MINING, BUSINESS AND STOCKS

FORENOON ON THE EXCHANGE

Lower Mammoth Holding Remarkably Steady on Weak Market.

COLORADO SOME STRONGER.

Sales of Unlisted Stocks—Ohio Kentucky, Ohio Copper and Standard Copper.

Lower Mammoth continues to hold remarkably steady in the face of the depreciation that has been in evidence with other Tintic stocks. Uncle Sam Consolidated opened weak and dropped to 90 cents, but the receipts of new buying orders caused the price to stiffen somewhat on the open board. Beck Tunnel Consolidated sold as low as 95 cents, while Colorado was in fair demand and sold all the way from $3.50 to $3.65. There is little indication that the deal for the 400,000 share lot of Seven Troughs is a go, for the stock went begging today and sales were reported down to 22 cents.

There was not very much doing among the unlisted stocks. Ohio Kentucky sold at $2.50; Ohio Copper at $2.25 and Standard Copper at 24 cents. The closing quotations and sales were:

VERONA MINING CO. FILES.

The Verona Mining company of Bingham filed articles of incorporation with the county clerk today. The company is formed to operate properties in the Bingham district and its principal place of business is in Bingham canyon. The officers are: Forest A. Darrehougue, president; J. E. Dow, secretary; Francis W. Quinn, treasurer; James Ingebretsen and D. C. McIntyre, directors. The capital stock of the company is $1,000,000, in shares of $1 each.

WORKING IN TENABO.

J. H. Daniger Comes to Buy Equipment for Troy Mining Company.

J. H. Daniger, a well known business man of Pocatello and manager of the Troy Mining company's properties in the Tenabo, Nevada, district, is in the city today on a brief business trip. During the day he placed an order with local machinery firms for new mine equipment and gave instructions that it should be shipped as soon as possible.

"The Troy company," aid Mr. Daniger today, "owns one of the best mining propositions in the Tenabo district, and we believe this will be demonstrated a little later on. Contracts have been let to sink two shafts to a depth of 200 feet; so you see we are pushing things. A number of Pocatello citizens are interested with me in this enterprise."

Mr. Daniger expects to return to Pocatello this evening, and will visit the property a few weeks later.

NEARING GOLDFIELD.

Nevadans Preparing to Celebrate Salt Lake Route's Arrival.

If you look to the eastward some fine, bright morning, you will see a thin column of smoke arising, indicative of one element of progress of the great district of Goldfield, says the Goldfield Tribune. It is from the track laying machine of the Las Vegas & Tonopah railroad, which is straining every nerve to reach peerless Goldfield within record time. When one realizes that 15 minutes' walk will bring him within sight of the laying of steel for a continental system, he comes to the conclusion that the Pearl of the Desert is not so slow, after all.

The Las Vegas road will be into Columbia tomorrow and within a few days thereafter, the rails will have been laid into the city proper.

Oct. 28 is Railroad day. Don't forget that. And the district will have one of the biggest and most significant celebrations at that time in her history. All societies in Goldfield will take part in the event. The chamber of commerce, Athletic club, Montezuma club, stock exchange, and half a dozen others, are preparing for a grand jubilee to celebrate the driving of the last spike that will afford competition in railroad service to the section that is astonishing the world in the production of gold.

LAST CHANCE MINE CLOSED

Fifty Men Let Out at This Well Known Bingham Mine Last Evening.

A NEVADA-UTAH HOLDING.

Orders to Shut Down Came from Eastern Offices of Company.

The Last Chance mine in Bingham, which is one of the assets of the Nevada Utah Mines & Smelters corporation, was closed last night upon orders received from the eastern offices to do so. About 65 men have been employed at this property and according to information telephoned in from camp today, all but 15 of the number have been paid off. The small force remaining is to be kept on duty, principally to do some timbering in the mine.

It is said the Last Chance, while not making a great deal of money out of ore shipments has considerably more than paid operating expenses under the careful management of Superintendent Kirk.

The property is equipped with a small concentrating mill which was recently overhauled and provided with equipment more suitable to the ores of the mine than the original plant was.

The Last Chance is situated in the upper part of the camp, is only a short distance from the main workings of the Boston Consolidated's sulphide mine and mine buildings of the New England Gold & Copper company. It is productive principally of low grade silver-lead ores.

CAMP OF MANHATTAN.

Erection of Stamp Mills Gives Evidence of Prosperity.

Special Correspondence.

Manhattan, Nevada, Oct. 15.—That the mining camp of Manhattan has taken on renewed life and activity, is evidenced by the fact of the increased traffic to and from town, and the great impetus displayed in mining operations throughout the district. What Manhattan needed to bring her out of the lethargy in which she lingered for many months, was stampmills to market the product extracted from her numberless mines, which has heretofore lain idle for want of treatment.

The three mills now under course of construction in Manhattan, are making great headway, and the Wilf mill will be in operation by the 1st of November, barring further delays. This will immediately furnish a market for 100 tons of milling ore per day. Within 60 days more the Lemon mill will add to the daily capacity with its ten-stamp mill, to be soon followed by the 50-ton Huntington mill of Davis & Chapman.

Under the above condition of affairs, the leasers are working with renewed efforts, and are laying aside vast quantities of high grade milling ore awaiting the starting of the mills. Many of the leases on the various properties are taking out shipping ore along with the milling, and within another year, Manhattan will rank with the leading camps of the West.

GOLDFIELD CONSOLIDATED.

Another Property Opened Into Shipping Proposition.

One of the most important strikes made in the district during the past six months developed yesterday on the Victor, adjoining the Gold Bar on the east and the Hat, one of the Blue Bull company's claims on the west, says the Goldfield Tribune. From both these properties some ore has been shipped and considerable work has been done.

The find was made at a depth of 212 feet in a drift extended to the northwest and some 200 feet from the shaft. The pay portion of the lead is four feet wide and assays on the ore run at the rate of $60 a ton. The find was made yesterday and work was suspended temporarily.

The discovery of pay rock in this locality is very important. The shaft is deeper than either the Gold Bar or the Hat and it would indicate that depth is required in this section of the country.

The Victor was one of the properties owned by the Goldfield Combination before that company sold to the Consolidated. It was worked under lease by Dick Dillon for over a year. Dillon was associated with Michael Finnarty, a Denver capitalist, and they sank a shaft 200 feet besides considerable drifting and crosscutting. Dillon got occasional assays that went good pay, but threw up the lease after having expended thousands of dollars in trying to find the ore in place. The Consolidated company put John Curry and Matt Mulligan, two very competent mine superintendents, in charge. The shaft was timbered and the work of sinking was continued and the result is that the Consolidated has another mine on its list.

John W. Finch, general manager of the Consolidated Mines company, last night confirmed the strike on the Victor. He said:

"I do not know for a fact the size of the ore body on the Victor, but I am informed that it is quite large. I am informed that the ore runs $60 a ton, and that the indications are excellent. I am frank to confess that this discovery opens up a large area in a comparatively new section of Goldfield and is therefore significant."

READY FOR CONGRESS.

Joplin Will Be in Full Dress During Mining Convention.

Joplin, Mo., Oct. 18.—Within 30 days Joplin will be one of the most brilliantly lighted cities west of the Mississippi.

More than 300 arc lights are now used on the streets and at a recent meeting of the city council a contract was let for the erection of 30 arches across streets in the business section of the city. On each of these arches will be placed 100 16-candle power electric lights.

This action on the part of the council was taken at the suggestion of the committee on decoration for the American Mining congress, which meets here in November. Lights of various colors will be used on the arches during that week.

BOSTON CON. FIRE.

Boarding House in Bingham is Totally Destroyed.

A fire late yesterday afternoon completely destroyed the boarding house of the Boston Consolidate Mining company in upper Carr Fork in Bingham and came near laying the machine shop, situated nearby, in ashes. The building and contents were considered to have a valuation of about $6,000. A small bunk building was also destroyed and it was only by heroic measures that a large pile of storage coal was not consumed.

The burning of the Boston Consolidated boarding house will work a serious hardship upon the mines employed in Carr Fork canyon. The management of the mining company has not attempted to conduct its own boarding house for several years. It was leased and it has been customary for the men employed in the Utah Consolidated, Bingham, New Haven, Yampa and other mines to go there for meals. A defective flue is said to have been the cause of the conflagration.

SAN FRANCISCO MARKET.

James A. Pollock & Company furnish the following quotations from San Francisco today on Nevada mining stocks:

CONCENTRATES.

President Tony Jacobson of the Columbus Consolidated Mining company is planning on a trip to New York. He will leave tomorrow.

M. M. Johnson of the Newhouse staff of engineers has returned from a trip to the properties of the Dominion Copper company in British Columbia.

Hiram Tyree of the Reliance Mining company, operating at Tenabo, Nev., expects to leave for the east in a few days on mining business.

A meeting of the stockholders of the Cherokee-Nevada Mining company is scheduled to take place at the Wilson hotel this evening.

The Amalgamated dividend posted yesterday of 1 per cent was about what has been expected by local shareholders. This is a reduction of 50 per cent.

George W. Morgan is back from a trip to the Imlay Mining company's properties in Humboldt county, Nev., and brings a good report of conditions at that property.

The Boston & Montana Consolidated Mining company yesterday declared a quarterly dividend of $2 per share and an extra dividend of $4 per share. This compares with a quarterly dividend of $2 a share and $10 extra declared three months ago.

PRIZE FIGHTER INTERFERES.

"Kid" Bernstein Takes Old Man's Part In Saloon Row.

Shortly after 2 o'clock this afternoon there was a free for all fight in a Commercial street saloon, in which Andy McCloud, of Butte, and a member of the Western Federation of Miners, got decidedly the worst of it. McCloud is now at police headquarters, nursing a badly swollen jaw, while Jailor Ripley is sewing up a jagged wound in the man's head.

McCloud picked a quarrel with some old man in the saloon and was beating him unmercifully when "Kid" Bernestein, the prize fighter, appeared on the scene and interfered. McCloud stuck his finger nails in Bernstein's cheek, and the prig promptly knocked McCloud down, inflicting the wounds named.

No arrests were made, but Bernstein appeared at police headquarters, and admitted that he struck McCloud. The latter, however, refuses to prosecute Bernstein.

NO HORSEBACK FOR HIM.

Col. C. L. Heisemann Would Rather Retire Than Take Test.

San Francisco, Oct. 18.—Rather than undergo the riding test prescribed in a recent order of the war department, Col. Charles L. Heisemann, assistant Surgeon general, U. S. A., has filed an application to go before the retiring board. He says he is a medical man and has not been on a horse for 39 years.

TIREY L. FORD CASE.

San Francisco, Oct. 18.—The first hour of this morning's session of Judge Lawlor's court added three probationary jurors to the six who yesterday passed the qualification tests in the selection of a panel to try Tirey L. Ford for the bribing of Supervisor Jennings J. Phillips.

Frank L. Guntz, a retired undertaker; William J. Conrad, a retired dealer in paints and oils, and Russell H. Judson, in the furniture business, answered to the satisfaction of the law, if not of counsel, the multitude of queries put to them and were passed into the box, subject to peremptory challenge.

LIQUIDATION OF COPPER STOCKS

General List First Resisted Influence, Gave Way Under Pressure of U. P. & Reading.

MARKET BECAME VERY WEAK.

United Copper Sold in Big Blocks of Many Thousand Shares— Some New Low Records.

New York, Oct. 18.—The influence of intermittent liquidation of copper stocks, which prevailed on the stock exchange today was resisted by the general list for a time, but was overcome when pressure developed against Union Pacific and Reading. A sharp break all around about noon carried down American Smelting 7⅝ to 63¾, Amalgamated Copper 3⅝, National Lead 4⅝ and Union Pacific 6⅝.

One account of 18,000 shares of United Copper was sold out on the curb during the early hours in six blocks of 3,000 shares each, at $12 per share. Two thousand shares of preferred brought $50 per share. Rumors of the proceedings of the clearing house committee were a disturbing factor.

The market became extremely weak just before noon, as in a short time the decline became precipitate under heavy selling orders. Union Pacific sold down to 165¾, American Smelting to 63¾, Amalgamated Copper to 46 and St. Paul to 165. These are all new low records for the year.

Prices of stocks started upward at a moderate rate in the opening dealings, the fractional gains exceeding a half only in Union Pacific, Southern Pacific and Reading. Anaconda sold at an advance of 1⅛ and Amalgamated Copper 2¼. Western Union declined 2 points. There was considerable activity in the trading and prices were inclined to yield after the opening. Anaconda lost all of its advance. Selling of the copper shares developed a weak tone in the market and there was a sharp reaction. Railroad stocks, however, displayed better resistance than of late and signs of support became evident after they had fallen to the neighborhood of yesterday's closing. Amalgamated Copper dipped to 45, an overnight loss of 1⅝. Lackawanna fell 12, Federal Mining preferred 8, American Smelting 3, Great Nortern preferred 1½ and Iowa Central 2, Illinois Central 1¼ and Union Pacific, Missouri Pacific, Cleveland C. S. & St. L., American Sugar and Tennessee Copper 1.

The whole market turned weak at 11 o'clock.

There was intermittent liquidation of the copper stocks and an active selling movement in Union Pacific, but the railroad list was less affected. The declines in American Smelting reached 1½, the preferred, Amalgamated Copper 2⅜, Union Pacific 2½, Illinois Central, Anaconda, American Sugar and Lead 2, Northwestern 1¼ and Northern Pacific, St. Paul and Great Northern Ore Certificates 1.

The whole market became weak again at noon.

Bonds were irregular.

Another deluge of long stock came on the market after midday and prices dropped perceptibly. The semi-memorialization in the copper stocks affected to a minor extent the railroad list, and there was a general closing out of accounts. American Smelting's loss reached 9⅝, the preferred 3¼, National Lead 3, Amalgamated Copper 3⅝, Union Pacific 3⅝, Reading 3, American Sugar 5½, Great Northern preferred and Canadian Pacific 2⅝ and Northern Pacific, St. Paul and Southern Pacific 1¼.

Sentiment in corn was bearish because of lower cables and clear, cool weather throughout the corn belt. December corn opened changed to a shade lower at 69⅝@69c and sold at 69⅛c.

Another crash in prices carried Smelting down 1⅝, the preferred 3¼; Union Pacific 5¼; Amalgamated Copper, 4⅝; Reading, 4⅛; Sugar, 4; Southern Pacific, 3½; Atlantic Coast Line and St. Paul, Northern Pacific, Illinois Central and Missouri Pacific, 2½ to 2⅝.

The market steadied abruptly shortly after 1 o'clock, when conditions seemed to becoming panicky and sentiment was relieved.

At 1:35 p. m. Union Pacific sold at $1.15⅝, a loss of 5¼ points for the day. Reading lost 3⅝.

PRODUCE.

CHICAGO.

Chicago, Oct. 18.—The wheat market broke badly again today, prices dropping nearly 8 cents below the close of yesterday. The December option sold down to 99⅝c, against final quotations of yesterday of $1.02½@$1.02⅝. May dropped to $1.05⅝, yesterday's close being $1.08⅛@$1.08¼. The break was started by several large holders who put out heavy lines of long wheat and were followed up by shorts who sold in lively fashion.

The wheat market was nervous at the opening today, the early quotations being slightly higher. Prices declined later on lower cables and increasing receipts in the northwest. December wheat opened a shade to ⅛@¼c higher at $1.02⅛@$1.02⅜, and sold at $1.01⅞.

SUGAR AND COFFEE.

New York, Oct. 18.—Sugar, raw, steady. Fair refining, 3.40; centrifugal, .96 test, 3.90; molasses sugar, 3.65.

HAMBURG DEPOSIT BANK.

Representatives Meet to Consider Situation Resulting from Haller Failure.

Hamburg, Oct. 18.—Representatives of all the banks of deposit interested held a meeting here today to consider the situation resulting from the failure yestrday of the firm of Haller, Soehle & Co. It was unanimously agreed to adopt certain precautions in order to prevent further trouble. Luetgens & Einstmann, exporters an dimporters in the far eastern trade, suspended payment today as a result of the failure of the Haller, Soehle & Co.

BRITISH ROYAL FAMILY.

Some Members Will Visit Canada at Champlain Celebration.

Ottawa, Oct. 18.—Gov.-Gen. Grey has unofficially announced that members of the royal family will visit Canada in connection with the centenary of the landing of the Champlain.

Whether it will be the king and queen, or the Prince and Princess of Wales, he did not disclose, but the impression created in the finds of those who heard his remarks, was that it would be the king and queen.

A SERIOUS CREEP.

One Discovered Under Residential Quarter of City of Newcastle.

Sydney, N. S. W., Oct. 18.—Dispatches from Newcastle state that a serious creep has occurred in the old-time workings under the residential quarter of that city. Buildings on an area of 15 acres are affected and
