## DIED OF HIS INJURIES.

### Edwin Cowley, Whose Arm Was Torn Off by a Threshing Machine.

Edwin J. Cowley, son of W. W. Cowley, of Glenwood, Sevier county, died with an accident Tuesday afternoon at Willow Creek, same county, which resulted in his death Wednesday morning.

Mr. Cowley was working on a threshing machine, when he was blown off the right hand catching in the cylinder, which ripped the greater part of the arm to shreds. The young man was given every attention, and it was thought he would ultimately recover. But it was not so, the shock was too great, and he passed away as above stated.

Mr. Cowley was 19 years of age, and was married about two weeks ago to Miss Lydia E. Jackson. His death has proved a shock to the entire community among whom he was highly respected.

## AMUSEMENTS.

Those who attended the Theater last evening expecting to see the Henderson company in Young Mrs. Winthrop, were somewhat disappointed, for, owing to the severe illness of Miss Mildred Hall, that play could not be presented, there being no one sufficiently well up in the part to play it on so short a notice. In order that the audience should not be disappointed Manager Henderson decided to repeat Hall by the Sissy and there were very few who applied at the boxoffice for a refund of money paid for seats. Miss Hall has a severe case of appendicitis and is in a critical condition today, so the attending physician says. Several local people were asked to take her place in Young Mrs. Winthrop, usually played by Miss Hall. It is understood that it will be done by Miss Chice Prell and the play presented tonight.

The Salt Lake Stock company will present its new play, The Widow Hunt, at the Highlands next hall this evening, for the benefit of Richard Mackenzie's memory fund. This organization has considerable reputation as an amateur company, and the people generally will deserve much individual credit for their artistic ability.

One of the biggest events of the present theatrical season will be the Henry Miller engagement at the Theater the first half of next week, including Wednesday matinee. Mr. Miller's reputation will give our theater-goers the opportunity for seeing three of the leading stars of the Metropolitan season, and in his company many of the old time favorites of New York Lyceum days, such as Ada Rehan, Sidney, The Master and A Marriage of Convenience will be given in the order named, with Heartsease for the Wednesday matinee.

Hoyt's A Milk White Flag, with its spectacular and electrifying humor and pungent but good-natured satire comes to us Tuesday evening next. The company is headed by Mary Marlowe, who is versatile and talented in marked degree, and infuses vigor and dash into all her work and John W. Dunne, "Whole Souled" and talented. Mr. Dunne's work is full of legitimate burlesque and is uproariously funny, as is, indeed, the entire production, for comedy A Milk White Flag ranks high.

## Relief Society Conference

The general conference of the Relief Society will be held in the Assembly Hall, Salt Lake City, Wednesday, October 5, 1898, meeting commencing at 10 a. m. and 2 p. m. as usual. It is desirable that each stake organization of the society should be represented by the president or an authorized representative. All members of the society and of the Church are most cordially invited. The meetings of the conference are open to all interested in charitable or philanthropic work.

## UTAH AND PACIFIC RAILROAD.

### Suggestions from Washington County as to the Route that Should be Traversed.

It is generally believed that the proposed railroad to Stanaker will eventually be pushed through to the coast, says the St. George News. It is also believed here that the promoters will make a big error in extending the line from Stanaker to Marble or Barstow, as the better route by far for the main line would be via Cedar City and St. George.

The main line should run from Salt Lake Springs to Cedar City, to St. George, from the Pine Valley and Mesquite. The distance from Cedar City to Mesquite via this route is about 120 miles. The grade is better, the line of the road is on the valley being about 50 feet lower than the Clover Valley route. There would be practically no climbing to do, the grade is good all the way through.

A marvelously rich section of country would be opened up, particularly to develop and support a much larger population than at present, by the adoption of this route. Iron, lead and zinc deposits of less extent would be tapped. Rich copper and lead mines in the Elsie group, Grand Gulch District, Copper Mountain, the Hamblin group and others all within twenty miles of St. George would be developed as a result. The Mammoth mines at Callville on the Colorado river would be wished. Immense supplies of the ties from that locality, on the Muddy, would be shipped. The mines at Good Springs and nine miles would be reached by the route the same as by the Stanaker route and cattle industry would be benefitted and greatly increased as the road doubtless would be the railroad and be operated. Our town would be placed much more centrally than at present and would be a rich and prosperous city. Our farming country would have a large influx of people every winter to enjoy the beautiful, mild winter climate. Our fruit growers would have a large market for their products, and supplies of early vegetables and fruits of the very finest kinds, earlier than the California fruits and vegetables, and of superior quality and flavor.

Messrs. A. W. McCune, David Evans, C. W. Nibley, Joseph F. Smith, Anthon H. Lund and Charles W. Nibley, usually spoken of as the Utah men, are respectfully call their attention to the foregoing and ask their earnest consideration of them. We believe their first desire is to serve Utah; here is an opportunity to do a great work for us, as we have before stated, it can be done with everything to gain by the change of proposed route.
