METHODISM IN UTAH.

Thanks for the Rapid Changes in Material, Political and Intellectual Affairs in this Territory.

Before the final adjournment yesterday of the Methodist Episcopal conference which has been in session in this city for several days past, the following report was read and adopted:

For another year's hard-earned victories, we give God thanks.

Amid the rapid changes in material, political and intellectual affairs, it is not always easy to see our way clearly marked, but trusting in a wise Providence and following in the footsteps of our Christ, Make-home-ill advances.

We have not been able to expect to the world the Utah possessed, which we believe is coming.

Without Mormonism battles since soon, it is one the Mormonism of Brigham Young. There is no church and state, and while more would go back to the old regime, enough have tasted freedom of liberty, that we believe the majority of the priesthood can never transend them as in the past.

With these revolutions come new responsibilities and opportunities. Ignorance is the mother of all superstition, and we believe the cure for ignorance will solve the vexed problem of "How to save Utah."

In rural parts there is extreme bigotry, which is being overcome by our schools.

We regret exceedingly that the law has gone out that we can nearly maintain our rural schools, no greater inroads could be made. Under the without a pause in such places than teacher and schools. We not only need to continue those schools now in operation, but establish all that have been abandoned which are out of reach of Christian communities.

The situation is large results as unsolved problems, party lines have been drawn, a warm political campaign, a war of words has been waged, and the independent of thought, speech and action therein displayed has created a feeling of foreboding to the church leaders. Other political campaigns are before us.

With our first duty is to Jesus Christ and His people, we believe that unswerving fealty to our country demands that we shall neglect no opportunity to teach patriotism—a class with whom we are called to labor, to Americanize as well as Christianize the youth of Utah.

Our Territorial free school system is proving a grand success, and with increased educational facilities and contact with extraordinary influence, intelligence is making rapid strides.

With increased intelligence is coming, as it must, free of bigotry and respect for the Mormon dogmas.

When these go out there will come in an overwhelming flood of infidelity and skepticism, the evil results of which are to be counteracted only by the gospel of Jesus Christ.

As a result of these changing conditions of which the future promises more and greater, we are brought face to face with the fact that our strength is not sufficient for them.

We must lean upon our God, who is greater than all difficulties and stronger than all opposition.

Conserving faith, singleness of purpose and sanctified common sense will enable us to plant the banner of the cross during the year before us in the very stronghold of bigotry and make full proof of our ministry. M. O. Dickerson, H. A. Jones.

Mandrake Pills have a value as a household remedy far beyond the power of language to describe. The family can hardly be true to itself that does not keep them on hand for use in emergencies.

is the only vegetable substitute for that dangerous mineral, MERCURY, and while its action as a cathartic is fully equal, it possesses none of its pernicious effects.

In Constipation, Mandrake acts upon the bowels without disposing them to subsequent costiveness.

No remedy acts so directly on the liver, nothing so speedily cures Sick Headache, Sour Stomach and Biliousness as these
