# MINING, BUSINESS AND STOCKS

# DALY-JUDGE A LEADING FEATURE.

Brokers Wanted to Buy the Stock Today, but Were Supplied Only In Limited Quantities.

#### CLOSING BID MADE AT \$10.25.

Tetro Enters the Pit Stronger - Century Sold Up to 571/2 Cents-Forenoon Quotations.

Daty-Judge furnished the leading feature for this forenoon's calls of the mining exchange. The latest reports received from the mine indicate that the strike of high grade ore, made last Sunday is holding out as development progresses. A number of brokers had buying orders on hand; but they were only able to pick up a limited amount of the stock, aithough the closing bid was registered at \$10.25 per share; 390 shares were let out early in the call at \$10 fiat, and \$10.10, but after that the lowest price at which it was offered was \$10.50. Daily-West appeared inacwas \$10.50. Daily-West appeared inactive; a lot of ten shares transferred, however, at \$28.25. May Day was purchesed at 11 cents, Star Con. slumped a few points. Century stiffened to 57% cents, relaxing at the close to 55%, the closing bid. New York Bonanza fell below 19 cents, with rumors of another assessment in the sir. Tetro was strong and remained in that condition to the last.

The sales of the forenoon aggregated 11,600 shares; the same bringing \$11.-366.85. The closing quotations and sales

RUN BY ELECTRIC POWER. Plant at Lincoln Mine idaho, of Which J. T. Hodson is Manager.

The Lincoln mill, manager by John T. Hodson of this city, is now being run by electric power. The motor was started some days ago, says the Boise Statesman, and since that the machinery has all been connected with the new power and is running smoothly. Mr. Kennedy had the pleasure of turning on the power after the connection had been made. Everything moved smoothly from the start and in 30 seconds the mill was running at full speed.

An important feature of the new power is that it gives the mill higher speed than the gasoline. With the latter the speed was 22½ revolutions a minute, while it now makes 30 revolutions.

#### UTAH CON. CONTRACT. One for Steel Stack Let Today-Others

Are Being Considered. begins to look as if the Utah Consolidated is about ready to commence the expenditure of the \$250,000 author-ized by the board of directors recently and placed to the credit of the smelter construction account. The first con-Joseph Dederich for the extension of the old stack, was awarded today to the American Bridge company; the latter agreeing to furnish a steel stack prob-ably 200 feet high, and dust chamber linings to go with the new converter building, which is to be among the building, which is to be among the ones to figure in the enlargement of

the present plant. Constructing Engineer G. K. Fischer had a conference with Manager R. H. Channing today concerning the award-ing of other contracts and it is probable that a decision will be reached within a few days.

## IN DEER CREEK DISTRICT.

D. J. Wilson and Associates Developing The Con. Tornado Group.

D. J. Wilson, who with James Jackson an Warren T. Clawson, 's developing the Consolidated Tornado group of seven claims, located in the Decr Creek cry Creek Miner,

dstrict, was in the city today exhibit ing some fine specimens of copper ore from that property. Mr. Wilson is very enthusiastic over the possibilities of the

enthusante over the possibilities of the claims and while they are set undeveloped the surface croppings indicate that the chances for finding rich ore below are exceedingly bright. The property is being developed by a tunnel which is now completed to the length of 245 feet. Mr. Wilson figures that the value consider the property length of 245 feet. Mr. Wilson agares that the vein crossing the property will be tapped after driving it 606 feet further and at a depth of sever-i hundred feet from where it crops out further up the mountain.

Ore taken off the surface has assayed as high as 32½ per cen; copper and 65,83 gold.

#### INSPECTED MOORE PROCESS. Prof. Richards, of Boston, Well Pleased With What He Saw at Mercur.

Prof. R. H. Richards, in charge of the mining and metallurgical department of the Massachusetts Institute of Tech-nalogy of Boston, has returned home natory of Boston, has returned nome after having visited the camp of Mercur, where he went to inspect the Moore process for the treatment of slimes, which was recently installed at the Con. Mercur mill,

Prof. Richards went away favorably

impressed; he made numerous nota-tions in his book of memoranda which he proposes to introduce in his lectures before the classes in metallurgy in the well known institution over which he

## AT THE DALY-JUDGE.

Supt. Dunyon Well Satisfied with Development of New Ore Chute.

A telephone message from Supt. Dunyon, of the Daly-Judge mine at Park City, last night conveyed the informa-tion that the recent strike is holding up to expectations and that the indications are that the chute is of immense pro-

ore is being extracted from the new find and a shipment will likely reach the market early next week.

#### RED WING EXTENSION. Manager McCarrick Will Soon Com-

mence Sinking a New Shaft. Manager Edward McCarrick of the manager Edward Accarrick of the Red Wing Ex. mine at Bingham, is prosecuting an energetic campaign at that property under the most favorable circumstances. A new shaft is to be sunk to catch the vein on its dip and

it is figured that this will be done after going down to about 140 feet. The Red Wing Ex. is splendidly lo-cated in the camp and with further development the chances of making a good mine are excellent.

#### BLACK WARRIOR DISTRICT. Old Idaho Camp Shows Signs of Considerable Activity.

Ex-Governor Hunt has returned from a visit to the Black Warrior district, says the Boise Statesman, and gives a very interesting report of his observations in that section. He found 40 or 50 men in the district, all engaged in locating property, none having done development work worth mentioning. On the Black Warrior there were two cuts, one of these being on a very rich streak of ore. That vein he found very wide. Over 100 feet. There is another hole on the property but it is not on the very

on the vein. by the men in the district that the entire surface of that and other ledges panned, but he preferred to rely upon assays, and for that purpose he took a number of samples which he would

Of the prospects for the district, the compressor governor said they were certainly very bright, the section being especially at-tractive. He advised the men in the district that some of them arrange to open the ledges on their claims during the winter as there would be some-thing showing in the spring from which one might form a definite opinion of one might form a definite opinion the probable future of the district.

### CONCENTRATES.

A lot of Star Con, lease ore arrived at the Pioneer sampler today.

James W. Neill is at the Tintic company's Yampa smelter in Bingham to-

The delinquent stock sale of the Alaska Mining Co., is scheduled for next Saturday. Willard F. Snyder, manager of the

Western Exploration Co., has returned from California. L. H. Outzen, manager of the Annie aurie Extension mine near Kimberly

is in the city today. Cantain Duncan McVichie, manager of the Bingham Consolidated mines, expects to leave for California in a few

Manager E. W. Clark, of the Ophir Hill mine at Ophir, was in the city yes-terday to confer with Senator W. A. Clark. He returned to camp again

G. R. Bothwell and R. E. McConaughy are in Idaho looking after some real estate interests. Upon their return the Sacramento dividend for November

The ore and bullion settlements re-ported late yesterday, were as follows: Crude ores and concentrates, \$32,800; base bullion, \$28,300; gold bars, \$20,000.

Gen, Charles S, Warren, a well known mining man of Montana and eastern Oregon, was in the city yesterday, en route from San Francisco to Spokane, where his family resides.

The shaft at the Juno mine at Stock ton has been completed to the depth of 140 feet. Work has been suspended until the Honerine tunnel reaches the

point where it will drain the ground. The management of the Boston Con placed an order for lumber yesterday which is to be used in the construction of ore hins at that big Bingham mine preparatory to commencing to exercise the contract to ship 200 tons of ore daily to the Bingham Con. smelter at Bingham Junction Bingham Junction.

Daniel E. Storms, a director of the Black Diamond mine at Stockton, came in from camp last night and upon his arrival received the sad intelligence of the death of his mother at Stockwell, Indiana. He left for the east this morning with W. E. Alexander, also an officer of the company, who came west to inspect the property purchased from Lorent Podester. chased from Joseph Dederich and as

Pete Blair struck and cross-cut a 10-foot body of 50-cunce silver ore at the 50-foot level of his Black Metal mine in this district last week. He will probably do considerable work on this rich find if he can secure the on this rich find if he can secure the capital necessary to develop it to depth, as there is abundant ore in sight at present.—Cherry Creek Miner. Last week while upraising from the 250 to the 150-foot level in the Last Century gold mine in Cherry Creek district, one of the properties of the Old Imperial Mining company, a 12-inch vein of \$700 gold-silver ore was encountered, and the company is now taking out tons of this rich ore.—Cherry Creek Miner,

# MODOC CHIEF IN **WOOD RIVER REGION**

Major W. A. Stanton and Asso ciates Will Start Work on This Old Property Immediately.

#### ADJOINS THE MINNIE MOORE.

Latter Said to Have \$1,500,000 Worth Of Ore in Sight -- Machinery to Be Installed at the Modoc.

Maj. W. A. Stanton expects to get away tomorrow for the Wood River mining regions around Halley, where he goes to start up work on the Modoc Chief group, owned by himself and as-Maj. Stanton says the old district is

becoming quite active again and the outlook for the future is indeed bright A number of important strikes have been made in the camp this year, has contributed largely towhich wards bringing about the revival.

The Minnie Moore mine, the major says, is undoubtedly one of the richest in the west and declares that he knows of no silver-lead mine throughout the mining regions that have been traversed by him which can show up such vast quantities of high grade ore.

The property was examined some time since by State Mine Inspector Bell of Idaho and he reported that there is no less than a million and a half dol-lars worth of ore in sight in the mine. Maj. Stanton says Mr. Bell's report is conservative. In the early days of mining activity in the Wood River country the Minnie Moore mine was among the principal producers; but when silver mining ceased to be a prof-itable industry any longer it was closed down and remained practically in that condition until last spring when Mr. Rockwell, an office supply manufacturer from Chicago, came along and was talked into buying it. Mr. Rockwell believed that with modern facilities at command the mine could be made to pay again; while he had had no experience in mining h.nself, he placed competent men in charge and commenced work. The old workings of the mine were filled with water and one of the first moves made was to purcondition until last spring when Mr of the first moves made was to pur-chase powerful pumps. These were in-stalled and the workings were soon unwatered, whereupon a campaign of development was commenced. It was but a short while until the efforts of Mr. Rockwell were rewarded by break-ing into a great chute of high grade ore between the 900 and 1,000 levels. The product is now being shipped to Denver for treatment where it brings all the way from \$115 to \$150 to the

ton.
The Modoc Chief property is located just over the mountain from the Minnie Moore, but the claims adjoin. An order has been placed for an air and other machinery for

Maj. Stanton says the Croesus mine splendid physical conditio an important strike was made in that property not long ago.

#### MINERS ARE AT WORK. Centennial - Eureka Can Now Work Without Fear.

The miners in the service of the Centennial-Eureka mine in Tintic went on shift this morning without fear of being driven out by the smoke and gases by the fire in a neighboring the bulkheading of the drifts connecting with the Eureka-Hill having been effective. The remains of the dead mules which perished underground were removed yesterday and last night, Supt. Earls is making headway in the Bullion-Beck and is bulkheading all openings as his forces make towards the Caroline stope on the 300 level.

#### UTAH ORE SOLD TODAY. A Thirty-four Ton Lot Netted Company \$64 Mine Looking Good.

The management of the Utah mine of Fish Springs, effected a settlement today with the American Smelting & Refining company for a 34-ton lot of ore, the controls showing 87 ounces silver and 53 per cent lead. The ore netted approximately \$64 to

the ton, bringing into the treasury a little more than \$2,175.

A letter received from the mine to-day stated that it never looked better.

#### FIRST MAJESTIC MATTE. Assistant Treasurer Merriman Brings a

Chunk of It from Milford. Assistant Treasurer Merriman of the Majestic Copper Mining and Smelting company returned from Milford this morning where he went to dispense the

regular monthly payroll.

He brought back with him the first chunk of copper matte turned out from the new smelter. It was pronounced by Manager Alexander as being a fine

by Manager Alexander as being a fine quality of matte, as it was also later in the day, by T. R. Jones, at the head of the ore purchasing department of the United States Smelting company.

Mr. Merriman explained this foremon that the cause of the bearings to the large fly wheel running hot, necesitating the "blowing out" of the smelter after only a few hours run, was due to defective cap; which prevented the oil from reaching the bearings.

It will probably take three or four days to make repairs.

### WESTERN MARKET LETTER.

Special Correspondence.

Kansas City, Mo., Oct. 20 .- Cattle run last week at Kansas City amounted to 80,500 hend, including 10,000 calves, against 74,500 head, including 6,500 calves same week last year. Western range cattle made up a large propor-tion of the receipts. Western beef steers sold badly all week, and even good native steers sold weak, although not many of the latter were here. Westnot many of the latter were here. Western she stuff sold better than any other kind of cattle, and ranged for most of the week, about 15 cents better than close of previous week, but sagged a little Friday and Saturday. Veal calves, except the fat light weights, sold 25 to 50 cents lower. Stockers and feeders changed very little all week, and business in this line was hig, at 1,100 cars taken to the country. Trade in this line was not active, even appear. cars taken to the country. Trade in this line was not active, even appear-ing slow most of the time, but the total made last week one of the largest weeks at this market. Run today is liberal at 20,000 head, and market is weak to lower in spots. Beef steers are again dull, stockers and feeders and cows are steady. Many visitors are here, attending the Royal show, and not a few of them are expecting to take home some feeding cattle.

Sheep run last week was moderate

Sheep run last week was moderate at 31,000 head, and prices changed very little. All kinds except feeding wethers were steady nearly all week, they being 10 to 15 cents lower. Feeding ewes and lambs held up fully. Fat wethers brought up to \$3.85, lambs wethers brought up to \$3.85, lambs \$5.15, ewes \$3.25. Feeding wethers brought \$3.25, ewes \$2.75 to \$3.00, lambs \$4.10. Run today is heavy at 12,000 head, and prices on sheep are a shade lower, and on lambs steady.

## GARDNER DAILY STORE NEWS.

It takes more than a Good Tailor to make a Good Suit.

If the Fabric and Trimmings are not right

No amount of art and skill will make it a line suit. In the making of Gardner clothes, we insist on the very highest standard of both material and workmanship, according to the cost. And quality at all times is maintained.

Whether it is one of our \$5.00 suits, a \$35.00 one, or one at any other price

It is always equal to the price
