Take all your prescriptions to the reliable Godbe Pitt Drug Store.

DESERET EVENING NEWS

TUESDAY, APRIL 9, 1895.

FAMOUS CHARTER OAK.

A Piece to be Used in a Table to Which will be Added the Bell Used by the Prophet of Utah.

Governor John E. Wilson has received a piece of the famous old Charter Oak tree at Hartford, Conn., to be used in the manufacture of a table upon which will be placed the bell used by the Prophet of the Lord in the dedication of Utah. The correspondence between Mr. Wilson and the citizens of Hartford, in connection with this gift, was published in the Hartford Courant as follows:

A committee was appointed in Hartford some time after the adoption of your State by Congress, inviting a response upon the part of Utah to the action of Connecticut. We learned that the Legislature of Utah was not, and that your people were not, in a mood for such recognition.

SALT LAKE CITY, Utah, March 15, 1895.

To the Executive, Governor Coffin:

Sir: It is with much pleasure I am able to send a piece of hard wood of ancient growth and very high character, particularly in the history of the Mormon people, and of great interest. It is to be used in a table upon which will be placed the bell used by the Prophet Joseph Smith, in the dedication of Utah, and the bell, passed by his successor, President Brigham Young, at the first Legislature of Utah, and you will recognize a great interest in it.

Very respectfully, JOHN E. WILSON.

HARTFORD, CONN., March 28, 1895.

John E. Wilson, Esq., Salt Lake City, Utah:

DEAR SIR—Your letter addressed to the people of our State respecting a piece of ancient wood was passed to me with the accompanying letter, which I have the honor to transmit. I was pleased to receive your letter, for it indicated that you were not so anxious to express a condition as to the proper mode of approach. We understand in Hartford that some time after the adoption of your State a committee was sent to Utah to inquire if a response on the part of your State would be acceptable to the people of Utah. We understand that the committee found that the Utah people were not in a mood for such recognition, and that it was considered impolitic to make a response. Twenty years have passed since the incident, and we have learned in the history where that course was before. It was known, of course, to the people, that Connecticut, The Charter Oak State, had sent a committee to Utah, and that the people of Utah had declined to make a response. Perhaps it was some time after that before the Legislature of Utah, and it could not be known what action would be taken. Hoping it may reach you in safety and prove satisfactory to the people of Utah, and expressing sincerely my pleasure in being of service, I remain, Yours truly,

CHARLES H. BURNS,
Superintendent.

Bonding Proposition Discussed.

A meeting of the county court and the committee appointed to mature a plan for securing the financial situation of the county was held last night in C. G. Wachtmeister's office, in the McCornick block. Messrs. Armstrong, Dealy, Hire, Armstrong, Nelson and Clawson were present from the committee and Messrs. Hedges, Roberts and Whitemore on behalf of the county. The proposition of bonding was discussed and will be submitted to another mass meeting at an early date.

Every sample and counter purchaser Price's Cream Baking Powder at a — food party.

FIRE AND POLICE BOARD.

Special Bicycle Policemen—Chief Bancroft's Report for the Quarter.

The board of fire and police commissioners of last night's meeting discussed the question of appointing special policemen from among the bicycles, and the chief of police was instructed to appoint twelve or fifteen persons to enforce the Lagoon ordinance.

Chief Bancroft's quarterly report was presented and transmitted to the Council. The report shows that in March the Department has disbursed the sum of $1,540 67, and has received from the sale of stores $1.50, so that the total expenditure for the quarter had been $39,558, as large as $6,111 in excess of the appropriation.

A recommendation from the City Council authorizing the chiefs to contract with those who furnish supplies, was read and referred to Chief Pratt.

John E. Nelson's complaint that the bathtub of the Hotel Palace, in the employment of the gas company, prohibiting their running of carry, had resulted in his being fined $5.00, was referred to the chief of police.

A HOME PRODUCTION.

An Enterprise That Should Receive the Support of the People.

Stores of all grades are now being manufactured in the Territory. Messrs. Simmons & Swedin, of Ephraim, never sanely, has recently introduced an invention for the protection of these goods. Samples of their work were lately brought to this office, and they are of excellent quality, ranging from the finest stoves to the stove-and-cookers. The patterns are strictly a home production, the castings being allowed in Utah and the carry the stove fitts, with comes a beauty in connection with the style industry. The man in charge of the work recently arrived from Ann Arbor, where he was engaged in the business for various years, and is thoroughly competent. The firm also manufactures tanks and other stoves to order.

BIMETALLIC CONFERENCE.

The Governor Asked to Appoint Three Delegates to Represent Utah.

Governor West yesterday received a communication from Senator Stewart, of Montana, requesting the Governor to name three gentlemen to represent Utah at a conference to be held in Salt Lake City, May 15, 1895, for the purpose of perfecting an organization for an educational campaign that will place bimetallic literature in the hands of millions of voters now ignorant of the merits of the question.

Governor West has received the hope "that very such delegates will be appointed as will agree to attend, and that the conference will be composed wholly of men who have free voices at a cost of $1.00, without reference to international conferences, and who have the ability to plan and the courage to act for the best interests of all our people." The conference is to be strictly non-partisan, in a political sense.

Convicts Pardoned.

Clayton Francis and Alexander Ogilvie have been pardoned by Governor West. In March, 1891, they were sent up from the First district court for two years in the penitentiary for grand larceny.

Expert Chemists in investigating adulterants say that Dr. Price's Baking Powder absolutely pure.

WORK OF RELIEF.

Report of Receipts for the Sisters' Wheat and Supplies.

BEAR CANYON, WYO., April 7, 1895.

Editor Deseret News:

I herewith enclose a list of such donations for the relief of widows and orphans herein mentioned, which by the exception of No. 5 is clear.
