ACCIDENT IN AMERICAN FORK.

La Plata Ore Going to Denver for A Test.—The Regular Tramp Episode at Evanston.

Brigham Bugler—Last Wednesday evening Mrs. Buchanan had a terrible experience near the Big Pond with a couple of a tramp. It seems that the lady was on her way from town to her home near the railway station. The night was quite dark. When about half way home and some distance from any human habitation she heard a noise behind her. Turning, she saw an ugly tramp close in her rear, and started to run. The fellow quickened his pace also and was soon by her side a short distance of her. When about to be caught in the clutches of the man, the frightened woman threw down a flat parcel—her big dog, which was close by her side. With a great effort, she stopped short and turning abruptly told the dog to "Sic him down." The faithful creature sprung at the man, during which time Mrs. Buchanan got some distance away. But she soon saw the dog return, the frightened woman, and, while on the point of claiming his victim, was so often repulsed by the dog, that the lady safely reached her home completely exhausted and frightened nearly to death.

American Fork Independent—Benny Webber, a young lad of Provo, met with a peculiar accident the other day. He was putting a bridle on a horse when the animal suddenly threw up its head, catching the boy under the chin. The blow lifted him off his feet, and as he had his tongue between his teeth, that useful member was nearly severed. The boy has been unable to talk since the accident occurred.

American Fork Independent—Yesterday afternoon little Joseph Stoddard, eight year old son of Robert Stoddard, met his death in a terrible way. About five o'clock he with other boys, started for Burkwater's pasture to drive home the family cows. On the way they overtook Paul Christensen going to the same errand. The boys climbed on the wagon to ride. On nearing the pasture the little Stoddard lad attempted to get off, and falling between the wheel and the hayrack was terribly run and mangled, his entrails nearly being torn out. In order to extricate him from his painful predicament it was necessary to remove the wheel from the wagon. As soon as possible he was taken home to his parents, who had been already notified of the accident. The child lingered till midnight and passed away. Great sympathy is felt for Mr. and Mrs. Stoddard.

Evanston Register—Yesterday a tramp possessed with the idea that he wanted to own a hotel rushed into the Pacific with a large stone in each hand and commenced to enter the people in the office out. He succeeded in convincing a number of people that he was master of the situation, but was finally overpowered by the employes and thrown out. This so angered him that he went across the track where some other tramp was stretched on the grass and beat him over the head with stones in a brutal manner. Deputy Sheriff Calvaty finally arrived on the spot, threw the offender into a wagon and was just on the point of driving off with him when the tramp led one of his feet fly and kicked Calvaty in the chest. At this the deputy landed off and gave him three duffs that put him to sleep and he was lodged in jail without further trouble.

Laramie Boomerang—C. W. Brassel and George Curtis arrived this afternoon from the La Plata with a handsomely panned ore from their recent strike on Libby creek. John Harman is a partner with these two gentlemen in the lead. They have a claim of 1000 feet of the lead extensions. The thousand pounds just brought in will be sent to the Grant smelter at Denver to be tested. This strike is regarded as the best yet made in the La Plata district, being much finer than the Brooklyn of New York. Jack Richards, Mr. Hoffman of Denver, and Messrs. Messell and Shepherd left about noon today for the La Plata mining camp. Dan Sharpy, who has Frank Hunt's fine horse team, took them out, and it is understood that he may bring back a load of glittering galena. Richards has been waiting here a day or two to meet Jack Cooper of Pittsburg, who has been expected here, but decided to pull out this morning. Cooper is familiar with this country, and it is understood that Pittburg capitalists are sending him here.

Laramie Boomerang—No. 8 is the death or hospital train. Injured men from the company's mines are usually taken to Denver on No. 8. Accidents seem to occur at a time which makes No. 8 a convenient train for this purpose. There is a strange fatality about No. 8 as an unusually large number of people have died in their seats on the train. Besides the lady who died on the train at Aurora Wednesday a little boy died on the train yesterday in its mother's arms. There was another sad case on the train yesterday which before this has unfortunately resulted in the death of another person. It was a case of hydrophobia. The man was traveling alone when he was suddenly seized with the violent contraction of the muscles of the jaw. He could not speak and his condition became known to his fellow travellers only by his suffering. When the train stopped at this station one of the passengers got him a bowl of soup and a part of it was poured down his throat. The spasms of the voluntary muscles were intense. He was getting rapidly worse when the train left here and those who saw him did not think he would live to reach Omaha, his destination. He had stopped on a train out at Ogden.

Lark Banner—The driver of W. D. Robinson & Co's delivery wagon, made use of the flowing bowl the other last Friday, and now feels the effects of it. When near the military store of H. Jacobs, the horses started to run, and in crossing the ditch the driver being unable to sit straight in the seat, fell to the ground with terrific force, striking on his right cheek and badly marking the cheek bone. The neighbors did what they could for him until a hack was called and took him to the drug store of Dr. Seatright. The doctor examined him minutely and pronounced no bone broken, only he said the cheek bone had been with the fall moved a little, which he thought would come all right. He then turned to a seven year old son of his spectacles, in which he put a few stitches and made him as comfortable as possible. We predict it will be a few days before he gets on another spree. The team was stopped soon after crossing the ditch.

THE PRODUCE MARKET.

The Hay Crop is Large and of Excellent Quality.—Potatoes Plentiful and Cheap.

The fine weather during the past few days has materially eased the farmers in their harvesting, and lack of help on the farms will delay the grain and other cereals from arriving in the market as early as it is customary. Dealers are still sending money out of the Territory which is needed by all to meet past obligations.

Oats—The fluctuation in the eastern market during the past week has been from 40c 8 cents per bushel. Quotations are 35c for sacked, $1.05 to $1.10 for Utah oats, sacked, track here.

Wheat—Some few cars continue to arrive in the market. Offerings are selling at 62½ to 65 cents per bushel for a No. 2 article and 60 cents for No. 3.

Hay—Small quantities have change at lower prices. Offerings are made now at $6 to $6.50 per hundred, car lots.

Corn—Eastern markets have advanced on this side to 70c per cwt, sheled and bags extra, the price being 1.5 to 1.8 all Salt Lake City is $1.05 for whole corn and $1.10 for cracked.

Barley—Barley is now being offered sparingly, quite a number of cars have changed hands during the last week at $1.15 for whole barley, $1.25 for cracked, f. o. b. city.

Rye—Not a car in the market.

Potatoes—Some new potatoes have arrived on the market up to the present time in excellent condition, meeting at $8 to $8.50; will go to $9.50; mesdow, $10; mixed lots, $11.50 to $12; timothy, $13 to $14 per ton.

Poultry—Late spring chickens sell from $3.50 to $4 per dozen, according to size; old hens from $3 to $3 per dozen.

Eggs—Eastern per case, selling from $3 to $3.25. Utah fresh candled, from $3.50 to $4.

Potatoes—Some have changed hands, except for home trade, prices ranging from 40c to 45c per bushel.

Butter—There has been a slight advance in butter the past week, especially in country, and as the season advances we hope for still better prices. Low grades are still a drug in the market, offered at from 7c to 10c per pound, for creaming butter to take selling at 12½c to 15c, with ample stock on hand.

Dried Fruits—There is nothing to note on either demand or price yet. We look for a quiet market, so there is no immediately good to offer. Trade is slowly in our demand from country trade in Utah dried fruits.—Free Current.

Grand Semi-Monthly Excursion To Garfield on Friday, September 8th. Fine programme for the afternoon and dance in the evening. All invited. Trains leave every hour. 25

SALT LAKE ACADEMY.

This well-known school begins its fourteenth year on Monday, Sept. 11th, under the supervision as principal of Oscar F. Davis, late of Mount Vernon, N. H., who comes with the highest recommendations as an accomplished educator. He will be assisted by a corps of teachers still better, if possible, than those for which the Academy has been noted in the past. It is intended by the trustees to enhance the reputation of the school for thorough work in all its departments, primary, intermediate and primary. Also to provide the plant, as soon as possible, for the second and third years of the normal training course, and to make that course an important feature of the institution.

For further information apply to O. J. Hollister, Secretary of the Board of Trustees, 112 W. Second South, or 43 E. First South.

UNIVERSITY OF DESERET,
SALT LAKE CITY, UTAH.

The first term of the academic year (1893-94) of the University of Deseret will begin at 9 a. m. Monday, September 18th, 1893.

All the courses have been changed and some of them have been extended.

A Mining Department, Military Science and Tactics, and Post-Graduate courses have been added.

Students of both sexes, over fourteen years of age, are admitted without charges for tuition to any course they are prepared to pursue. There is an annual admission fee of five dollars for residents of the Territory, and twenty-five dollars for non-residents.

Students may receive from the President permits for reduced fare over the railways in Utah.

For further information apply to
JOHN R. PARK, M.D., President.

GEO. A. LOWER & SON,
50 and 52 East First South.

I have been troubled with chronic catarrh for years. Ely's Cream Balm is the only remedy lasting for many days that I have used that affords me relief. E. W. Willard, Druggist, Joliet, Ill.

My son has been affected with nasal catarrh since quite young. I was induced to try Ely's Cream Balm, and before he had used one bottle that disagreeable catarrhal smell had left him. He appears as well as anyone. It is the best catarrh remedy in the market. J. C. Umstead, Attica, Ill.

The Pulpit are the stage.

Rev. F. M. Spurr, recent United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery, and am sound and well, gaining 25 pounds in weight." Arthur Lutz, Monitor Lodge, Pony Express Construction, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at A. C. Smith & Co's Drug Store. Regular size 50c. and $1.00.

THE CRY OF MILLIONS

OH, MY BACK!

JUST IT NOW,
SOON IT WILL BE TOO LATE.

I have been troubled more than three years with Kidney and Back Complaint, Dropsy, Swelling of the Limbs and Dropsical Distension without relief. About two years ago I was induced to try the Oregon Kidney Tea, in my home. I immediately noticed some relief. In two or three months' time I was entirely free from the Dropsical Swelling, and from the Kidney Complaint without relief. About one year ago I was induced to try the Oregon Kidney Tea, and I can truthfully say that several years have passed and I have not felt the slightest symptom of the old trouble. Now I feel as well as I ever did in my life, and I cannot express enough for my friends to do so, or to put in my testimony, and I recommend the use to all sufferers.

G. A. TUFTES,
Proprietor Strathmore Hotel,

Ladies suffering from weakness of Female Weakness and find it a sure cure in "Orange Blossom." For full particulars call on the General Agent, 125 West Third South Street, Salt Lake City.

WHAT IS A GUARANTEE?

Many merchants and salesmen are in the habit of indiscriminately "guaranteeing" their wares with no thought of being called upon to make the "guarantee" good. It is a pernicious and foolish custom now respected in the breach that in the observance.

A guarantee, to have any value, should be made with knowledge of the meaning of the word and a set purpose to carry out the terms of the guarantee. On the tools the makers instruct us to warrant, and we replace any tool found imperfect in use.

We have used our best judgment, acquired by a considerable experience, in selecting the following items for our stock and sell them to our customers with an absolute guarantee that if they do not prove to be all that we represent them, we will refund the purchase money in full.

"Jewel" Steel Ranges. A finished article, perfectly proportioned, made of the best material. Don't fail to see it. It will pay you.

"Quick Meal" No Generator, Evaporating. Light it as you do your gas burner. No smoke. No danger. No complaints. Every objection to the use of a Gasoline Stove done away with. Think of the time required saved in contrast by avoiding the heat of a big Kitchen Range.

"Superior" Cooks and Ranges. Superior in taste. Superior in economy of fuel. Superior in design. Superior in construction. Superior in everything that goes to make a perfect cooking apparatus.

The "Pools Refrigerator." An invention. A Brain producer. Cellular stone lined. What is that? Investigate it. It will sometimes repay you.

Our stock of Builders' Hardware, House Furnishings, Garden Hose, Lawn Sprinklers, Lawn Mowers, etc., is complete in every detail.

E. C. COFFIN HARDWARE CO.,
