MINING, BUSINESS AND STOCKS

FORENOON ON THE EXCHANGE.

New York Bonanza the Most Active Stock Traded in During The Regular Call.

SALES ON THE OPEN BOARD.

Columbus Consolidated Weaker—Eagle & Blue Bell up—Closing Quotations and Sales.

There was not very much business transacted during the regular call of the Salt Lake Stock and Mining Exchange today and outside of the transfer of 25 shares of Eagle and Blue Bell at $2.40, New York Bonanza was the only seller. This stock opened strong, but it closed slightly lower.

On the open board there was considerabfe activity in Columbus Consolidated and some brokers predicted last evening that it would sell around $5.20 a share. At the start-off, 100 shares were taken at $5.16, but the net lot was brought just as easily at $5.05 and this was followed by a further drop to $4.90, the closing bid price.

An eastern order for Eagle and Blue Bell was filled on the open board at $2.85, while Carisa sold up to 25 cents.

The closing quotations and sales were:

COMES TO AMERICAN.

Smelting Concern Outdoes Competitor In Landing Big Contract.

Notwithstanding the numerous stories printed to the contrary, it certainly looks as if Charles M. Schwab has given up the idea of building a smelter in Nevada or at any other point, for the treatment of the ores from the mines being operated under his control at Tonopah and in the surrounding camps.

Several days ago the "News" received information to the effect that the United States Smelting, Refining & Mining company had succeeded in landing a contract for the entire output of the Schwab mines for a period of years, but the story lacked confirmation from official sources. It was a pretty well known fact that the United States company had been getting quite a large tonnage from the Schwab properties.

The management of the American Smelting & Refining company has since made the announcement that the ore purchasing department of that corporation has won out in the contest with the rival company and that a contract for the Schwab output has been closed.

GOLDFIELD GREAT BEND.

Control of Property Has Passed Goldfield Mining Men.

Messrs. Loftus & Davis, the gentlemen who have been so successful with their leasing on Sandstorm 5, says the Goldfield Sun, having taken out thousands and thousands of dollars of rich rock from that property, have secured the controlling interests in the Great Bend mine, purchasing it from Keans, Fletcher and McMahon.

J. R. Davis informed a Sun reporter that the deal for the Great Bend was closed Wednesday evening, they paying at the rate of about 10 cents a share for the stock. It is the intention to have the main or principal office soon removed from Salt Lake to Goldfield.

Loftus & Davis are thorough mine operators and they state that it is their intention to at once begin a series of systematic workings, such as opening new ground and developing the mine.

From the gentlemen it is learned that on Thursday a strike of rich ore was made and that several sacks have already been placed in the ore house, and further that they expected to surely have a shipment ready in a very few days. To facilitate the work of extraction the owners propose to at once install gasoline power.

The Great Bend is located in the Diamondfield district and contains five claims and a fraction, all of which have had more or less work done on them. Assays have been had from several places on the ground which have returned $30 to $200.

With the usual good fortune which has characterized the operations of these gentlemen in this camp it is but fair to presume that the Great Bend will fall in line with the others and soon to be added to the shipping list.

Considerable Great Bend stock is in possession of Salt Lake mining men. Frank B. Cook and V. P. Strange of this city were among the incorporators of the company.

ROLLS VERSUS STAMPS.

Editor Ingalls of E. & M. Journal Discusses Ore Dressing in Bingham.

The disseminated copper ore of Bingham canyon, Utah, which is now the subject of so much interest, says the Engineering & Mining Journal, is a porphyry in which chalcopyrite is very finely interspersed. Fine-crushing is necessary to liberate the mineral; it appears to be requisite to crush the ore to pass a 30-mesh screen. This is uncommon in straight ore dressing, although not extraordinary. It was the first step in the solution of the treatment of some of the mixed sulphide ore, like that of Leadville, and is extensively practised in that connection. The scale on which such fine crushing is to be done in these new Utah mills is, however, much beyond anything of similar character, and the selection of the machinery is a matter for careful consideration.

Rolls, ball-mills, Huntington mills and edge-runners are used for this purpose, but it is rather late in the day for the advocacy of stamps, which we believe have been seriously suggested in connection with one of the projected mills. Stamps are very inefficient granulators, because of their small screening surface and the inability of the ore to escape from the motor until reduced to excessive fineness. Their use in concentration mills has, therefore, been generally abandoned. Rolls on the other hand are thoroughly efficient granulators and can be used in wet crushing down to about 20-mesh with very good results, and with fair results down to 40-mesh, if there be not much talcose or clayey matter in the ore.

OHIO WILL SHIP.

Latest Tonopah Mine to Come to Front With Big Strike.

All doubts as to the Ohio Tonopah Mining Company having good shipping ore were set at rest this week, some fine speciments having been shown on the street says the Tonopah Miner. It is now definitely determined that the extension of the West End vein has been opened up and is being drifted on. So far as crosscut, it is 20 feet wide, averaging $40 a ton, with a high-grade shoot on the hanging-wall side. This vein dips south, as in the West End, and is the only vein in Tonopah having this dip. Another vein parallel to this is being drifted on, which is thought to be the extension of the MacNamara vein, and this is also producing good shipping ore.

The management is now constructing ore-bins and in a very short time the Ohio will join the ranks of regular shipping mines.

The company's other property, the Logan mine, near Dayton, is also developing most favorably, over $400,000 worth of payable milling ore being blocked out, and a contract for the construction of a twenty-stamp mill has just been let. It is estimated by the directors that the profits from this property alone will be sufficient to pay dividends on the capital stock of the company.

BULLETINS OF THE DAY.

The following bulletins came over the Pollock special wires today:

Boston—We figure Bingham earning over $5 a share.

Boston—The January production of the Shannon Copper company amounted to 960,000 pounds.

Boston—A large consumer says: "I note the reported reduction in the selling price of copper by the New York Metal Exchange and also in the trade journals, but when I entered the market last Saturday for 500,000 pounds of electro copper, the best bargain I could get was 18½ cents for the metal delivered in March, April or May."

Chicago—The brief history of North Butte has been remarkable. The original owners had no idea that they would uncover any such values as have come to light. A little over a year ago the company's 400,000 shares were selling at $15 per share or $6,000,000 for the property. Today the company is in possession of many additional claims, is paying dividends, and is selling in the stock market for over $34,000,000. The next dividend promises to $1.50 against $1 declared six or eight weeks ago. So long as the copper boom continues and there is no catastrophe in the metal or money markets, we see no reason to prevent the stock at $1.10.

THERE ARE A FEW PEOPLE "BOAST" THAT THEY "DO NOT READ ADS." A FEW YEARS AGO THESE SAME PEOPLE PROBABLY "BOASTED" THAT THEY "DID NOT READ NEWSPAPERS." SO, YOU SEE, THEY ARE IMPROVING—EVEN IF A LITTLE SLOWLY.

MAMMOTH WILL DO SOME SINKING

The Annual Meeting Yesterday Afternoon Resulted in Re-election of Old Board.

SUPT. McINTYRE'S REPORT.

Shows Receipts of $203,405.50—Cleared Over $12,000 Last Year—Cherry Creek Water Plant.

The annual meeting of the shareholders of the Mammoth Mining company, held late yesterday afternoon, resulted in the election of the old board of directors, which organized with Samuel McIntyre, Sr., president; Samuel McIntyre, Jr., vice president; R. M. Wilkinson, secretary; who, with Thos. W. Jennings, A. B. Sawyer, Byron Greo and F. D. Clift, make up the board.

According to the financial statement, the receipts for the year aggregated $203,405.51, while the disbursements amounted to $190,677.68, leaving a balance of $12,728.83. About $10,000 was spent in the rebuilding of the Cherry creek water plant and in the construction of a new machine shop at the mine.

In the detailed report of Supt. Samuel McIntyre, Jr., it was noted that an average of 115 men were employed in the mine from January to October, when the company decided to inaugurate the leasing system. Continuing, Mr. McIntyre says:

"I have decided to develop the territory on the 2,100 foot level under the ore body through which a winze was sunk years ago from the 1,900. The old workings are in a caved condition, but I am now sinking a winze from the 2,100 level down 50 feet, which will only be a distance of 10 feet from the ore shoot. Here I shall drive out into the ore to determine its extent and course and, if it looks favorable, I will sink the winze another 50 feet and again drift out in the shoot. If the showing is still encouraging, I will continue the winze down to a depth of probably 400 feet below the 2,100 level. This work will prospect our mine at depth. The indications are that the ore still continues down, and we may yet find immense bodies of commercial ore at greater depth."

ABOUT GREENE CONSOLIDATED.

A bulletin over the Pollock wires today says:

Chicago.—Col. W. C. Greene of the Greene Consolidated Copper company says that the copper situation is strong, and that the expenditures contemplated will result in greatly enlarging the output of the corporation's mines. Over the last five months the Greene Consolidated company turned out an averaged of 5,300,000 pounds of copper per month. Earnings are running at the rate of $400,000 per month. The Greene company is in full possession of a new process for handling low grade ores which, the company's interests believe, will go a long way towards revolutionizing the copper industry.

Virginia, 1.20@1.30; Ophir, 6.00@6.10; Caledonia, 40@43; Mexican, 1.25@1.30; Exchecquer, 29@32; Norcross, 89@91.

CONCENTRATES.

Sidney M. Bamberger is looking over Bingham mining interests today.

A car of ore from the Nevada Alpine mine is expected to reach the samplers today.

Superintendent Ed H. Hoffman of the Carisa and Silver Shield mines is in the city today.

The directors of the Utah mine of Fish Springs are scheduled to meet tomorrow, and a dividend is likely to be posted.

C. E. Peak, the well known Stateline mining operator, departed for the east today on mining business. He expects to go as far as Chicago.

The ore and bullion settlements reported late yesterday by McCornick & Co., were as follows: Crude ore and concentrates, $49,400; base bullion, $57,100.

The directors of the Redtop Mining company at Goldfield have declared a dividend of $50,000. This is the initial distribution and it will be checked out to shareholders on the 19th inst.

New York dispatches continue to infer that the buying of Bingham Con. is for American Smelting interests and it is intimated that Bingham is to go into a new copper combination at $60 a share.

A strike of gold ore has been made in the Rob Roy property in the Indian creek country in Beaver county. The vein is seven feet wide and contains quite encouraging values. The property is controlled by P. T. Farnsworth of this city.

The directors of the Lower Mammoth Mining company at the meeting yesterday afternoon, decided to defer the matter of levying an assessment for the present. Some members of the board are of the opinion that it is possible to pull through without the necessity of drawing on shareholders for money.

The tripple compartment shaft being put down at the Overland gold property at Sunshine is completed to the depth of 675 feet and is advancing at the rate of five feet per day. It is expected that a large ore body will be encountered within the next 50 feet. It will probably be two months before the extraction and milling of ore will commence.

The ore shipments over the Tonopah railroad this week aggregated 1,996 tons, divided as follows: From Tonopah—Tonopah company, 720 tons; Tonopah Extension company, 582 tons; Belmont, 171 tons; Montana-Tonopah, 110 tons; Midway, 21 tons. From Goldfield, 273 tons. From Manhattan, 31 tons. From Hannapah, 17 tons.—Tonopah Miner.

Articles of incorporation of the McConnell Mining company, which owns 10 claims in Lyon county, Nevada, were filed in the county clerk's office yesterday. The company has a capital stock of $50,000, divided into shares of the par value of $1 each. The officers are: President, Frank Pierce; vice president, E. W. Clark; secretary and treasurer, William J. Barrette. The object of the company, as stated in the articles, is to do a general mining business.

ON BUSINESS BENT.

William Craig Wants South Towns of The County to Organize.

William Craig of East Crescent, in this county, is a visitor in Salt Lake today, and has a plan for the organization of the south part of Salt Lake valley into a large business men's association, to pull together for the building up of the south county towns. Crescent is located east of Draper, in a section where the land is very fertile and capable of producing large crops of strawberries and other garden truck. He wants the street cars to run out that way, so that their produce can reach the market quickly, and also wants better roads. He wants the merits of the section as a garden spot known so that more land will be cultivated, and for these purposes he sugegsts that a mass meeting be held at Sandy, at a date in the near future, at which men from all the southern towns should be invited, and an association formed for their mutual benefit, resembling the Manufacturers and Merchants' association in Salt Lake and the Murray Business Men's association.

ARE YOU WILLING TO HAVE A MAJORITY OF THE PEOPLE LOOK UPON AND THINK OF YOUR STORE EXACTLY AS IT IS PICTURED IN YOUR ADVERTISING—AS BEING AS BIG COMPARATIVELY, AS THE SPACE YOU USE, COMPARED TO THE SPACE USED BY YOUR COMPETITORS; AS BEING AS ENTERPRISING AS YOUR ADVERTISING IS ENTERPRISING — AS BEING DULL ON THE DAY THAT YOUR ADVERTISING IS DULL—AS NOT CARING FOR BUSINESS AT ALL ON THE DAYS THAT YOUR ADVERTISING DOES NOT APPEAR? THAT'S HOW THE MATTER WILL IMPRESS THEM.

A Card Sharp.

John S. Maguire, the Dayton meat dealer who has for years been fighting the beef trust, was talking in his office one day about the trust's methods.

"For unblushing and unashamed conduct," he said, "this trust reminds me of a poor young man who had proposed to a millionaire's daughter.

"The girl liked the fellow, but his poverty frightened her.

"'Think of the future, dear,' she said. 'You are poor. You can give me none of the luxuries to which I have been accustomed from my childhood.'

"'But your father——' he began.

"'Alas! he would do nothing for us,' she interrupted.

"'Does he play poker?' the youth asked.

"'No.'

"He smiled Confidently at that, and took her hand in his.

"'Then,' he said, I'll teach him. Put your trust in me, love, and fear for the future not at all.'"

Too Finicky.

Prof. M. E. Jaffa of the University of California, is conducting at Oakland a series of experiments with the object of increasing the laying power of the hen.

Pro. Jaffa has already secured some remarkable laying records. In discussing these records, he said the other day:

"Cleanliness is a prime factor in successful chicken farming. Keep the runs clean, dry, cheerful, and your hens will do their duty by you nobly.

"In fact to make hens lay well, it is almost necessary to carry neatness to the finicky point—to be as finicky as the old lady with the acquarium.

"This old lady did not merely keep the acquarium neat, the glass spotless, the stones at the bottom snowy, but it was said of her that every Saturday night she took the fish out and gave them a bath."

BOOK BINDING

Old books, Music and Magazines. Put them in strong new covers for preservation. Many records of value can be saved by having them bound. The "News" bindery can do the work in any form at any price.

Why Not?

In this wonderfully progressive age of art, literature and science, of the automobile, the wireless telegraphy, and the X-ray, what is there that is impossible? Why should not science accomplish further success in improving the defects of nature? It has. The slow acting, long treatments and imperfect results of Face Bleaches, Complection Washes, etc., heretofore used will be discarded when you become acquainted with the quick, prompt improvement the results from using Curious Complexion Cream—the new and better method. Try it. At all druggists. Price 75 cents.

DOULL DRUG CO.,

Corner Market Street and Main—and the Postoffice is Opposite.

PRICES VARIED VARY LITTLE.

Evenness of Demand and Supply Kept Them Quite Steady.

MOVED UP IN THE AFTERNOON.

Some Stocks Recovered to Their Top Prices of the Early Morning.

New York, Feb. 7.—Moderate fractional gains were general in the opening prices for stocks today and wider changes were shown in some intances. Great Northern preferred rose 2, Northern Pacific 1⅜, Kansas City and Southern Distillers 1 and Union Pacific and Chesapeake & Ohio and Colorado Fuel large fractions. The upward movement of prices was interfered with by the simultaneous execution of large selling orders in Reading and Amalgamated Copper. These stocks sold a point below yesterday's close and pulled several others down as much. Not much remained of the opening advances and subsequent gains, such as 3¾ in Great Northern preferred 2 in Distillers' Securities and 1 to 1¼ in Locomotive, U. S. Rubber and C. C. C. & St. Louis were well reduced or wiped out. Business increased during the selling which was still in progress at 11 o'clock. Lead yielded 1⅝ and Smelting and Colorado Fuel 1. Prices hung suspended at the decline and only toward the end of the hour made slight rises. Business was small. There were gains in Distillers' Securities of 4, Pacific Mail 2 and Linseed 1. Tennessee Coal fell 3, Delaware & Hudson 2 and Erie second preferred and Republic Steel 1.

Bonds were irregular at noon.

The relative evenness of the demand and supply kept prices from varying much, but in the early afternoon the market began to move quite definitely upward. Some of the standard stocks recovered to their top prices in the morning and Atchison and Wabash preferred gained 1@1¼.

LIVE STOCK.

CHICAGO.

Chicago, Feb. 7.—Cattle—Receipts, 16,000; market steady. Beeves, 3.75@6.35; cows and heifers, 1.50@4.85; stockers and feeders, 2.60@4.50; Texans, 4.00@4.40.

Hogs—Receipts, 40,000; market steady; estimated tomorrow, 32,000. Mixed and butchers, 5.55@5.82½; good heavy, 5.70@5.85; rough heavy, 5.55@5.65; lights, 5.50@5.75; pigs, 5.15@5.90; bulk of sales, 5.60@5.85.

Sheep—Receipts, 17,000; market steady. Sheep, 3.40@6.25; lambs, 5.25@7.90.

OMAHA.

Omaha, Feb. 7.—Cattle—Receipts, 3,500; market active strong to 10 cents higher. Native steers, 3.75@5.50; cows and heifers, 2.75@4.15; canners, 1.75@2.80; stockers and feeders, 2.75@4.35; calves, 3.00@6.50; bulls and stags, 2.50@3.15.

Hogs—Receipts, 3,500; market 2½ cents higher. Heavy, 5.55@5.65; mixed, 5.55@5.57½; lights, 5.45@5.57½; pigs, 4.75@5.35; bulk, 5.55@5.57½.

Sheep—Receipts, 5,200; market strong. Yearlings, 5.50@6.00; wethers, 5.25@5.60; ewes, 4.50@5.00; lambs, 6.40@7.00.

KANSAS CITY.

Kansas City, Feb. 7.—Cattle—Receipts, 10,000; market steady. Native steers, 4.00@6.90; native cows and heifers, 2.25@4.00; stockers and feeders, 3.00@4.75; bulls, 2.50@3.50; calves, 3.00@7.00; western fed steers, 3.50@5.50; western fed cows, 2.50@4.00.

PRODUCE.

CHICAGO.

Chicago, Feb. 7.—Moderate demand by shorts and commission houses held the wheat market steady here today despite selling by traders who were influenced by higher temperatures throughout the west and southwest. The Liverpool market showed but a slight response to yesterday's advance here and this had a somewhat depressing effect. May opened unchanged to a shade higher at 85⅛@85⅜ to 85⅜ and sold at 85⅛@85¼ and then advanced to 85½.

Minneapolis, Duluth and Chicago reported receipts of 266 cars against 279 a year ago.

Liberal local receipts and favorable weather for the movement and grading of the new crop showed a slightly easier tone in the corn market. The volume of business was small. May opened a shade lower to a shade higher at 30⅞ to 30⅝@30½ and sold off to 30¼@30⅜.

Provisions were firm on an active general demand. Offerings were light. The market for live hogs was steady and this condition was largely responsible for the demand for provisions. May pork opened 5 cents higher at 14.75, sold up to 14.85 and reacted to 14.80. Lard was up a shade at 7.70. Ribs were 2½@5 cents higher at 7.87½.

The volume of business was small. May corn opened a shade lower to a shade higher at 44⅝ to 44½ and sold off to 44¼.

Trading in oats was very quiet and the tone of the market was easy. May opened unchanged to a shade lower at 30⅝ to 30⅝@30½ and sold off to 30¼@30⅜.

Cash: Wheat—No. 2 red, 87¼@88¼; No. 3 red, 86@87; No. 2 hard, 85¼@85¼; No 3 hard, 80@83; No. 1 northern, 85¼@87; No. 2 northern, 83@85¼; No. 3 spring, 80@85.

Corn—No. 2, 41½@41¾; No. 3, 41@41¼.

Oats—No. 2, 30@30¼; No. 3, 29¾@30.

May dropped to 84⅞@88. The close was easy with May off ⅛@⅜ at 86.

Close: Wheat—May, 86; July, 83⅝.

Corn—May, 44¼@44⅜; July, 44⅝.

Oats—May, 30⅝@30½; July, 29⅝.

HAVE YOU ALWAYS ACCOMPLISHED, ON THE MORROW, ALL OF THE THINGS YOU HAVE "PUT OFF" DOING UNTIL THEN? IF YOU HAVE YOU ARE NOW A VERY RICH AND A VERY HAPPY MAN. IF YOU HAVE NOT, YOU OUGHT TO BE A WISER MAN—AND STOP FOOLING YOURSELF. HOW MANY TIMES HAVE YOU DEFERRED UNTIL ANOTHER TIME THE ADEQUATE ADVERTISING OF YOUR BUSINESS? DID THE TIME EVER COME?

UTAH, IDAHO, THE WORLD.

Three new maps, just issued, Utah and Idaho on one side, the World on the reverse side, including population of countries and towns according to the 1900 census, with a brief sketch of every country in the world. Size 27x31½ inches, value 75 cents; sent to any address for 25c. Address Deseret News Book Store, Salt Lake City, Utah.

SUMMONS.

In the District Court of the Third Judicial District of the State of Utah, County of Salt Lake. O. D. Brainard, Plaintiff, vs Cora E. Brainard, Defendant. The State of Utah, to the Said Defendant: You are hereby summoned to appear within twenty days after the service of this summons upon you, if served within the County in which this action is brought, otherwise, within thirty days after service, and defend the above entitled action; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which, within ten days after service of this summons upon you, will be filed with the clerk of said Court.

Frick, Edwards & Smith and E. W. Coale
Plaintiff's Attorneys.

P. O. Address 614 McCornick Bldg., Salt Lake City, Utah.

No. 61 Floor Varnish

A varnish made for floors. Made to preserve them, to look well and wear well. It's about as good a thing as Pratt and Lambert ever made.
