STOCK EXCHANGE MAKES A REQUEST

Asks Mining Companies to Send in Information.

SECURITIES THIS MORNING.

Market Remained Fairly Firm and There Was a Good Volume of Trading.

Utah mining companies generally will please take notice that the Salt Lake Stock and Mining Exchange desires their co-operation in making the exchange an information bureau, and in this requests all companies whose stocks are listed on the board, to send to the secretary of the exchange, notice of assessments levied and dividends declared. That the brokers may know where they are at in doing business in the pit. This request was made some time ago but has not been complied with to any extent, hence its renewal. The exchange is having a new board made, the same as arranged to be provide for the posting of this data, so that attention to this request will be greatly appreciated by those concerned.

ON THE EXCHANGE.

Market Maintained a Good Degree of Firmness Today.

Sales in the pit this morning amounted to 42,800 shares which had a selling value of $9,945.27. The market maintained its firmness tolerably well, although there were slight declines in Four Aces and Northern Light, both of these feeling the near approach of the bear.

Daily opened up the trading with sales at $1.34 and $1.35, while the stock closed in good demand at $1.30½. Dexter was next in line and sold at $2.32½, while Four Aces started at 36½ and closed with trading at it, under 30 days. Geyser-Marion continued firm around $2, and Mercur did business up to $8.50 and was followed by sales of North-ern Light first at $6, then down to 60½. Lower Mammoth was passed by "unsold, unbroken, and unseen," while Sunshine passed one way or between 53 and 55 and Star Consolidated found itself active between $1.21 and $1.32½.

Bright Light chose brilliantly in sales at one cent, after which Boston-De La Mar subscribed 1,000 at 1½, and Dalton was dealt in at 2 cents and above, while the stock closed with a bid of 1½. Golden Eagle was active at 8½, and Bowers Extension sold at a similar figure. While Manhattan was dealt in abundantly at half a cent. Monarch revived a little and sold at 1½ and to close business Valeo found takers at $1.28 and had a standing bid of $1.30.

The closing figures were as follows:

MARKET REPORTS.

NEW YORK MARKETS.

MONEY.

New York, March 10.—Money on call firm 3 per cent. Prime mercantile paper, 3½@4½ per cent. Sterling exchange easier with actual business in banker's bills at 4.85@4.85½ for demand, and at 4.82½@4.83 for 60 days, posted rates, 4.84½@4.85 and 4.86½@4.87; commercial bills, 4.82½@4.83.

Silver certificates nominally 59½@60½.

Bar silver, 59¾.

Mexican dollars, 47½.

Government bonds steady; 4s, 112⅝; new 4s reg. and coupon, 139; 4s, 111 coupon, 112¼; 2nd's, 96½; 5's reg. and coupon, 111½.

STOCKS AND BONDS.

New York, March 10.—The bearish feeling set in the secondary this morning although fractional declines were made in the prominent stocks with notables in Sugars, which saw a sharp decline in the London market, where some concern was evident over the aspect of the Chinese situation. Metropolitan Street railway was conspicuous exception, being one of a series of rumors of impending favorable developments to stockholders. Professional traders were active in a unit in bringing the industrial group to a commanding position in the local market. The expected lull was ignored and manipulative orders were placed in the prominent specialties with consequent material advances. Thus Atchison moved up 12 points, Metropolitan's extreme gain was 9¾, and Tobacco, Brooklyn Rapid Transit's Gas and American Steel & Wire improved 3 to 4 points. The coal shares were also well to the fore, and some gains were made in the Grange group. The market developed a sagging tendency toward the close of the first hours and dealings became small.

Stock prices were steadily but steadily downward with about everything participating.

SUGAR.

New York, March 10.—Sugar—Raw, firm; refining, 3 13-16; centrifugal, 96 test, 3½; molasses sugar, 3 1-16. Refined, firm; crushed, 5⅝; powdered, 5⅛; granulated 5⅛.

KANSAS CITY LIVE STOCK.

Kansas City, March 10.—Cattle—Receipts, 2,000. Market steady. Native steers, $4.25@5.30; Texas steers, $3.50@4.35; Texas cows, $2.75@3.90; native cows and heifers, $2.75@4.90; stockers and feeders, $3.25@4.50; bulls, $2.60@4.25.

Hogs—Receipts, 7,000. Market weak to 5c lower. Bulk of sales, $3.40@3.62; heavy, $3.50@3.70; packers, $3.45@3.70; mixed, $3.40@3.65; light, $3.30@3.55; pigs, $3.15@3.45.

Sheep—Receipts, 1,000. Market dull. Lambs, $3.75@4.75; muttons, $3.50@4.25.

OMAHA LIVE STOCK.

Omaha, March 10.—Cattle—Receipts, 1,400. Market steady, unchanged.

Hogs—Receipts, 4,600. Market 5c lower. Heavy, $3.55@3.62½; mixed, 3.52½@3.55; light, $3.40@3.50; bulk of sales, $3.50@3.55.

Sheep—Receipts, 2,300. Market steady.

DENVER LIVE STOCK.

Denver, Col., March 10.—Receipts, 300. Market, native and Texas beef steers, $3.50@5.00; cows, $2.25@4.00; feeders, $3.20@4.35; stockers, 4.00@4.35; bulls and oxen, $2.00@3.00.

Hogs—Receipts, 200. Market steady, light packers, $3.50@3.60; mixed, 3.35@3.45; heavy, $3.60@3.65.

Sheep—None.

SAN FRANCISCO MARKETS.

PRODUCE.

San Francisco, March 10.—Wheat, easy. May, 1.12½; Dec., 1.18½; cash, 1.12½.

Barley—Steady; new, 1.00½.

SWEATSHOP EVILS.

Pennsylvania Factory Inspector Throws Light on Labor Conditions in the East.

Washington, March 9.—Mr. James Campbell, factory inspector of Pennsylvania, was before the industrial commission today. He spoke strongly of the labor organizations of the glass workers of his State, saying that before organization was made practicable he had never known an instance of manufacturers attempting to reduce wages which had not been successful. Since organization had been effected, no reduction had been made without the consent of the workers. He declared that there was no mutual confidence between employers and operatives.

Mr. Campbell was a strong advocate of a protective tariff, saying that it was generally understood by the workmen that a change in the tariff would be a change in the scale of wages. He said that wages of glassworkers had never been better in the history of the country than at present, taking into consideration the purchasing power of money. This improved condition, he thought, was due to the protective tariff and to the organization of labor.

There had never been a period of greater depression, he added, than under the operation of the Wilson tariff.

Mr. Campbell spoke of the silvers as a class of men who were generally good men, and he found superior fault with the silver miners generally in comparison with the men who had come from the nine-hours agitation around the stores, and the operatives dealing with them were required to pay from 25 to 40 per cent profit. He did not believe the evil could be reached by legislation, but thought it could be met by organized labor.

Speaking of sweatshops, Mr. Campbell said that there were about thirty persons engaged in the business in Pennsylvania, mostly in Philadelphia. He thought the two years were the sharp competition between sweatshops and factories. He spoke of the filth about the sweatshops and said he had himself seen clothing made in the shops infested with vermin and very dirty. He made special mention of an investigation into the manufacture of soldiers' clothing, where this condition was found to prevail.

Mr. Campbell declared that generally the sweatshop people could not be believed under oath and he saw no means of regulating the business short of confiscation and destruction where the conditions were found to be contrary to law. Mr. Campbell stated that most of the retail stores handled the sweatshop products.

As a rule the manufacturers complied cheerfully with the laws and only four or five prosecutions ever had been taken.

Mr. Campbell spoke in general in condematory terms of the labor laws of Pennsylvania, saying that he had not advised any change, except in the law applying to sweatshops. These had been efforts to introduce political lists the labor regulations, but those efforts had not been successful. The present Pennsylvania law prohibits the employment of children below the age of 13, and the witness expressed the opinion that the limit was not too low. It was true, he said, that the employment of children had a tendency to supplant adult labor, but it was also true that there were many trades which could be properly conducted only by begining at an early age.

Mr. Campbell expressed the opinion that the immigration laws should be more restrictive. He was especially opposed to allowing foreigners to come in in droves, as he said they do. He thought many people were thus brought in who were not desirable. In the matter of convict labor, he thought prisoners should be kept on handwork and not given machines.

ELECTRIC FLASHES.

The American squadron sailed from Havana yesterday afternoon.

The cruiser Chicago arrived in Havana yesterday from Hampton Roads.

At Waco, Tex., the main office and counter yards of William Cameron & Co., burned, loss, $50,000.

The freight steamer Selkirk was gutted by fire last night at Nanaimo, B. C. She carried a big cargo of hay, hops and cattle.

The fishing schooner Myrtle is given up as lost. It is thought that she was wrecked off Vancouver island during the recent heavy gales.

The citizens of Fort Wrangel, Alaska, are said by late arrivals from the north to be drawing up a petition asking the joint high commission to cede their town to Canada.

Dr. John M. Dissen, professor of physiology at the Chicago college of physicians and surgeons, died yesterday from gifts and senile nephritis.

At Bennington, Vt., the summer mansion of Mrs. John S. Tilotsin of New York, was destroyed by fire yesterday afternoon. The house was built during the Civil War at a cost of $100,000.

The Massachusetts Republican state central committee elected George Von Meyer of Hamilton as member of the national Republican committee to succeed George H. Lennan, resigned.

Eddie Connelly and Kid McPartland were matched yesterday to fight twenty-five rounds at the Broadway Athletic club, New York, March 14th, at 126 pounds.

Tom Eck has issued a challenge on behalf of John S. Johnson to race Albert McLeod, the Canadian bicycle champion, a mile race, one mile and two in three heats.

At the Ingleside race track, San Francisco, yesterday, Jockey Dwyer, who had the mount on Gentleman, was suspended for the rest of the meeting for foul riding. He bumped every horse in the race.

Governor Barnes of Oklahoma vetoed the statehood bill on the ground of the existence of various provisions which go to make the single statehood to be the ultimate destiny of the two territories.

Ralph Keith killed himself in his house in Newark, N. J., because his 14-year-old daughter Mary had been arrested for theft. His daughter was arrested for stealing $2 from George H. Schelzer in New York.

By an explosion of gas in the Mahoney City, Pa., colliery, operated by the Philadelphia and Reading Coal and Iron company, thirteen men were more or less seriously burned, two probably fatally.

The fight scheduled to take place yesterday afternoon at Hot Springs between Tommy Ryan of Syracuse and Australian Jimmy Ryan did not occur, the latter refusing to go on, claiming there was not enough money in sight.

Mapleleaf, winner of the first prize in the St. Bernard puppy class and owned by B. F. Lurch of Duplainville, Wis., was awarded the silver medal offered by Frank J. Gould for the best St. Bernard puppy exhibited at the Chicago dog show.

In the last race at the Ingleside race track yesterday, Wyoming, who was bumped by Pat Murphy at the half-mile, stumbled and fell, throwing Jockey Dalhoun. He was picked up unconscious, and after an examination it was discovered that he had broken his collar bone.

Mayor Garden of Vancouver, B. C., has received a petition from British residents in Alibi, protesting against the new British Columbia mining law which prevents Americans from taking up placer claims.

A Hoonot, Ont., on the Crow's Nest Pass railway, Ben Moore was burned to death and his companion, James Lewis, was seriously injured. The men were asleep in their cabin, which was turned to the ground.

UTAH MINES PAY BIG DIVIDENDS.

Silver King and Grand Central Greet Their Stockholders.

SWANSEA ALSO CHECKS UP.

Golden King Mine Inspected—Boiler Crankle Shipment—Miscellaneous Mining Items.

This was dividend day in Utah mining circles and as a result the sum of $61,000 was added to the circulating sections of the State, the river to do honor to itself and stockholders being the Silver King, which generously handed out the sum of $50,000. As the company is in excellent shape, discounting and also those who, from interested motives look forward to an indefinite continuation of such payments, acting on the assumption that Senator Jerry Rich (Central) also comes to the front by depositing to his collaterals the sum of $6,000, or $1 cents a share, of the company's capital stock. This lands up a total of $56,750, and is distributed with the assurance of a still further increase in payments to some later date. The third to hand out a small slice of "velvet" was Swansea, which paid $1,000, making its total to $10,000. On the 15th inst., the Centennial Eureka makes a payment of $7,500, while on the same day the company's board will meet to consider the question of the Fourth-Dividend will they hand out the usual dividend of $7,500.

The Golden King of Stockton was inspected yesterday by H. V. Gemmell, the eminent mining engineer, and Colonel George W. E. Dorsey, president of the new incorporation to be named. Both report it in excellent shape and return with samples demonstrating the actual condition of the property.

In talking with a "News" reporter this morning, Col. Dorsey exhibited specimens of high-grade steel galena, just uncovered in an upper raise from the tunnel level. The ore body, said he, is nearly ten feet wide, and while it has not been assayed, looks as though it would carry values of one to 3 per cent lead, with a good sprinkling of silver. This class of ore, said Mr. Dorsey, is unusual in this mine or vicinity, as shipments to date have consisted mainly of a carbonate and concentrates. As the tunnel had been run only a short distance, the extent of the ore body was not known, but it gave every evidence of permanency and assured the future interested had every reason to rejoice.

The shaft on the Golden King is gradually reaching the 100-foot level and will be pushed as fast as possible to connect with the ore bodies. As it is a double-compartment, the completion will greatly facilitate the development of the property, and make possible increased shipments and consequently increased revenue to the company. Mr. Dorsey is well pleased with the conditions and looks upon the Golden King as a sure dividend payer.

The Daisy Mines Crumble.

The Daisy on the West Dip at Mercur was reported at the Jackson reflectory today with another shipment of crankle. The lot is of small weight and quality and demonstrating the high standard of excellence attained in the operation of the company's mill. Reports from the property are of a most encouraging nature and slowly the company is reaching a dividend-paying basis. Lately the stock has been in good demand on the exchange and is moving generally into men if as something worth putting away for a rainy day.

Shipment from Fish Springs.

The Utah of Fish Springs reported at the exchange this morning with a shipment of high-grade silver and lead ore, the same coming from its lower workings, where the ore is now being seen the through clash and mud, snow and sleet, the act having been much delayed thereby. Reports from the Utah give the property credit for being in good condition, and the new hoist is said to be working admirably. The work is of good quality. It is said, will witness no shipments from this mine.

Victoria Mining Company.

The Victoria Mining company, by C. D. Lane, L. Holbrook, Reed Smoot, William Hazlett and J. C. Sullivan, filed articles of incorporation with the county recorder this morning. The capitalization has been fixed at $62,500, with shares at 5 cents each. Headquarters of the company will be in Provo. The officers are as follows: President, Reed Smoot, vice president, and John R. Twelves, secretary and treasurer. The company's property is situated in the Tintic mining district and consists of the Bullion, six claims, Victoria and Victoria No. 2.

MINES OF THE WEST DIP.

New Hoists for the Bingo—Pay Ore in the Senator Stewart.

Special Correspondence.

Mercur, March 6, 1899.—The West Dip is still booming. Today several men were staking out a new township on the Stewartown claim, which is the same as Bingo, or Rockville. It is located near the mouth of Lewiston canyon, about 2½ miles west of Mercur. About one-half of the claim is taken up between the South Dairy claims. The South Dairy No. 2 is getting ready to put in a steam hoist, and the South Dairy No. 1 is also getting ready to put in a steam hoist. The Bingo hoist is now being put in a new one, the old one being too small. The machinery has been delayed in shipping on account of the snow in the east. The intention is to connect the two mines by means of a tunnel in order to get better air, for as it is, they have to pump the water in the mine with a fan run by steam. New houses are still going up near the Dairy mines. About one-fourth of a mile farther north is the Dairy mine proper, and which has a mill nearly finished. They are erecting the mill to handle the capacity, which is 100 tons a day, and Lee Chapin and going to about one mile further north is the Gray Horse mine. Here they are also building a new hoist and grading for a mill, expecting to put in a steam plant in a few days. Still further along the West Dip are the Cedar Hill mines, which are being the ore also, and are making of building a mill this summer. Going on a few hundred feet in the same direction is the Senator Stewart mine, which are just being opened up and have pretty ore on or near the surface.

The work for the extension of the Salt Lake & Mercur railroad from Mercur to the West Dip is still going on.

Immense Ore Body.

The Nevada correspondent of the New York Sun says the Glasgow Exploration company has uncovered a vein of ore in its mines at Cherry Creek. It is so large that it is doubtful that all the boxes in Elko county would not hold it. The Elko county outlay during the coming year and it is thought that the company will find it necessary to construct a railroad between Wells and Cherry Creek. The correspondent also says a deposit of antimony has been discovered some miles from Wellington. The location and its Lemar group of mines recently discovered and placed on the market consists of four claims adjoining the Alpha Fred, Lincoln county. The Florida Mining company is getting out ten tons a day of $100 rock.

MINES AND MINING MEN.

Alice now appears as a listed stock on the Salt Lake Mining Exchange.

Causes other than a cleanup are said to be responsible for the closing down of the Mammoth mill.

The Checkmate of Willow Creek, Ida., has just marketed a car of ore showing values of 6oz gold, 12 ounces silver and 4 per cent lead.

The amendments recently agreed to by the Alliance Mining company, increasing the capital stock from ten cents to $10,000, have been filed with the county clerk.

Hartering A. Cohen, it is said, will shortly visit the city and in company with Archie Murphy will go on to the Marguerite near Milford to see future development.

Mesquite Herald: Wm. T. Dennis reports a fine showing in the Pacific at Silver City and he has a force of men at work on an 8-inch vein of ore resembling that in silver and gold. The ore is being sacked for shipment. This is one of the few properties whose stock is sold to be held in the open market.

The Fidelity Mining company has incorporated and has a capital stock of $12,000 in 48 shares, and the incorporators are M. M. Freed, Charles M. Cook, Claude Powell, Sam Jones, Louis L. Duchesney and L. H. Crocker, Jr. M. M. Freed is president and L. H. Crocker, secretary. The claims are situated in Pittsburg district, Sierra county, N. M.

The Esther Mining company, at its annual meeting, elected Jacob Alt, president; John W. Hughes, vice president and A. W. Barrett, secretary and treasurer. These, with Thomas Dobson, Patrick E. Hoag, R. F. Burlingame and H. H. Hunter, constitute the company's directory. The Esther is one of Lake Shore's best properties and has a good showing of $20 ore.

Articles of incorporation of the Bi-Ca-Dent Mining company have been filed with the county clerk. The company owns the Ca-Ca-Dent, Bonanza and Dent claims in Rush Valley, Tooele county, and has a capital stock of $1,500 in shares of 25 cents each. W. W. Chamoto is president, Abraham Hanson vice president, T. D. Markham secretary and Harvey J. Jones treasurer.

EXCURSION TO TINTIC.

SUNDAY, MARCH 12th.

The Rio Grande Western will operate special excursion from Salt Lake City and Utah county points on Sunday, March 12th, to Eureka, Mammoth and Silver City. Train leaves Salt Lake City at 8.00 a. m. $2.00 round trip. Utah county rate, $1.00 round trip. Leaves Provo, Springville, Silver City at 4.30 p. m., Mammoth 4.45 p. m., and Eureka 5.00 p. m.

The results of an over-indulgence in food or drink are promptly rectified, without pain or discomfort, by taking a few doses of BEECHAM'S PILLS. Price 25 cents. Z. C. M. I. Drug Dept.

BILLS FOR PURE FOOD.

Pure food bills failed to pass in Utah's legislature, but will be considered very reasonable by the consumers of P. V. spring water so when presented at the M. Ins Co. Tel 48. P. A. Stevens, Mgr.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of De Witt's Little Early Risers, the famous little pills. F. C. Schramm, McCornick Building, corner Main Street, First South.

For fever blisters, burns, indolent sores, eczema, skin disease, and especially piles, DeWitt's Witch Hazel Salve stands first and best. Look out for dishonest people who try to palm off worthless counterfeits. It's their endorsement of a good article. Worthless goods are not imitated. Get DeWitt's Witch Hazel Salve. F. C. Schramm, McCornick Building, corner Main street, First South.

Advertisers who desire to reach the country population of the Western States and Territories should patronize the "Semi-Weekly News." Its circulation books are open to all advertisers.

Not one child dies where we formerly died from croup. People have learned the value of One Minute Cough Cure and now it is for severe lung and throat troubles it immediately stops coughing. It never fails. F. C. Schramm, McCornick Building, corner Main street, First South.

As the season of the year when pneumonia is rife, sore throat, coughs, colds, catarrh, bronchitis and lung tronbles are to be guarded against, nothing is a finer preventative "will cure the purpose" than "Dr. Bull's 25 cent" or One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. Sold vigorously upon having D. C. "something else" is offered you. F. C. Schramm, McCornick Building, corner Main street, First South.

Before the discovery of One Minute Cough Cure, sufferers were greatly disturbed by coughing congregations. No excuse for it now. F. C. Schramm, McCornick Building, corner Main street, First South.

The classified advertisements of the "News" on the 8th page form a most popular medium of information between small advertisers and the great public. The price of an advertisement is within the reach of any and all. Expose your wants through the "News."

The Semi-Weekly "News" is the great country paper of the intermountain region. It circulates in every city and settlement in Utah, and in most of those of Idaho, Wyoming, Arizona, Colorado, New Mexico, Montana, Nevada, Western Canada and old Mexico, as an advertising medium it is unexcelled.

To allay pains, subdue inflammation, heal foul sores and ulcers, the most satisfactory results are obtained by using HALLADAY'S SNOW LINIMENT. Price, 25 cts. and 50 cts. Z. C. M. I. Drug Dept.

THE NEW CITY DIRECTORY.

The 1899 City Directory, published by R. L. Polk & Co., W. P. Cooper, Manager, is now about ready to go to press and it is the publishers intention to have the book ready for delivery the latter part of April. All persons who have recently made any change in their residence or business addresses as well as all who have recently started in business should call at the Directory office at once and have correct entries made, in order to have the Directory as correct and complete as possible. The canvass is over and no further calls will be made from house to house.

The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher.

We are conscious that the convenience in our HAT DEPARTMENT hasn't been all it should be, but it's going to be better. NEW HAT CASE—NEW GOODS

Do you know how we found it out? Your criticism, Dear Public. Some of you were good enough to write us about it; some spoke of it in the store; some just bought clothes and furnishings and went away without looking at Hats—that's first-rate criticism.

Now we have the best of everything; that is, if we are as wise as we think we are, and if we are not, please bring back what you don't like. Now for the good words about Hats themselves:

Paying $5.00 for a derby doesn't make it a $5.00 derby any more than paying $1.00 a share for stocks makes a dollar stock.

Think it over—$3.00 and $4.00 is the price, and here is the derby—just like the fashionable hatter's best, without the name.

ALWAYS ADVERTISED.
