LOCAL AND OTHER MATTERS.

OBSEQUIES.—This afternoon the funeral ceremonies of his Excellency J. Wilson Shaffer, late Governor of this Territory took place at his late residence on the State Road. Out of respect to the departed, flags were floating at half mast from Zion's Co-operative Mercantile establishments, DESERET NEWS office, the Deseret University and the public buildings and chief stores in the city. The University adjourned out of respect to the deceased and the principal stores and business places were closed during the ceremonies.

The following programme was observed on the occasion, Rev. G. M. Pierce, officating.

PROCESSION:

THEATRICAL. — To-morrow night the beautiful play of "Victorine, or I'll sleep on it," will be presented at the Theatre, and will be followed by the very laughable farce, never before played here, "The Dutchman's Ghost." All the old favorites will appear, including the favorite comedian and comic balladist, Mr. W. T. Harris, being his first appearance since his return from California.

NEW GOVERNOR APPOINTED.—An extra special dispatch, received this afternoon, by the Western Union Telegraph line, from Washington, D. C., says:

"The President to-day, appointed Vernon H. Vaughan, of Alabama, to be Governor of Utah, and Geo. S. Black, of Utah, to be Secretary of that Territory."

INFORMATION WANTED.—The *Millennial Star*, of the 11th ult., says that any information of the whereabouts of Thomas Wise, who emigrated from the London Conference in 1865, on the ship *Belle Wood*, would be thankfully received by William Capell, of 21 Crown St. Hindpool, Barrow-in-Furness, Lancashire, England.

SEXTON'S REPORT.—The Sexton's report for October is as follows:—Males 24, Females 23. Of these adults 12, children 35. Causes of death as reported:—Teething and bowel complaint 14, fevers 9, congestion of brain 3, congestion of lungs 3, convulsions 2, heart disease 2, liver complaint 2, spinal affection 2, croup 2, still born 2, died at birth 2, consumption 2, chronic asthma, 1 old age 1. Total interments 47.

JOS. E. TAYLOR, Sexton.

HOME INDUSTRY.—Bro. Gregory called this morning and showed us some specimens of wire weaving, of his own manufacture. He carried on business in this line in London, England, for many years. The articles shown us display excellent taste and workmanship. They consist of seives, strainers, dish covers &c. Brother Gregory can now make all kinds of wire blinds, meat safes, fire guards, fancy baskets, flower stands and almost every kind of useful or ornamental wire-work that can be made by hand. He purposes soon to import machinery, when he will be able to enter into the business in every branch and to compete, in the matter of price as well as quality, with any market extant. We would like to see this branch of home manufacture incouraged. Orders will be attended to by him if left at the tin store of W. Harrison, East Temple St.

ORGANIZATION.—To-night, at half-past 7 o'clock there will be a meeting in the room, over Faust's stables, for the purpose of effecting an organizatton, preliminary to the establishment of a Merchant's and Miners' Exchange, Club Room, etc. All interested therein will do well to attend and lend their aid in furthering the object of the meeting.

PRESDIGIDATEUR. — Remember Signor Bosco, who gives exhibitions daily at the Museum and Managerie, at twelve, two, and four o'clock, of his wonderful feats in *legerde main*, or sleight of hand. Signor Bosco has achieved great fame as a professor in this line of art; and his feats are performed with such exceeding celerity as to mystify the most penetrating. The price of admission is, children ten cents as usual.

EARTHQUAKE.—A dispatch per Deseret Telegraph Line, received at about 11 this morning, and dated 10.40 a. m., Nov. 1st, says:

"There was a heavy shock of earthquake at San Francisco, about five minutes ago, which lasted 30 seconds. The operator threw open his key and ran out into the street. No further particulars as yet."

NATURAL WONDERS.—Our northern exchanges contain descriptions of the extraordinary natural wonders, which are said to have been discovered by an exploring party in the Yellow Stone Country. Volcanoes, huge geysers and immense waterfalls are among the curiosities mentioned. The descriptions given of that region have more the semblance of a fairy tale than of reality. The newspapers in which they appear, however, vouch for their correctness. According to these accounts that part promises to be as interesting a field for scientific exploration as the Colorado.

IRRIGATION SCHEME.—It will be seen by a dispatch from Omaha, that the Union Pacific R. R. Company have in contemplation plans for irrigating the millions of acres of land lying along the line of the road. It may be expected that those lands will soon be covered with flourishing productive farms and that in a few years, upon the now arid plains between Nebraska and the Rocky Mountains will be a continuous string of prosperous towns, cities and villages. This is not too much to expect in this "lightning express" age, yet who would have imagined such a thing a few years ago.

MADAME SCHELLER.—This lady, so well and favorably known to the Salt Lake public, had a benefit at Omaha on the evening of Friday last. "La Somnambula" and "The Conjugal Lesson" were the pieces produced. She has returned to Omaha after an absence from that place of three years. So says the *Herald*.

THE FOLLOWING STATEMENT made by the FIRST purchasers of FLORENCE SEWING MACHINES on the Pacific Coast, including ALL who bought in 1863, whose present residence is known, is conclusive evidence of the great superiority and unrivaled excellence of the FLORENCE, and is the best testimonial ever given in favor of any Sewing Machine:

Statement made May, 1870:

"*Our Machines sew as well now, and are as good for use in every respect, as they were when purchased nearly* SEVEN *years ago, and they* HAVE NEVER COST US ANYTHING FOR REPAIRS. *We recommend the Florence as being* without exception *the* very best, most reliable *and* least complicated *Sewing Machine in use.*

PEOPLE'S VERDICT!

Over Half a Million sold and in use!

4,000 made and sold per week!

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

ARE

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable:

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is *not* liable to break or miss the stitch. Many other Machines use a long crooked needle, which *is* liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines *drive* their Shuttles, in a race, thus causing great wear, and *requiring oil*, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the

Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those *who utterly fail on other Machines.*

SINGER'S

New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are *applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

Without any previous advertisement, the Demand for the Singer Machine is so Great that we *have been unable to retain even one Machine to exhibit.* All sold, but a large number are now on the way from New York, and

WILL ARRIVE IN A FEW DAYS.

They will consist of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings.*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER

BUTTON-HOLE MACHINE,

Is the only Practical one in the World.
