Fatal Collision.

NEW YORK, 22.—About seven o'clock the Erie ferry boat *James Fisk, jr.*, collided with a schooner off Pier 47, North river. The blowing of the steam whistle and cries for help attracted the attention of boatmen on shore, who put out in the fog in the direction of the sound and rescued three passengers of the *Fisk* who had been swept overboard by the jib of the schooner. These reported that several standing beside them at the time of the collision must also have been thrown into the sea. A deck hand of the ferry boat was killed. The schooner was subsequently found at the dock and badly shattered. The ferry boat had her guards and a portion of her cabin torn away.

The Pope's Choice of Name.

The new Pope's choice of name is explained by the statement that Popes generally assume as their new names those of their predecessors with whom they have had intimate relations, or who may have introduced them into their ecclesiastical career. Thus the late Pontiff, who in his youth was sent on an important mission to South America, assumed in gratitude the title of Pius IX, and thus Cardinal Pecci, who was introduced into the sacdemic ecclesiastics by Leo XII, assumes the title of Leo XIII.

In personal appearance and his cultured manner, Pope Leo XIII somewhat resembles Cardinal McCloskey. He has keen, penetrating eyes, is very gentle and courteous in deportment, exceedingly amiable, quiet and self-possessed, and has a clear, quick acting and penetrating mind.

Another authority denies the story that Cardinal Pecci was not liked by Pius IX, who withheld for seven years the hat that had been given him by George XVI, and that he was practically banished to his diocese of Perugia, instead of being invited to grace the Roman court. The truth is, as to the first of these points, that he was not created *in pello* by Gregory, but his elevation to the purple was an original act of Pius himself, and also, as to the second, that all cardinals who have sees are expected, except under special circumstances, to reside in them. Cardinal Pecci was a good bishop and lived with his flock. Pius IX, when bishop of Imola, did the same.

Colored Troops Reviewed by Gov. Hampton.

CHARLESTON, 22.—Two regiments of the national guard, a colored volunteer organization, were reviewed, to-day, by Governor Hampton, and made a fine display, several colored bands were in the column. At the close of the review Governor Hampton addressed the troops, congratulating them on their improvement, reminding them of his pledge that the colored race should enjoy full and equal rights under the law with whites and calling upon them as citizens to co-operate with him in carrying out his other pledges.

No Expedition Contemplated.

OMAHA, 23.—General Crook returned to-day, from Indian territory and denies the statement that a larger expedition would be organized in the spring against Sitting Bull. Crook says no immediate trouble need be feared from Sitting Bull unless buffalo range south which is hardly probable as they have not done so in late years. No expedition against hostile Sioux is now contemplated.

Another Train Robbery.

NEW ORLEANS, 23.—A Galveston *News* special, dated Dallas, Texas, says last night the south bound train on the Central was boarded at Allen's station by six men, who robbed the express car of $2,500. The train had hardly drawn up at the station when a man jumped into the engineer's cab, covering the engineer and fireman with revolvers. Five other men attempted to enter the express car when the messenger, Thomas, showed fight, firing three shots at the robbers hitting one, it is thought killing him. The robbers fired five or six shots at the messenger and rushing in overpowered him, cut the bell rope and uncoupling the express car from the train ordered the engineer to pull over on the side, when the messenger was forced to open the safe from which they abstracted the money. The robbers were all masked save one who covered the engineer. The passengers were completely demoralized, and thinking that they would be visited a general scramble ensued in secreting money and valuables. They were not molested however. After securing their booty the robbers mounted their horses and took a north-westward course. There were enough male passengers aboard to capture the robbers, but they were so badly demoralized, with the exception of the conductor and Captain W. Appersen, who attempted to rouse the passengers to action, that there was no disposition to resistance shown. Superintendent Quinlan telegraphed the city marshal that a car was at his service and pursuit of the robbers at once commenced.

Wool Market.

BOSTON, 23.—Wool is active but prices are not sustained, and may be considered a shade easier all round, particularly for fine wools. Manufacturers are as indifferent as ever about future supplies, while there is evidently more pressure to sell on the part of holders. Theaces are dull and there is considerable pressure to bear down prices. Fine combing and delaine fleeces continue quiet. Pulled wools are in fair demand and quite steady. Ohio, Pennsylvania, and West Virginia medium, XX and above 42@44. Michigan X 41. New York X 37½; coarse and No. 2 36@38. Combing and delaine, 44@48; unwashed delaine 32½; scoured 57@78; superfine and X pulled 32@47. The principal sales have been in California wool, the aggregate sales of this description being 324,000 lbs at 14@22 for fall and 20@33 for spring. Sales of the week for all kinds, amounted to 1,481,100 lbs.

FOREIGN.

GREAT BRITAIN.

The Eastern Question.

LONDON, 23.—The *Times'* St. Petersburg special says: The conference is not likely to meet until the Adrianople negotiations are concluded. Russia does not wish a renewal of hostilities, which would inevitably result in the destruction of the Ottoman empire, but her position ought not to be construed as weakness or retreat. I have reason to believe the cordiality between the courts of St. Petersburg and Berlin has not increased much lately.

Official journals are very reserved in commenting on Bismarck's speech in the Reichstag.

A Paris correspondent says: According to a telegram from Bucharest, fresh Russian detachments are arriving in Roumania, several of them without arms. It is believed they are also destined to form military colonies in Bulgaria.

The *Times*, editorially, says it considers the situation very unsatisfactory. Europe is armed to the teeth and is increasing its armaments day by day. In such circumstances the country can but give its confidence to government, and trust that they will be able to control the dangerous susceptibilities which have on all sides been aroused.

Great excitement prevails at Pera. Three thousand seamen have passed Adrianople for the torpedo service in the Gulf of Sarra and the Sea of Marmora.

At Belgrade a feeling of animosity against Russia is prevalent.

The *Agence Russe* says the situation has improved through an understanding between England and Russia, whereby Russia will not occupy Gallipoli and England will not land troops on the shores of the Dardanelles. Negotiations for making peace are making progress. To hasten them Grand Duke Nicholas, by agreement with the Porte, has transferred his headquarters to San Stefano, and will meet there to-morrow Safvet Pasha. The signature of the peace conditions will follow.

Last Night's Dispatches.

EASTERN.

Fatal Shooting.

POUGHKEEPSIE, N. Y., 24.—This morning, while the engineer corps at West Point was getting ready for revalle, one of the command, named Tobin, shot another named Albert, who died almost instantly.

The Mexican Question.

WASHINGTON, 24.—There is no change in the position of the government on the Mexican question. While a friendly feeling is expressed towards Mexico, there are no signs at present of the immediate recognition of the administration of President Diaz. It is known that some of the members of the committee on foreign affairs, especially Representative Schleicher, will not recommend the recognition of Diaz' government until further assurances shall be given of its ability to remove the present causes of complaint.

The New Silver Dollar.

Dr. Linderman, director of the mint, expects to receive a sample of the new silver dollar on Tuesday, in anticipation of the silver bill becoming law at an early date.

WESTERN.

Arrest of Duncan, the Defaulting Bank President.

SAN FRANCISCO, 24.—Joseph C. Duncan, the defaulting president of the Pioneer Bank, was captured at 12 15 this morning, at 500 Kearney Street, within a stone's throw of the city hall. He was taken to the office of the chief of police, where he was soon joined by his son, W. T. Duncan, who had been notified of the arrest. The meeting between father and son, who had worked so assiduously to conceal the whereabouts and effect the flight of his father, was most affecting. After the interview Duncan was removed to a cell in the city prison, his son sharing his confinement. The arrest has caused a great sensation in the city.

FOREIGN.

GREAT BRITAIN.

Principal Points of the Fresh Peace Conditions.

LONDON, 24.—A dispatch from Constantinople Feb. 21, *via* Syria, gives the principal points of the fresh conditions of peace demanded by Russia. The dispatch fully confirms the report from Vienna, yesterday, as to the proposed boundaries of the new province of Bulgaria, which will include the country between the Danube Balkans, and a portion of Roumelia between the Black Sea and Servia, comprising Sofia and Philippopolis as the greater part, and Thrace and Macedonia and the whole valley of the Moritza, except Adrianople.

The conditions provide for an assembly of notables to elect a sovereign prince for Bulgaria, whose nomination is to be submitted for sanction to the Porte and the European Powers.

The Bulgarian tribute to the Porte is to equal in amount the net revenue of the province.

A Russian commission is to superintend the Bulgarian government for two years, and 50,000 Russian troops are to occupy the principality during the same period.

The conditions also require the cession of Podgoritza and Antivari, with territory, to Montenegro.

Russia is to have power to cede the Dobrudscha to Roumania in exchange for Roumanian Bessarabia.

Cessions of territory in Bosnia and towards Nisch to Servia.

Prohibition of passage through the Straits to men-of-war except in limited cases. The absolute freedom of passage to merchantmen even in time of war.

Payment of an indemnity of one thousand, four hundred millions of roubles, to cover which Turkey is to cede Batoum, Kars, Bayazid, Ardahan, and adjacent territory. Turkey is also to pay forty millions sterling in bonds, interest and sinking fund, which is to be guaranteed by Bulgarian and Egyptian tributes, the annexation or revenue and Heraclea mines.

Ten millions of roubles to be paid immediately to indemnify the Russian residents of Constantinople.

Turkey to reimburse Russian capital invested in Turkish bands; also to pay for the maintenance of prisoners of war and the reopening of the Sulinas mouth of the Danube.

It is now believed that Russia will accept four ironclads instead of six as originally demanded.

The Eastern Question.

The report that the British ironclads have returned to Princes' Islands is unfounded.

The Russians occupied Pirot and Akpalanka. The Servians withdrew to Nisch. Prince Milan has sent a protest to the Grand Duke Nicholas against occupation. The Russians continue to advance. Prince Milan remains at Nisch with a strong force, and it is stated that he will refuse to evacuate the place.

The *Agence Russe* reports, relative to the intention of the Russians to march upon Constantinople in consequence of the obstinacy of the Porte, to refer to a phase of the negotiations already past. The latest news shows negotiations are progressing. The same paper also says Russia would agree to the meeting of the conference in Berlin if this would facilitate the presence of foreign ministers.

Peace and War Party Meetings—A Row.

The supporters of the government assembled in great force near the Marble Arch, this afternoon, for the purpose of putting down the peace resolutions, protesting against any attempt to embarrass the government and against the Russian occupation of Constantinople. After enthusiastically passing resolutions in favor of the government, the crowd attacked and temporarily broke up the peace meeting which was in progress in Hyde Park. After some time Charles Bradlaugh moved resolutions in favor of peace, but he was frequently obliged to change his position. Several fights occurred in the meantime, and the mob sang "Rule Brittania." After Bradlaugh's departure there was some heated discussion and more fighting. The crowd in and around the Park is estimated at from 80,000 to 100,000, of whom 10,000 actually took part in the proceedings and gradually dispersed. A large and excited section went to hoot before Gladstone's residence, but was prevented from doing any damage by a strong force of police.

FRANCE.

Monument to Ledru Rollin.

PARIS, 24.—The monument to the memory of M. Ledru Rollin was unveiled in the cemetery in Pere La Chaise, to-day. M. M. Cremlux, Victor Hugo, and Louis Blanc made addresses. A large crowd attended the ceremony and cheered for the republic and amnesty.

SPAIN.

Expulsion of a Priest.

MADRID, 24.—Government has ordered the expulsion from Spain of a priest for a sermon delivered at Huesca denouncing the liberal regime of the present King, and that of the recently deceased foreign sovereign.

HIGHEST HONORS
AT THE
UNITED STATES
Centennial
World Exhibition,
1876.
MASON & HAMLIN
CABINET
ORGANS
Unanimously assigned the
"FIRST RANK
IN THE
"SEVERAL REQUISITES"
of such instruments!

The MASON & HAMLIN ORGAN CO. have the honor to announce that the Organs of their manufacture have been unanimously designed "the FIRST RANK in the SEVERAL REQUISITES of instruments of the class" by the Judges at the CENTENNIAL EXHIBITION at Philadelphia, 1876, and are the ONLY INSTRUMENTS OF THE GENERAL CLASS AWARDED THIS RANK. This is after the severest competition by the most searching trial of the most competent Juries ever assembled.

They have also received the MEDAL, but, as is well known, medals of equal merit have been awarded all articles deemed worthy of recognition; so thus it will be easy for many makers to advertise that they have received "first medals."

The differences in competing articles, and their comparative excellence, are recognized in the Reports of the Judges from which the following is an extract:—

"In THE MASON & HAMLIN ORGAN CO.'S models of Reed Organs, we have some close approximations of the FIRST RANK IN THE SEVERAL REQUISITES OF CONSTRUCTION OF THE CLASS. Smoothness and equal distribution of tone, range of expression, resonance and singing quality, freedom and quickness in action of keys and bellows, with thoroughness of workmanship, combined with simplicity of action."

(Signed by all the Judges.)

The Mason and Hamlin Organs are thus declared to rank first, not in one or two elements only, but in the SEVERAL REQUISITES of such instruments, and they are the Only ones assigned this rank. This triumph was not unexpected, for the Mason & Hamlin Cabinet Organs have uniformly been awarded the highest honors in competitions in America, there having been merely six exceptions in hundreds of competitions. They were awarded highest honors and

FIRST MEDALS
PARIS, 1867; VIENNA 1873; SANTIAGO, 1875
PHILADELPHIA, 1876,

and have thus been awarded highest honors at

Every World's Exposition!

at which they have been exhibited; being the Only American Organs which have ever obtained Any Award at any competition with best European makers, on its first appearance.
