A UNION OF EFFORT

Proposed by the University Regents to the City School Board.

A LAKE BREEZE PRIMARY SCHOOL.

When and Under What Conditions Beginners Can Enter the Grades—A $100,000 Loan Proposed.

The board of education met last night in special session. All members were present and business was transacted as follows:

A communication—the most important of the meeting—came from the regents of the State University, through President James E. Talmage. It was as follows, and was referred to the committee on teachers and school work:

UNION WITH THE UNIVERSITY.

The University preparatory school and the city High School are engaged in the work of secondary instruction. The curricula of the two institutions are professedly parallel to a very great extent. The two-fold purpose of high schools in general—that of preparing the student for advanced collegiate study on the one hand and that of providing finishing courses of secondary grade on the other, is at present as truly a feature of the University preparatory school as of the High School. The work of instruction at high school grade demand teachers and equipment of a specialized nature.

We respectfully suggest and propose that an affiliation on a basis somewhat similar to that already established between the city training school and the University normal school be effected between the High School of the city and the preparatory school of the University. It appears that such a plan promises great advantages to the city school system, to the University and to the public in general. A great saving of money would be secured by the reduction of teaching force and equipment for the courses which are common to the two institutions.

The west building on University square, at present used as the Utah School for the Deaf, will probably be at the service of the University before the beginning of another academic year, and it is the present intention of the University authorities to use said building for preparatory school work. Should the space therein be insufficient for all the classes of the two schools associated as herein proposed, the most advanced work could be conducted in the rooms of the main building, where all the secondary grade work of the University has been for years successfully carried on. The laboratory work would be provided for in the laboratory building. The extensive library and museum facilities of the University would be at the service of the combined schools. Students who are residents of this city could be admitted according to the rules prescribed by the city board of education, and the expenses of the schools could be adjusted so that the city and the University would each bear its proportionate part. The selection and employment of teachers could be provided for so as to meet the requirements of the governing authorities of both the city school system and the University.

ADMISSION OF BEGINNERS.

The following recommendation as to the admission of beginners into the public schools was received from the committee on teachers and school work and adopted with but one dissenting vote:

"The committee on teachers and school work beg to report that last year at the opening of the second half year there were 330 beginning pupils admitted. It is probable that about the same number will enter this year. Inasmuch as all the primary grades are full, or over full, at the present time, the admission of these pupils would necessitate transfers of pupils from one class to the next higher through several grades; in some cases disturbing every class from the beginners to the sixth grade. Now when it is considered that all the classes are but fairly adjusted; that teachers and pupils have but just come to know each other well enough to make the best work possible; that the rearrangement of classes at this time would effect them seriously; and that the number of pupils thus injuriously affected would be at least ten times the number to be benefited by admission of beginners; and that beginning pupils who do enter at the mid-year are found by experience to attend very irregularly until about May 1; and further that the admission of beginners at the middle of the year affects the eighth grade and required a supplemental class in that grade during the second half year; hence there seems to be some grounds for questioning the wisdom of admitting beginners at the middle of the year. Your committee therefore recommended the adoption of the following resolution:

Resolved, That the recommendation of the superintendent of schools as regards the non-admission of beginners at the second half of the year be adopted with the exception of children of legal age who can start with the classes as they stood at the beginning of the second half year.

MISCELLANEOUS.

The bond of Clerk Morston, in the sum of $5,000, with J. R. Fairow and J. M. Scott as sureties, was approved, as was also that of Treasurer Barnett for $250,000, with W. S. McCornick, T. R. Jones, Richard Mackintosh, J. E. Bamberger, Geo. M. Scott and A. Hanauer as sureties.

The finance committee recommended that the clerk of the board be authorized to solicit bids from the bankers of the city, for the purpose of determining how much interest they would pay for the loan, as well, from the board of $100,000 or any part thereof, satisfactory security to be given. Adopted.

The clerk was authorized to purchase stationery and office supplies to cost $150; fifty loads of gravel was ordered for the school grounds; the matter relative to the E street sewer was referred to the president and clerk; a primary school was ordered opened in the Lake Breeze district; applications to teach were received from W. T. Cox, G. H. McFerridge and Grace M. Paddock.

The treasurer reported the December receipts to be $75,248.68, while the disbursements aggregated $34,547.45, including an overdraft of $1,398.53, leaving a balance on hand of $40,693.65. Referred to committee on finance.

The committee on finance reported having audited claims amounting to $30,892.17, of which $29,625 was interest on bonds. Appropriated.

Cullen offered the following resolution which was adopted unanimously:

Whereas, The superintendent has been called to the bedside of his sick brother in Minnesota,

Resolved, That a temporary leave of absence be granted the superintendent.

Adjourned for two weeks.

At the Red Cloud.

The Red Cloud is prepared to sink a shaft 500 feet if necessary to strike the ore zone. There will be considerable prospecting done from the shaft, and work will be continued night and day until they accomplish the objects they have in view.

VANDERCOOK DIVORCE CASE.

Judge Young Orders an Indefinite Continuance—Complaint, Cross-Complaint and Answer.

An indefinite continuance in the hearing upon motion for temporary alimony, costs and attorney's fees in the divorce case of May Vandercook against Albert Vandercook, was ordered by Judge Young yesterday afternoon upon the request of the attorneys for the respective parties.

It is understood that this step has been taken to give the litigants an opportunity of becoming reconciled, and it is only upon a failure to do this that the case will again be taken up.

The parties were married on March 28, 1895, and have lived apart ever since. A child was born which Mr. Vandercook in his cross-complaint claims he has never seen, alleging that a conspiracy was entered into between his wife and Dr. Hasbrouck to keep the child away from him.

His wife asks for a decree of divorce, alimony and attorney's fees, on the ground of non-support, alleging that he earns a monthly salary of $60, and is therefore perfectly able to contribute to her support, but which, she alleges, he has utterly failed and neglected to do.

The defendant in his cross-complaint denies the allegations, and in addition to the claim of a conspiracy between his wife and Dr. Hasbrouck, charges Mrs. Vandercook with having been criminally intimate with one R. B. Wells, both at Grand Junction, Colo., and in this city. He therefore prays for a nullification of the marriage contract and the custody of the child.

Mrs. Vandercook has answered the cross-complaint, denying every allegation therein contained, and amending her original complaint to include the custody of the child. Affidavits are also filed by Dr. Hasbrouck and R. B. Wells denying the charges made against them.

Deaf Mute Exhibition.

An exhibition of work by the pupils of the Utah school for the deaf will be given at that institution this evening, beginning at 7:30. The program for the occasion is as follows:

Class recitation. Utah We Love Thee.
Class exercise. Beginning pupils.
Exercise in language. Second grade.
The natural language of the deaf.
Exercise in language. Fourth grade.
Exercises in arithmetic and lip-reading.
Exercise in language. Older pupils.
Recitation. Ball. White and Blue.
History. Geography. Arithmetic.
The Child's Prayer.

SETTLEMENT WITH WIDOWS.

Claims For Damages From the Terrible Coal Mine Disaster in Wyoming.

RED CANYON, Wyoming,
January 15, 1896.

To the Editor:

Settlement of the claims of the widows upon the Rocky Mountain Coal & Iron company, for the loss of their husbands and sons by the explosion of gas at the No. 5 Red Canyon mine on the 20th of March, 1895, when sixty-one persons fell victims to the sad disaster, has been made. The widows, through their administrator, John W. Sammon, filed suits in the Third district court of Evanston, but the company, through their attorneys, applied to the court for a change of venue on the ground that the public prejudice of the district against the company was a reasonable bar, in their opinion, to a fair trial of the case in that court. The court granted the change of venue from Evanston to Cheyenne. From that time up to Thursday, the 9th inst., efforts have been made to settle the case pending in the court by both sides on an honorable compromise, which was happily reached on the day just named. The company agreed to give one thousand dollars per head and pay all court expenses, which amounted to $62,500, and which sum, we believe has been duly paid.

I will now take the liberty, Mr. Editor, to express an opinion on this subject which can easily be confirmed by hundreds if needed, that within two months from the date of the accident this case could have been settled without going into court if proper means had been used to get the widows together and given them a chance to have fixed their own arbitrators in the case — a thing which was never done.

In behalf of the provisional committee I have to thank the generous citizens of the western and eastern states of this great Republic for their kind and liberal assistance to those poor unfortunate women and children.

RICHARD R. HUGHES.

Charged With Perjury.

James A. Lake, an employe of the Merchants' Protective Association, was arrested late yesterday afternoon on an indictment charging him with perjury, in that he falsely swore before Justice Halls to having served a summons on one L. B. Wright on July 29, 1895, when he knew that he was swearing falsely. He is now out on bonds, pending a hearing.

Progress Stopped at the Hecla.

After mining a little less than a week, the last time, the owners of the Hecla were forced to close it down on the 15th on account of the flues burning out of their old boiler. This is the third second-hand boiler they have been compelled to discard. Manager Bothwell has at last decided to replace it by a new one. The shaft is now at the depth of more than 200 feet.

AT THE ATHLETIC CLUB.

Windy City Puncher Went Down and Out in Three Minutes Under the Blows of His Opponent.

John Parry, the white boy from Chicago, who claimed that he liked fighting, was a hard hitter and a "clever man," met his pugilistic Waterloo at the rooms of the Salt Lake Athletic club last night, under a shower of stiff punches from the long arms of H. L. Carey, his somber skinned antagonist, who hails from the vicinity of packing house smells in Kansas City.

The meeting was for points and a purse of $100. Carey got both while the white man only got experience. The black man weighed 150 pounds and his vanquished foe two pounds less. When the contest commenced there was a lively mix up and Parry had decidedly the best of it. But an accidental blow reached his jaw and from that time forth he was easy prey for the colored boy, who put him out in the second round.

Dick Case and Mike Fennesy were the curtain raisers and gave a lively four rounds exhibition. Then Greenwood and Smith sparred for the same length of time. They were followed by Jim Williams and Jim Lewis, of Sacramento, but the latter was no match for the Utah boy.

Church Cars.

The Greek church is becoming strictly up to date. It has had five church cars constructed. These have penetrated Siberia as far as the roadbed of the new Siberian railroad, which is to connect the eastern seas with the Czar's dominions when completed. Each car has two priests, and is fitted out with all the paraphernalia of the regulation orthodox Greek church that is to be seen in every Russian village of any size. The settlements in Siberia are so small and so widely scattered that it is impracticable to maintain a church for each settlement. Altogether the five churches on wheels visit seventy settlements a week.

Each settlement knows when the church car is to arrive, and all the people are expected to come down to meet it promptly for the services held in the car immediately after its arrival. Each church can comfortably seat thirty or forty people, and two settlements are visited daily by each one.—New York Press.

Beecham's pills are for biliousness, bilious headache, dyspepsia, heartburn, torpid liver, dizziness, sick headache, bad taste in the mouth, coated tongue, loss of appetite, sallow skin, etc., when caused by constipation; and constipation is the most frequent cause of all of them.

Go by the book. Pills 10¢ and 25¢ a box. Book *free* at your druggist's or write B. F. Allen Co., 365 Canal Street, New York.

Annual sales more than 6,000,000 boxes.

Burlington Route Dining Cars.

The Burlington route is the only line running dining cars on the "A la carte" plan, between Denver and Omaha, Kansas City and Chicago. Passengers have to pay only for what they eat. Be sure that your tickets read via the Burlington route.

Cleanse your blood with Godbe Pitts Blood Purifier, made from herbs.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at Z. C. M. I. Drug Dept.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whisky nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50 cents per bottle at Z. C. M. I. Drug Dept.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Z. C. M. I. drug department.

Buy Coal at the Yellow Front.

The direct line to Kansas City, St. Louis and Atlantic seaboard, is via the Missouri Pacific Railway, from Pueblo. Through sleeping and chair cars, and all connections made in Union depots in the day time. If you are going East and care for a daylight ride through the grandest scenery of the Rocky Mountains en route, see that your ticket reads via Missouri Pacific Railway. Elegant chair cars positively free to holders of regular train tickets.

Haven't anything superfluous about them; in other words, they can't be any lower. Ours, for example, have been shaved so close, that groceries can't be bought at better advantage than from us. Don't try to save money by scrimping your table; better not save at all than do it that way. Keep up your bill of fare, whatever the cost, but don't miss the chance to live first-class at a moderate cost. We throw open the door to large economies by such prices as ham, 11½c a pound, etc., lard, 5 lb. can 35c.

ANOTHER RAMBLER DAY.

The Rambler boys made a great showing in the Ogden races. The first event of the day was the ten mile road race, in which McConahey finished third, taking third prize and third time prize. Then came the track race, Joe Beck taking second in the novice. Fowler first, Weller second, and Thatcher third in the mile scratch, class B, all "Rambler" yes sir. In the half mile class A, May took second, Carter third. Half mile, class B, Thatcher second, Fowler third. Five mile, class B, Fowler second. In this race a man in a yellow suit lost his head and fell. Cognibear and Weller being immediately behind him, the result was a spill for these parties and the race left to Evans. The five mile, class A, was another Rambler event, May taking first, Joe Beck second and McConahey third. Fourteen prizes in one day is glory enough for any one.

People may laugh and people may cry,
And then they fret if they prices,
But Rambler's win races wherever they go,
Regardless of how others roll.

Moral—Buy a Rambler! Ride a winner and you'll be a spinner.
