NATURE AGAINST IT.

Chilly Blasts Discourage Coxey's Industrial Army.

THE HOST LEFT IN A DESERT.

The Railroads Refuse to Give Free Transportation to the Colorado Contingent.

LOUISVILLE, Colo., March 26.—Out seventy-two of Coxey's commonwealers had the courage to march away from Canton this evening in the face of the wintry blast that was howling at the time set for the start. The band deserted at that point also and took much of the spirit out of the soldiers.

The march from Canton is the place, through two inches of snow and in a temperature twenty degrees above zero, was anything but a pleasant experience for the ragged vagrants, who had imagined the entire trip to Washington would be a sort of springtime frolic. Forty troops were placed by the sheriff at Canton and this place, and when the army went into camp it numbered 175 men, outside of the officers. They maintained uniformity of 25. Marts announcement was caused today by the announcement that three of the tramps had robbed a house of a watch and $18. This was the first attempt at lawlessness, but no arrests were made.

FRY'S ARMY.

EL PASO, Tex., March 26.—The army of unemployed, under General Fry, got away this morning, after breaking a switch lock intended to side track a train to secure passage. The train was stopped at Fusilog, twenty-one miles east, and an injunction granted by District Judge Butler to restrain the army from further interfering with the railroad. This order was executed by Captain Hughes of the rangers, and the army moved out to Sierra Blanca, where it is now.

The following telegram was sent to-night:

"EL PASO, Tex., March 26.—To Governor J. S. Hogg, Austin, Tex.—General Fry's industrial army has been hailed by the Southern Pacific Railway company to Sierra Blanca, ninety miles east of here, in the hope of a cheap, John B. Hughes, with rifle rangers, are at Sierra Blanca to prevent these men from entering upon trains. He has telegraphed Judge R. M. Beckham here: 'Men tired, but orderly; have nothing to sell; railroad refuses to haul them.' These men would move on but for the rangers. This county cannot support them. Where they now are they can obtain nothing to eat. The tyranny of the Southern Pacific in hauling these men from California into this desert and refusing to haul them farther is without parallel for barbarity. If you will order rangers away they can move."

IN ARIZONA, MAYS, March 26.

The body of Cassytine, numbering 700 which were distributed at Finley yesterday, are still there without food, and in a famishing condition. They have applied to Governor Hoge for assistance, but he has not replied.

THE DENVER PILGRIMS.

DENVER, Colo., March 26.—General Hamilton's Denver contingent of Coxey's army will have to walk out of town unless they pay their board bill. It was announced at last night's meeting that the Santa Fe would be called upon to furnish a train for the pilgrims. At the Santa Fe yards it was said today that the company had refused to furnish a train to the California division of the army and would undoubtedly repeat its refusal should the Denver contingent make its promised demand. The other roads will also decline to give free transportation.

SENSATIONAL TESTIMONY.

Implicating a San Francisco Lawyer in the McWhirter Murder.

FRESNO, Cal., March 26.—Some testimony was given in the trial of H. S. Heath here today which created a painful sensation. Heath is on trial for the murder of Louis B. McWhirter, which occurred over a year ago. On the night of the murder McWhirter was startled from sleep by persons unknown in his back yard. He went out to investigate and was shot by an assassin. McWhirter was a prominent lawyer and politician. Suspicion was immediately drawn to certain of McWhirter's political enemies.

Today Mrs. Palmer, an estimable lady residing near this city, was brought into court upon her bed, she being in the last stages of consumption. Mrs. Palmer did not appear as a witness in the previous trial. The witness stated that on the morning of the McWhirter murder she was hitching up her husband into Fresno to take a train, which leaves here at 5:30 a. m. A short distance from home she was met by a quickly driven buggy, containing two persons, one of whom was Reed B. Terry. The other she did not recognize. Just before meeting this buggy, some blazing rags had been thrown out of it and as she passed it she noticed that the city glows by the outside was being ignited. She stopped, alighted and stepped out of the buggy, put the stamps and picked up the half consumed rags, one of which proved to be a black mask, and the other a handkerchief, upon which was the name of "H. S. Heath." The handkerchief and mask she saved and produced as evidence in court, the former being visibly stained.

Reed Terry, whom this evidence implicates in the murder, is well known throughout the state. He is a prominent lawyer and was a leader of the political faction opposed to McWhirter. Terry is a nephew of Judge Terry, who was killed by Marshal Nagle as he was about to assault Justice Field, of the United States Supreme Court, several years ago. He ran for Congress in the 16th district on the Democratic ticket, but was defeated.

TERRY DENIES IT.

SAN FRANCISCO, March 26.—Reed B. Terry, who was today accused by Mrs. Palmer, at the Heath trial, of complicity in the murder of McWhirter, and who is now an attorney of this city, furnishes the Associated Press with a strong denial of the accusation, denouncing it as part of an infamous conspiracy to blacken the reputations of a number of Fresno gentlemen. himself included. He thinks Mrs. Palmer is demented.

WASHINGTON ITEMS.

Bills Acted for Utah Territorial Purposes.

WASHINGTON, March 26.—The House adjourned today after only an hour, on account of the death of Senator Colquitt.

On motion of Hawkins, Utah, the bill granting a tract of land to the Fort Douglas military reservation to the Territory of Utah for university purposes, was passed.

THE SLACK BILL.

Representative Bland submitted his direct amendment of the House so as to the standard for passing the silver seigniorage bill over a veto. He found a majority of the men who had voted for the bill ready to endorse it again, even against a veto. Whether he will make the move or not is not yet certain, or the most potent reason is the feeling on that the necessary two-thirds vote to overcome the veto could not be secured in the House, and without the two-thirds would be nothing more than a protest.

SHIPMENT OF SILVER.

The amount of standard silver dollars shipped from the subtreasury and the mints during the last week was $637,175. The shipments of bullion silver from the 1st of March to the 24th aggregated $600,273.

MEXICO MAY MAKE A MOVE.

There are said to be strong probabilities that a new international monetary conference will be called at the instance of Mexico. There is a well founded belief that it will take place next autumn.

SATISFACTORY TO GEARY.

Representative Geary, of California, author of the Chinese registration act, raises some surprise by coming out in approval of the new Chinese treaty. He does not agree with those who have argued that it amounts to an abrogation of the Geary law, but finds upon it rather as a recognition of the registration principle, which is the feature of the law that seems to come. He said: "What I believe most laws are justified by the spirit and letter of the old treaties, yet it is idle to ignore the fact that all our attempts at legislation on the Chinese question have resulted in the nullifying of a very large number of people in the East, who feel upon Chinese legislation as to fair faith, because children of the treaties between this country and China."

Among the Icebergs.

NEW YORK, March 26.—A huge iceberg got lost near about 200 feet wide and over twice as high as the residents of the big French liner La Touraine, which came in yesterday, was what the early watch saw about 20 miles south on the western of March 20th. Orders were given to change the course of the vessel, so as to avoid a collision. The sudden changing of the steamer's course soon brought many of the passengers on deck. They were enjoying it as only those can who have never seen an iceberg at sea, when suddenly another huge was discovered, not more than a mile away on the steamer's starboard bow. It was about 200 feet high and possibly 200 feet long.

The discovery an hour after of an immense field of ice, covering hundreds of square miles, and in front of the ship almost caused a panic. By this time every passenger on board who was not physically incapacitated was on deck. The sudden stopping of the engines and hastily spoken orders caused many of the more timid ones to be badly frightened. The ship was almost penned in by icebergs. After leaving the night of March 21st and part of the next day the big ship resumed motion.

President's Chase.

CHICAGO, March 26.—The state's attorneys will tomorrow request a continuance in the Prendergast case for ten days. It will be stated on the ground that the state's attorney is not financially able to go on with the case at once. It is said Mr. Trude, who represented the Harrison family, now represents Prendergast instead and will not appear in the new trial.

Jamison Gets Eighteen Months.

NEW YORK, March 26.—Andrew Brown Jamison, the Grosvenor case stalle, convicted last week of perjury, was today sentenced in the court of Oyer and Terminer to Brooklyn to eighteen months in the penitentiary.

SOME HAPPENINGS ABROAD

Portugal Refuses to Surrender the Brazilian Rebels.

The Belgian Reconstructed Cabinet—Europe United Against Anarchy—Activity at Cuba.

NEW YORK, March 26.—The Herald's dispatch from Rio Janeiro says: The government of Portugal has replied to the demand of President Peixoto for the surrender of the insurgents who sought an asylum on their vessel after the surrender in Rio Janeiro, and Portugal refuses to surrender them. It is stated that to comply with the demands of the Brazilian government would be contrary to the principles of humanity and opposed to all precedents of international law established in similar cases.

Will Combine Against Anarchy.

LONDON, March 26.—The correspondent at Berlin of the Standard says: Very intimate confidential communications have recently been exchanged between the leading European powers on the question of united action for the purpose of suppressing anarchy. It is believed that the results will be the holding of an international conference to discuss and adopt measures to put down the scourge of anarchy.

What Does it Mean?

NEW YORK, March 26.—A special to the Herald from Panama says: There is unusual activity in Cuba. The canal zone and the zaulas here are being frightened with paint and machinery and baby lamps and I understand are arriving. M. Hallmet, the French engineer, and other officers of the canal are expected. There is much rumor in the meaning of it all, whether it is preliminary to metropolis of work on the canal expected to commence. There is unusual activity in preparing the plan.

The New Belgian Cabinet.

BRUSSELS, March 26.—L. De Bonlet, who has been charged by the king to reconstruct the ministry with a view to securing the resignation of Premier Van the Stein of minister of the interior and public instruction, which he previously held. M. De Bonlet has not yet appointed successor of Renard, which post he was held by ex-Premier Renard, in addition to his present post. M. Harlorem has been appointed minister of justice in place of M. De Jonge. There has been no change in the other cabinet offices.

WAR IN AFRICA.

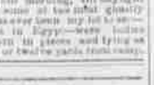
FAILURE OF REPORTS WHICH MARCHED 1000.

Whenever no news on the matter we always has reflective and it was not in this, but, from, and a week ago, that it was not a panic of some people towards the black rock, and it was a signal to hoist up, which we had to do so that it could be seen for a long situation—which is saying a great deal—the text wagon being a long distance intervening which being alone behind in with the one sheet of it, with the dress-maker (of course) outside, so that all wagons could begin together. The wagons, we decided to be London long and, were made like a spear, long, or short, according to the number of vehicles.

The made two lines—the Chinese was, the Salisbury sandwiched between the two longer the cattle (and least truck case) and left were drawn. Black rock, we and we go online, this everything was so compact so quickly, and we minded on top of the wagons and defended the target. The wallmend day after day, the scouting being only taken up hurried and rolling kraals of the enemy and shook the grass, till we came to a river called Shangani, where we lingered for the night. All camps, every night we had a main guard and a picket out all night, the main guard being left, the picket go some from the camp, and a lot of Mashonas to take water shot in dearly fear of the Matabele in the north of the river.

On the morning of October 25th, at 8 in school, we were awakened by hearing some fire. Immediately we stood to arms, and looking through the intervening thousands of negroes coming toward us. When the Maxim guns started firing there was a sudden check. They could not believe it could be another time, and were checked again and so on until morning, the negroes store, and some of the most ghastly objects that ever been met by white and I was in Egypt—were bodies literally torn to pieces and lying as near as ten or twelve yards from camp.

This Children Grow Fat



as Scott's Emulsion, because it feeds the blood, makes children. They are thin, and remain thin but in proportion to their inability to assimilate food rich in fat.

Scott's Emulsion

of Cod Liver Oil is especially adaptable to those of weak digestion—*it is partly digested already.* Astonishing new quickly a thin person gains solid flesh by its use!

Almost as palatable as milk.

Prepared by Scott & Bowne, N. Y. All druggists.

And Ranges are used with entire satisfaction all over the world.

You run no risk in buying them, their record of 41 years and the makers' guarantee is behind them.

THEY ARE SOLD BY

Z.C.M.I.

IN ALL THEIR STORES.

The Superiority

of Hood's Sarsaparilla is due to the tremendous amount of brain work and research made used in its preparation. Try this bottle and you will be convinced of its superiority. It purifies the blood, vitalizes the source of health, cures dyspepsia, overcomes dull headaches and bad moods. It is just the medicine for you.

Hood's Pills are purely vegetable, carefully prepared from the best ingredients. 4

DID YOU NOTICE IT?

Everybody Also Did—The Difference Between the Testimonials Published by Drs. Shores & Shores and that of Would-be Competitors.

Drs. Shores & Shores in Not Unduly Advertising Now in Their Age to Secure to Provide the Sick and Suffering.

They Publish the Exact Words of Satisfied Patients Who Have Been Cured by This New Treatment.

In all lines of business there are a few individuals who above their fellows and a very big success, they then begin with the falsehoods. But may to making the impression on the public that they are successful and money back into the coffers.

What the public want is the best, and nothing but the best. They want the truth, the whole truth, and nothing but the truth. They are not to be deceived when it comes to their health. All the little life is to make a very big success.

Drs. Shores and Shores are not unduly declare that are prepared to cure patients, and their success is due to skill in the treatment of their various specialties. Read what they say about their testimonials. From one months and so

MISS ROSA SMITH, 317 FRENCH SQUARE, CITY.

another. NOTICE THE DIFFERENCE between the testimonials published by them and those of Drs. Shores & Shores. They state their patients, and their testimonials are not bought in the office of who is doing the good.

Drs. Shores & Shores are honest, conscientious and reasonable physicians. Each patient is given their own treatment, and their drugs, which are the purest in the market, being purchased from A. C. Smith & Co., we guarantee that they are THE PURE DRUGS, and invariably find enough that you will get value received.

Old advertising dodgers and old methods are played out. The new, broad, and scientific and success is in the people of the present day appreciate.

You would not go out to the jungles or to some or where you can see the electric and get close to half the time and enjoy it more. So it is with the residents of Utah. Utah is always something new, and Drs. Shores & Shores have the latest. They are not strangers in Utah having practiced medicine six years in the Territory. They are reliable doctors, law-abiding citizens, and have the esteem and confidence of every resident of the city.

Enough has been said, let the public be the judge, so to speak, and THE PEOPLE, who are the PEOPLE'S DOCTORS and who are using their patients. A personal invitation is extended by the public to visit the offices of Drs. Shores & Shores and inspect their NEW TREATMENT for the cure of catarrh and all chronic diseases, which is different from any ever used in the city. Drs. O. W. and A. J. Shores have spent visits in New York City obtained the latest scientific treatment for catarrh, and its success is well known to the readers of this paper.

All have for one month's treatment, medication, all instruments and local treatment free of charge.

Consultation, the offspring of some thousand sick and suffering patients, the expense free to all who call at the office, where they can you. So in the only reliable medical and surgical institute in the city.

Read the new evidence of the skill of the leading specialists of Salt Lake City Drs. Shores & Shores.

Every heart in Salt Lake City has heard something about the standard treatment of Drs. Shores & Shores, but it is only those who have had some personal experience of their skill in some desperate and dangerous case of sickness, who really know how much they are worth. "For my part," says Miss Rosa Smith, "I don't think that any female woman who has ever taken their treatment could say no more in praise of their admirable system. They cured me of a very bad case of catarrh, deafness and distracting headache, for which I thought never would be cured. My symptoms are such that it is neither safe nor pleasant to describe, these were such a combination of ailments. First there was a chronic catarrh in the head and throat, there was a miserable sensation of fullness and tightness in the ear, with an excessive dripping of the catarrhal matter into the throat, causing the most severe and constant fit of violently hawking and spitting. It had been so bad that I LOST MY HEAD. This, my eyes were weak and watery, and kept me quite nervous and nearly crazy. I could become sick and dizzy.

Now, let me state to the public that I am in good health, as a result of Drs. Shores & Shores, for their I can everything by HEARING it. My mind is free from all, and I feel as strong as I was years ago. Hoping my testimony will be of benefit to others who are suffering, I sign my name, Miss Rosa Smith.
