EASTERN.

A Big Fire.

TRENTON, N. J., 4.—The fashion stud farm stables took fire at about 11 a.m. The building was fifty feet wide and 187 long, and was totally destroyed, together with nine horses, out of nineteen which it contained at the time. Among the horses burned were two road mares belonging to President Grant; Lapier, a valuable animal belonging to Mr. Butterworth of Philadelphia; Henry B. Gray, a horse belonging to Budd Doble, valued at $4000; and five other horses not noted. Goldsmith Maid, Lucy, Rosalind, Hotspur and some California mares were saved. Doble lost his sulkies, three fall-top buggies, thirty sets of harness and some traps worth a thousand dollars. Charles Cochrane, an old man, loses a trunk containing three hundred in gold. The trunks belonging to all the horses are lost, together with the clothing of all the boys, about a hundred halters and a large number of saddles and bridles.

Drunkenness and Murder.

PHILADELPHIA, 4.—Probably a fatal domestic tragedy occurred tonight at 332 Munroe St., in the family of a man who is represented as a sober and industrious man, while his wife is intemperate. It appears that the wife and a female friend had been indulging freely, and without provocation attacked Montgomery, who was sleeping. His wife stabbed him in several places with a table knife, when he escaped from the house covered with blood. The two females were arrested, and Montgomery was taken to the hospital, where his injuries were pronounced fatal. It was found that he had received a deep gash in the left side of the throat, a cut on the left temple, and two on the top of the head.

Murder and Suicide.

NEW YORK, 4.—Another murder and suicide, in which both the victims are Germans, occurred to-night. Martin Hinze, living in 28th street, came home about ten o'clock, and began quarrelling with his wife, and without the slightest provocation drew a pistol and shot her in the breast. She fell to the ground fatally wounded. He then put the pistol in his own mouth and fired, the ball passing through his head, inflicting a wound from which he cannot recover. Both were removed to the hospital, but neither, it is thought, can live. Hinzer had been drinking and was apparently crazy.

Beaten to Death.

Wm. Johnson, a sailor, died at Long Island College Hospital, from the effects of a beating by unknown parties in the city, a few days ago. Johnson was last seen before the beating in a saloon up town, and the latest news points to Geo. Bitte, liquor dealer, of No. 399 H. St., as the murderer. Two others are under arrest.

Big Cathedral.

The great Cathedral of the Protestant Episcopalians is to be erected here as soon as the requisite funds can be raised. The entire cost of the structure and lots will be two million dollars. Among the subscriptions already received are two of one hundred thousand dollars each.

$25,000 Bail.

Mrs. Tanney, the alleged murderess of George Watson, who was killed on January 6th, 1872, was admitted to bail yesterday in the sum of $25,000.

Sale of Gold.

The government sold $1,500,000 in gold to-day, at from 115.50 to 115.85.

More Official Thieving.

The *Express* says that a rumor has been circulated that a defalcation has been discovered in the accounts of the officer of the State bank of New Brunswick, N. J., and that an expert is examining the books. The defalcation is placed at between $150,000 and $200,000.

The Nathan Murder.

The subject of the confession made in San Francisco by John T. Irving, concerning the Nathan murder, is still the subject of much comment in police circles, and it is now conceded that Irving knows more of the murder than the police are willing to acknowledge.

International Railways.

A letter to the *Daily Bulletin*, from the city of Mexico, dated Aug. 15, says that, contrary to expectation, the project of Gen. Rosecrans' international railroad has proved abortive, notwithstanding that large amounts of money have been expended to propitiate our Congress in its favor.

Mr. Plumb has obtained a concession for the Texas international railroad. This gentleman, on behalf of his constituents, engages to build a railroad line from Laredo to Matamoras. Another line is to connect Lagos with Mazatlan, and a third one from a point in Mexico yet to be determined to the Pacific ocean. The completion of this American Mexican system, which is of great importance to us, is to take place within ten years after the first few kilometres shall have been built. The Mexican government endorses the undertaking to the amount of ninety thousand for every kilometer built, and furnishes a subsidy of one hundred thousand for every year, aiding in the construction of the system. The ratification is to be voted upon next Congress, no doubt being entertained upon the subject, since the conditions are equally advantageous to both contracting parties. The government has also granted a concession to two other roads, which will throw open rich mining districts, and open a market for the sugar plantations of the Terra Demplada.

California Fruit.

Two car loads of fruit from California have arrived within a day or two, consisting of about half a car load of Muscat and Tokay grapes, 350 boxes of hardy and Doyenne pears, and 600 boxes of plums. The pears were only of fair quality to compete with Eastern fruit, which is plentiful. However the sales are at $3 @ $6 per case. The plums are of different varieties, and exceedingly fine and in splendid order, selling at $4 per box. The grapes arrived in poor order, and will hardly pay the freight. It is said that the experiment, so far, in sending California fruit to this market has been unprofitable to shippers. Ten weeks since a car load of grapes arrived, each case marked on the side, consequently the marked side was kept up, and the full weight of the grapes was compressed in a few inches of space. The lot sold for [illegible] of which the freight alone was $70, besides the cost of handling the fruit before shipment. Dealers, however, are looking to a time when these difficulties will be obviated and California fruits will be a regular commodity here.

Money Market.

Money active and closed at 7 per cent., gold [illegible] paid in several instances. Time loans were quoted as follows: sixty days 7 per cent., sixty days 7½ commission, and all year 9½ @ 10 per cent. Gold weaker, opening at 14½ and closing 115½. Loans early rates flat, and 1 @ 2 per cent. for carrying. The final rate was 7 gold. Time loans of gold were quoted as follows: thirty days ½ @ 1 per cent., sixty days 1½ @ 1½ per cent. Stocks heavy. Quicksilver 30½, do pref. 40, California 7s 110. The bids for treasury gold were twenty-four, amounting to 5,000,000, at 114-115 to 115-65. A million and a half was awarded at 115.

Massachusetts Election Returns—Accused of Desertion.

WASHINGTON, 4.—Detectives are making a vigorous search after the parties who committed the outrage on Beau Hickman's remains. It was not till late this p.m. that the reported outrage was fully authenticated, and when there was no longer a doubt the excitement became intense. Many have determined to subscribe a sum sufficient to prosecute the offenders to the full extent of the law if caught.

Some months since the U.S. consul at Pernambuco took the deposition of a sailor belonging to a vessel from New London, who stated that he and others belonging to the crew of the vessel had been cruelly abandoned on one of the South Sea islands and left to perish. His comrades died from cold and other causes. He charged the captain and mate of the vessel with deserting them on purpose. The deposition was filed in the Department of State, and from thence in the Department of Justice. After reviewing the case the Attorney General transmitted the papers to the Attorney General at New London, with instructions to institute investigations. He has done so, and says he believes the captain and mate to be innocent of intentional desertion. The captain states that he did all in his power to find the men, at the risk of losing other lives, and even his vessel, and was finally forced to give up the search and return home.

The Mission Indians—Appeals Decided.

The Mission Indians in the lower part of California are now engaging the attention of the Interior Department, and it is said an attempt will be made to induce them to go on a reservation, and it is understood to be the business of the Rev. Mr. Ames, as Indian agent. The department deplores the condition of things in reference to these Indians, and will endeavor to prevent any seizure of their lands by settlers till next congress, when some act will be passed giving them a legal title to the land they have been cultivating, in some instances through several generations.

The preemption case of the State of California *vs.* F. M. Felt, and the State of California *vs.* L. B. Putney, on appeal to the Secretary of the Interior, have both been decided in favor of the State.

Naval Intelligence.

Rear Admiral Jenkins, commanding the Asiatic fleet, writes to the navigation department from Hagasaki, Japan, under date of July 28th, stating that he arrived in the *Hartford*, his flagship, on the 21st of July, from Shanghae. Before leaving there he entertained, on board the *Hartford*, a number of Chinese boys, who were coming to the United States to be educated. Admiral Jenkins visited the Chinese arsenal and dock yards about Shanghae and was much interested in the works for manufacturing arms, building ships, machinery, etc. A large vessel of war, of three thousand tons, had been constructed and was awaiting its armament of rifled guns, which had been ordered in Germany.

The fourth of July was appropriately celebrated by all Americans in which the English ships of war, and the merchant ships of various nations joined. The *Lackawanna* left Hagasaki, in company with the *Saco*, on the 12th of June and arrived at Shanghae, to visit other Chinese ports. The *Saco* was *en route* to Tientsing. The *Iroquois* was *en route* to Cheefoo. The *Aschuelot* was at Hagasaki, but was to go into the dock at Yeski for necessary repairs. The *Monocacy* would also go into dock for repairs at the same place. The *Nantic* arrived at Yokahama on the 11th.
