## THEORY OF MURDER IS NOW STRONG

Companions of Andrew Anderson Held to Tell What They Know of Deceased.

### KUHLER NOW A BENEDICT.

William Smith Sent to the Asylum—Sue Between Knitting Concerns.

Ogden, Dec. 27.—The more Sheriff Schering and his deputies investigate the death of Andrew Anderson, the more convinced they are that his death did not occur through mere accident. The large wounds on his head it is not believed were made by his falling against something, but were inflicted by some one with a blunt instrument.

Three of Anderson's fellow workmen, who were out with him drinking at the saloons the night before his lifeless body was found on the lonely banks of the Weber river, were yesterday taken into custody by the officers. Two of them were under the influence of liquor so badly that little could be learned from them concerning their relations with the dead man, so it was decided to lock them up until they sober up.

What attracted the officers' attention to the other section hands, was the rumor that before Foreman Green identified the body of Anderson the men had been heard to say in a saloon that he was dead. What the officers are trying to do is to find out if there is any truth to the rumor.

It has been decided that instead of burying the remains without an inquest, a thorough investigation as to how and by what means Anderson came to his death, will be held, but the time of holding the inquest was postponed by Judge Murphy in order to

give the officers more time to secure the evidence that should be presented to the coroner's jury. The men he had spent about \$15 over the bar for drinks. What is puzzling the officers is as to how Anderson came to the lonely spot where he was found, and in what way did he get the deep cuts on his head, but it is very doubtful if these mysteries will ever be cleared up.

## GRIDLEY, CAL.

Utah and Idaho People Colonize Central California Lands.

Special Correspondence.

Gridley, Cal., Dec. 21.—Knowing the interest taken in all that concerns Utah people, I deemed it wise, as an item of news, to inform you that several families from Idaho and Utah, have secured an option on 722 acres of land, near this town, and are locating upon it in lots of 15 and 20 acres where we can raise fruits and vegetables of all kinds with a ready market for their sale. The grape, pomegranate, orange, lemon, olive, grape fruit, prune, peach, pear, as also all kinds of berries, and the walnut, pecan and soft shell almond, all thrive here; likewise the sweet potato, tomato, watermelon, cantaloupe, etc. and find a sure sale. There is a fruit cannery here, and a tomato cannery and a creamery will be erected next spring.

The soil has been pronounced splendid for sugar beet raising by agricultural experts and negotiations are now being made by the sugar factory at Hamilton, just 20 miles north of us, to place a beet dump here, if they can secure contracts for 500 acres among the farmers, and solicitors are now endeavoring to accomplish this.

Gridley is situated in the great Sacramento valley just 70 miles north of Sacramento, on the main line of the Southern Pacific, between the latter point and Portland. It contains 1,500 people and is an up-to-date town, with electric lights, paved walks, etc.; business and professions of all kinds being well represented. It contains five sectarian churches, a high school, grammar school, etc., and when we get established we will erect another church and school in which the good citizens have already expressed a willingness to help.

Gridley and all looking for comfortable homes at small cost and upon easy terms, would do well to come out here and see us and our colony before locating elsewhere.

We have placed ourselves in touch with mission headquarters at Los Angeles and are daily looking for a visit from Pres. Robinson or some of his aids. We are at present holding Sabbath services at the homes of the Saints but hope it won't be long before we will erect a church edifice. We are getting additions to our membership by spring anticipate having quite a respectable showing and hope to be of some aid to Pres. Robinson and his fellow laborers in spreading a knowledge of the gospel, and the Savior taught it, in this portion of the Lord's vineyard. We find an excellent class of people here, broad and liberal in their views, who have thus far given us a most cordial welcome. I shall be glad to answer any inquiries that may be sent me here.
