SPAIN AND CUBA.

Interview Between the Duke of Tetuan and Consul Taylor.

IT WAS EXTREMELY CORDIAL.

The Action of the Cuban Chiefs in Asking the Rebels Surrender, Probably.

NEW YORK, Aug. 12.—A special to the Herald from Madrid says:

With reference to the prolonged interview at San Sebastian between the Duke of Tetuan, Spanish minister of foreign affairs, and Mr. Hesketh Taylor, the United States consul to Spain, which has given rise to so much comment in the press, the Imparcial, Senor Canovas' organ, states that the interview probably related to the representations addressed by the government to the powers, but no matter was subject was, one thing is certain, that the interview was most cordial and the business recent with the friendly relations existing between the two governments.

The article further states that the object of the representation was to place the true condition of the affairs of Cuba before the other powers, in view of the dispatch of additional troops and to show ample justice to the commendable motives of President Cleveland and Mr. Olney.

Neither the Spanish government nor not could be near to the alarmist causes of unrest in the help and sympathy manifested in the senate by American citizens. However the best understanding of President Cleveland, endeavoring and repeating the notice that of the ministry of Cuba, it is hoped to have the desired effect. Senor Canovas, when seen, confirmed the statements concerning the interview between Mr. Taylor and the duke of Tetuan.

MAY SPAIN FIND A WAY TO THE POWERS?

CHICAGO, August 12.—A dispatch to the Chicago Tribune from Berlin says that a statement issued by Count Tenge, of Paris, the Spanish minister, a circular to the powers in regard to the attitude of the United States on the Cuban question, is looked upon in the German capital as being incorrect. The dispatch 1: the Cologne Gazette says that according to the most recent information in Berlin it is not generally known that the President "only recently pressed in favor of the maintenance of neutrality and it must be assumed that he will use that influence to prevent the use of force against the American federal government affairs."

The dispatch to the Cologne Gazette continues with the remark: "Everything, therefore, which the powers concerned could say in a friendly manner in a second memorandum, and any fresh or stronger representations would only be regarded as proof of distrust of President Cleveland, for which there is not sufficient ground. Therefore, it is a intelligible that Berlin is at present disposed to defer the circular."

He Sees the Republican Platform Is Sound on Money.

BENTON, Miss., August 12.—Congressman of the Currency James Kehoe has arrived in Benton from the Napoleon country. He has been fishing in the Lake Dupatter region for several weeks and the fishing has evidently done him good, for he looked brown and healthy and seemed to be full of energy and vim. Mr. Kehoe talked freely on political matters. He said:

"I think the prospects of a Democrat which is sound money Democrat can succeed ought to be made, say Senator Palmer of Illinois, but if he contemplates it he is mistaken. I would favor the support of McKinley by sound money Democrats. The money question is the great issue and the Republican platform is sound on that question."

THE ATTACK ON SOGALES

Indians Outside Activate in Secure Arms and Money.

SONALES, ARIZONA, August 12.—About 40 white and mounted Indians at Nogales on both sides of the international line were around their sleep by a volley of shots. Running to the window I saw Chief Juan Cruz and twenty-five Yaqui and Tucson Indians and make an attack on Nogales, Sonora, for the purpose of securing arms and money to aid in the revolution of the Mexican government to the interest of Santa Teresa de Cuba, the leader of the attack Juan Cruz, one Indian fatally wounded, will die; one is a prisoner. Two Cubanos, Mexican custom house guards, Francisco Lopez and Manuel Gonzales, 35, are dead; another, Jose Pena, is mortally wounded, and Concepcion Cubas, keeper of a little fruit stand, is dead. Intense excitement prevails on both sides of the line and business is almost at a standstill. The seven boys lying in the jail yesterday in Nogales has been organized to follow the swaying revolutionists.

A mounted man returned hastily from the Cananea ranch with a report of an encounter in the hills with the Indians. Possibly Sheriff Carmichael, chief of police of Nogales, Senor Juan Fernandez, whose brother was killed this morning and two others, Mexican guards, were killed Monday afternoon and eight Yaqui are for dead.

BRYAN'S SPEECH.

Said to Be Full of Financial Heresies.

LONDON, Aug. 13.—The Westminster Gazette, in its financial article this morning, says: "Bryan's speech will seriously not increase confidence in the minds of investors. It is replete with financial heresies and will stimulate the disposition of the holders of securities in the United States to withdraw their money from the United States until they are able to estimate the extent to which the Democratic party are adopted good sense, probably will be driven into a revolution and a continental treatment of the money question. Bryan's speech is. We do not believe Americans will take advantage of the political situation to repudiate the financial obligations of the American Republic, whatever some calling sentiment calling for bimetallism to get will not be valid when the time comes. Bryan's speech, however, contains that reflection being large amounts of gold are unable to meet their money obligations and to pay at any rate or fail to pay some debts in currency or become bankrupt.
