EXCITEMENT IN SEVIER.

Mining Developments of Unusual Interest in That Section.

After Timber Cutters—Official Fish Fakers Nabbed—Increase of Water at Beaver.

[Special to the News.]

MARY at our people of Monroe are excited over the discovery of rich gold bearing quartz in the canyon about a mile and a half above town. Several prospects have been located in the Main canyon; a specimen from one prospect $7.55 gold and $10 of silver; from another $11.20 gold, $18 of silver, 6 per cent copper, and 2 per cent manganese. It is now quite certain that the red ore discovered is cinnabar, as it carries so much quicksilver. There appears to be an immense amount of it and mining men say that it is far more valuable than gold mine. Several men are at work sinking on the gold leads and the cinnabar ledge, and new developments are expected daily. The whole country is being staked off and many citizens have suddenly become miners.

Those who are interested in the Elder mine in the Clear Creek country are actively excited over the developments. A great amount of money has been spent in running drifts and tunnels, sinking and running cross cuts, and their joy may be imagined when on finding they can see lead and ink and several hundred pounds of what they think is extremely rich gold quartz. One piece weighing 100 pounds is on exhibition at H. P. Henrichsen's. August Nielson of Richfield, and McVicar, of Salt Lake, are interested in the mine and the exact facts will soon be known.

On returning from Marysvale last week J. S. Weaver called at our office and showed us a specimen of gold quartz taken from the Horse Heaven mine, which carried gold to the enormous amount of $90,000. The property is bonded by Mr. Lyons, of Marysvale.

There is still an abundance of water in the Monroe canyon. Should the water supply from this canyon increase during the next twenty years in the same proportion as it has in the last twenty, Monroe will have water to spare. When the town was first settled there was scarcely water enough for seven families; now there is sufficient to satisfy nearly 1,200 people and irrigate 1,000 acres of farming land.

Mr. M. H. Mathews, of Cheyenne, Wyoming, a special government agent, was in the county last week investigating the amount of timber that is being taken by the saw mill men from land on which they have no grant. E. P. Bean and W. L. Parks came under the range of his vigilance and were forced to pay the government the value of the timber they had used.

When the Vermillion people placed a light dam in the river last week a quantity of fish were left imprisoned in the drizzling stream and pools below, where the river runs through the land belonging to Annie C. Lawson. Fish Commissioner R. Carter, City Marshal Peter Hansen, and a dozen other leading citizens went down and had a great time bagging the fish. Mrs. Larson claims that their action was a flagrant violation of the criminal law, but the justices of the peace have refused to entertain her complaint. She has employed an attorney to institute an action for trespass and damage, and a bottle full of ink is to store for those who love the laughable side of legal proceedings.

Saltair Excursions.

The excursions booked for Saltair for the remainder of the week are as follows:

Friday—The faculty and students of the Latter-day Saints' College.

Saturday—Weber Stake academy teachers and pupils. All teachers of the Salt Lake City schools.

Pictures of Police Captains.

Chief Pratt has received a large steel engraving comprising a group of Superintendent Thomas Byrnes, Inspector A. S. Williams and forty captains of the New York police force. These forty-two men preside over and give directions to more than 4,000 policemen.

A Hot Tamale Case.

John Hunter is the guest of Sol Kimball, city jailor. His presence behind prison bars is not pleasing to him and the story of his arrest and detention is amusing. It appears, according to the charges preferred against him, that he purchased a hot tamale of one of the regular vendors of that class of edibles and failed to pay for it. As a result he is accused of obtaining goods under false pretenses. This evening he entered a plea of not guilty and went back to jail until this afternoon's session of court.

Police Court Echoes.

William Delaney this morning pled guilty to trespass and his case went over until later in the day, when it is expected that it will be disposed of.

William H. McFarland and James Orr entered pleas of not guilty to charges of vagrancy and secured a rest instead.

Henry J. Grimes, who was thrown in jail last night, accused of shooting at his wife, was arraigned and pleaded not guilty. Immediately after taking his seat he had a second chance rest in jail, that of resisting an officer. In the case when he pled not guilty and the hearing in such instance was postponed until tomorrow.

AN INJUNCTION SUIT.

It is Instituted By the Receivers of the Utah Central Railroad.

In the Third district court this afternoon James Mulvenor and Clarence Cary, receivers of the Utah Central Railway, placed an injunction suit against James Hansen and Charles J. Johnson.

In the complaint it is set forth that a part of the property in the receivers' hands consists of a water tank situate at Dexter's station, in Parley's canyon, used for supplying water to the locomotives, such supply being obtained through an iron pipe 1,000 feet in length, from a natural spring situate farther up the mountain side near the track. It is alleged that the defendants have unlawfully and maliciously interrupted and diverted this water, and thereby prevented yardmen from supplying the engines by means of which preventing the trains from their use unable to haul more than one-half the quantity of cars with a locomotive over the road that they formerly did. It is also alleged that the defendants have been thereby guilty of a contempt of the authority of the court by which the receivers were appointed. Defendants, they say, are wholly insolvent and unable to respond in damages for the loss sustained by plaintiffs, but threaten to continue their unlawful acts. Wherefore it is prayed that defendants, their agents and employes, be restrained by injunction from further interference with the property.

An undertaking bond of $500, signed by H. Mackintosh and Chas. Hoch, has been filed, and the hearing set for the 15th inst.

Personal.

Hon. John E. Rosen and John C. Graham, both of Provo, were seen on the streets of the capital today.

Democratic Council.

A meeting of the General Council of Democratic clubs will be held at the Council chamber this evening at 8 o'clock.

Suit on a Promissory Note.

In the Third district court this afternoon the Anheuser-Busch Brewing Association brought suit against W. H. Rothkemper and his sureties, John Heil Jr., and Wm. Schaale, to recover $1,000 on a promissory note, with interest at 8 per cent and costs.

Found.

A pair of spectacles was picked up on First South street today. Owner can have them by applying to C. Denny, News office.

THE L. D. S. COLLEGE.

Closing Exercises for the School Year of 1893-4.

The annual commencement exercises of the eighth academic year of the Latter-day Saints' college in this city took place in the Deseret Museum building on First North street, at 2 o'clock this afternoon. After the opening exercises, a piano selection was rendered by Miss Gwendolin Lewis. Brigham A. Perkins delivered the salutatory, which being completed, a vocal solo by John Robinson followed in order. An essay upon the subject, "Greek and Roman Games," by Miss Olazya Woodmansee, was next on the program and the valedictory was given by Miss Rose Jenkins.

The college choir favored the assembly with a chorus, when the certificates were presented by Principal Willard Done, who in his address said to graduates: To the graduate, commencement day is a most interesting occasion. It is to him what the ceremony of knighting was to the mediæval squire, the first entrusting of a command to the successful military cadet. By the process of step by step graduation, he has come up at least to the door of the great temple of learning where no flight of stairs is endless. Although the mind is infinite in its capacity for development, its limit of growth never having been reached, yet, so far as this life is concerned, conditions render the fullest possible development but meager indeed. The great Newton, discoverer of the law of gravitation, of prismatic refraction of light, and author of the Principia, pressed just before his death that his work had been but child's play along the shore of the yet unexplored ocean of knowledge. Truly, then, you have scarcely made a commencement; indeed I hope your true, independent, manly and womanly endeavor will commence from this time. The term "commencement" then is, therefore, beautifully suggestive in theory—may it be equally so in your practice. When you take the certified result of your year's labor, remember that from that moment you stand in a double sense as an exponent of your alma mater. Upon you rest the responsibility of proving the advantage of such a course of training as is given here. Remember the composite love for self, for man, and for God, each tempered by the other must be the touchstone to try your lives. Those who now leave this institution for the broad field of human endeavor will carry a torch with them to illumine not only their own feet but the feet of all who come in the way with them. The sphere of a school like this would be narrow indeed were its benefits restricted to those who have immediately partaken of them. "In truth," said Prof. Done in his conclusion, "that you will consciously and unconsciously, but would unwillingly, test the needle of your unwearied labors upon all who tread the highway of your lives. With this wish, and joy sincere congratulations, I present you your certificates."

A piano selection followed the principal's address, after which Elder B. H. Roberts made a brief address to the students. He spoke principally upon the training of those who are now entering upon the duties of active life. Men and women are needed who are prepared to cope with the problems arising today. Every person should be actuated by a motive to reach the highest point of the border. Good-hearted men and women are none so are needed in every walk in life. He exhorted the students to be true to the principles and truths that they had learned, that they might be the guiding stars of their youthful careers.

Certificates of graduation were granted to Brigham A. Perkins and Baron A. F. Pike, of Salt Lake, and to Frank K. Seegmiller, of Richfield, and Joseph A. Hill, of Layton. The exercises were brought to a close by a chorus by the college choir.

AMUSEMENTS.

LAST NIGHT'S CONCERT.—It is a thousand pities that an organization so excellent as the Chicago Ladies' Quartette should have left Salt Lake in such ungracious times. The entertainment they give is one worthy of the heartiest kind of patronage, but last night, when they made their first bow to a Salt Lake audience, there was very little to encourage them except gaping strips of empty chairs. The attendance in fact was startling in its thinness. Not for years has any quartette visiting here been heard like that harmonized by these four ladies. Each one is an accomplished soloist and steady practice together has taught them the art of blending their voice to a degree of evenness and sympathy as perfect as are ever heard in a given organ. The small audience was very enthusiastic and the nearly people were more than deserved. Miss Neilson, the reader, has an admirable humorous style, and she, too, made a hit scarcely second to that achieved by the Misses Fabian. Miss Fabian, one of the sisters, is the sister of Mr. F. J. Fabian, of this city, and she has been heard solos twice to every one.

AT THE LYCEUM last night business fairly satisfactory, and every performance pleased the Saturday matinee audience last evening.

THE NEW BOYD. It is very pleasant to be able to view, will be opened by a matinee and even tomorrow evening. Mr. Barton rounds with satisfaction such as only experience has done of the good few weeks could produce—that the advance sale is very heavy.

Miss Hancock's dancer give their last entertainment at the Social Hall tonight; a bright will be the reputation of Prepaulton and talents, not entirely from the young lady members.

Snow in Tintic.

Newsmen the East Tintic mining district today is to the effect that snow fell there last night, in the mountains, to the depth of three inches.

City School Superintendency.

The board of education will tonight elect a school superintendent for the coming year. Dr. Millspaugh is a candidate to succeed himself. He is a competitor who no identity has been publicly disclosed, and the chances are that he will supervise the work of the city schools for at least another year.

Land Office.

The following filings were made in the local land office under date of June 7th:

Homer J. Marlock, of Beaver, Beaver county, final proof to desert entry of the northeast quarter of the northwest quarter, and the northeast quarter of the southwest quarter of section 24, township 29 south, range 8 west.

Albert N. Olsen, of Peterson, Morgan county, homestead entry of the southeast quarter of the northwest quarter, the northeast quarter of the southwest quarter, the northwest quarter of the southeast quarter, and the southwest quarter of the southeast quarter of section 14, township 4 north, range 1 west.

John B. Griffin, of Adamsville, Beaver county, homestead entry of the south half of the northeast quarter and lots 1 and 2 in section 1, township 30 south, range 9 west.

Albert W. Morris, of Milford, Beaver county, final proof of homestead entry of the southeast quarter of the northwest quarter, the southwest quarter of the northeast quarter, the northwest quarter of the southeast quarter, the southwest quarter of the southeast quarter of section 14, township 29 south, range 10 west.

Christ. Mickelsen, of Gunnison, Sanpete county, desert entry of the southeast quarter of the southwest quarter of section 7, township 20 south, range 1 east.

Desert land patents have been received as follows from Washington, and can be obtained by their owners:

No. 952, to William Westenhaver, of Summit county.

No. 953, to George H. Gear, of Sevier county.

Melange From Tooele.

TOOELE, June 6.—It is so seldom we see anything in your paper from our thriving little town, while other cities of the same population are constantly being heard from, that I thought perhaps a few lines would not be amiss.

Decoration Day was duly observed here. At 9 o'clock the school assembled in the meeting house and marched in a body to the cemetery beside by the Tooele brass band. Arriving there, half an hour was devoted to the decoration of graves, after which speeches were made, songs and songs sung until 1 p. m., when most of the people dispersed to their homes. In the evening a ball was given in the social hall. It was well attended and all seemed to enjoy themselves.

Jerome Smith was before Judge Marshall on Saturday, May 2, charged with burglarizing the saloon of Moses Rhinesmith. He pled not guilty and could not convince Judge Marshall that he was innocent and was bound over to await the action of the grand jury.

It is with sorrow I report the deaths of two of our older citizens. Brother B. F. Lee passed peacefully away on Tuesday morning, May 31st, after a long painful illness.

On Tuesday Sister Smith, another of Tooele's pioneers, was laid away; both were respected citizens and their departure is deeply regretted.

On Tuesday the Republicans held a rousing rally, the chief speaker being ex-Governor A. L. Thomas. The hall was packed to its utmost and there were many who could not find standing room.

Gen. Gringer is in Tooele today for the purpose of mustering in a company of militia.

W. B. V.

LOGAN.

LOGAN, UTAH, . . June 7, 1894.

Politics.

The Democrats of Cache county have held their convention, electing a county central committee, with Chas. H. Hart chairman, H. J. Mathews, secretary, and Louisa B. Merrill, treasurer. The Republicans will hold their initial meeting in the near future.

Arrest.

On Monday night Deputy Smith arrested John Johnson, of Hyrum, at the residence of his alleged plural wife, Catharine Mortensen. They appeared before Commissioner Fletcher on Monday and gave bonds for their appearance before the grand jury.

Notes.

The express office at this place has discontinued taking express matter for the north and west, on account of the washouts on the Oregon Short Line and Utah and Northern railway.

A very slim house greeted the appearance of the Chicago Lady Quartette on Monday evening.

On Monday afternoon Wm. Steele, a respected resident of Smithfield, 80 years of age, died of general debility.

Mrs. Lucy H. Barnes sued the sheriff on Tuesday for unlawful seizure of a carry, horse and harness, with an attachment issued against her husband. The jury decided that the property was hers and directed that it be returned, or its equivalent in cash, $100.

The families of John Balliff and James Mortimer have received additions of a son and daughter respectively during the present week.

George Lamb and Jane E. Greer, both of Hyde Park, were united in wedlock at the Temple yesterday. A well managed reception was held last evening at the residence of the bride's parents.

Mace Wootton, brother of the *Journal* editor, is a visitor to Logan from Greenland, Utah. He is accompanied with the beautiful surroundings and pure air and water with which Logan is blessed.

On Monday evening William B. Preston Jr. and wife entertained Mr. and Mrs. George D. Pyper and Mrs. Nellie Snell, of Salt Lake, and a few intimate Logan friends.

Miss Maud Paul, sister of Prof. J. H. Paul, is visiting Logan.

Logan is not nearly as populous as it was prior to the commencement of vacation at the two colleges.

Who is to succeed Prof. Paul as principal of the B. Y. College? is now one of the questions of the hour.

FRAGMENTS.

J. W. FOUNTAIN will speak before the University club on Saturday evening, June 9th. Subject: Tribal Customs in Southern Africa.

W. S. BOURNE, proprietor of the new Silver Lake hotel at the head of Big Cottonwood canyon, goes up to open the popular resort for the summer on the 15th.

ELDER WM. D. CALLISTER, of this city, who has been in Great Britain the past two years, engaged in missionary labors, is expected home on the 5:30 p.m. train from the east today.

OBITUARY NOTES.

[SUNDAY, June 3, 1894.]

A correspondent of the NEWS sends the following from Tooele, under date of the 4th inst.:

"Samuel E. Lee, one of the best and most respectably known men of this county, departed this life at his home in this city after a lingering and painful illness of three years, on the 31st day of May. The immediate cause of his demise was a complication of illnesses arising out of heart disease and dropsy. His sufferings at times were intense, but through his provident affluence he suffered a painless death. He was endeared by characteristics of the man. His life was a busy and useful one, and his friends were many and his enemies—if he had any—few. The news of his death spread to Tooele where he was known for his progressive spirit and peaceful citizenship. He was a native of Missouri, and was born in Clay county of that state July 20th, 1833, and was the 6th child of Alfred and Elizabeth Lee. He came to Utah with his parents in 1852. From that date until 1861 he resided in Salt Lake City, when he moved to Tooele and began laying the foundation of his future home. In 1855 he led to the marriage alter Miss Ann White, who was his helpmate in hope and sunshine until the end of his life. During the early Indian troubles he proved himself a valuable aid to the settlers in the adjudication of difficulties with the red men. He cultivated their friendship, enlisted their sympathies and secured their confidence, which he always retained. As a public spirited man he did a special work not easily forgotten, in that direction that will be long remembered. He possessed considerable inventive genius and was a live wire wherever he resided in Utah, and with the exception of a few years was a conspicuous resident of that place all in the time of his death. In 1883 he removed to the southern part of the Territory with his family, where he filled a faithful five years' mission, struggling through poverty and pioneer work as was the lot of the early settlers of that region. His mission was to convert to Tooele and upon the remainder of his days. In 1891 he was elected to the office of selectman of Tooele City and a year later was chosen county commissioner. In 1892 he was made mayor of Tooele and filled that office as well as all other positions of honor and trust with which he was entrusted by his fellow citizens in the county and community and confidence placed. He leaves a wife and eight children to mourn his death. He was the father of eleven children by his first wife, of whom seven survived him, and of twenty-two grandchildren, twenty-two of whom survived him. He was a good citizen, a kind husband and indulgent parent, and his demise has caused sincere sorrow.

$5 IMPROVED FARMS—FOR SALE—ONLY $20

We want twenty live families to settle upon a tract of 50 acres, located in the state of Maryland. Lands are improved, some timber on each farm, watered by springs, near railroad and town. Price $20 per acre—terms easy. Fine location for colony. We also have some acres improved land for sale at $10 per acre. Address, M. V. Richards, Land Immigration Agent, B. & O. R. R., Baltimore, Maryland.

You can't get it off!!

Get what off?

Dirt off the floor, grease off the dishes, stains off the door, spots off the glass. To clean your house, or any part of it—To clean your kitchen, or any of the things in it—To clean easily, quickly and thoroughly—To remove all the dirt—
