MINING, BUSINESS AND STOCKS.

MARKET WAS SLUGGISH TODAY.

Prices Generally Were Much Weaker on the Mining Exchange.

DALY-WEST IS CLIMBING.

Ajax and Tetro Were Firmer — May Day Says — Silver Shield Declines — Galena Active.

Business was very quiet on the Mining exchange today. Only 14,860 shares of stock changed hands, which represented a selling value of $7,295.12. All of the stocks traded in showed a decline excepting Ajax, Daly West and Tetro. Daly West has started out this week at a new pace. Today a small lot changed hands at $37.20, the highest price yet paid. Tetro sold up to 14¼, while Ajax advanced to $1.21¼. Con. Mercur released 100 shares at $3.15 while May Day opened at 91¼ and weakened to 88½. Swansea also sold at $3.95½, while Joe Bowers hung around 5. Yankee Con. was traded in at $2.84 while Galena was traded in at 15. Silver Shield opened at 3⅜ and sold down to 3. Valeo participated at 22½, while Buckeye dropped 1,000 shares at 1¼. Grand Central was offered at $5.50 with $5.25 bid, while as high as 70 was bid for United Sunbeam. Ben Butler was offered at 8⅝ with 8⅞ bid.

TO EXAMINE PARK VALLEY.

Eastern Capitalists Desire Information on Utah's New Gold Camp.

MAMMOTH JUNE DIVIDEND

Will be Paid Late in Month — Eureka Hill Surveys — Lucky Boy Shaft — Notes from Camps.

The advertising power of a good mine in a new district was never better exemplified than it is by the Century of Park Valley. The fact that the small 3 stamp mill is grinding out about $200 per day in gold has attracted the attention of a number of eastern as well as local parties. The district has been reported on several times for eastern capitalists, but another extensive report will soon be made by F. B. Cook, who expected to leave for the Boxelder gold field today. Mr. Cook expects to be away four or five days, and during that time he will inspect the Century and Planetary mines besides all the other properties in the new camp, which give any promise of future greatness. Of the developments at the Planetary Mr. Cook speaks very highly. A large body of ore is being opened up, which is said to have advanced the value of the mine considerably during the past few weeks. In his mind there is no doubt about the values going down to great depths, and he is fully confident that a big camp will be the result of the present activity.

BULLION BECK SUIT.

Joint Survey to be Made of Alleged Trespass of the Eureka Hill.

The first step towards determining the extent of the alleged trespass of the Eureka Hill management will shortly be made. The latter company has asked for a joint survey, which has been granted by the attorneys for the Bullion Beck. The question to be decided is a mere matter of measurement owing to the decision reached in a former law suit as to the deadline between the properties. It was at this point that some of the richest ore was found. It was rumored today that a it looked favorable for an amicable settlement between the two companies, but pending the completion of the survey nothing definite can be stated.

IMPORTANT DECISION.

Supreme Court Decides Locators May Hold All Veins Apexing in Claim.

Denver, Colo., May 28.—A decision handed down by the United States Supreme Court at Washington yesterday, sustaining the decision of the supreme court of Colorado in the case of the Calhoun gold mining company against the Ajax Gold Mining comuany, is regarded in mining circles here as of special importance, in that it forever settles the question of the ownership of all lodes and veins found within the boundaries of a legally established mining claim. The court holds that a locator of a mining claim holds all veins apexing within the boundary of his claim, without respect to cross or parallel veins, so that between two conflicting lode locations the senior would take all the veins apexing within the conflict.

Mammath Dividend for June.

Early in the present month a rumor went the rounds that the Mammoth would do something better than the regular dividend for its stockholders for the month of June. In reply to an inquiry about the June dividend Mr. McIntyre stated that while it looks a little scaly for a dividend early in the month he has no doubt that the regular 5 cent dividend will be paid by the middle of the month. The recent judgment in the Falkner damage suit will have to be met which means the payment of $3,000.

Washington County Mines.

A. E. Smith, an old resident, returned this week from Gunlock, Washington county, where for the past few years he has been engaged in mining, says the Castle Dale Progress. Mr. Smith has acquired what he believes to be a very promising looking mining property in the Wild Flower mine, located on the west fork of Beaver Dam wash, seventeen miles from Uvada, on the Oregon Short Line railroad. His interest is bonded to other parties for $5,000, a sum that falls due next October. A tunnel some 300 feet long has been run to develop the claim which shows a paystreak 4½ feet wide between two well defined walls. The ore runs about $25 in gold, and with such a wide body Mr. Smith is of the opinion the property is a bonanza. He lately located a claim on the famous Apex lode, a property that this winter sold for $200,000, and which its present owners ask over a million dollars for. The Washington county mining interests, according to Mr. Smith, have received an impetus with the approach of the iron house into that country. Several sales for big sums of money have been recently made there.

Sheets & Thompson Retire.

Preparations are now complete for the retirement of Messrs. Sheets and Thompson, the well known brokers on the 31st inst. Though they intend to take a well earned vacation it cannot be said that the haunts which knew them once "will know them no more forever" as they intend hanging around the brokers row for some time to clean up their business after which they will enjoy a vacation and possibly return to business. Meanwhile their quarters will be occupied by the brokerage firm of Barnett and Norton. Mr. Thompson looks forward with pleasure to relief from the taxing strain of business in which he and his associate have been steadily engaged in for the past five years.

Lucky Boy's New Shaft.

The management of the Lucky Boy at Custer, Idaho, expect to resume operations at the mill within the next two or three months. It was stated today by a local shareholder that the upraise from the fourth level is now near the surface. This upraise has been extended for the purpose of giving the company a new shaft about 500 feet west of the old one, which was damaged last fall by a cave-in. Grading will soon be commenced for the hoist will will be moved from the old shaft. The new shaft is said tob e considerably near the principal ore bodies of the mine.

MINING NOTES.

A car of carbonate ore was on the market from Elko, Nev.

A car of ore was reported today from the Tesora of Tintic.

The second lot of Northern Light ore is on the way to market.

The Carisa of Tintic reached the market today with 3 cars of ore.

Treasurer George H. Dern of the Con. Mercur went out to the camp today.

Dr. P. A. H. Franklin went out to Tintic last evening to look through the Yankee Con.

A car of ore was reported today from the Old Peacock mine, in the Seven Devils district, Ida.

A car of concentrates reached the market today from the Queen Mill in Butterfield canyon.

Manager J. J. Trenam of the Stockton Gold Mining & Milling company went out to Stockton today.

The Taylor-Brunton Sampler reported 4 cars of ore from Tintic, 1 from Nevada, 1 from Bingham and 1 from Idaho today.

Z. L. Hopper et al have located the Sunbeam Nos. 1, 2 and 3 oil claims on the bank of Sheep Creek in Spanish Fork canyon.

A dispatch from Eureka, Nev., states that a 2-foot body of good galena ore has been opened up in the Rocco Homestake of that place.

Manager Weir of the Ajax is at the mine watching the operations of the new compressor which was to have been started up yesterday.

Supt. Samuel McIntyre, Jr., of the Mammoth mine came in last evening to attend the funeral of F. W. Nichols, who recently died in the camp.

Two cars of Concentrates, consisting of 35 tons from the Columbia of Bingham were sold yesterday for $1,332.57. The ore was taken from the What Cheer vein.

Manager P. T. Farnsworth returned today from a trip to New York, which occupied about one week. He was on business, the nature of which he could not speak about today.

F. H. Lathrop and M. E. Effinger went out to Bingham this morning to inspect the Tiewaukee and Winnamuck properties on which a payment is to be made shortly.

Eureka (Nev.) Sentinel: Thomas R. Whelan shipped three carloads of ore this week from his Copper Basin mine in Union district, this county, to the Salt Lake reduction works.

David Evans went out to Tintic last evening to look over the Uncle Sam and Richmond Anaconda properties which are just now tied up under an option that calls for the payment of $500,000 during the summer.

Frank Knight who runs a store at Modena was in town today. Mr Knight and his brother are interested in the Utah Spur and Creole properties at Stateline. Some very good ore is reported in the former.

Manager McVichie of the Bingham Copper & Gold company's property was on the streets today after his illness of the past 10 days. He feels much improved, but will, nevertheless, hie himself to some quiet retreat in the mountains as soon as possible. He reports the Tesora to be looking extremely well.

Mammoth Record: The report circulated in Salt Lake that the Red Rose mine had made a rich strike was premature, the only ground being that a change has taken place in the mine, and there are good indications that an ore body may soon be uncovered. But there are no special values in the supposed ore.

Mammoth Record: Monroe Wilkinson, popular young timekeeper at the Mammoth mine, has decided to leave the ranks of bachelorhood and take unto himself a wife. The young lady is Miss Carol Shoebridge, the accomplished daughter of Mrs. E. E. Shoebridge of Salt Lake, and the ceremony is to be performed at the residence of the bride's mother on June 25th.

W. N. Bower of Helena, Mont., is at the head of a new company which will operate in the Seven Devils district, Idaho, this year. The Boise Statesman says the company's holdings are just beyond the Peacock mines, and are named the Dark Horse and Extension and Right Bower Nos. 1, 2 and 3. On the Dark Horse the principal work has been done, being a 40-foot shaft in excellent ore.

Mr. A. Hillstrom of Los Angeles, Cal., who has just returned from the Emery county oil fields, considers indications favorable for opening up one of the richest oil fields in the world. Mr. Hillstrom has had many years' experience and considers the Sinbad valley an ideal oil basin, that with development ought to blossom into a field of one of the greatest industries of the west.

Tuscarora Times-Review: Guy Milner, one of the electricians at the Dexter-Tuscarora company at their mill here, having, during two years' services, established for himself the enviable reputation of being one of the most careful and efficient workmen in the employ of that company, left for his home in Salt Lake this morning. Although silent upon the subject, himself, it has leaked out that he has received a call to take charge of a large electric plant in tUah.

TOBACCO THE FEATURE.

Jumped Up on a Fuller Comprehension of the Porto Ricean Decisions.

Moderate Buying of Low Priced Stocks Imparted a Firmer Tone to the Whole Market.

New York, May 28.—The only active interest in the opening of the stock market was in the Tobacco stocks, American Tobacco jumped 2¾ on the fuller comprehension of the Porto Rican decisions. Moderate buying of some of the low-priced stocks imparted a firmer tone. Atchison, Amalgamated Copper and Union Pacific gained a point each. Anthracite coal road stocks were pressed for sale when the Readings drooped on a poor April statement, but the group was supported later and recovered somewhat. American Car & Foundry advanced 2¾ and the preferred 2¼. American Tobacco ran off while Continental moved up to 67 and fell back below 66; American Snuff preferred lost a point. The heaviness of the Tobacco stocks caused a sagging of prices all around. Sugar dipped 2¼.

Bonds were irregular. Wabash debentures rose above 68 on heavy transactions and Standard Rope 6s were up 5 points at one period.

There were various independent upward movements extending in Consolidated Gass to 6, General Electric 1¾, and Denver & Rio Grande preferred a point. Other stocks meanwhile were yielding their highest prices and the market became very dull again. The closing was without animation and rather heavy.

Your hands reveal all questions of life, pertaining to marriage, sickness, death, changes, travels, divorces, separations, lawsuits, business transactions, wills, deals, mortgages, lost or absent friends, mining ventures, etc. Consult Professor Sterling. He is acknowledged the greatest living authority on palmistry and all his work is done in manuscript form, and is strictly confidential.

Office hours are 10 a. m. to 9 p. m. daily and Sundays.

Palmistry has been reduced to a science, and following are some of the results obtained by Professor Sterling of well known persons in this city:

J. H. SEIGEL,
Merchant.

You have no trouble ahead of you and you will travel a great deal. Your health line is fully developed.

F. THOMAS,
Merchant.

You are naturally a thinker and philosopher. Your hand is that of a self-made person. You can endure censure when administered in a proper spirit. You will live to be very old.

L. W. DITTMAN,
Prop. of St. Elmo.

You are entirely loyal to your friends. You can always be trusted. Your health line is fully developed.

E. ROCKMANN,
Merchant.

Your expectations are generally remarkable and you are sanguine and enterprising. You will realize more than you expect.

F. KNOWLDEN,
CLERK.

You are courageous. You also have great talent and pride and you will always insist upon your rights under all circumstances. You will live to good old age.

Lewis' 98 % Lye, Powdered and Perfumed. (PATENTED.)

The strongest and purest made. Unlike other Lyes, it is finely powdered, packed in a can having two lids, one easily cut and the other removable for constant use. It will make the best Perfumed Hard Soap in 20 minutes without boiling. It is the best for cleansing waste pipes, disinfecting sinks, closets, cleaning paints, bottles, barrels; washing trees and killing insects; for engineers' and machinists' uses; for painters, to remove old paints, etc.

ONE NIGHT OUT.

Rock Island Inaugurates Fast Train Service

COLORADO TO CHICAGO.

On June 18th, the Rock Island will establish "One Night Out" train service, Denver and Colorado Springs to Chicago. Trains will leave Denver daily at 1:15 p. m., Colorado Springs at 1:30 p. m., arriving at Omaha at 6:00 a. m., Des Moines at 10:08 a. m. and Chicago at 7:00 p. m. Connections made at Omaha with connecting lines for Minneapolis and St. Paul. The equipment of this train will be up to date in every way, containing all modern improvements both for comfort and safety, and will consist of composite library car, sleeper, chair car and diner. The high class service of this "One Night Out" Rock Island train together with the exceedingly low rates to the East in effect on that road beginning June 20th, will insure a most liberal patronage.
