ROUGH AT THE LAKE.

Tooele County Windstorm That Surprised Bathers.

COME SUDDEN, SHARP, STRONG.

Dangerous at Lagoon—Sale of Unless For Rent—Wade Hampton Improvements.

Bathers at the Lake resorts were suddenly overtaken by a squall about 7 o'clock last evening. Following the extreme heat of the afternoon came the sudden rising of clouds and an heavy shower in Tooele valley, accompanied by the roar and rush of a windstorm that swept over the Lake. The waves became choppy and lashed the shore with unusual fury. At Saltair the storm was particularly violent for about half an hour and it was not without difficulty and danger that some of the bathers reached their cabins in safety.

FINE TRAPEZE WORK.

Splendid Exhibition Given at Saltair by the Vanting Houston Brothers.

The Houston Brothers, who opened their engagement at Saltair last evening, gave a fine exhibition of trapeze work and were loudly applauded by the crowd in attendance. Their acts are unique and new in this section so far as the display of electric light is concerned. Invisible wires supporting the cable electric fluid run from the main circuit to various points in gleaming and var-colored globes about their necks and bodies. The circuit was made to open and close, and causing light come and go, very pretty some was presented, and to that brought cheers of admiration from the walls of the auditorium. The engagement, together with Sperry's present high dives, continues throughout the week.

The extreme coolness for bathing in the briny waves seems to have taken out afternoon and each afternoon and evening now witnesses the presence of large numbers of persons engaged in the pleasant and profitable pastime of dipping themselves in the waters of the world's greatest inland sea.

MENAGERIE AT LAGOON.

A Collection of Animals and Birds to Select Rule Thrown.

Mr. Simon Hamburger, owner of the Lagoon pleasure resort, has begun the stocking of animals and birds for a menagerie at that place. He has purchased two mountain lions, two wildcats, a bear, two deer, and some other animals, has engaged for a cage monkeys and several parrots, and is contracting for several more birds. The cages will be placed at Lagoon. It is intended to add from time to time to the collection, and to fix up a special department for an attractive menagerie.

FORECLOSURE MADE.

U. P. Will Be Sold to Satisfy Government Mortgage.

OMAHA, Neb., July 29.—Decrees of sale of the Union Pacific railway, under the omnibus proceedings instituted against it by the United States, were passed upon by Judge Walter Sanborn in the United States court in this morning. There was no objection to the entrance of the Ames-Blair decree, and others few corrections and some made in the printed draft of the decree it was passed upon by the court.

The attorneys of the government decline to enter into a vigorous debate before the court. Henry, special counsel for the United States, and Winslow Foster, counsel for the reorganization committee. The debate was upon the right of the court to reserve to the United States all rights of the government not expressly stated in the decree. It was decided in favor of the government.

The upset price under the first mortgage will be $60,627,493. Judge Wm. Grinell of N. Y. Dodge will act as special master in the matter. He will take the main line, the 1,034 miles of it from Council Bluffs to Ogden and the Kansas branches in this state. The sale of sale will not take place until twenty days shall have expired, the court giving that much time to the Union Pacific Railroad company to redeem the property. The place of sale and other matters concerned with the sale will be fixed by Judge Grinell. Similar decrees will be entered in Council Bluffs this afternoon and later in the states of Wyoming, Colorado, Utah and Kansas.

The receivers in the cases are ordered to file within ten days of the entering of this decree an approximate statement of the amount of money in their hands, the amount of money due to them, and all their liabilities due to the operation of the mortgaged lines.

The decree appoints Wm. D. Cornish special master to make the sale and he is given power to postpone the sale from day to day if circumstances require. Prospective bidders are required to deposit with the master in advance of the sale, the sum of $100,000, and the successful bidder must deposit within twenty days after the sale an amount equal to 10 per cent of the bid, a pledge that he will make his good. No bid will be accepted for less a sum than $59,627,493.

The purchaser may pay for the property in cash or in cash and first mortgage bonds, and the amount remaining of the application of the two deposits must be paid as follows: 25 per cent within thirty days after the confirmation of the sale, 25 per cent in forty days, 25 per cent in forty days, and 25 per cent in sixty days. Payments may be made in bonds at the value of the principal and the interest due, the money received from the sale to be used first, for the payment of the receivers' notes, and second, if there be a surplus, to the payment of the debt due the government.

The purchaser pays all costs of the sale, the expenses of the sale, compensation of the master, balance due receivers on salary and expenses, the expenses of the receivers incurred during the management of the property. The decree is twice of the first mortgage bonds, except that it provides for a lien of the property subject to the lien of the government in case the sale shall be confirmed in no other manner. It provides for double sale, to the interest amounting to $30,815,000, making a total of $87,767,430, the upset price being $28,000,000; the other in the sale of $18,848,250 in bonds in the United States Union Pacific and the land, which cannot be sold for less than par value.

HAMPTON INSPECTING.

Physical Condition of Government-Aided Roads Good.

SAN FRANCISCO, July 30.—Gen. Wade Hampton, U. S. commissioner of railroads, is here on his inspection tour of the government-aided lines. Since leaving Colorado he has come on his official duties, and expected to make a thorough inspection of the physical condition of the railroad properties in which the government is interested.

Thus far he has found the physical condition of the properties fully up to the standard, and after the accustomed inspection of books and accounts of the companies, Gen. Hampton will make his report to Congress and recommend such legislation as may seem for the protection of the government's interests.

ROAD TO CRIPPLE CREEK.

Million and Half Dollar Electric Line from Colorado Springs.

COLORADO SPRINGS, July 29.—Colorado Springs will be connected with the Cripple Creek gold camp by a short electric road. The council has granted a franchise to Irving Howbert and associates and also the right to derive motive power from the city's water system. Work on the grades was begun today. The road will be thirty miles long and will cost $1,500,000. Grades as high as 132 per cent will be used.

Winter Appointed.

ST. PAUL, Minn., July 29.—General Superintendent R. Herring of the Great Northern has issued a circular, approved by President J. J. Hill, under date of August 1st, in which R. W. Bryan is named as assistant general superintendent of the western district, in place of O. O. Winter, resigned. Mr. Bryan has been superintendent of Shoun & Keats railroad, a small system in British Columbia, for several years. Mr. Winter, it is said, will give his attention to some gold mines in the Kootenay region.

S. F. A. Collapse.

CHICAGO, July 29.—The Southwestern Passenger association is apparently going to pieces. The St. Louis & San Francisco has withdrawn. The Rock Island and Santa Fe, it is reported, are about to do so, and there will seemingly not be enough the left to maintain it. The reason for the collapse is the refusal of the Southern Pacific to have anything to do with the association.

Colorado Midland to Be Sold.

DENVER, Colo., July 29.—The sale of the Colorado Midland railroad and all property appertaining thereto is to occur at Colorado City September 8th, at 12 o'clock noon, according to the decree of the United States court directing Receiver Bruce to sell assets of the company. Bids will be accepted only from parties who have deposited at least $5,000 with the receiver of the road. Special Master William McClure will conduct the sale.

Replaces Her Brother.

SAN FRANCISCO, July 29.—The directors of the Southern Pacific company today elected George Crocker a director of the company to fill the vacancy caused by the death of his brother, the late Col. C. F. Crocker.

Foreclosure of First Mortgage.

VINITA, I. T., July 29.—A bill has been filed in the United States court here against the Atlantic & Pacific Railroad company and the American Loan & Trust company of Boston for the foreclosure of the first mortgage on the central division of said road, extending from Seneca, Mo., to Sapulpa, I. T., 112 miles. Under this mortgage, there are outstanding to the amount of $5,474,000, and the suit also involves $1,825,000 of bonds issued under a second mortgage to the same trust. The central division bonds have been sold to the St. Louis & San Francisco Railroad company, and title will be acquired under these foreclosure proceedings.

Railroad Notes.

The general agent of the Oregon Short Line at Portland, Mr. C. E. Ellis, has resigned on account of ill health and his assistant, Mr. Cimmin, has succeeded him.

Colonel Shepard, general western passenger agent of the Chicago & Alton railroad at Denver, is in town visiting with the local railroad men in the interest of his road.

Mr. A. A. Smith, who recently resigned a lieutenantcy in the N. G. U. to go abroad, has left on the Oregon Short Line for Liverpool. Mr. Smith intends to take a through ticket from here to England.

Mr. Albert Fisher, in company with his daughter Alice and his sister, Miss Lena Smith, have left this city over the Oregon Short Line for the North. The party will sail from Tacoma, Wash., August 7th, on the steamer Queen for Sitka. The Alaskan trip is not made in the search of gold, but merely for pleasure and sightseeing. The return will be by way of California.

Mr. F. A. Wadleigh, general passenger agent of the Rio Grande Western, is stocking out a circular letter dated August 1, giving notice of the appointment of Mr. E. B. Blair as general agent, passenger department, for the Western at Butte. His office will be No. 21 E. Broadway. Mr. Blair is freight and passenger agent of the Union Pacific at Helena, Montana, and he will give up this position on assuming his duties on the Western.

Horse Freak Succeeds Ostriches.

Visitors to the Jubilee noticed as one of the attractions of the city a herd of ostriches, stationed south of the Gardner Pitts drug store. The birds were shipped in early in July from a farm in Pasadena, Cal., and were placed on exhibit for temporarily, it was said, before being put on the farm to be established near Fort Douglas.

When questioned about the suitability of the climate here for ostrich raising, Mr. Pearson, who had charge, said that the weather reports had been studied for ten years back before the decision to establish the farm was arrived at. As the Jubilee people departed, however, the ostriches and their keeper were stuck with a longing for their homes in the Golden state, and determined to be where they could either in or out of the state, to the extent of the ostriches, and the keeper was left behind to care for them.

It is now learned that the ostrich farm was a thing never contemplated, but was used as a means of getting coins from the people.

The site of the ostrich exhibit is now occupied by an enterprising peanut venter. The actual was hatched April 8, 1894, at Campo station, Clover county, Idaho, and has been raised by William Morgan. From the tarsus to the ankle of each leg, smaller ankle and foot is joined. The conjoined is natural abnormity. It is not pathology, but nature's freak. The animal is the third foot of the same monstrosity that has had the duplicating of feet. It is strong and has traveled fifty miles in a day.

MISSIONARY'S FAREWELL.

Benefit Concert to be Given Elder J. T. Edward at the Nineteenth Ward Meeting House Tonight.

Elder John T. Edward, who leaves next week on a mission, will be tendered a benefit entertainment at the Nineteenth Ward meeting house, this evening. The entertainment will commence at 8 o'clock. A big house is looked for. Following is the excellent

Duet ..... Misses Thomas
Recitation ..... Miss Emmeline
Duet ..... Elder Edward and Miss Gibbs
Duet ..... Misses Ward
Closing ..... Choir

Elder T. Edward and Miss Fred Gibbs will sing a duet at the close of each part.

PETITION LAID OVER.

Land Board Takes action on the White Mountain Reservoir company's Project.

At a meeting of the board of land commissioners held yesterday, Commissioner McFarland moved that the petition of the White Mountain Reservoir company be laid over and that they be given twenty days in which to furnish the board definite information as to the feasibility of its project and of its financial ability to carry on the enterprise; and that they furnish the board with a map showing the lands to be benefited by its work, and that the selecting agent be directed to immediately file in the U. S. land office the lists of land together with the maps as asked for by the Lake Bonneville Water and Power company. The motion carried unanimously.

APPLICATION DENIED.

Chief Drake Will Not Be Allowed Additional Men as a Crew for Engine No. 2.

The application of Fire Chief Dewise for an additional three men was considered by the joint Council committees on police and fire and waterworks, who decided not to make the allowance, but instead to station men at the Emigration and Capitol Hill systems. The duties of these men will be to turn in water if needed. The chief's complaint was that a danger existed in the business district with the unusual low pressure of water, and he asked to be given the additional men as a crew for engine No. 2 now "dead" at the west side station.

HE WANTED TO DIE.

A Cook Who Had Resolved on Drowning Himself.

A cook at the Royal Bakery on East Temple street made up his mind a day or so again end his earthly existence by drowning. With this end in view he wrote a note to his employer, Geo. Mueller, in which he realized that disease and financial troubles had so worried him as to make his life a burden. "Before you get this," the letter ran, "I will be lying at the bottom of the Jordan river, near the Saltair bridge. Write to my mother in Germany and tell her of my death."

Thinking that the man had carried out his dire threat, Mr. Mueller informed the police department, and a squad of men were sent down to make a search. They looked around for a time and were informed by a bystander that a strange man had asleep in a box-car near by. Going towards the car a man was behind leaving it, and being apprehended he was found to be the party who had received an self-destruction.

He was taken to the police station where he told of his troubles and his resolve to end them by the course indicated. Later he was released, but his name would not be divulged by those interested in the case.

Partnership Accounting.

Deputy Clerk George E. Blair as special master, took testimony this morning, in the case of Allen G. Campbell vs A. F. Holden. This is an accounting on a partnership in an American Fork mine, now called the Mono Mining company, but which was previously known as the Maly Eden and Live Yankee mining claims. Mr. Holden owned the claims under whose of a half interest from A. M. Dunmey, the other half interest being by A. G. Campbell and Nathan Owens. When the case was tried Judge Hiles decided in favor of Campbell and Called participating to the profits. Mr. Blair was appointed to take the account and report to the court. The items, as shown in the report, are $14,693.57, expenses $10,710.71, leaving a balance to be distributed among the partners of $3,982.86.

High Priests.

The regular monthly meeting of the High Priests quorum of the Salt Lake Stake of Zion will be held in the Assembly Hall tomorrow (Saturday) at 11 a. m. Members of all other quorums of the Priesthood are cordially invited to be present.

ELIAS MORRIS,
President.

HAILEY HANGS HIMSELF.

A Morphine Fiend Ends His Career While in Jail.

Ed Hailey, a morphine fiend, hung himself in a cell in the city jail last night, where he was doing punishment for trespass. He had been raving for a "smoke" for some time previous and it is supposed that this drove him to the act of self-destruction.

The manner in which he did it was a novel one. He tore up his trousers and in this way secured a string of cloth long enough to serve as a noose and fetter to an upper bunk in the jail. This he did by climbing on a lower bunk, and, fastening the string to an upper bedstead, he placed himself swing in which position he was found by a fellow-prisoner, Dobson.

The body was removed to the undertaking establishment of Joseph Wm. Taylor under the direction of Justice Margetts. The deceased was about thirty years of age and is said to have a father living in Denver. He left no word assigning any reason for his rash act.

Too Many Sheep.

NEPHI CITY, Utah, July 29, 1897.

To the Editor:

In your paper dated July 24, page 10, appears the following:

"The secretary of the Wool Growers association has numbered the statistics showing that six counties of Nephi own 1,600,000 head of sheep."

I do not know where your correspondent got his information from. I think this is an injustice, as any one who knows anything about this matter knows it is not correct.

Yours truly,
J. R. ROGERS.

The figures should have been 150,000 and were so written, but were changed by a compositor.

Fell and Broke a Leg.

M. Christensen, a Fort Duchesne, cavalry troop tailor slipped on the pavilion platform at Saltair yesterday afternoon and broke his right leg in two places. He was brought to Salt Lake on the 5 o'clock train and had the fracture reduced by Dr. Beer.

Adulterated Food.

H. J. Faas Jr., State dairy and food commissioner, submitted the following questions to Attorney General Bishop:

If I find adulterated articles in violation of chapters 41 of the laws of 1896, and 45 of the laws of 1897, and destroy the articles, would the owner have any just cause of action?

Have I the right to appoint a deputy at any time I see fit, and if so, how?

Should I be provided with an official seal in conform to section 3 of chapter 45 of the laws of 1897?

Replying the attorney-general says: "Section 18 of chapter 90 of the laws of 1896, among other things, provides that all property seized shall be safely kept by the officer of the court or magistrate, so long as shall be necessary for the purpose of being produced as evidence on any trial. The same section provides for the confiscation of any property which may be seized pursuant to its provisions, but such confiscation shall be made under the direction of the court or magistrate having jurisdiction in respect thereto.

"If it become necessary to deprive one of his property by forfeiture or confiscation, it must be by due process of law, and our statutes having provided the proceedings necessary to be had in the premises, you must proceed in strict accord with its provisions. You are therefore advised that you have no authority in law for the course suggested in your first question, and therefore might render yourself liable on your bond for any damage occasioned in consequence thereof."

As to the other question the attorney-general says that there is no law authorizing the appointment of a deputy, nor any providing for the use of a seal by the commissioner.

Branch Normal School.

The committee of the State board of school have issued a neat eighteen-page circular descriptive of the branch to be opened September 13th, 1897, at Cedar City, Utah. The school year runs for forty weeks, ending June 10, 1898.

The instructors are Milton Bennion, B. S., principal, pedagogy and history; George W. Dewey, B. Pd., librarian, mathematics and natural science; Howard R. Digby, secretary and registrar, English language and literature; Annie E. Spencer, assistant librarian, elocution and physical culture.

Several hundred dollars have been appropriated for apparatus, and through the new building will not be completed till September, 1898, a commodious and well lighted building is being remodeled for temporary occupancy.

STATE NEWS.

James Patterson was sentenced yesterday to 90 days in the Weber county jail, for stealing a set of harness.

C. W. Blasse of Silver City, Juab county, was fined $100 and costs in a justice court on Thursday afternoon. Adequate compensation is supposed to have been the cause.

Lehi Banner: The fruit trees of this section were never more heavily laden than this season. In every orchard the trees are almost bending under their homeward loads. Bushels and bushels of delicious fruit will go to waste for lack of a market while in other sections people will be forced to go without it.

May Affect Registrars.

A question has been raised whether the new law with respect to the appointment of registrars has affected those appointed last year. The matter has been referred by the board of county commissioners to the county attorney for an opinion.

A CHILD ENJOYS

The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the latter be needed be sure to use the best, the most gratifying results follow its use; so that it is the best family remedy known and every family should have a bottle.

LAGOON! LAGOON! LAGOON!

Grand Concert Sunday Afternoon, August 1st, 1897.

Miss Viola Pratt, Soprano, Miss Elice Barrows, and Mr. Frank Foster will sing at 4 and 7 p. m.

Trains every hour, starting at 1:40 p. m.

Round trip, including admission, 25 cents.

Who Can Know

It is folly to build upon a poor foundation, either in commerce or in health. A foundation of sand is insecure and to deaden symptoms by narcotics or nerve compounds is equally dangerous and deceptive. The true way to build up health is to make your blood pure, rich and nourishing by taking Hood's Sarsaparilla.

Hood's Pills act easily and promptly on the liver and bowels. Cure sick headache. 25

"Last summer one of our grandchildren was sick with a severe bowel trouble," says Mrs. E. O. Gregory, of Fredericksburg, Mo. "Our doctor's remedy had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief." For sale by Druggists.

Dr. Theodore Meyer reopened office at Progress Block, 249 Main.

Periodical tickets taken for trade at the Palace Meat Market, 255 south Main.

W. J. Barnett, scientific, thorough and painless dentist, does the best and cheapest dental work in the city. 77 West First South.
