THE WASATCH ACCEPTED.

Apportion of Teachers for the New school—Important Recommendations—Other Matters.

The city school board met last night, all the members being present except Messrs. Pratt and Pike. The session was brief and business-like.

Shigley in his seat in a communication, announcing that they had completed the heating and ventilating apparatus in the Wasatch school building and somewhat that it was now ready for occupancy. Committee to view and report.

John W. Roberts asked that he be given employment as janitor in one of the schools. Committee on furniture and supplies.

Clerk Morrisn reported that a summons had been served on the board from Commissioner Norcott's court in the case of George E. Britt vs. the Board of Education, for $175 rent alleged to be due for the use of the Eighth ward hall. The clerk was instructed to notify the board's attorney to attend to the matter today.

The committee on sites and buildings reported that the board was the owner of a large amount of valuable centrally located real estate which could not be profitably utilized as building sites, and asked that the committee be given authority to submit offers for the exchange of the property for other real estate located where the board intends to erect school buildings. Adopted.

On recommendation of the same committee the Wasatch building was formally accepted.

The committee on finance reported that Bills at the $1,000 bonds, numbered 1 to 55, all of series 3, the issue of 1892, had been properly signed, certified and forwarded to Messrs. Parsons, Leach & Co. of Chicago, the purchasers. Under the contract with the bond people the board will receive the first payment of $60,000 on Jan. 1.

The committee on finance and school work reported that it will be necessary to transfer the Twenty-first ward building text rooms for the accommodation of four classes of beginners, first grade, second grade and third grade; the transfer of all the teachers, except one, from the Twenty-first school to the Wasatch school, and the teachers from the Bryant to the Wasatch; recommending the employment of Miss Alice Herman at a salary of $40 per month, and Miss Flora C. Blackburn for the same school at a salary of $75 per month; that this would make the corps of teachers at the Wasatch school stand as follows: Instructors—Ella Murphy and Alice Herman; first grade—Stella Rappaport; second grade—Carrie Thorp; third grade—Celia Murphy; fourth—Mrs. Wilding; fifth—Miss Templeton; sixth—Miss Goodrich; seventh and eighth—Miss Blackburn; principal—E. A. Kinney. They also recommended for a position in the Twenty-first school Miss Henry, at a salary of $50 per month; Mrs. Hunting, at a salary of $45 per month; Miss Clara S. Hill, at her former salary of $75 per month; the employment of Louisa Porter at a salary of $40 per month, and that all employments of teachers who have not taught in the city schools be for a trial period of two months."

The report concludes with the following recommendation:

That class A of the eighth grade, which finishes its work preparatory to the High school at the mid-year, be transferred to the High school building and be placed under a teacher to be selected for that purpose, and that the pupils be given certain studies in advance of those now pursued in the eighth grade, and that they do not enter upon the High school course proper until the opening of the next school year, this arrangement being made for the purpose of starting but one High school class each year, the class to be known as the "preparatory grammar department." The report was adopted without discussion.

The following appropriations were made:

A. B. Gibson, assignee, S. C. Dowell, contract payment on contract for erection of Wasatch school	$1,166 66
A. B. Gibson, assignee, S. C. Dowell, contract payment on special contract for heating Wasatch school	300 00
J. E. Hansen, clerk, clerk, expense bill, year F. C.	14 05
F. L. Hudson, attorney fees for year ending December 31, 1893, inclusive services thereon	83 33
Total	$1,563 83

PROVO.

PROVO, UTAH, - DEC. 28, 1893.

Undertaker's Stock Sold.

The undertaking establishment of Cluff, Hoon & Co. was sold out by Sheriff Brown on the suit of James A. Bean. The stock of coffins and undertaker's goods went to O. H. Berg for $105. The same gentleman bought the house for $247.50. Its cost price was over $600, and it has been used but very little.

Volunteer Fire Department.

On the invitation of the members of the Volunteer fire department, the outgoing and incoming mayors and city councilors met with him at the Firemen's hall. Mr. Selby Jones, one of the members of the organization, gave a historical review of the company and tendered their services to the incoming council. Congratulatory speeches were made by the retiring mayor and the new incumbent of the office, and council members. The speaking over, the city officers were escorted around the building, and its mechanism and workings explained. All were highly gratified, and the fire fighters will remain in the service of the city.

Notes.

Sheriff John A. Brown has returned from his chase after the escaped criminals, but empty handed.

F. W. C. Hattenbauer has accepted a position as traveling agent for the Atlantic Refining Oil company of Cleveland, Ohio.

Judge Quinney and W. H. King, attorneys for Mr. Van Fallon, have returned from Juab county, where they have been looking up evidence in the pending case.

Flying Map to Goshen Side.

An exhibition flier of a little device which has been invented to keep mail from second days. It consists essentially in a kind of a crossed frame of passenger with an opening in the top to which a glass tube, closed at its upper end, is adjusted, the latter being fastened upright by means of an India rubber ring. The tube is marked with the horizontal lines, graduated respectively to degrees and 85 degrees centigrade. The vessel is filled with milk up to the edge of the neck, which is then closed with the glass tube, and is now placed in a cool mixture or bulbouste over the fire. The milk rises to 15 degrees and soon afterward to 60 degrees and may be removed from the fire after remaining at the above temperature from 10 to 20 minutes, and cooled by placing the vessel in water of the temperature of from 10 to 20 degrees. Milk thus treated will keep fresh from three to four days.
