MINING, BUSINESS AND STOCKS

CARISA WAS IN BIG DEMAND.

Tintic Stock Furnished the Feature of the Forenoon Trading On Mining Exchange.

WABASH MOVES UP AGAIN.

May Day in Little Demand and Weaker—Sales of Daly-Judge—Closing Quotations.

The week opened with the sale of 27,800 shares of stocks on the mining exchange this forenoon for the consideration of $7,858.12. Carisa was the big feature of the day, and the stock, being well supported, moved up several notches. Broker Joseph, who is the manager of the mine, appeared in the pit in his camp clothes, having come in from making an inspection of the mine, and was an active buyer. The stock advanced three cents a share during the call. May Day started out with a sale at nine cents, closing slightly lower. Daly-Judge found favor on the open board, while Grand Central, offered at $3.62½, was taken without the slightest hesitation. Wabash moved up several points and 400 shares were transferred. New York Bonanza found no demand and was passed without registering a transfer.

The closing quotations and sales were as follows:

MILLIONS WERE WASTED.

White Knob Property Being Sold Out at Sacrifice Prices.

In a little while there will not be much left of the once promising camp of Mackay, Idaho. The work of demolition is going on as a consequence of the recent official announcement of the abandonment of the White Knob Copper mine, after the expenditure of more than $3,000,000 in the development and equipment of the property. The smelter is to be dismantled and shipped to California; but other property of the company is being sold off at sacrifice prices. The company's headquarters house, erected and furnished at a cost of $20,000, was sold for $3,000; other buildings were disposed of at equivalent figures. A $20,000 ranch was sold for $5,000, and the same ratio prevails generally.

The White Knob was once looked upon as being one of the copper mines of the country, and the reports sent out from there telling of the immense bodies of ore were pictured in the most glowing style. The immensity of the ore bodies is probably correct, but the stuff is of such low grade that it cannot be handled profitably. The company attempted to ship in fluxing material from a distance, but this proved a failure. The mine was extravagantly managed, and evidently, judging from the sad fate that has befallen it, by men who did not understand their business.

IN THE SAN JUAN.

Government Geologists Making a Reconnoissance Near Moab.

Whieman Cross in charge of the government geological survey of the San Juan Mountain district of Colorado reached Moab the first of the week with a company of six men and a pack train, says the Moab Times. Their headquarters is at Mancos, Colorado, and their trip through this section is a reconnoissance of the San Juan formation as it may show up in this section. Wednesday they visited the canyon leading out of the valley on the Thompson road, and found many interesting fossils. They will go up the river as far as Richardson and examine the uranium properties there and pass around the north end of the mountain looking over Sidbad and Paradox vallies, and from there go on to their regular work in Colorado. In their trip here they looked over the foot hills of the Blue Mountains.

HIDDEN PICK GROUP.

Park City Parties Secure a Foothold in Grand County.

Henry Green, a mining man of Park City, Utah, says the Moab Times, came to Moab last Saturday and closed a deal with the owners of the Hidden Pick group of minings claims situated at the head of Salt Valley and about two miles east of the Valley City reservoir, E. P. LeCompte of Park City is associated with Mr. Green in the deal.

This deal is of great importance to this district as under the terms which it is taken it means the ground will be thoroughly exploited and proven whether the rich ore now showing up there continues to the deep.

Mine Litigation

Suit has been filed in the district court by John Pry against Perry Kelbaugh, the Kelbaugh company, and the Bingham Consolidated Mining & Smelting company, to recover $723.62, alleged to be due for services rendered in the Kelbaugh rock quarry in Parley's canyon, which was operated for the Bingham Consolidated company.

NIPPENO FINDS CREATE A RUSH.

New District Being Opened on the Stage Road to Searchlight, Nevada.

RICH GOLD ORE FOUND THERE.

A Townsite Laid Out and Prospectors Are Now Flocking in at a Rapid Rate.

Frank Hall, at one time the mayor of Mercur, but who shook the dust of that Tooele county camp from his feet about a year ago to join the rush to the southern Nevada camps in search of a fortune, came in from the Bullfrog district yesterday, and, like nearly everyone else who has been in that region, is enthusiastic over its future possibilities.

Mr. Hall brought in the information that recent investigations made in a new district located about six miles out of Nippeno, a small station in California on the Salt Lake Route, and not far from the Nevada state line, has revealed the presence of some big gold values there and that the region is attracting a whole lot of attention just now. Prospectors have been flocking in there by the score since the announcement of the first strike made; a new townsite has been laid out, and in fact, the camp is taking on a mighty lively appearance. Nippeno is the point where the stages start from for the mining camp of Searchlight, in southern Nevada, and the new discoveries are along the stage road.

Mr. Hall believes the new camp is likely to develop into a very good one, at least there is every indication that it is going to enjoy a whole lot of prosperity.

THE MYSTIC SHRINE.

Company Has Nearly a Car Load of Copper Ore Ready for Market.

The new owners of the Mystic Shrine mine in Markham gulch in Bingham are preparing to inaugurate a most vigorous campaign of development. Yesterday lumber for a new blacksmith shop, together with all the necessary equipment, was delivered to the property. Nearly a carload of high grade copper ore has been taken out and placed on dump for shipment since the property changed hands.

or the operation of machine drills, arrangements have been made with the New Red Wing company for compressed air.

OFFER WAS REFUSED.

Owners of Dixie Mine at Goldfield Would Not Sell Controlling Interest.

Special Correspondence.

Goldfield, Nev., June 22.—It is reported on indisputable authority that a cash offer of $200,000 has been made to the owners of the Dixie mine of Goldfield for a controlling interest. Big capital is behind the Dixie, and it is known that the offer has been refused. The men who own the property are Louisiana and Utah capitalists who buy mining properties to develop them. W. H. Clark, vice president of the Dixie Mining company, and resident manager of the mine, said today that the Dixie was in a forward state of development where it could ship ore at any time it was found advisable. At the present time an effort is being made to block out the ore bodies only. The Dixie is credited by local mining men as being at a point where it can enter the ranks of the top notch shippers of high grade ore of the district whenever the management so desires.

UTAH AT PORTLAND.

Cashier Hayes of Utah Copper Company Pleased With Big Fair.

Cashier John Hayes of the Utah Copper company, who has been enjoying a vacation on the Pacific coast, accompanied by his family, returned home last evening. While away the Lewis and Clark exposition at Portland was visited and Mr. Hayes says it is well worth going to see. The Utah mining exhibit makes a very creditable showing among the others and is attracting a great deal of attention among visitors to the fair. While in Portland, Mr. Hayes ran across a number of former Salt Lakers who are engaged in business there. Portland people are taking care of the crowds in a very creditable manner, but he found a great lack of enterprise on the part of transportation companies in not giving cheap excursions to Puget Sound and other points of interest along the northwest coast. Seattle, for instance, is an attractive place to go to for a side trip, but there are no excursion rates in force; at least there were none during Mr. Hayes' stay in the exposition town. Seattle people, however, are taking the matter up with the Northern Pacific Railroad company.

GREAT BEND STRIKE.

An Eighteen Inch Vein Shows Some Big Values.

A private letter from Goldfield, Nevada, contains the information that late developments at the Goldfield Great Bend mine are of a very assuring nature. An 18-inch vein has been opened, it is claimed, that shows average values of $125 to the ton. The company is drifting on the ledge and the ore taken out is being sacked for shipment.

CONCENTRATES.

Grant H. Smith departed for the hills yesterday with his family for a few weeks' outing.

Manager Tony Jacobson of the Columbus Consolidated departed yesterday morning for Alta.

Captain T. Egan departed yesterday morning for an investigation of mining interests in the Gold Mountain district.

Teams are now hauling ore from the Wyoming property in American Fork canyon for shipment to the Salt Lake smelters.

Col. N. Treweek of the Wabash mine of Park City visited that property yesterday, taking several members of his family along with him.

Harry Joseph, manager of the Carisa mine of Tintic, stated during the day that conditions look very encouraging at the present time. The company will ship out a 50-ton lot of ore today.

It is expected that the matter of transportation for the ores of the Utah Copper's Bingham mines to the new milling plant to go up near Garfield beach will be settled during the present week.

Samuel Newhouse returned from a trip to the Pacific coast this morning. The business that called him to the sea level had nothing to do with his mining operations.

President Simon Bamberger of the Fortuna Mining company, Bingham, visited the property of that company yesterday accompanied by General Supt. Frank P. Swindler of the Bamberger-Delamar mines, of Delamar, Nevada.

W. J. Craig, manager of the Kennebec mine in the Big Cottonwood district, returned yesterday from a trip east, covering a period of several weeks' duration. He went as far as Buffalo, New York, and reports having had a very enjoyable time. He will now devote his attention to the opening up of the Kennebec.

General Manager C. H. Doolittle of the Bingham-New Haven mines of Bingham returned from a conference with eastern directors of that company on Saturday night and yesterday morning departed for camp. He will be on the ground when the construction of the new aerial tramway commences during the present week.

F. W. Parker has just completed a test run of ore from the Sunday mine at Quartzburg. He put through 125 tons, saving $1,100 on the plates and securing five tons of concentrates assaying $80 a ton. This run was made for thep urpose of gaining exact information respecting the saving that could be effected to be used as a basis for the formulation of future plans. The result was so satisfactory that development work will be continued.—Boise Statesman.

With the certainty of an adequate water supply, General Manager Todd C. Woodworth is making final arrangements for the enlargement of the mill of the New Western Reduction company, which stands as a substantial testimony of the faith of Boston capital in the future of the Goldfield district. With the consummation of the plans outlined, the plant will become one of the largest and most modern in the mining belt of southern Nevada.—Goldfield Sun.

LOCAL MARKETS.

Today's markets have been increased by the arrival of a car of tomatoes from Texas in fine condition, and which are finding a ready sale. Then there is a car of watermelons from Texas, also, and a car of cantaloupes from southern California over the San Pedro route. Oranges have advanced from 50 cents per case in California, and lemons have gone up $2 per case in a week. In fact a further advance is threatened. The prices obtaining at present are as follows:

STOCKS OPENED HIGHER TODAY.

Operations on the Long Side Were Conducted With New Vigor and Confidence.

LIST WAS STRONGLY BULLISH.

Realizing Had Little or no Effect on Upward Movement—Bonds Firm.

New York, June 26.—Opening prices rose above Saturday's level, ignoring the irregular tone of the London market before the opening here. Operations on the long side of the market were conducted with new vigor and confidence. The spirited demand for such potent leaders as St. Paul, Union Pacific, Pennsylvania, New York Central, Reading, United States Steel stocks and Amalgamated Copper stimulated bullish ventures all through the list. The above named stocks and a dozen or more of prominence were marked up to 1¾ cents before the buying showed any material abatement. When realizing orders made their appearance the effect was of no consequence, a rise in Erie serving to sustain the list. United States Rubber moved up 2 points and the preferred 2¾. Northern Pacific and Minneapolis, St. Paul & Sault Ste Marie declined a point each.

There were occasional pauses in the buying, but offerings were absorbed with trifling effect on prices. Pennsylvania rose through heavy offerings at 146 to 146¼ and Erie touched 14. Union Pacific, St. Paul, Missouri Pacific and the United States Steel preferred made 2 point gains or over. Delaware & Hudson, K. C. Southern preferred and St. Louis and San Francisco first preferred advanced 3. Rubber Goods preferred 3½ and United States Rubber preferred 2½.

Bonds were firm at noon.

Very few Standard stocks eclipsed their high prices of the morning. Professionals sold at favorable opportunities, but the absorbent power continued good and prices held particularly well. Even the announcement of an engagement of $5,000,000 gold for export did not have an immediate effect in inducing selling. Reading was bought in very large blocks and touched 99½. New York Central and Pacific Mail rose 2.

The market became very quiet and ceased to advance, but reactions were not more than nominal and there was no urgent pressure to sell.

Union Pacific got above 128. Illinois Central rose 2½, Smelting 2½ and People's Gas 2. But the growing concession of the gold movement exhibited the demand. Engagements were announced of $4,200,000 for shipment to Paris this week. Prices were not much affected by the subsistence of activity, recessions being limited to fractions. Lead advanced 3⅝. Union Pacific, Reading and Pennsylvania rose again to the top level but the closing was somewhat irregular.

Close: Money on call steady 2@2½ per cent, closing bid 1¾; offered 2.

Time loans steady; 60 and 90 days, 3 per cent; six months, 3½@3¾.

Prime mercantile paper, 3¼@4 per cent.

Sterling exchange closed firm with actual business in bankers' bills at 4.87.20@4.87.25 for demand and at 4.85.20@4.85.25 for 60-day bills.

Posted rates, 4.86 and 4.88.

Commercial bills, 4.85@4.85¼.

Bar silver, 58½.

Mexican dollars, 45½.

Government bonds, steady; railroad bonds, strong.

LIVE STOCK.

PRODUCE.

CHICAGO.

Chicago, June 26.—Additional rains in northwest created a firm undertone in the wheat market here today. Weather in the southwest was favorable for harvesting operations and on that account commission houses with southwestern connections were moderate sellers. Pit traders, however, were generally on the buying side. July opened unchanged to ¼ cent higher, at 80 to 80⅛ cents. After touching 80⅞ the price rallied to 80⅞. September opened a shade to ⅛ cent higher at 81⅝@81⅞, sold at 81⅝, and then rallied to 81⅞. Minneapolis, Duluth and Chicago reported receipts of 223 cars against 296 cars a year ago.

Sentiment in the corn pit was quite bullish. July opened ⅛ to ¼ cent higher at 52⅛ to 52¼, and advanced to 51.

Oats were firm in sympathy with other grains. July opened unchanged at 31½, and sold up to 32⅛.

An advance of 5@10 cents in the price of live hogs had strengthening influence in the provisions market. September pork was up 17½ cents at 13.05; lard was up 5 cents at 7.50; ribs were 7½@10 cents to 10@12½ cents higher at 7.90½ to 8.00.

At 80⅞ July touched the highest point of the day. September sold up to 83⅞.

Late in the session there was considerable liquidation of the July delivery, cash wheat being weak as a result of the heavy receipts from the southwest. Prompt movement of new wheat to market was a depressing influence. The market closed rather weak with July at the lowest point of the day at 80⅝, a net loss of ½. September was up ¼ at 83⅞.

Corn—Active buying by bull leaders sent the price of July up to 54⅝ and September to 53⅞. A slight reaction resulted on profit taking but the market closed with July up 5@5¼, September was up 1¼ at 53⅞.

Close: Wheat—July, 80⅝; Sept., 83⅞; Dec., 84⅝.

Corn—July, 54¼; old, 53⅝; Sept., 53½; old, 53⅞; Dec., 48⅞; old, 50¼; May, 49.

Oats—June, 32½@32⅝; July, 32½@32⅝; Sept., 30⅞; Dec., 31½; May, 35¼.

Pork—July, 12.97½; Sept., 13.00; Dec., 13.07½.

Lard—July, 7.30@7.32½; Sept., 7.50; Oct., 7.55½; Dec., 7.70.

Ribs—July, 7.82½; Sept., 8.00@8.02½; Oct., 8.05.

Rye—July, 60.

Flax—Cash, northwestern, 1.43.

Barley—Cash, 42@50.

Shakespeare ADVISED:

"To do GREAT RIGHT do a LITTLE WRONG."

Be a little 'cruel' to your bank account, in the interest of

PUBLICITY.

In order to be greatly kind to your business. The merchant who spends more than he can 'afford' for advertising, when the occasion is promising, usually wins.

Plant a Dollar

In the Spring time of life and reap the harvest in old age. Write for circular "Banking by Mail"
