PERSECUTED JEWS.

Terrible Scenes Attending Their Expulsion from their Homes in the Russian Empire.

SYNAGOGUES, NOW USELESS, OFFERED FOR SALE.

People Weeping and Praying to Jehovah to Hasten to Their Deliverance.

By Telegraph to the News.

THE JEWISH EXPULSIONS.

Indescribable Misery in Hebrew Settlements.

LONDON, May 4.—The *Telegraph's* St. Petersburg correspondent says terrible scenes attended the Jewish expulsions in many Jews dying on the way. The misery in the Jewish settlements, which are crammed with late arrivals, is indescribable. A thousand and pamphlets in favor of the Jews are prohibited. The government is considering the scheme to solve the Jewish question, which, if adopted, will astonish and perhaps shock the civilized world. An Odessa paper states that 50,000 Jews have joined the Greek and Lutheran churches since the issue of the expulsion decree. Each one embracing the orthodox faith receives a gratuity of 15 roubles.

The Moscow correspondent of the *Manchester Guardian* dwells upon the disorganization of business through the sudden expulsion of the Jews, all engaged in various business agencies. The correspondent says it is found impossible to collect debts and hundreds of bills are protested daily. The judge of the Commercial court has been obliged to telegraph to the minister of finance for instructions as to how to act in the emergency. Many traders in the Jewish quarters are facing bankruptcy owing to the departure of the Jews, who only left their belongings to cover debts amounting to $600,000. At St. Petersburg a synagogue has already been sold for $45,000. A new and unused synagogue in Moscow has been offered for sale, as it is useless.

A Moscow letter to the *Times* records the sacrifices made by the Jewish emigrants. In many cases they have sold their belongings for the merest trifle, chairs were sought for two pence and a bed for six pence. Many persons destroyed their goods in preference to selling them at a sacrifice. Many persons declined to pay debts owing to the Jews.

Heartrending scenes are witnessed daily in the synagogues, people weeping and praying to Jehovah to help them.

Thousands of workmen are idle who have hitherto been employed by Jews. Foreign importers are sending back goods on the frontier. It is reported that one Swiss silk firm has lost $9400 in a single week. The Berlin correspondent of the *Standard* a dispatch as to the business collapse. Neither the Jews nor Gentiles are paying their debts. The correspondent concludes it is absurd that rich Jewish bankers are not touched by the government's decree and yet do not appear to help their unfortunate brethren as they might.

American Cattle.

LONDON, May 4.—Chaplain, president the board of agriculture, in an interview today, said Secretary Rusk's new rules for the inspection of cattle for export will not affect the English regulations for the admission. He expressed himself thoroughly satisfied with the reports of Expert Robson as to the diseased condition of American cattle at Deptford and attached little importance to the opposite decision of Dr. Wray, the American government's expert at Deptford, even though it was supported by Dr. Williams, principal of the Royal Veterinary College of Edinburg. He stated that Williams in 1879 pronounced a cargo of American cattle free from disease and afterwards it was found to be diseased.

The Carpenters' Strike.

PITTSBURG, May 4.—The only item of interest in the carpenters' strike occurred this evening, when a meeting of master builders betrayed the existence of a national organization of bosses, which had hitherto only been suspected.

On Consumption.

WASHINGTON, May 4.—The national conference of the State Boards of Health today discussed a paper proposed by the State Board of Health of Kentucky on consumption. It was proved the contagiousness of tuberculosis, its increase in direct proportion to age and liability of infection from animals. It advocated as a treatment sanitary supervision for the prevention of overcrowding and the regulation of climate, if possible, educate people as to what tuberculosis is. It was prevailing among the negroes, because in independence they are not so well housed and fed as in slavery.

Prof. Iron Will Accept.

ST. LOUIS, May 4.—Professor Halsey C. Ives of the Washington University will accept the position of director of fine arts at the World's Fair if the duties of the office will not require him to leave the university and the faculty will grant their approval.

William to Master, He Says.

DUSSELDORF, May 4.—At a banquet this evening, Emperor William, after alluding to his desire to maintain the protection of labor, and expressing satisfaction at the conclusion of the commercial treaty with Austria, said: "As to the home policy that is becoming established, I shall not deviate a hair's breadth from the course I have adopted. I alone am master in this country, nobody else."

This emphatic language in regard to the treaty with Austria, which Bismarck opposes, and also in regard to home affairs, was evidently directed at Prince Bismarck.

Hutchinson All Right.

CHICAGO, May 4.—B. P. Hutchinson, the board of trade speculator, about whose sudden disappearance so much was recently published, left here this morning for Boston. It is his intention to take a vacation in the East. In the meantime his affairs will be straightened out by his agent. An examination of them shows them in a much better condition than they were supposed to be, and when everything is settled up he will have about $500,000 left.

A Writing Telegraph Machine.

NEW YORK, May 4.—Yesterday afternoon, in a little office down in Dey street, several gentlemen witnessed the first successful experiment with a long distance writing telegraph machine. They tried quite an extended correspondence between that point and an office in Pittsburg. Writing by telegraph has never before been found practicable at such a distance. The Writing Telegraph company of New York hold patents for this invention, and Harry Etheridge, an electrician, perfected it. The letters that came from Pittsburg were hardly forged and perfectly legible. One advantage of the system is that every message has an accurate, unimpeachable check in cipher made at the sending station. The company contemplates erecting a system of central exchanges, as well as private lines.

The Spanish Corvette "Nautilus."

NEW YORK, May 4.—The corvette *Nautilus*, the schoolship of the Spanish navy, is anchored in North river. She arrived yesterday from Havana. The *Nautilus* will lie here a month, the officers and portions of the crew visiting West Point, Albany and Niagara Falls. This city will extend courtesies to the officers.

Against the Students.

ST. PETERSBURG, May 4.—The government has issued a decree prohibiting the Studies from holding public meetings, publishing tracts or otherwise propagating the doctrines of the religious sect to which they belong. This ban extends to the works of Tolstoi which deal with questions of religion and family matters. Avowed Studies must be so described in their passports, so as to prevent them obtaining government employment. Studies convicted of proselyting will go to Siberia.

Miners Return to Work.

BRAZIL, Ind., May 4.—AIA miners' mass meeting today it was resolved to accede to the demands of the operators and return to work at once. They notified the proprietors that they would sign a contract individually at the mines under protest to waive their rights under the law, and resume work at any hour. The rights waived are to be bi-weekly pay-day and weighing coal before screening.

A Beet Sugar Plant.

MARSHALLTOWN, Iowa, May 4.—E. H. Dyer & Co., beet sugar manufacturers of California, cooperating with eastern capital, have completed negotiations for the immediate erection here of the largest beet sugar plant in the world. The capital is $253,000, and the daily capacity 400 tons. The factory is to be ready for the fall crop. This is the first sugar beet plant in Iowa.

Disappearance of Wolf's Comet.

MOUNT HAMILTON, Cal., May 4.—Wolf's periodic comet was last observed this morning by Mr. Barnard at the Lick observatory. This is the first return of the comet to the perihelion, and its reappearance has been looked forward to with great interest.

Volcanoes Active.

PANAMA, via New York, May 4.—Advices from the city of Bogota, Colombia, state that the Mosquera Pass and Guadalupe hills threaten to slide on the city and the citizens are alarmed. The engineer's report shows that the city is in imminent danger, as already some houses have been damaged and the center of the city is undermined by water. Regarding the floods in the Lanahuma district of Chili, the Lima *Opinion Nacionale* publishes a letter, saying the beautiful valley of Lanahuma has experienced a topographical change, and that was formerly a delightful spot is now a desert. Fifteen craters have been continually at work since the latter part of March, throwing out masses of mud, which in its precipitate descent and with monstrous strength of current is carrying ruin in all directions and sweeping houses before it, together with the inhabitants and cattle, vineyards, fields and irrigation works. All roads north and south of Lunahuma have been converted into ditches, through which water is continually pouring, and all communication between Cancle and Chincha is interrupted, while the bridges across the rivers have been swept away. The fact that it will be impossible to gather the crop of grapes and the certainty that the necessities of life will reach a famine price, lend to the suggestion that the government should take steps on behalf of the residents. Hundreds of families have been left without food and are camping on the hillsides.

Death of a Jurist.

LOUISVILLE, May 4.—At Lancaster this morning Judge Owsley, a distinguished Kentucky lawyer and jurist, died of pneumonia.

William's Australian Herb Pills.

If you are troubled with Dyspepsia, constipated with Headache, bad breath, drowsy, no appetite, bad, sad your Liver is out of order. One box of these Pills will do you all the trouble you and make a new being of you. Price 25 cents. Zion's Co-op Mer. Inst. Drug Dept., Agents. 64s

Millais to Master, He Says.

DUSSELDORF, May 4.—At a banquet this evening, Emperor William, after alluding to his desire to maintain the protection of labor, and expressing satisfaction at the conclusion of the commercial treaty with Austria, said: "As to the home policy that is becoming established, I shall not deviate a hair's breadth from the course I have adopted. BLAINE AND RUDINI.

The Italian Premier Said to be in Error Concerning the Telegram of March 15.

THE PRESIDENTIAL PARTY IN ASHLAND, OREGON.

Fifty Hungarian Immigrants Detained Suspected to Come Here Under Contract.

By Telegraph to the News.

BLAINE DEFENDS HIMSELF.

A Dispatch to Minister Porter at Rome.

WASHINGTON, May 4.—The following dispatch was sent by Secretary Blaine today to Porter, American minister at Rome:

"A series of statements addressed to Marquis Imperiali by Marquis Rudini was telegraphed from Rome yesterday and published by the Associated Press in the United States today. The only part of Rudini's communication which this government desires to notice is the one here quoted, viz.:

I have now before me a note addressed to you by Secretary Blaine, April 14th, its personal phrases a most painful impression upon me. I will not stop to lay stress on the lack of conformity with diplomatic usages displayed in making use, as Blaine did not hesitate to do, of a portion of a telegram of mine communicated to him in strict confidence, in order to get rid of a question clearly defined in our official documents, which alone possesses diplomatic value.

"The telegram of March 15th, concerning whose public use Marquis Rudini complains, is the following, which was quoted in full in my note of April 14th, to Marquis Imperiali at Washington:

ROME, March 24.

Rubian Minister, Washington:

Our request to the Federal Government is very simple. Some Italian subjects acquitted by American magistrates have been murdered in prison while under the immediate protection of the authorities. Our right, therefore, to demand and obtain the punishment of the murderers and indemnity for the victims is unquestionable. We wish and that public opinion is justly impatient that provisions be taken at once, and if concrete provisions are not at once taken I should find myself in the painful necessity of showing our dissatisfaction by recalling the minister of his Majesty from a country where he is unable to obtain justice.

[Signed] RUDINI.

"The intimation of Rudini that the telegram in question was delivered in strict confidence, is a total error. As the telegram expressed the demand of the Italian Government, it was impossible that Marquis Rudini could treat it as a strict confidence. As I have already stated, it was communicated to me in person by Baron Fava, written in English in his own handwriting, and was in no intimation of privacy, and the telegram itself has not a single mark upon it denoting a confidential character. I have caused a number of copies of the telegram to be forwarded to you today for similar. The usual mark of italic print also used by me for emphasis, and they appear in the copies. You will use the far similar in such a manner as will most effectually prove the error into which Marquis Rudini has fallen.

[Signed] "BLAINE."

THE PILGRIMS' PROGRESS.

President Harrison and Party Arrive in Oregon.

REDDING, Cal., May 4.—President Harrison and party made the first portion of their journey in northern California today in a mild rainstorm, the first they have had in the Golden State. The President arose early and was the only member of the party to greet the crowd that gathered about the train at Tehama. He was hearily cheered and shook hands with all the people in reach. At Red Bluff a large crowd assembled and Captain Mallock, an old army comrade of the President, introduced him to the people.

At Redding, the President and party were greeted with a national salute and cheered with hearty cheers by a party of school children. The President addressed the throng briefly. The party passed through Delta about noon, and at Dunsmuir the President shook hands with a large number of old soldiers and thanked the citizens for the reception.

ASHLAND, Ore., May 4.—The Presidential party arrived here about 5 o'clock tonight and received an enthusiastic welcome. A special committee of the Oregon State Legislature boarded the train and welcomed the President to Oregon. After a short stop the journey was resumed.

Detained Immigrants.

NEW YORK, May 4.—A large number of immigrants arrived in this city and were found to be possessed of little or no money and are being questioned. They give their destination as Chicago and they will get work as soon as they arrive there. The large office authorities are suspicious that these immigrants are coming under contract. There were fifty Hungarian immigrants detained yesterday and seventy-five more today.

Baron Hirsch Expires.

LONDON, May 4.—The *Graphic* says it has Baron Hirsch's authority to say that he has bought land in Pennsylvania for a Jewish colony. It says his scheme to devote $50,000 to assisting Jewish emigration is only in embryo. At present the Baron is only assisting to send Jews to the Argentine republic, although he is looking to other available colonies in South America for a large scheme of emigration, which is undefined.

The Newfoundland Question.

LONDON, May 4.—In the House of Lords today Lord Kimberley moved, in view of the Newfoundland assurances that the colony would pass an act for the due enforcement of treaty stipulations between France and Great Britain, the House continue to go into committee on the Knutsford's coercive bill until a reasonable time was allowed. Kimberley refused to withdraw the motion, but said that if Newfoundland would pass a coercive measure his bill would be dropped. Lords Dufferin and Herschell argued that the government should drop the Knutsford bill, but Salisbury said the government had entered into serious international obligations with France, which must be carried out.

Kimberley's motion was rejected, as was also a motion by Herschell that the Knutsford act continue in force only one year.

Italy will not Come.

ROME, May 4.—It has been decided from motives of economy that Italy will not take part in the Chicago Exposition, to which the Americans cordially invited her. Italy took part officially at the Paris exposition of 1889. The government proposes to suppress the ministry of posts and telegraphs, and has withdrawn the offer of the government to aid the proposed celebration of Columbus at Genoa.

An Archbishop Dying.

LONDON, May 4.—The archbishop of York, who is suffering from influenza, is said to be dying.

The Silver Purchases.

WASHINGTON, May 4.—Three hundred and twenty-six thousand ounces of silver was purchased today at prices ranging from .89268 to .8970.

More Strikers.

ST. LOUIS, May 4.—Thirteen hundred more heavy struck today, and Brotherhood Palmers propose to receive thirty-five cents an hour and 700 sheet iron cornice workers are also considering the force their demands. The difference between the marble cutters and their employers has been settled.

Seven Hundred Miners Out.

EVANSVILLE, Ind., May 1.—A coal miners' strike was declared on this morning. All mines and mines employed in the vicinity of Evansville, numbering about 700, are out and declare that they will remain out until the operators accede to their demands for eight hours.

Another Terrible Scene in the Coke Regions.

SCOTTDALE, Pa., May 4.—The coke region today was shaken from center to circumference by just such another scene as has been feared for weeks and which dwarfs the Bessemer killing. Even at this hour it is difficult to secure positive information, owing to the excitement. The most reliable accounts, however, agree that two Hungarians who had been in the left works did not appear and Superintendent Gray became suspicious. He, with assistant and four deputies, visited house No. 17, where the workmen were enjoying themselves. Their entrance was greeted with cheers, strikers, and one of them, a Hungarian, rushed out and accosted other strikers, and soon two hundred persons were on the scene. Gray and his deputies were followed down the hill by an angry crowd, who were so close that they were compelled to back down with rifles presented. Matsan rushed up to one of the deputies, seized the rifle and grappled with him. The deputy fired and the bullet followed suit. In the fusillade Matsan was killed, while another was injured.

There is great apprehension of greater trouble at Scottdale tonight. Fifty deputies is largely increased. After investigation the Coroner rendered a verdict that Matsan died of gunshot wounds by one deputy and Mayfield. The information of Worthy Foreman Mosley of the mine workers, Superintendent Gray, Mine Boss Callahan and Yard Boss Agnew were arrested for murder and taken to jail. The testimony adduced at the preliminary hearing placed the blame of the shooting on Gray.

At Leisenring No. 3 the men are better armed than at any point in the region. They have been drilling for the past three weeks. Such preparations look warlike and further trouble is feared in the neighborhood.

At Connellsville there is an increased number of men at work at the various works in the region. Company F of the Tenth regiment proceeded to the Dunbar, Dickson and Mayfield plants, McClure Coke Company, this morning to preserve the peace during the erection of temporary tents.

Some thirty families were evicted today at Broadford and more would be thrown out had not the deputies objected to the operations. Such proceedings look warlike and further trouble is feared in the neighborhood.

RUSSIA'S AMBITION.

She Wants the Treaty of 1841 Concerning the Dardanelles Abolished.

COMMENTS ON THE AUSTRO-GERMAN COMMERCIAL TREATY.

How Jay Gould Feels After His Trip to the West Matters are on the Mend.

By Telegraph to the News.

GERMANY AND RUSSIA.

The Czar Wants the Dardanelles Opened to War Ships.

BERLIN, May 4.—The work of isolating France commercially was commenced by the German-Austrian commercial treaty, which is just signed and which for the past twelve months has been progressing in a manner satisfactory to the originators of the scheme. It has already been announced that Germany has opened negotiations with Russia, with a view to arranging for Russian cooperation in the projected commercial union.

It is announced that Russia promises to treat the matter with liberality if the German government will support Russia's position in the matter of the settlement at present placed by the treaty of 1841 (confirmed in London in 1871, and in Berlin in 1878), upon the passage of war ships through the Dardanelles. The stand which Russia has taken in this matter is due to the fact that two Russian vessels belonging to the volunteer fleet and hailed with military workmen and material on their way to Vladivostok, the eastern terminus of the Trans-Siberian railroad, were stopped recently in the Dardanelles under the provisions of the treaty referred to.

The Vossische Zeitung, in the Reichstag this day, replying to a question as to how the government intended to relieve the pressure being felt by the people, owing to the high price of corn, said it was impossible to discuss the matter pending the commercial arrangements being made with other States.

AN IMPORTANT MATTER.

The European Commercial Treaty Discussed by the Papers.

ROME, May 4.—The commercial treaty between Germany and Austria-Hungary has become a topic of comment by the press generally, in its whether consequence, it is felt, will become a matter of the greatest concern to the people of the United States. It is announced that Germany, Austria-Hungary have invited Italy, Switzerland and Belgium to join in a convention in Vienna for the avowed purpose of forming a coalition of the central European States against the protectionist countries. But why States whose customs tariffs are so uniform for the purpose of protecting their industrials as are those of Germany, Austria-Hungary and Italy can give out as a reason for the proposed coalition the protectionist tendency of countries, is a puzzle to those who have carefully studied the situation.

It is not yet known that Italy has consented to join the convention at Vienna. If she should, it would seem that the political ties of the triple alliance are stronger than her commercial interests, for among her best friends, commercially considered, are France and the United States. Italy's export to America and Germany have fallen from 197,000,000 francs in 1884 to 133,000,000 in 1889. In the latter year Fr. see bought of Italy 184,000,000. In 1890, the United States bought 130,000,000.

GOULD FALLS.

His Trip to the West has Made Him Feel Very Hopeful.

NEW YORK, May 4.—In a talk with a reporter today Jay Gould says he thinks the meeting of the Western Traffic Association on Wednesday will be a harmonious one. It is quite probable that the agreement of joint agencies will be seriously considered. The association, he said, should prove a powerful influence for good, and the object of its formation cannot but be strong. Its formation caused a turn in the tide and undoubtedly saved a panic. Mr. Gould said his trip to the West made him feel very hopeful. He found the crops in fine condition and the prospects generally encouraging. He has not sold any stocks, on the contrary, he has been a heavy buyer, and at no previous time in twelve months has he held so much stock as now. It is impossible to say whether we shall have active money this year, but money will be comparatively easy until late in the fall, and even then we might not experience the slightest stringency, especially if Europe buys our breadstuffs, and there are more than reasonable prospects that it will.

He feels convinced that matters are on the mend, and repeats his belief that the present is not simply a bull movement, but that the year will be a good one.

President Hughitt of the Northwestern Road thinks the Western Traffic meeting will be a peaceable one. The railroad representatives will discuss the question of maintaining rates and doing business on a sound basis.

Cigarmakers Strike.

CHICAGO, May 4.—From 800 to 1000 cigarmakers of this city have gone out on a strike for an advance of wages. Many of the smaller employers conceded the advance asked, but the larger factories have not given in and some of them have shut down entirely.

The Races.

NASHVILLE, May 4.—Two-year-olds, half a mile—Wantonga won, Blandiloite second, Beetie Ruland third. Time—:51.

Three-year-olds and upward, five furlongs—Maud S. won, Creolescend, Parquet third. Time—:1.04.

Three-year-olds and upward, seven furlongs—Queer Toy won, Ko Ko second, Lady Lee third. Time—:1.29.

Death of a Millionaire.

NEW YORK, May 4.—Charles Pratt, the well-known Standard Oil operator and vice president of the Standard Oil company, died suddenly at 7 o'clock tonight at the company's office. He left home in the morning in usual health, but was taken ill with indigestion at 7 o'clock. Doctors Clark and Payne were summoned to attend him, but he continued to grow worse until three hours later, when heart failure set in and caused death. Pratt's wealth is estimated at $15,000,000. He has given large sums for educational purposes, amounting to $1,000,000 in his lifetime, $250,000 to an annex to the Adelphi Academy in Brooklyn, and $125,000 to the Immanuel Baptist church.

A May Day Victim.

ROME, N. Y., May 4.—The funeral of a gendarme killed in the riots of labor day took place here today. The body was followed to the grave by all the civil authorities of the city. There was no disorder.

Better Physicians.

WASHINGTON, May 4.—The American Academy of Medicine at today's meeting was unanimous in condemning the desire of the public toward the new idea of legislating to demand better qualified physicians. It encourages the sacrifice of personal interest among those educators who had not already instituted upon a rational standard, and most emphatically demanded that difficulties of such nature placed in the way of the young student was a hindrance to his study of medicine or to the community. Medicine was becoming a science which ought to be honored, and, though feeling sorrow for the individual, the academy was glad to see the man who committed suicide, because there "was not room for more to enter." The academy reaffirmed the platform established last year at Nashville.

The Barnaby Case.

BOSTON, May 4.—It is stated that the Barnaby case has now been placed in the hands of the Boston Detective Bureau and every person who has figured in the case has been instructed to keep silent.

Ballard's Snow Liniment.

It will cure Barbed Wire Cuts and heal all wounds where proud flesh has set in. It is equally efficient for animals. Try it and you will not be without it. Price 50 cents.

Sold by Z. C. M. I. 4*

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Anda E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, rough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it cured me and thank God I am now a well and hearty woman." Trial bottles free at A. G. Smith & Co's Drug Store. Regular size, 50c. and $1.00. 4

MINISTER CONSTANS

In the French Chamber of Deputies Called a Murderer: Tremendous Sensation.

BURIAL OF THE VICTIMS OF THE FOURMIES MASSACRE.

Ex-Governor Crittenden Suffering from a Ruptured Blood Vessel and Uremic Poisoning.

By Telegraph to the News.

THE FRENCH PARLIAMENT.

A Wild Scene on Account of the Fourmies Massacre.

PARIS, May 4.—It was announced yesterday that a section of the Left would join with the Socialist and Blanquist deputies in demanding a vote of censure today against Constans, minister of the interior, on the ground that the latter was responsible for the slaughter of the men, women and children shot down by troops at Fourmies on labor day.

Chambers today, after replying in explanatory terms to questions as to the Fourmies affair and giving his version of the matter, holding that neither the government nor the troops were to blame for the disaster, was astonished to see Roche, the deputy representing the Seventeenth electoral district of the Seine, spring to his feet and shout fiercely, "Murderer!"

A tremendous sensation followed. Finally peace was restored and the Chamber voted that Roche should be excluded from any further part in today's session and that he should be declared censured by the Chamber for the term he had applied to the minister of the interior.

No sooner was this action decided upon than Roche again sprang to his feet and, shaking his fist at those of the Ministerial benches, had been active in bringing about his proposed expulsion and censure, the angry deputy yelled: "You are a lot of rascals, worthy of your master!"

This was more than the presiding officer could submit to, so he ordered Roche removed by force from the Chamber. This was eventually done, amid one of the wildest scenes ever witnessed in the Chamber of Deputies.

The Chamber then, by a vote of 358 to 33, declared confidence in the government.

The Fourmies Funeral.

FOURMIES, May 4.—The funeral procession was very long, deeply participated in by a large number of workmen's clubs, with red and black flags draped. The nine coffins were surrounded by the relatives of the victims. After the religious services the clergy left and the socialists took charge, violent addresses being delivered.

Ex-Governor Crittenden Dying.

KANSAS CITY, May 4.—Ex-Governor Crittenden was stricken tonight with fatal illness. He was taken suddenly ill after returning home from his office. Physicians were immediately summoned and an examination showed that the governor was suffering from a ruptured blood vessel at the base of the brain and also from uremic poisoning. The attending physicians say recovery is impossible. Crittenden served in the United Army during the Civil War as lieutenant-colonel, was elected to Congress in 1862 and again in 1876, and was afterward elected Governor.

Gold For Europe.

NEW YORK, May 4.—$530,000 in gold coin was ordered for shipment to Europe tomorrow.

A Chilian War Ship.

SAN FRANCISCO, May 4.—A Grosvic special from San Diego says the Chilian steamer *Itata*, which came in yesterday, is taking on a large supply of coal and supplies. It is believed she will transport arms and ammunition for the Chilian insurgents now on the schooner *Robert and Minnie*, which has been lying at Santa Catalina
