TELEGRAPHIC.

THE SILVER DEBATE.

Senator Dubois Argues Against a Gold Standard.

THE MONTANA SENATORSHIP.

The Surprise of the Day in the House—Hepburn Declares Against Repeal.

WASHINGTON, D. C., Aug. 22.—The debate in the Senate was continued by Dubois in opposition to the bill. There was not a Senator on the floor, he said, who had not been elected on a platform which pledges him to bimetallism. He insisted that no representative of the people had a moral right, by his vote or his own judgment, to put the country on a gold standard. It would be a betrayal of the people.

Palmer argued in support of the bill. It would not fairly be asserted, he said, that the President did not favor the use of both gold and silver as the standard money of the country, nor did it follow that because the President failed to say a word in reference to bimetallism in his recent message to Congress that he would disapprove legislation providing for the coinage of both metals that would be of equal exchangeable and intrinsic value. He expressed the opinion that a majority of the American people would not only approve, but would rapturously applaud legislation that would establish and maintain the bimetallism of the Chicago convention. He believed, however, in the present state of the market, it was beyond the power of a [illegible] mind to fix the ratio of silver to gold, because the market value of silver was in a state of chronic fluctuation.

THE MONTANA SENATORSHIP.

The bill having been laid aside and the case of the Montana senatorship laid before the Senate, a motion to lay that aside informally and proceed to consideration of the bill to increase the national bank circulation was made by McPherson and agreed to.

THE BANK NOTE BILL.

The bill was taken up, the question being on the amendment offered by Cockrell, for the redemption of such 2 per cent bonds as may be offered and for payment in a new issue of treasury notes.

Stewart took the floor and set out to antagonize some positions taken in Voorhees's speech. After a brief debate the bill and amendment went over without action.

A resolution was offered by Peffer, and went over till tomorrow, calling on the secretary of the treasury for a report whether the national banks in Boston, New York and Philadelphia were being conducted in violation of the law; whether they were paying the depositors' checks promptly in lawful money, and whether they were demanding rates of interest higher than those provided by law for loans of money or discounting accounts.

Adjourned.

THE HOUSE.

WASHINGTON, D. C., Aug. 22.—The financial discussion in the House today was for the most part monotonous. Hopkins of Illinois favored unconditional repeal. He would oppose every free coinage amendment to be proposed by Bland and his friends.

The surprise of the day was the speech of Hepburn. He disagreed with his party colleagues and emphatically declared against repeal of the Sherman law. The law, he contended, was beneficial and should not be repealed. Brickner of Wisconsin spoke in favor of repeal of the purchasing clause of the Sherman law. Lane of Illinois spoke in support of free coinage. Newlands of Nevada voiced the demand of his region and vigorously advocated the free coinage of silver. Bynum advocated the Wilson bill and highly eulogized the action of Secretary Carlisle for his refusal to issue bonds.

Jones of Virginia opposed unconditional repeal of the purchasing clause and favored free coinage.

Recess till 8 p. m.

At the evening session Ellis, Dem., Kentucky, spoke in favor of free coinage. Kaly, Dem., of Missouri [illegible] Deforest, Dem., of Connecticut, he vigorously for repeal of the purchasing clause of the Sherman act. [illegible], Dem., of Missouri, denied that [there] was any condition in the [country] to justify the demonetization [of silver], which would follow the repeal [of the] Sherman law. Williams, Dem., [of Mississippi] spoke in favor of free [coinage] of silver. In the name of the [farmers] and laborers he protested [against a] minority of the Democratic [party] joining the bulk of the Republicans repealing the Sherman law. [Tracey, Dem.], of New York, vehemently [asserted] that when the vote came a [majority of] the Democrats would be [found voting] for unconditional repeal [of the pur]chasing clause. Williams [replied] [he] would never be in the [world], predicted that after the next [election] such Democrats would find the[mselves], with the protection Democra[ts] at home as on the Republic[ans].

At the [conclusion] of Williams's speech the [House] adjourned.

CAUSE [OF] THE STRINGENCY.

As Officers of Banking Association [View] It.

NEW YORK, Aug. 22.—The American Bankers' [Association] is now issuing a circular to [the] banks and bankers of the United [States], stating that the extraordinary [monet]ary crisis has constrained the [association] to postpone the annual convent[ion] called for the 6th and 7th prox. at [Chicago]. This will prevent such an [ex]pression upon the part of the assoc[iation] as the financial situation demand[ed]. [illegible] it incumbent up[on] them to speak for the association. [B]y it is manifest that the immedia[te cause] of the prolonged stringency [is the] fear and apprehension of [illegible] engendered in the minds of the [people] by the continued purchase of s[ilver] by the government, and by [illegible] unceasing issues of its ob[ligations] therefore redeemable in go[ld], which fear and apprehension [can] only be removed and confide[nce restored] by the removal of the cau[se]. [It] is believed the bankers of the coun[try] will understand and realize this to [a] greater, extent th[an any] other class of citizens, and it [is] [illegible]

[illegible] ... whose such of them as fully realize this to urge upon their fellow citizens and upon Congress the great necessity for the immediate and unconditional repeal of the purchasing clause of the Sherman silver act.

The repeal of the clause is demanded in the interests of those favoring a gold standard and those favoring the use of silver with gold, as the continued purchase of enormous quantities of silver with gold obligations can only result in final inability of the government to redeem such obligations in gold, and the continued overproduction and consequent further depreciation of silver, thus rendering the prospect of any international agreement for its more general use throughout the world more hopeless than at present.

A blank form of petition is enclosed, to be circulated among merchants, business men and others.

HOKE SMITH IN DOUBT.

A Question Relating to the Uncompahgre Reservation, Utah.

WASHINGTON, Aug. 22.—Secretary Hoke Smith today heard the argument of counsel upon the application of the Gilson Asphaltum company for a restoration of the two most easterly tiers of townships now included in the Uncompahgre Indian reservation in Utah. It was the contention of counsel that these Indians hold the lands they occupy by sufferance only, and therefore neither they nor the secretary of the interior has any right to lease any part of them for mining or for any other purpose. They argued that the only way in which the asphalt deposits in the reservation can be rendered accessible is by restoring the land to the public domain, and the power to restore lands by executive proclamation is beyond question.

At the conclusion of the argument the secretary announced that he had serious doubts as to his authority to execute mining leases on this reservation and in any event would not do so. He thought it probable he would send a communication to Congress on the question of opening the reservation or part of it to settlement.

DOINGS IN CHICAGO.

Party in Honor of the West Point Cadets.

CHICAGO, Aug. 22.—One of the largest lawn parties ever given in the country was given tonight at the World's Fair, in honor of the visiting West Point cadets. Nearly 20,000 people attended. The party was held on the beautiful lawns that surround the state buildings at the north end of the Fair grounds. The trees were hung with many colored lights and the surrounding buildings lit up and decorated in a most charming manner in honor of the event. There was an abundance of music and dancing, and the affair was one of the most pleasant yet held on the grounds.

The national commission had another long meeting this afternoon, with the usual result—nothing accomplished.

The total admissions today were 182,737, of which 162,399 were paid.

CONGRESS OF ELECTRICIANS.

The electrical congress today was divided into three departments, each of which had a separate hall. Great interest is taken in the scientific discussions, which are participated in by learned electricians from all over Europe and America.

IN LOVE WITH A THREE MILLION DOLLAR GIRL.

CHICAGO, Aug. 22.—It is announced that Mayor Carter H. Harrison is about to again take unto himself a bride, Miss Annie Howard of New Orleans, said to be worth about $3,000,000. Miss Howard is about 30 years of age. Mayor Harrison is 68 years old, and this will be the third time he has gone through the marriage ceremony.

FOR THE BENEFIT OF LABORERS.

CHICAGO, Aug. 22.—At a meeting tonight of over a hundred delegates from all large bodies of organized labor and a committee from the business men, a committee on relief and safety was organized, composed of twenty-five labor leaders and twenty-five business men, including some of the most prominent men of Chicago. The joint committee will work together in trying to find work and bread for the unemployed here.

The Painters' union and Carpenters' union tonight voted to withdraw $37,000 that they have locked up in a safe deposit vault and deposit the same in the banks, as an aid toward helping to relieve the currency stringency.

Labor Troubles.

PITTSBURG, Kas., Aug. 22.—As a result of the citizens' mass meeting last night, thirty armed deputies made up from the best citizens of Pittsburg, led by a deputy sheriff, went to the front entrance of the city shaft this morning to protect the men who had signed contracts and wanted to go to work for the Santa Fe company. Soon afterward President Walters of the miners' union and about 100 men marched out to the shaft to intercept the workmen, but they were headed off.

The wives of strikers and the men who want to work fought with each other. One woman said:

"We have not a cent in the house and not a bite to eat. My husband wants to work to get bread for me and my children, but these men (pointing to the strikers) will not let him and we are starving."

Great Excitement.

WEIR CITY, Aug. 22.—There is great excitement among the strikers again over the incident today. A negro miner came to town after supplies and the strikers, seeing he had a revolver in his pocket, made a rush for him. A number of shots were exchanged, but the negro reached the stockade before his pursuers. The strikers are arming and drilling. At midnight one of the leaders urged them to begin a vigorous warfare at once.

THE FARMERS' ALLIANCE.

Ben Terrell Demands the Demonetization of Both Gold and Silver.

MOUNT GRETNA, Pa., Aug. 22.—Additional crowds arrived today to attend the national encampment of the Farmers' Alliance. Ben Terrell of Texas, lecturer of the Alliance, made an address this afternoon advocating limited ownership of land and government control of the telegraph and transportation lines. There is but one hope for the people of the nation, he said. They must destroy every vestige of paternalism in it. Money should be just as good made of paper as of gold. The value of a dollar should be regulated entirely by the number and the demand. The ideal money system is the demonetization of gold and silver. The true science of money demands that it should be made of any article that has no value, such as paper, so money that will pass in any country will rob us of our circulation. The Farmers' Alliance, in standing up for the demonetization of gold and silver, is striking at the root of the question.

Ignatius Donnelly, who was on the program, failed to appear.

THE CURTIS TRIAL.

A New Witness to Be Heard for the Actor.

SAN FRANCISCO, Aug. 22.—Counsel for M. B. Curtis, the actor, on trial for the murder of Policeman Grant, say they will introduce as a witness Humble, the inventor, from Syracuse, New York. Humble, it is stated, was in San Francisco the night of the murder, and saw Grant shot; that Humble saw the actor and another man in charge of a policeman; that the third man remonstrated to Grant and finally fired at Grant. The man then shot at Curtis, missed and fired a third shot at Humble. Humble says he was afraid he would be accused of the murder, so he fled. He determined to keep out of the case unless the actor was convicted. He changed his mind, however, and has written Curtis's attorney, offering to come here and testify.

Fire Engineers Meet.

MILWAUKEE, Aug. 22.—The twenty-fifth annual convention of the National Association of fire engineers began here today.

Anarchists Busy.

NEW YORK, Aug. 22.—Anarchists are busily engaged these days trying to set up noisy meetings and foment trouble among workingmen. Today they started to hold a meeting and were dispersed by the police. Then the leaders, among whom is Emma Goldman, got into the hall and discussed the situation in fiery speeches, savagely scoring the police. Plans were made to capture a peaceable mass meeting of united Hebrew trades to be held at Pythagoras hall in the afternoon, but a few police were present and the anarchists soon began to shout about capitalists.

A police captain recognized several agitators and ordered that they be ejected. The crowd was so great that they could not be reached and the meeting was then dispersed.

FRENCH-ITALIAN AFFAIRS.

Popular Indignation Spreading in the Provinces.

The Government Happy to Consider the Incident Satisfactorily Closed.—Anarchist Agitators.

ROME, Aug. 22.—The popular ferment arising from the Aigues-Mortes affair shows no signs of subsidence. The agitation is spreading in the provinces. At Melazzo, on the north coast of Sicily, a mob last night paraded the streets and acted in a most disorderly manner.

Every window in the French consulate was broken and the escutcheon of France over the door was torn down.

There was a renewal of rioting at Genoa today. The agitation in Genoa, though nominally directed against the French, is said to be actually the work of anarchists.

According to a semi-official announcement this evening, the minister of foreign affairs has instructed the Italian ambassador in France to inform the French government, in view of its spontaneous dismissal of the mayor of Aigues-Mortes, and placing confidence in the efficient and impartial action of the French magistracy, Italy is happy to consider the incident satisfactorily closed.

This evening crowds rioted the streets of Naples and Turin, tore down French signs and threatened the French residents.

HAWAIIAN ADVICES.

Japan Interfering—A Good Financial Condition.

HONOLULU, Aug. 16 (via San Francisco, Aug. 22.)—The situation remains virtually the same. There is much speculation as to the contents of Minister Blount's report and the news of the interference of Japan in Hawaiian affairs.

Consul General Fujii of Japan has confirmed the report that a demand was made by that country upon the provisional government for suffrage for the Japanese immigrants in Hawaii. The provisional government has decided to proceed no further in the matter until the pending question of continuance of American influence here is settled by the United States. It is believed here that an armed protectorate will be established by the United States.

In an interview with Japanese Consul General Fujii, he confirmed the previous dispatch relating to Japanese interference, but declined to state what further steps the Japanese government proposed to take in the matter.

The financial condition of the government continues to improve. According to statements made by Minister P. M. Damon, the total amount of bonds sold under the new loan, which was authorized by the provisional government, is $128,000 to date. The Postal Savings bank is constantly increasing its deposits.

A Most Severe Storm.

HALIFAX, Aug. 22.—The most severe storm for many years raged along the coast last night and today, doing much damage to shipping and an immense amount of damage to public parks, gardens and light buildings. At a late hour tonight it was reported that the steam tug Dolmas, with the barge Ella Stewart in tow, was wrecked. Fears are entertained for the safety of the steamer Carrie.

A Message from China.

CLEVELAND, Aug. 22.—A gentleman in this city has just received from a friend in Tien Tsin, China, a letter, stating that United States Consul Bowman, who left the city a short time ago for the United States, carried with him a message from Viceroy Li Hung Chang to President Cleveland. If the next Congress decides to enforce the law, China will at once retaliate, the friendly relations between the two countries be broken off and laws be enacted for the expulsion of all Americans from China.

CLEVELAND

Applies the Lash to Free Coinage Senators.

Such a strong pressure being brought to bear on our Senators, by his Royal Highness, makes the silver question of free coinage more uncertain; so we must prepare for the worst in case we get no relief on silver. Therefore, we have decided to cut and slash prices on all merchandise throughout our entire mammoth store lower than ever throughout the balance of August, and give the Capitalist, Banker, Professional Man, and last but not least the Laboring Man a chance to make the few dollars they have go as far as possible these hard times. This shall be our motto and we shall strictly adhere to it.

Very Respectfully,

WALKER BROS. & FYLER CO.
