper expert who visited the Lisbon district two weeks ago, returned home and made another visit to the mines, and left for Salt Lake Tuesday. It is very probable that a sale of some of the properties in that district will go through as a result of his visit. Mr. Hooper was much pleased in the samples of ores that were shown him from La Sal mountains and says there is much talk in mining circles about the prospects in La Sal, and a demand for more details, and that from present indications there is sure to be a rush there in the spring.

The Times also says that Messrs. Thatcher and Hippin, who represent parties interested in copper quarter properties, have been out this week to the Big Lisbon Valley district looking over some of the ledges. They left Friday morning for Salt Lake City. All of which shows that southeastern Utah is to receive due consideration and attention from men of means, willing to put their wealth into producing mines no matter where found.

EAST DIP INCORPORATED.

New Company to Develop Camp Floyd Claims—Aside Lauric Contract.

Special Correspondence.

Provo, Feb. 27.—The East Dip Gold Mining and Milling company has filed articles of incorporation with the county clerk, the object of the incorporation is to conduct a general mining business with Provo as the principal place of business. The properties of the corporation are the Cortada Nos. 1, 2 and 3 and the Cortada Wedge mining claims, situated in Camp Floyd mining district and valued at $15,000. The amount of the capital stock, which is divided into 250,000 shares of the par value of ten cents each.

The following officers are named: President, S. A. King; vice president, G. W. Craig; secretary and treasurer, W. H. Lee; directors, John Vith, G. L. Kerner and R. J. Kemper, form the board of directors.

The Cortada claims are considered very valuable, and having been found in the surface diggings. The ore body is said to be quite extensive, development work done by the former owners, J. F. Tyler and John Wilbeck, who sold to the incorporators of the East Dip company for $5,000 and 100,000 shares of capital stock. Work on the property will be commenced at once by the new company.

The Aside Lauric Mining company of this city, incorporated by Attorney Martin Washington in Tintic, has let a contract to R. F. Minor to sink the shaft on the property, about 50 feet. Work commences this week. The company's shaft is now down 100 feet and about 200 feet already been encountered in the shaft.

The following notices of location have been filed for record in Provo: Fairfield Mine, and the Silver Queen claims, in North Tintic district, by Edward A. Franks et al. The Boss Nos. 1 and 2 claims, in Tintic district, by Frank Travis et al. The Golden Polish mine in mouth of Cottonwood canyon, by David R. Robertson et al.

G. T. Bridges and J. B. Griffin, of this city, have filed notice of quit claim deed to J. M. Murry, also of Eureka, an undivided one-half interest in the following mining claims: Lexington, War Eagle and War Eagle Extension, situated in Tintic mining district, about 3,000 feet to the southwest of the Gold Ledge and Uncle Sam mines. The consideration named is $50.

Samuel McCauley has filed notice of location of the Wm. McNett mining claim situation in Alpine mining district.

Condition of the Fortune.

(Bingham Bulletin.)

The lower bottom of the Fortune group has now reached the extreme length of 1,800 feet. For a long distance it has been in a fine ore shoot that is "in and out" and carries a sure per cent of copper. A raise at 1,000 feet is up 15 feet, and here a pound of waste has come from it. The Keystone level, 100 feet above the Fortune, has been driven 1,100 feet along footwall. A raise in this level near its face shows a 12-foot ore body, mostly an excellent milling proposition but with varying streaks of first-class and all bearing copper. Owing to stormy weather shipments were suspended the past month. The tramway being open, however, about the 1st to 7th of March will be ready down, all ready for development work. The Fortune is in pressing need of milling facilities, there being over 1,000 tons of ore now on dump and large piles ready for stoping. Manager Hill hopes to have a concentrator running before many weeks.

Eight Feet of Copper.

Cy Wilcox has struck an eight foot vein of rich copper ore in the Eldorado, on Bear Creek, about four miles northeast of Park City. A 30 foot tunnel and a 40 shaft constitutes the work done on the mine. We have seen some fine specimens of ore from Garden City—Randolph Roundup.

Strack Subphides of Copper.

A.J. McMullen, who has just returned from a trip to Beaver Lake and who is now negotiating a deal for Eastern parties, brings with him evidence of a strike in the Beaver Lake mine in the shape of a good-sized piece of ore showing copper subphides. Speaking of it a request from the 100-foot level, Mr. McMullen says: The mineral in the best that has been struck there for a good while, and he feels elated over the condition of the mine, which it comes. He reports a nice vein of this class of ore, and believes that with development it will lead to the main body.

LADIES' KID GLOVES 50c. AT Z. C. M. I.

Two-clasp, Latest Styles, all shades and colors, worth $1.25 regularly. Sale this week.

LONDON MARKETS SHOW ACTIVITY.

Business in a General Way Continues on Sound Basis.

STILL NOT WHOLLY HAPPY.

Money is a Trifle Heavier—Strength and Calmness Prevail on the Stock Exchange.

New York, Feb. 27.—The Times' London financial correspondent cables: Business is in general very satisfactory but we are not quite as happy as I thought we were going to be. We are afflicted with a small multitude of wars that indicated to the empire. Money been rather dearer, too, the last week but was not so dearer on Friday as was expected. The money market at the bank of England was therefore unchanged and discount rates have already risen. Bills to arrive early in March are being taken at two per cent. The reason is that it is quite temporary, caused by a combination of stock exchange pay day and the distribution of over £3,500,000 in railway dividends.

Next month, however, the short money market is bound to be less easy than it has been since the year ended, though there is no reason to expect a great scarcity of cash. Firm money and a very dear money market probably lie.

Still we are not wholly happy. Our creditors are a big debt of £100,000,000 or more in the national income at the end of the fiscal year on March 31st, and they predict more of an increase tax. A deficit of some amount is certain because we are spending about £45,000,000 on our army and navy this year and seem to exceed that sum next year, but the government must avoid taxation if it likes by succeeding the wasteful terminable annuities in whose operation our sinking fund is bound to demand. That would set free about £100,000 I estimate, and enable us to make our estimates on a basis of peace for a few years more. It would be a terrible affair if we were obliged to—for there are not small grumblings. Tremendous labor troubles must follow at once and with them the disorganization of the iron and steel trades.

On the stock exchange the strength and calmness that have prevailed are nothing short of wonderful when we consider the apprehensions caused by the sudden death of President Faure and the state of Paris. Prices have been well supported and a large amount of business has gone on, chiefly, however, of the speculative kind and still in nine shares more than in American railroads. What comes the market will take toward those latter remained less clear but week that the week before, but I think the situation speaks from a slight trepidation about money rates more than anything else. Certainly our people and investors have received the Central Pacific and Southern Pacific schemes very enthusiastically, it is true, but wealthy and wise people doubt it. With more such stumbling blocks and in one side, it is better safe to be a well sustained advance in prices is open. But you must continue to hold, as a falling wheel would make still tighter of our still timid buyers.

Our Mitwell Dock scandal, a petty affair in itself, has caused quite an uncomfortable shock from the habit of paying dividends out of the capital. The Mitwell people collected less revenue than they paid away in dividends and so carried accounts in their books as still due that had been paid years ago, and sold fresh preference stock from time to time to make good the gap. In this way debts due the company rose from about £22,000 to £220,000 in the course of a few years. Many companies play the game but we are so other cards, either to write off losses or to replace them from reserves, or charging repairs and renewals against the capital, thus calling up their substance and leaving the books to post.

Mineral Land Entries.

The following persons made application during the week for patents for mineral lands:

Joe Bowers Mining company, by its Agent James A. Brown of Salt Lake City, for the Joe Bowers lode, in Tintic mining district, Juab county.

Joe Bowers Mining company, by its Agent James A. Brown of Salt Lake City, for the Hard Tack mine, in the Tintic district, Juab county.

William Hatfield of Salt Lake City, for the redemption numbers 1, 2 and 3 mines, in the Tintic district, Juab county.

Lion Mining company, by its Agent S. W. West, of Salt Lake City, for the Lion lode, in the Tintic district, Utah county.

C. H. Blanchard of Salt Lake City, for the Gold Ledge and Uncle Sam, in the "D and E" mines numbers 1, 2, 3, 4, 5 and 7, in the North Tintic district, Utah county.

Oh! The Pain Of Rheumatism!

Its Tortures Known to Thousands.

The aches and pains of Rheumatism become a constant companion to all who are victims of this disabling disease. The people generally are not acquainted with the cause of the disease, though thousands know its tortures.

Everybody should know that Rheumatism is a peculiar acid condition of the blood, upon which all liniments in the world can have no effect whatever. The best blood remedy is needed—one which is able to go to the very seat of the disease and force it out. Swift's Specific (S. S. S.) is the right remedy for Rheumatism, because it is the only blood remedy free from mercury, potash and other minerals which intensify the disease, causing stiffness of the joints and aching of the bones.

S. S. S. neutralizes the acid condition of the blood, and forces out every trace of the disease. It reaches even the worst cases where the doctors have made cripples with their prescriptions of potash and mercury.

My wife was for years a sufferer from Rheumatism, and was treated constantly, but could obtain no relief. The doctors said the disease was liable to strike the heart at any time, in which event death would be inevitable.

"Every kind of treatment recommended for Rheumatism was given, including widely advertised blood remedies, but none did any good. She grew worse all the while and was reduced to a mere shadow of her former self.

"It was at this critical period that S. S. S. was tried; the improvement commenced to reach the disease promptly, and she began to improve. One dozen bottles effected a complete cure, and she has had no trouble of Rheumatism since."

D. B. Jowers,
"Blacksmith, Ga."

Every one afflicted with Rheumatism should take Swift's Specific, the only remedy which can reach their trouble. S. S. S. will cure the most aggravated case of Rheumatism, Catarrh, Cancer, Contagious Blood Poison, Scrofula, Eczema or any other blood disease. It is guaranteed
