REMARKABLE CASE.

A Young Lady Awakes to Find Her Eyesight Restored.

On January 10th Thomas Woolley, a cleaner who has been employed on the Park City waterworks system, received a letter from his daughter, Miss E. M. Woolley, who reduce were her another son several sisters and brothers, at Lorin, California, conveying the wonderful information that on awaking on the morning of the 5th, after seven months of total blindness, she found her eyesight fully restored. She hesitated to write her father the joyful news and was more pleased than it would be hard to find in the whole Territory.

The story of Miss Woolley's blindness and sudden restoration of sight is strange than fiction and has attracted widespread attention. Briefly told, the principles are as follows: Miss Woolley, who is a trained nurse, became prostrated in June by hard overwork, and decided on a short vacation. After visiting with friends in Nevada for a little while she journeyed to Salt Lake, where she was paying a visit. Suffering under the kind care and attention of friends and the invigorating, salt-charged air of Zion. On the night of June 17th she went to bed and to sleep, not noticing anything unusual in her physical condition, and awoke in her apartment the following morning at the usual hour, but could not find herself readily. For a time she could see realize the great calamity that had befallen her, but soon the knowledge forced itself upon her that her sight was gone. Every remedy procurable at the time was called into service, and a careful study of her mysterious case, and the consultation with each other, a dose of blood had formed in an artery supplying the eye and causing the sight to depart. The remedies prescribed were to absorb the clot, but all failed to do the work. On the 7th she had an excruciating pain in the head, which lasted all day and until 12 o'clock at night, when the pain ceased and she fell asleep. Just before 7 o'clock on the morning of the 8th the young lady awoke and was greatly astonished to find that she could see the walls of her room, the laminar pictures and furniture and the window. Tears she shrieked, "I can see! I can see!" The family flocked to see there was such a rejoicing which every person can realize but which no pen can describe. Miss Woolley thought first of her father and at noon wrote him the glad tidings, and he received the welcome letter on the above date.

Land in the Northwest.

The Alberta Land & Colonization company, with a capital stock of $1,400,000, divided into 14,000 shares of the par value of $100 each, has filed its articles of incorporation, the object being to buy, sell and cultivate land in the northwest territories of Canada, where the company has acquired 500,000 acres, which it declares are phenomenal as any on earth. The incorporators are James A. Cunningham, 5,000 shares, of the par value of $500,000; Charles Ora Card, with 2,400, valued at $240,000; Alonzo E. Hyde, with 1,600, valued at $160,000; William J. Schofield, with 975, valued at $97,500; W. S. McCornick, O. J. Salisbury and John W. Taylor, each 25 shares. James A. Cunningham is president; Charles Ora Card, vice president; Alonzo E. Hyde, secretary, and William S. McCornick treasurer. These, with Moses Salisbury, Schofield and Taylor, constitute the board of directors.

TERRITORIAL ITEMS.

Accident at Fairview—Mining and Railway Notes.

Mt. Pleasant *Pyramid*: A sad and unfortunate accident occurred at Fairview on the morning of the 12th inst. Charles Coulard, while upon his house engaged in repairing, slipped and fell to the ground, the fall occasioning a fracture of one of the legs near above the knee. Surgical and medical aid was at once summoned, and the patient at present is doing well.

Milford *Progress*: The Alta Mining company, of Deseret district, which has been in a state of "suspended animation" since the burning of their smelter several years ago, has come to life again, under the verifying influence of the Leadville smelter, and intend at once to commence the thorough development of their properties. The company at its annual meeting held recently, elected C. M. Howard, superintendent of the Mercur, president, and John Dern and Thomas P. Joy, of the Mercur company directors. The property consists of thirteen claims, adjoined to Dick, on which a large amount of development work has already been done, and there is lots of ore in sight, running high in copper and well in gold. The company have been unable to market their ores in the past on account of the large per cent of silica, but this difficulty is no longer confronted, as the Leadville smelter treats that character of ore without increased cost. Mr. Joseph F. Ray, of this city, who, three or four other gentlemen, have sold their property below Black Rock to eastern capitalists, owners of Chicago. This property yields immense quantities of pyrite gold, so far the best pyrite supposed to exist only in Italy. A capital of $500,000 will be invested and work toward developing the new enterprise will commence at once.

Tooele *Dispatch*: Mr. John Pendergrass had an exciting encounter with a mountain lion while coming Lodge's Peak, near Lodge's Peak. After wading through the snow for several miles he came face to face with the animal, and the struggle began. He raised his Winchester and fired eleven shots at the animal, each of them taking effect. The lion came upon him and seized him and bore him down and flesh from his body. In the struggle he got hold of his knife and plunged it into the heart of the animal. Mr. Pendergrass is recovering and will be around soon. . . . At the last meet in the citizens interested in the Rover mill project, the affairs of incorporation were fixed and secured. The capital stock is placed at $25,000, divided into shares of $10 each, each stockholder has but a single vote regardless of the number of shares he may hold. A subscription committee was appointed and work is to be started Monday morning. The company will be known as the Tooele Mining & Manufacturing company, and seven of the stockholders will form the board of directors, who will be elected immediately after ten per cent of the capital stock is subscribed for and the company legally incorporated.

Shell Messenger: Theodore Brunch, president of the Sanpete Valley Railway company, has departed for England. It is rumored that he will complete purchasing the Utah division of the Union Pacific and contemplating the line to Salt Lake City. The people on the south think that the road will be extended to Marysvale in the spring. . . . The Central Utah Water company has delivered about 20,000 miners' shares since during the week. This was in settlement for late sales of work. The company handled nearly one and one-half million pounds of water last season. The prices obtained were good in comparison with the value of other lines.

Park City *Record*: A snowslide of considerable proportions occurred on the Anaconda fraway just south of the mill about 1 o'clock yesterday afternoon, and four mules and two men were carried down the hill and the road so badly blockaded that hauling had to be abandoned for the afternoon. Subsequently two horses were injured. . . . John Larsen, of Kansas, met with an accident on Thursday afternoon that nearly cost him his life. He was hanging up a vest when the stick holding the animal gave way and down it came, the stick striking Larsen across the nose and above the left eye. An ugly gash was cut over the eye, while his nose was broken and badly bruised, bleeding very profusely. The injured man was brought to Park City through the big storm that was raging at the time and had his wounds dressed. The storm was the worst that had visited Kamas for some years, and it required six horses for Mr. Larsen and the men who were with him to make the trip.

"How Well You Look"

Friends Surprised at the Wonderful Improvement.

C. I. Hood & Co., Lowell, Mass.:

Dear Sirs—I feel pleasure in writing the good I have received from taking Hood's Sarsaparilla. Every spring and because of my years or more my health has been so poor from heart trouble and general debility that at times I was unable to do my work.

Emaciated and Weak and Pale

Had my friends thought I would live long, I would do nothing but work at all and had to lie down every few minutes. I began getting worse in January, being all sick and tired of life. I thought I would try Hood's Sarsaparilla and I am happy to say I am entirely well. My friends remark to me: "Why how well you look!" I tell them I owe it to Hood's Sarsaparilla that has done the work. I would have all suffering as nearly give this medicine a trial and be convinced. This statement is **True to the Letter.** Mrs. Jennie Decker, Waterville, Me.

Hood's Pills are over the best cathartic, laxative, aperient, and purgative. 25 cents.

BACK VOLUMES

OF THE

DESERET WEEKLY.

The sixth volume of the DESERET WEEKLY in the present form is now bound. A limited number of copies of these six volumes can be obtained at the DESERET NEWS Office, Salt Lake City, in bound form at $5.00 per volume. It is the best history of current events to be obtained, and by far the cheapest, and the time is not far distant when they will be eagerly sought after by students of history, anxious to be informed of the stirring events which have transpired within the past three years—the most interesting period of the history of the Latter-day Saints. Every person who can afford it should secure these volumes while they are to be had for future reference, and especially should they be obtained for every Sunday School, Improvement Association and Ward History. Apply early to make sure of getting them.

SUNOL!

ROBERT SONNER

Superintending the shoeing of Sunol with the Putnam Nail.

PRESIDIO HILL SHOE FARM,
MILLER & SONNER,
PROPRIETORS.

SAN FRANCISCO, CAL., Feb. 10, 1894.

PUTNAM NAIL CO., Neponset, Mass.:

Gentlemen—Shoeing Sunol for one of the late races, it became that I have used the Putnam Nail and others. And as has proven to the public with no one where I will go when my fame rest to be said that the Putnam Hand Forged Nail is best prepared. When there are no others as good, I know what to use, and cannot afford to make experiments.

Very respectfully yours,

Chas. Marvin

The Putnam Nail is the only exclusively Hot-Forged and Hammer-Pointed nail.

Look in your smith's shoeing box, if the nails have smooth edges for the whole length they are the PUTNAM, for they are Hammer-Pointed and are not sheared.

The above portrait, from a photo represents Mr. Sonner in the act of handing to smith a Putnam Nail, which upon inspection he finds to be of good temper, and will be sent to the farm of a half brother, Jos. de Ruiz, with capel, with wide margin, on receipt of 2 cent stamp for postage, etc.
