FOR A FRIEND'S BIRTHDAY.

[illegible]

THAT CITY CHAP.

A school ma'am [illegible] Maria [illegible] Hopping's [illegible] mother—"Ma," [illegible] "I'm sure she—would not let me [illegible] go to the party at Stockton's [illegible] Ma, I ask you, is it not only natural [illegible] to want to look pretty for dancing the two [illegible] preceding the essential party [illegible] and not only approved of her [illegible] but even encouraged her to wear [illegible] pretty hat on the occasion, and now she [illegible] being arrested for an apparent [illegible] in not inclosed that Abby must [illegible] of sight.

"The other side's side of the story, and [illegible] not approaching to accuracy as the [illegible] is or even comes into that afternoon, [illegible] innocently at the new dress [illegible] on to the field to look and [illegible] admiring the tints of her head [illegible] her eyes to wipe away those tears [illegible] which she would, perchance, [illegible] in vain.

"Mr. Hopping's father's tale was very [illegible] to the point. As the lad her good friend, [illegible] Hopping, was last seen clapped to [illegible] Stockton's chair, she had a very [illegible] reason for keeping her daughter at [illegible] that night.

"Ma, I'll tell you. Mrs. Hopping, because I know you won't ever let it reach [illegible] of the Watkinses' (the good lady [illegible] to be the quickest and most [illegible] way to get the story to neighbor [illegible] family), 'I'll tell you why I'm [illegible] Abby to home. You see, Tom [illegible] has been keeper company with [illegible] for some six month, and he's [illegible] not bad. If I let Abby go to [illegible] there, as Tom will, what's happen, [illegible] put's like as not to get drunk with [illegible] fellow Bill's cousin down to [illegible] Stockton's, or to the Wilkins' [illegible] to say, there that on him before [illegible] his mighty pleased. Now, then, [illegible] poor Tom left I tell you what [illegible] Mrs. Hoggin'" (and here Mrs. Toodle [illegible] a deep sigh and heaved a very [illegible] tear over the pan of half peeled [illegible]), "I tell you 'twould be downright young wicked', for me to let that [illegible] girl go and put temptation in Tom's way [illegible] his for him, now wouldn't [illegible]

"So, indeed, Mrs. Toodles," the other [illegible] replied, "if you let her do such a [illegible] you would be guilty of wicked [illegible]" and the poor Mrs. Hopping [illegible] her horror stricken eyes toward [illegible] when she took her [illegible]

As Mrs. Toodles, standing on her [illegible] watched her friend waddle [illegible] down the road, she thought to herself 'Sick, of sheep only to real [illegible] as old the Wilkinses' is, I guess it'll [illegible] long 'fore 'round. When he thinks he [illegible] her Abby I guess he'll look alive."

Mr. Hopping, on the other hand, as he turned at the bend of the road to [illegible] a last goodby to her neighbor [illegible] said to herself: "I know she thinks that [illegible] had little Abby of here for get proud of my horse, but we'll see. I wish [illegible] Mrs. Wilkins won't be over particular pleased if I let her think [illegible] Toodles' team for higher game [illegible] her Tom for Abby; don't care to [illegible] together much while that city [illegible] visit. I guess it'll quit her a [illegible] And Mrs. Hopping chuckled to herself as she tried to hurry along the [illegible]

As the story was told half an hour later at the Wilkinses', Mrs. Hopping [illegible] happened to be passing their way, [illegible] thought she'd just stop in to let [illegible] know Abby Toodles couldn't come [illegible] night. For had wasn't let the [illegible] Mrs. Tarrant was always picking [illegible] up," etc., until the end of the story, [illegible] be counted by Mrs. Hopping, had been [illegible]

Meanwhile the poor girl on whose account these good ladies troubled themselves so much not lonely in her room, thinking of the dance that she was to take place all the others were to enjoy, mused thus:

"It would see them all but her, and Saint Hopping, she knew she would be sure sure to. Tom thought, and would be so pretty, too—oh, if Tom would only see her prettier than usual for Saint Hopping, sitting here alone, thinking of him. He had said everything else, and yet was so sure to be the other girls, and thought he would see them all but her." A lonely sound, as strike hurriedly down the east steps came into the kitchen. "Ma, can I help you get the supper?"

"Yes, Abby, child, supper's all ready," her mother replied. "Now, you just sit down and pull to be in a minute, and we'll have a real good cream together—I wouldn't mind the old party."

Abby will nothing loth sat down as Mrs. Toodles had predicted. Pa came in. They sat down to table, and after a long grace, during which Abby's eyes would wander toward the clock, supper began. Pa's mouth talk minute. "Now, I'm sorry Abby's gone, I'm sorry I'm in the account, we'll spend Fall up such, or be sick the honest part I look like for. Pa sort gets to lose his Abby's drink, but ain't he to make, I know, to come to the fair." As for Toodles, he was utterly bewildered, and so held his peace. Ma had said Abby was gone to her party and then had the worst girls. Pa Toodles to [illegible] and [illegible] to quotations. Abby, too, wondered. She was sorry [illegible] the unusual trouble of which and [illegible] of a [illegible] Abby was [illegible]

At 8 o'clock that evening, after Pa Toodles had read the prayer and Mrs. Toodles had said a loud, "Amen," Abby took leave good night. "You, Ma, I'm sure I'm very, but she was tired, and the end to be little down over the late parlor, leaving her father and mother comfortably announced to the big kitchen arrangements. For awhile they talked and nodded, nodded and talked, till finally both fell into a doze.

Half an hour later a light step on the front stair, that stair so seldom used in the old farmhouse, and an enormous creaking of the front door, opened merely from one year's end to the other, told that wood was but gone out into the night.

It was Abby, dressed in all her finery, going to the party. She would not let all the other girls have fun, when she—and she knew how pretty she looked as she stood before the little glass in her room. This she had not forgotten to do, in spite of her hurry—in spite of the dread of being discovered. So here she was, walking alone on this dark, cloudy night the mile between her own home and Neighbor Watkins'.

Poor child! it went well at the barn that night the well known road. Then, as she left the open country and entered the wood, a gentle sighing of the trees mentioned not the occasional sound of a distant bird falling into country girl that a storm was coming up.

She lingered on, breathless, excited, thinking now of but one object of all her companions which for a week had filled her, when such—of coming Tom that night and meeting him see her; of having him look at her, know how beautiful she was, and th—of having him tell her just the kind hurt that she was the only one he loved. And now the wind was howling through the trees and beating her back with terrific force. Thinner and fewer it blew, until it seemed as if the great trees were doing battle, swaying, bending their mighty trunks and prying each other with their shattered branches. On the girl went through the storm, on, on, will now, hardly heeding the fury about her, determined.

Crash! a falling limb struck her full upon the forehead. She sank with a cry, and then fell upon the road, quite insensible to the furious blasts of wind and fearful sounds that filled the forest.

Soon after, during a lull in the storm, a rumble of wheels sounded up the road; a wagon drew up, but it was too late. As they passed the dark form lying so still, they stopped. One of them, hopping to the ground, had over the young girl and lifted her head.

"Where's Abby?" he said, "Get out and help me lift this girl into the wagon; she's hurt. Thank heaven I didn't wait in the village all night! How struck farther in it to this Watkins farm!" he added impatiently, as he tried to make the girl comfortable.

"Quarter of a mile, sir," the driver replied, and once more they started on.

Two minutes after the wagon drew up before the Watkins house. The merry company within was disturbed by a loud knocking on the door. Mrs. Watkins opened it, and seeing who her visitor was said hospitably:

"Oh, you've come, sir. We, we thought you mean for select the night train. Come right in out of the!"—

"There's trouble 'out here,' he interrupted her.

"What!" a young man coming from the inner room exclaimed, and, without waiting for cost and hat, he went out with the stranger to the wagon.

And then he saw who it was that lay there. Taking her in his strong arms, he carried her gently into the house. As the warmth and light touched her, Abby opened her eyes. For a moment she looked lovingly into the young man's face, and then said half dreamily:

"Oh, Tom! is it you? I came to see you through the storm. Are you happy?" The little head fell upon his shoulder, and again the girl became unconscious.

The next day Mrs. Toodles, her face lighted with a happy smile, said to Mrs. Hopping, who came to inquire after that dear child, Abby, "And to think that it should all her love brought back by that city chap."—H. De W. in Harvard Advocate.

Nearly All Gone, Yet Not Forgotten.

In a quaint little shop kept near Portland, Me., is a tombstone headed by bearing the inscription, "Gone, but not forgotten." The story connected with this stone is a trifle odd.

Under it was laid away, not a body, but a coffin covered with a red woolen stocking. The man of whom it is supposed the bone was a part went off fishing one day and never returned. Days passed by, and the wife and family grew anxious. Neighbors in whispers suggested that John Anderson, grown tired of Annie's shrewish ways and high temper, might have committed suicide or left for parts unknown. But Annie felt assured that John was drowned.

Finally, one morning several years ago, there was cast up on the shore the skeleton covered with the stocking. After thinking Annie owned that she had buried with her own fingers. In spite of opposition the bone bearer was brought out and the children, stocking and all, were solemnly placed in a box. With the ceremony it was buried, prayers were prayed over it, hymns were sung over it, and above it was placed the handsome heading the inscription, "Gone, but not forgotten."—Cor. St. Louis Republic.

When to Try on New Shoes.

There is a time for everything in this world, and so it is that the best time to get fitted to shoes is in the latter part of the day. The feet are then at their maximum of size. Activity naturally enlarges them. Most shoeing trade also is enlarge the foot. New shoes should always be tried on over medium comfy thick stockings. Then you have the strength of wearing, as without stockings if the shoes fail it at once.—Ladies' Home Journal.

Trying Out Lard.

There need be no difficulty in trying out lard in such a way that it will keep almost indefinitely, provided the two most essential requisites are observed. First, the tendering should be done with a slow and uniform heat, not so low as to be unnecessarily tedious, but not so fast as to incur any risk from scorching. Second, the tendering should be continued until the water contained in the fat has been thoroughly evaporated. This will be pretty well indicated by the scraps becoming crisp and brown, when all such may be taken out and pressed while hot and the liquid lard again returned to the kettle to be still further evaporated. After being sufficiently cooled it should be carefully strained into wooden or earthenware vessels, and well covered to prevent dust from getting into it. If the extra quality is desired the leaf lard should be rendered by itself, but otherwise the fat pieces and the leaf may be tried together. The fat from the intestines should be tried by itself, and if done in a cleanly manner will make very good lard for all general purposes.

The Highest Yield of Rye.

The highest rate of yield of rye for 1891, as estimated by the departments of agriculture, was in New England from 30 to 40 bushels per acre. In the south the range is from 11 in Florida to 23 in Maryland, while in the circles west stands the figures are as follows: Ohio, 20.7, Indiana, 20, Illinois, 21.2, Iowa, 20.1, Missouri, 23.6, Kansas, 15.7, Nebraska, 16.3.

Four Varieties of Millet.

Four varieties of millet were tried on the Ontario experiment farm last season. The variety giving the largest yield was Onna and Italian millet, introduced from the East Indies by Professor Saunders. It is somewhat coarse, and gave a yield of 44 tons of cured hay per acre. Hungarian millet gave the next largest yield, viz., 41 tons of cured hay per acre. This variety takes twenty-one days longer to ripen than the common millet, and is also somewhat coarser. Hungarian grass comes next, with four tons per acre. It takes fourteen days longer than the common millet to reach maturity. Common millet was also tested and found to ripen earliest of the four varieties, and also gave the smallest yield, viz., 2½ tons per acre.

Here and There.

A correspondent of the Santa Barbara Independent writes that bees seem to be destroyed by spinning the beans as the become or spots as composition. He says that subjection to a dry heat of 110 degs. Fahr. for an hour will also destroy the grubs and not injure the germs of the beans.

Napoleoniana has a new use, according to Dr. Ross, who says it is a remedy in introducing species and uniting colonies. Simply put a little napoleoniana to each hive over night, and the next day there will be no trouble in uniting.

What evenings make good winter food for hens.

We must manure beneficially for a full crop of tomatoes, according to the Maryland experiment station.

Tassels Extinct.

If a man's face are those of his own household, certainly a woman's account critics are to be found there also. For of as trifle how subtly our words and actions are being weighed and measured by the observers large and small, who surround us. We are accusations of the judgments passed, because, they are usually about the worst. What they happen to be spoken out instead of only thought we are taken aback and sometimes applied at the arrangement and sentence of which we had been entirely unaware.

It is the privilege of the family circle to be relatively frank. Politeness is unnecessary, and consideration for the feelings of the condemned are often least manifestly. The criticisms are often exceedingly sharp, and offense at the plain speaking is a contingency never imagined.

"It is only Jennie; she always says what she thinks." "She thinks Will is always right." "She's family of course, may say anything." And why, pray?

Children are the most terrible of family critics. They see so straight. Your "no" to them means "no," and your "yes," "yes." You cannot deceive them with half truths or by a jungle of words. They cut through your subterfuge and scorch you at once. Their simplicity, word simplicity makes you ashamed of your falsehood.—Harper's Bazar.

Valuable Deposit.

One of the most remarkable of all deposits of silver is at the Broken Hill mines in Australia. At that place the precious metal is found lying in an enormous lump.

It has been suggested by Mr. George Bidwell that this great deposit of silver was left by a large salt lake that has now disappeared, but tracks of whose former existence are clearly to be seen.

According to this interesting theory the salt lake was formed of fragmented ocean water, a fact quite in keeping of which we caught in a lake between ranges of hills which Australia was lifted out of the sea. This water gradually leaked and was evaporated away, leaving deposits of the mineral and other matter that it had held in solution.

If this view is correct, the great show of silver at Broken Hill is a rich gift bestowed by the sea upon the land, but man has discovered the precious deposit, and seized it in his capacity of the lord of the earth.—Youth's Companion.

Why a Hive Bee Is Impossible.

A friend makes the assertion that a blue rose is among the impossibilities, but, while an explanation of this contention may be equally impossible, he has given us a very interesting bee which governs the colorings of all flowers. A knowledge of this bee would save many flower growers hours of unavailing and foolish toil. The bee is simply this: The three colors—red, blue and yellow—never all appear in the same species of flowers; any two may exist, but never the third. Thus we have the red and yellow roses, the red and blue, and blue violets, but no yellow; yellow and blue in the various members of the violet family are pansies, for instance, but no red; red and yellow are nasturtiums, but no blue, and so on.—St. Louis Republic.

"August Flower"

Dyspepsia. There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Parsons, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is completely in my home, and we consider it the best remedy for Indigestion, and Constipation we have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'We are out of August Flower, and I think you had better get another bottle.' I am also troubled with Indigestion, and whenever I am I take one or two teaspoonfuls before eating, for a day or two, and all trouble is removed." 38

NOTICE OF SALE OF REAL ESTATE.

NOTICE IS HEREBY GIVEN, THAT IN pursuance of the order of the Probate Court of the county of Salt Lake, Territory of Utah, made on the 15th day of January, 1892, in the matter of the estate of George Martin White, deceased, the undersigned, the administrator of said estate, will sell at public vendue, and to the highest bidder for cash, the interest of said deceased in and to the real estate hereinafter mentioned, at the hour of 10 o'clock a. m. of the 20th day of February, 1892, in front of the office of the undersigned, in the Dooly Block, Room 37 in the Corporation of Salt Lake City, in said county and Territory, the following described real estate, or so much thereof, and the interest of said deceased therein, as may be necessary to satisfy said order of sale, to wit: Commencing at a point 10 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence north 10 rods; thence west 10 rods; thence south 10 rods; thence east 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 10 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 20 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 30 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 40 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 50 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 60 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 70 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 80 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 90 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 100 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 110 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 120 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 130 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 140 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 150 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 160 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 170 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 180 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 190 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 200 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 210 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 220 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 230 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof. Also, beginning at a point 240 rods west from the southeast corner of lot 3, block 10, plat A, Salt Lake City survey, and running thence west 10 rods; thence north 10 rods; thence east 10 rods; thence south 10 rods to the place of beginning, containing one acre and subject to a right of way for a ditch 4 feet wide along the east side thereof.
