Ask For Ayer's

Sarsaparilla, and be sure you get it, when you want the best blood-purifier. With its forty years of unexampled success in the cure of Blood Diseases, you can make no mistake in preferring Ayer's

Sarsaparilla

to any other. The fore-runner of modern blood medicines, Ayer's Sarsaparilla is still the most popular, being in greater demand than all others combined.

"Ayer's Sarsaparilla is selling faster than ever before. I never hesitate to recommend it."—George W. Whitman, Druggist, Albany, Ind.

"I am safe in saying that my sales of Ayer's Sarsaparilla far excel those of any other, and it gives thorough satisfaction."—L. H. Bush, Des Moines, Iowa.

"Ayer's Sarsaparilla and Ayer's Pills are the best selling medicines in my store. I can recommend them conscientiously."—C. Bickhaus, Pharmacist, Roseland, Ill.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"I have sold your medicines for the last seventeen years, and always keep them in stock, as they are staples. 'There is nothing so good for the youthful blood' as Ayer's Sarsaparilla."—R. L. Parker, Fox Lake, Wis.

"Ayer's Sarsaparilla gives the best satisfaction of any medicine I have in stock. I recommend it, or, as the Doctors say, 'I prescribe it over the counter.' It never fails to meet the cases for which I recommend it, even where the doctors' prescriptions have been of no avail."—C. F. Calhoun, Monmouth, Kansas.

THE PATENT

Wire Gauze Oven Door

IS THE LATEST IMPROVEMENT ON THE

It Produces Practical Results in Baking and Roasting never before attained in any Cooking Apparatus, and will

Revolutionize the Present Methods of Cooking

ITS THEORY

Is that all Food Baked or Cooked, should be cooked in fresh air freely admitted to the oven. This is done by discarding the close oven door heretofore used, and substituting for it a door containing a sheet of Wire Gauze nearly as large as the door itself.

Through this Gauze Door the air freely circulates, facilitating the process of cooking, and producing food that is unequalled in flavor and nutrition, and actually cooked with less consumption of fuel than in an oven with a closed door.

It makes an enormous saving in the weight of meat.

It also produces larger Loaves of Bread, requires less attention from the cook, and promotes the health of the family by the SUPERIOR QUALITY OF THE FOOD COOKED IN IT.

OPINION OF AN EXPERT.

MRS. MARY B. WELCH, Teacher Domestic Economy, Iowa State University, says: "My deliberate judgment is that the oven of the Range, as compared with others, is not only more equally heated in every part—front and rear—but as a result of its superior ventilation the food placed therein is better cooked, while retaining a sweeter flavor, and a larger proportion of its best juices. I find, also the consumption of fuel in this Range is much less than any other of same work.

EVENING NEWS.

Saturday, November 24, 1888.

THE LONDON 'BUS.

SPACE ALLOWANCE FOR EACH PASSENGER—REGULATIONS—THE DRIVER.

Omnibus service in London is excellent, and although the rate of fare is ridiculously low, the London General Omnibus company, which controls most of the omnibuses in London, last year declared a dividend of 10 per cent. Some omnibuses have three horses abreast, and are licensed to carry forty-two passengers—twenty inside and twenty-two outside. It is part of a policeman's duty to watch omnibuses and see that they do not carry more than the licensed number, and they perform this duty with considerable zeal. Each passenger is allowed six cen inches of space, and as a rule, every Londoner will insist on his sixteen inches.

The rate of omnibus fare is something like a penny (two cents) a mile on some lines and less than that on others. You can ride from the Albert memorial in Hyde Park, eastward, to Regent Circus, nearly two miles, for two cents, but there is also a half-penny 'bus, From Charing Cross to and over Westminster bridge, you can ride for one cent, in fact that sum is the only fare charged on this line. The vehicle carries just ten passengers, so that the company receives ten cents for each trip. The 'buses start full from each terminus and seldom pick up passengers on the way.

Omnibus drivers receive $10 50 a week—excellent wages for men of their class. It has often been said that the best way to see London—its streets, buildings, and its people, from an outdoor point of view—is to get on the top of an omnibus. Omnibus drivers are a good-natured, jolly set of fellows, and by no means do they lack intelligence. They see a very great deal of human nature from their elevated position in life, and they learn much. If you got on a box seat, next to the driver, and you desire information or entertainment on the way, you will find the driver very willing to accommodate you; but, polite as he is, you need not fear that you offer an insult if you offer a "tip;" in fact he expects it. He augments his salary to a fair extent in this way. He saves choice seats for the regular riders, and they "remember" him occasionally.—*Cor. Home Journal.*

Rewards for Detective Work.

Speaking of Detective work, Inspector Stark said: "When a detective knows that he need not expect a reward he will work all the better. The cases of most importance to the general public, seldom have rewards attached to them, but they receive just as much attention as those that have, and the detective is working to uphold the law instead of seeking to fill his own pockets. Besides, the taking of rewards leaves the officer of the law open to the implication that he is receiving 'blood' money, and degrading what should be a dignified profession. If he receives no reward he cannot be taunted with being open to the highest bidder. When rewards are going, the head of a detective bureau generally works the thing so as to make it pay him. When his subordinates have the case all ready he steps in and makes the arrest, receives all the credit, and is boomed by the press as being the greatest detective on earth; but the press forgets to add that he 'divies' the reward with a far cleverer subordinate.

"This matter of rewards is rampant in the United States. We are constantly in receipt of letters about criminals, and 'all winding up with 'We'll make it worth your while,' or 'There's big money in it,' or 'We'll "divy" the reward with you,' all the writers seemingly impressed with the idea that unless there is money in it we would not touch it. Such letters make tired. We have again and again to inform these gentlemen that we are not in the reward business, but that if any American crook is wanted and hits this city they may rest assured that we will attend to him. Some of the greatest detective work you read about is all chance work. The great public are not aware of that and look upon detectives as super-human beings. Detectives are like other ordinary people, and in many cases very ordinary people indeed. Criminals are generally detected by accident. The keenest and best detective is the one who can turn such accidents to the best account.—*Toronto Mail.*

Robert Houdin's Curious Contrivances.

Houdin acquired a comfortable competence by the exercise of his art; and he built a handsome villa at St. Gervais, near Blois. When he had retired from business, he amused himself by introducing various curious inventions into his place and the grounds attached to it. The garden gate was situated about 4000 yards from the house. A visitor had only to raise a diminutive brass knocker, and let it fall upon the forehead of a fantastic face—making but a faint sound—when a large bell was set in motion in the villa. At the same time the gate swung open automatically, the plate bearing the name "Robert Houdin" disappeared, and another took its place, on which was engraved the word "Entrez." When the postman delivered the letters he had brought he was instructed to drop them through a slit in the gate into the reception provided for this purpose. The box, directly this was done, started of its own accord on its journey to the front door of the house by means of a miniature elevated railway.

Houdin invented, too, an ingenious contrivance by which, while lying in bed, he could feed his horse in a stable fifty yards from the villa, for, on touching a small button, there was put in motion an apparatus that caused the exact portion of oats required for the animal's meal to fall into the manger from the granary above. By another curious piece of mechanism a little bench that stood beside a ravine in a remote part of the grounds was so constructed that immediately any person sat down upon it the machine automatically traversed a narrow bridge that spanned the gorge, and, having deposited its occupant on the other side, the bench returned to its original position.—*Chambers' Journal.*

COMBINED TRUNK AND WHEELBARROW.—A quietly dressed man presented a check at the baggage room in Danbury, Conn., the other day and received in exchange a neatly painted box, about the size of an ordinary trunk. A dozen expressmen at once desired his patronage. He smiled kindly, unlocked the box and took out a small wheel and two long and two short sticks. The long sticks he fitted into staples at the upper and lower opposite corners of the box. The short sticks then became cross pieces connecting the long ones, and the wheel found a place between the lower ends of the long pieces. Thus, quicker than it takes to tell it, the man had transformed his box into a wheelbarrow, and trundled it away. He returned in a few hours, repacked the wheel and sticks, and quit town on a westbound train. He was said to be an agent for a religious publication house, and resorted to the wheelbarrow device to save cartage money.—*New York Sun.*

A REAL JOKE.—An exchange says there no jokes, no real jokes, in the columns of the paragraphers nowadays. Here is one:

"Then you reject me?"

"I do."

"Will you give me a reason?"

"Yes. Papa says you are rich."

"I am not rich. I am poor. If you married me we would have to struggle hard to live."

"Are you telling me the truth?"

"I am. Can you doubt me?"

"Come to my arms, Henry. I thought you were rich and I have sworn never to marry a rich man!"—*Boston Courier.*

A LUCKY FATHER AND SON.

The following narrative of the suffering of a Father and Son, will prove interesting to the readers of this paper. C. Bartholomew, of Kalkaska, Mich., says, I located in this place five years ago, having formerly resided in Troy, N. Y. My friends there, as well as here know that I have been a great sufferer from what the Physicians of Troy called

Bright's Disease.

As a last resort I commenced the use of Dr. David Kennedy's Favorite Remedy, (made at Rondout, N. Y.) The result is little short of a miracle. All the terrible symptoms of this disease are gone. I do not have any more difficulty in voiding the urine, no pain or ache in the small of the back, no more soreness across the loins or over the bladder, no more Constipation of the Bowels, no swelling of feet, hands and legs, and many other symptoms of disease of the Kidneys, Liver or Bladder.

So you see, help came to me in Dr. Kennedy's Favorite Remedy.

Who would begrudge the cost of this medicine (One Dollar a bottle) for such a blessing, or refuse this simple though sincere token of gratitude, for being perfectly cured? I owe everything to Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., and hope my writing this will induce others to use the medicine who suffer from a Kidney or Blood disorder. But my recovery was not more remarkable than that of my son George, who when a boy fell from a fence, bruising his leg, which was followed by disease of the bone. Large pieces were removed by surgical operations. His

Blood Was Impure

and the future to him was dark and gloomy, expecting to be a helpless cripple for life. He was induced to try Dr. Kennedy's Favorite Remedy, made at Rondout, N. Y., and as sure as I am writing this grateful acknowledgement his leg is entirely healed up. He now works with me, doing a good man's work. He owes everything to

To pave the sidewalk on the north side of South Temple Street, from East Temple Street eastward to a point six rods west of H Street, with a pavement of English Portland Cement eight feet in width, and defray the whole of the cost thereof, estimated at Eight Thousand Six Hundred and Thirteen and 10-100 Dollars, by a local assessment upon the lots or pieces of ground within the following described districts, being the district to be affected or benefited by said improvement, namely:

Lots 1, 2, 3 and 4, block 88, plat A;
Lots 1, 2, 3, 4, 5, 6, 7 and 8, block 1, plat I;
Lots 1 and 2, block 14,
Lots 1 and 2, block 13,
Lots 1 and 2, block 12,
Lots 1 and 2, block 11,
Lots 1 and 2, block 10,
Lots 1 and 2, block 9,
Lots 1 and 2, block 8,
Lots 2, and the west 4 rods of lot 1, block 7, plat D, Salt Lake City Survey.

All protests and objections to the carrying out of such intention must be presented in writing to the City Recorder, on or before Tuesday, December 4th, 1888, being the time set by said Council when it will hear and consider such objections as may be made thereto.

By order of the City Council of Salt Lake City, made November 6th, 1888.

HEBER M. WELLS, City Recorder.

Salt Lake City, November 8th, 1888.
