### Last Night's Dispatches.

### CONGRESSIONAL.

#### SENATE.

WASHINGTON, 8.—A bill was introduced by Hoar to provide for a mail steamship service between the United States and Portugal.

Ingalls said the number of names added to the pension roll on account of the legislation of March 9th, pensioning the survivors of the war of 1812, was but 156.

Sargent stated the number as 10,491, which was the number of applications filed, and not the number granted.

Burnside called up the House joint resolution to provide that arms be issued to Territories as well as States, not exceeding 500 stand to each Territory.

TAYLOR (W. Va.), submitted an amendment that the present quota of the States shall not thereby be diminished. Agreed to and the bill passed.

The Senate resumed consideration of the Indian appropriation bill, the pending question being on the amendment to remove the Nez Perces Indians of Joseph's band, now held as prisoners of war at Fort Leavenworth, Kansas, to Idaho Territory, instead of to Indian Territory, as the House provided. After some debate the amendment was rejected.

Mr. Maxey moved to strike out the whole clause of the House bill which provides for their removal to Indian Territory, and appropriates $20,000 for their settlement, purchase of clothing, subsistence, etc.

Pending the discussion on this amendment Edmunds submitted one providing for the removal of the Indians named to such portion of the Indian Territory as the United States has the right to use for such purposes, consistent with existing treaties and arrangements with the tribes occupying Indian Territory. Agreed to without debate.

Maxey's amendment to strike out the whole paragraph was rejected, yeas 21, nays 28. The other amendments of the appropriation committee were agreed to.

A long discussion ensued on the Senate committee's substitute for the third section of the bill. The substitute provides that the President, with the consent of the tribes, may direct some appropriations.

Hoar submitted an amendment to the same effect, but adding the section appropriating a sum not exceeding $10,000, which may be expended for other uses for the benefit of such tribes, as the President shall approve.

Thurman said as soon as this bill was disposed of he would press to vote the bill repealing the bankrupt law, and if possible thereafter, call up the postoffice appropriation bill. Adjourned.

#### HOUSE.

WASHINGTON, 8.—After the morning hour expired, Wood moved to go into committee of the tariff bill.

Conger moved to strike out the enacting clause, which motion the Speaker, after some hesitation and questioning as to precedents, declared out of order because the bill was not before the House instead of before the committee of the whole.

Conger then moved the committee be discharged from further consideration, and Wood called him to order, and the Speaker ruled him out of order.

Conger then moved that the general debate be limited to ten minutes, but after some spirited passages between O'Neil and Wood in which the latter said he would not allow the debate to be limited and would oppose stifling the ways and means committee by such methods, Conger adopted the suggestion of Garfield and made his motion to limit debate to two hours. This was defeated—132 to 107.

O'Neil asked Wood if he would permit a motion to strike out the enacting clause.

Wood refused to answer and the House went into committee of the whole on the tariff bill.

Tucker, of the ways and means committee, supported the bill. He laid down the following rules as being within the spirit of the constitution. First, no duty should be laid higher than a maximum revenue. Second, under the maximum revenue point luxuries should have the higher rate of duty and necessaries the lowest. Third, it was more just to have an *ad valorem* duty. Fourth, unless necessary for revenue, a free road material, in favor of the consumer, should be allowed. Referring incidentally to the question of income tax he said: Under the present law the poor man's blanket paid a duty of 90 per cent. The money that paid for this article was an outgo from that which was an income, so that a tax of 90 per cent. was laid on so much of the poor man's income as went out of his pocket to provide his family with the necessaries of life. Therefore, the tax on consumption was tax on income because it was a tax on so much of a man's income as went out to pay for the bare necessaries of life. It was a misnomer to call such a system "protection."

Robbins, member of the ways and means committee, favored the bill, though it fell far short of what he thought the tariff law ought to be.

The committee then rose without action on the bill.

Ellis introduced a bill to incorporate the Ocean Navigation Company and to restore the shipping interests of the United States. Referred.

The House then took a recess till 7.30, the evening session to be for general debate only.

### EASTERN.

Pacific Mail Steamship Co—Protested Drafts.

NEW YORK, 8.

Drafts for $48,000 and $15,000, drawn by Elder & Co., of Glasgow, Scotland, on the Pacific Mail Steamship Co., were protested yesterday, the executive committee refusing payment. The claim of Elder & Co. grows out of a contract that existed a few years ago between this firm and the company for carrying the mails between Australia and the United States. Elder & Co. furnished three of the Pacific Mail Company's vessels, and the subsidies were divided in that proportion. When the contract was ended, the Pacific Mail Co. claimed that Elder & Co. owed a balance of $80,000. Since then the firm has paid $70,000. Recently, Prest. Clyde says Elder & Co. claim to have discovered that the Pacific Mail Co. is debtor to them $83,000, and they drew a draft on the United States, through the Merchants' Bank of Canada, in favor of the Glasgow firm. We do not recognize the validity of the claim, and we declined to pay it.

A Trick Exposed.

CHICAGO, 8.—Bastian and Taylor, spirit mediums, who have been doing some remarkable things here in that line, were exposed, to-night, by a *Times'* reporter, who caught a ghost face during a seance, and held it tight until its strong arms unloosed his hold and its manly voice swore in round tones at him for exposing the trick.

Wool Market.

BOSTON, 8.—There is very little change in the wool market; the demand is steady, and prices about the same as last reported. The recent purchase of fine fleeces materially reduced the stocks of this description, and there is now less pressure to sell. There is also considerable indifference on the part of buyers in the market, and it is hardly probable the prices for wool will advance. Sales of X and XX Ohio and Pennsylvania 37½ @ 40, mostly at 38. In Wisconsin, Michigan and New York fleeces, sales at 35 @ 36 for good average lots, medium and X. In combing and delaine very little is doing, small sales at 40 @ 42½. Pulled wools are in moderate demand at 29 @ 42½.

### WESTERN.

China and Japan News.

SAN FRANCISCO, 8.—By the arrival of the steamer *Gaelic*, Hong Kong, *via* Yokohama, Hong Kong, April 13th, and Shanghai, 10th, renewed attention is directed to the case of ex-Vice-consul-general Bradford. The letters published and evidence produced tend to exonerate him from the charge of mail-breaking, though leaving him still guilty of purloining and copying private correspondence.

There was a great tornado at Canton, April 11th. Thousands of houses were destroyed or seriously injured by the wind and an enormous waterspout from the river, which broke over the city. Many lives were lost. The foreign settlements suffered severely. In the midst of the confusion four fires broke out, supposed to be incendiarisms. Latest advices say that 500 Chinamen were killed. No foreigners were seriously hurt.

The western Chinese army, under General Tso, is overrunning Kashgana and annihilating all the inhabitants, including women and children. Multitudes of fugitives are flying to Russian outposts for relief.

Famine distresses continue, and enormous tracts are desolated by the long drouth. The ground has not been fairly watered for years past.

Yokohama, April 21.—The assembly of the provincial officials was opened on the 10th by the Mikado.

A Japanese ship of war is about to survey the Corean coast in search of a new port for trade. The one in the northeast of that kingdom, previously chosen, was surrendered in deference to the wish of the Russian authorities.

There is great activity among British and Russian ships in Japanese waters. All are preparing for sea service with much haste. The British squadron is to watch the harbor of Vladivostock. Russian cruisers are reported on the Pacific lines of English steamships.

The director of the principal Japanese steamship enterprise, Mitsu Bishi Company, announces his inability to conduct the concern profitably. This, if true, is believed to be due solely to incompetent management.

The former governor of Kanagawa province, of which Yokohama is the chief town, was arrested on suspicion of complicity in a treasonable plot against the government.

### FOREIGN.

GREAT BRITAIN.

Eastern News Notes.

LONDON, 8.—The Queen will review the troops at Aldershot on Monday.

Count Schouvaloff will visit Bismarck on his return from St. Petersburg.

Anarchy reigns in the newly annexed districts of Montenegro. The Albanians, Christians and Moslems, refuse submission to the Prince of Montenegro, and war may break out at any moment. The Austrian Government has telegraphed to Smyrna, ordering the men-of-war there to proceed to Cataro.

The Paris *Estafette* reports: That for the past few days numerous detachments of Russian sailors have been passing through France and embarking at Havre and even Liverpool for America, to man vessels purchased there by the Russians.

The *Agence Havas* says: Russia has no thought of setting aside England's legitimate influence or exercising exclusive preponderance of power in Turkey. This is shown by the fact that, despite Russian sacrifices, English influence is still prominent at Constantinople.

All officers of the Roumanian army, now on a furlough, have been ordered to join their regiments in Little Wallachia, whither Prince Charles will go shortly to inspect the whole army.

Forty thousand Russian reinforcements are expected at Jassy.

Russia has decided to refuse to liberate the Turkish prisoners of war, numbering about 60,000, in consequence of the uncertainty that the Porte will maintain neutrality in the event of war.

Montenegro and Servia are giving much offence to Austria.

A St. Petersburg correspondent says: If Count Schouvaloff can convince his government that the British cabinet desires a peaceful solution on the basis of securing the chief object of the war, namely, real improvement in the conditions of the subject races in Turkey, a great impetus will be given to negotiations.

A number of British transports, conveying the Indian contingent, passed Aden to-day.

Prince Bismarck is suffering from a return of his old neuralgic affection. The time of his return is uncertain.

The greater part of the Russian provisions and ammunition has been removed from San Stefano to Chatalja. The commissariat contracts signed to-day, make Adrianople the point of delivery hereafter.

The Turkish commissioners at Phillippopolis report the Rhodope insurrection still unchecked.

A correspondent at Constantinople who represents Russian idea, reiterates the statement that the war will terminate without coercion as soon as the insurgents are convinced that they are not included in New Bulgaria.

Prince Lobanoff.

Prince Lobanoff will leave St. Petersburg, to-day, to assume the post of Russian ambassador at Constantinople.

The Ironclads.

The British and German ironclads have arrived at Port Sald from Malta.

### WEST INDIES.

Failure in the Sugar Crop.

HAVANA, 8.—It is generally admitted that the sugar crop will fall short from 30 to 35 per cent. from last year, or nearly 140,000 tons.

☞ For further particulars apply to D. H. Billhouse.

Price, - - $25.

TO

CONFERENCE VISITORS.

I BELIEVE that the Citizens of this Territory would afford to pay a committee $5 per day to examine into the merits of machines offered, thus preventing the palming off of inferior articles on the market, and the consequent loss of thousands of dollars, to be repeated semi-occasionally by making a few changes and names to said machines. When this time comes the Branson Knitter and New American Sewing Machines will take a front rank for simplicity of parts, durability, ease of learning, utility, &c.

You are respectfully invited to call at the Idaho Store, see them work, buy one on a guarantee, and be learned to operate them free of charge if buying one.

JOHN WM. SNELL, General Agent.

1,000,000 lbs. fine and coarse salt, manufacturer liquid blue and ink combined, house and lot in 11th Ward for sale, 6,000 lb. wagon, span mules, Chilson 3 range and sprinkling wagon box, dray, 1,000 bushels charcoal, home made pottery, majolica ware and other articles too numerous to mention.
