DESERET EVENING NEWS.

Tuesday, - - May 1, 1894

FRAGMENTS

Maggie Smith, the young woman who [illegible] the Electric Light company [illegible], has been discharged from custody. [illegible] the girl.

Last night Adjutant-General [illegible] paid off the Gatherer [illegible] for the services which they rendered during the industrial army's [illegible]. The [illegible] was at the rate of $1 per day, and came out of the militia fund.

At the meeting of the [illegible] ward Democrats, held last night, the following gentlemen were elected officers: [illegible], president; [illegible], vice-presidents; [illegible], secretary; [illegible], treasurer; [illegible], executive committee; [illegible], committee on membership.

Before adjourning yesterday afternoon the county court passed a resolution to the effect that Attorneys C. [illegible] Varian and C. S. [illegible] be employed to assist County Attorney [illegible] in the preparation, trial and defense of [illegible] vs. Salt Lake county and Salt Lake City, on behalf of the county. This, however, on condition that satisfactory arrangements can be made with the attorneys as to fees.

A FRUITLESS CAUCUS.

The Gravity Sewer Question Considered by City Servants.

The question of finishing the gravity sewer is a long way from being settled. For hours last night the City Council and board of public works wrestled with the proposition in joint caucus but failed to agree on a single proposition. "To illustrate how fruitless our labors were," said one councilman today, as he scratched his dome of thought and gazed intently at a pile of papers on his desk, "I have but to say that we know less when we came forth from the [illegible] of our deliberations than when we closed the doors on the world to solve a problem that is making some of us old before our time."

The matter has been under further consideration today and it is expected to go to the Council tonight. The Mayor is still determined to use all his influence in favor of completing the work even though all other improvements must be stopped as he regards it as being most beneficial to the city. President McCornick and a number of councilmen take an opposite view.

Mineral Patents.

Mineral patents were received at the land office Monday, April 30, as follows:

Charles E. Mitchener, No. [illegible], to the Cyclone lode mining claim, in the Rush Valley mining district, Tooele county.

Wm. Ottenheimer, John Creen, James Sullivan and Wm. S. McCornick, No. 1181, to the Shiloah mining claim in the Blue Ledge mining district, Wasatch county.

Wm. Ottenheimer, John Creen, Francis Smith and Wm. S. McCornick, No. 1183, to the Senator Mine & Co. mining claim, Blue Ledge mining district, Wasatch county.

HOW THE LINE CAN BE CROSSED

Utah Sheep Can Go Into Colorado Under Certain Regulations.

The state veterinary board of Colorado [illegible] have made the following proclamation which will be read with interest by Utah sheepmen:

From and after this date and until further notice the following regulations will govern the admission of sheep from the Territory of Utah into the state of Colorado: All sheep intended to be driven into the state must be inspected by the state veterinary surgeon before allowed to enter said state and due notice must be given to him at [illegible]. However, no sheep will be allowed to be driven across the state line unless accompanied by a bill of health granted by the state veterinary surgeon, based only upon the certificate of the state veterinary surgeon that such sheep are wholly free from disease, and have not come into contact with any diseased sheep during the preceding sixty days and have not crossed the trail of any diseased sheep during the preceding thirty days. The expenses of such inspection must be paid by the owners of the stock desiring admission. Sheep from said territory may come into said state by rail without inspection or bill of health provided they are only unloaded in said state for purposes of feeding and watering and are at the time of such unloading in the possession of the railway authorities and not unloaded for a longer period at one time than twenty-four hours. All previous orders of the veterinary sanitary board referring to the quarantine of Utah sheep are hereby revoked. The penalty for any infringement of this order is a fine of not less than $100 nor more than $[illegible], or imprisonment for not less than three months or more than two years, or both. [Signed]

J. W. Bowlin, President.

Charles Gresswell, Secretary.

Returned Elders.

Elder C. A. Carlquist, of this city, who has been absent for almost two years on a mission to the Scandinavian countries, arrived in this city in company with twenty-one Elders, all released from their various fields of labor in England, Germany and the Scandinavian kingdoms. Elder Carlquist left his home on May 29, 1892, and arrived in this city, returning, on April 28, 1894. The first nine months he labored as a traveling Elder in the Gothenburg conference, over which he later presided a short time. On May 1, 1893, he was called to Copenhagen to preside over the Scandinavian mission, which position he has filled until released to return home.

Elder John A. Johnson, of Monroe, Sevier county, Utah, left for a mission in the North on May 5, 1892, and returned in company with Elder Carlquist on April 28, 1894. He has labored principally in the Jonkoping branch of the Gothenburg conference, Sweden, where he has met with fair success.

Elder Gustave [illegible], of this city, also returned in the same company, April 28, 1894. He has been absent since May 7, 1892, and has labored in [illegible]

WHY

Do we furnish more homes than any other house in Salt Lake?

BECAUSE

We have the goods and make our prices and terms to suit the people.

[illegible] the Scandinavian mission, [illegible], presiding over the [illegible].

The Elders state that the work in Sweden is progressing nicely, the prejudices of the people having been somewhat overcome in many places. The [illegible] of the [illegible] priests still have the power, by law, to [illegible] any [illegible], provided they can [illegible]. In former years this law was made operative against [illegible] persons, many of whom were imprisoned [illegible], but at present the authority of the priests to [illegible] has been so great that the Elders have in most cases been left alone, and people listen to them with respect. Some opposition is met with through [illegible] newspaper articles, but in most cases even such can no longer do the injury that formerly resulted from them.

The Elders feel well in body and spirit and are full of hope for the mission in that part of the field. Their journey across the ocean was a pleasant one.

Elder Christian Munk Jr., of Manti, returned on Saturday evening, April 28, from a mission to the Northern States. He left his home March 20, 1892, and was assigned to the Indiana conference, laboring six months in Grand county, Indiana. The remaining portion of his mission was spent in southern Illinois. He was kindly treated by the people, better than he had expected, and met with fair success. The majority, however, were indifferent to the Gospel message.

Land Office Items.

The closing day of April registered four land entries in the office in this city. One was the cash land entry of Wm. A. Nelson, of Salt Lake City, for the southwest quarter of the northeast quarter and the northwest quarter of the southeast quarter of section 5, township 2 north, range 5 east, 80 acres in all, located in Summit county.

Wm. H. Rosser, of Minersville, made desert entry of the south half of the northwest quarter and the north half of the southwest quarter of section [illegible], township 28 south, range 10 west in Beaver county.

Christian Tolle, of Castle Dale, Emery county, filed homestead entry to the southwest quarter of the southeast quarter of section 22 and the west half of the northeast quarter and the southeast quarter of section 17, township 19 south, range 8 east.

James E. Shaw, of Smithfield, Cache county, made homestead filing of the south half of the southwest quarter, the northeast quarter of the southwest quarter, and the northwest quarter of the northeast quarter of section 11, township 13 north, range 1 west.

Territorial Items.

The district school at Kamas, Summit county, has been closed for lack of funds.

The Lehi *Banner* says it is more than likely that the schools of that place will have to close at the end of five weeks of the present term, for the want of funds.

Last week two boys were playing with a toy pistol, in a wagon at Morgan, when the weapon was discharged, and one of them, a son of George Hall, shot in the leg. The ball could not be located when the wound was dressed, but a day or two later was found in the boy's clothing.

The old settler A. S. Warren was a visitor, on Tuesday, says the Springville (Utah) *Independent*. He is engaged in attending to the honey bee and expects fairly good results this season. Amos drove one of the first wagons on the present site of Springville, Sept. 18th, 1850.

Antone Christensen last week brought in a piece of petrified wood broken from a tree unearthed while digging a ditch east of the city, says the Mount Pleasant *Pyramid*. The tree which was about eight feet long and a foot thick, was all completely petrified and imbedded some six feet under ground. The rings denoting the years of the tree's age can be distinctly seen.

Mr. John Callaan Wednesday was exhibiting a specimen of copper ore that was literally filled with virgin copper, says the Coalville *Times*, fully one-fourth of the piece shown being pure metal, and the specimen was as large as a hen's egg. Mr. Callan informs us that he discovered this rock within ten miles of Coalville, by accident, the specimen he brought being knocked off with a shovel and was less than eighteen inches from the surface.

On Friday afternoon Mrs. Bennett and her daughter, Mrs. Fanny Scott, were driving in a cart from Hinckley to Deseret. When nearly across the Sevier bridge, says the Millard county *Blade*, the horse shied, the cart both struck a post at the corner of the bridge and dumped both ladies out. Mrs. Bennett fell on her face, cutting her mouth, nose and forehead, and badly shaking Mrs. Scott, who pluckily held to the lines until Mr. A. Petty and another man arrived and rendered assistance.

Messrs. William Holden, John Spriggs, Charles and Cap Morby went down to Deseret this week to explore the bottomless pit about three miles from Deseret, says the Coalville *Times*. Parties have been down in this pit 250 feet, and were unable to go further, but they say there is a hole from that depth in which they dropped rocks, and were unable to hear them when they struck bottom. The party were unable to make any exploration of the [illegible] on account of the water which is now running in, but will make another visit at an early date.

High School "Olio" Staff.

The personnel of the new High School Olio staff is as follows:

Editor-in-chief, George Smith; associate editor, Ada Pratt; business

[illegible] Lund Leatherwood; [illegible]; John [illegible]; Harry [illegible]; [illegible], [illegible] May [illegible]. The new board will enter upon its duties today, and act as editors for a period of one year.

Bach's Pile Suppository is guaranteed to cure Piles and Constipation, or money refunded. 50 cents per box. Send stamp for circular and free sample to Martin Rudy, Lancaster, Pa. For sale by Godbe-Pitts Drug Co., Salt Lake City.

On the Move.

That on every Wednesday, Thursday and Sunday there leaves Ogden, Salt Lake, Provo and other western points, a through tourist or family sleeping car for Kansas City, Chicago, Boston and Philadelphia, via the Great Scenic highway, the Rio Grande Western Railway. Berth rates are less than half of rate charged on first class Pullman cars, being but $2.00 to Missouri River and $4.00 to Chicago. Specials or excursions are personally conducted and no change of cars is required. The Rio Grande Western also runs daily a through first class or Pullman sleeping car to Denver, Kansas City and Chicago. For other particulars inquire of agent.

Note the New Service to Eureka and Tintic Mining District.

The best train service that has ever been given to Eureka, Silver City and the Tintic mining district is now in effect, via the Rio Grande Western railway. Through train leaves Salt Lake at 5:00 p. m. for Silver City, Eureka and all intermediate points. Train leaves Eureka for Salt Lake at 5:55 a. m., and 1:00 p. m.
