SCHOOL BOARD MATTERS.

Woodford Coal Contract, Applications to Teach, Treasurer's Report and Routine Business.

The board of education held a very serious but right and transacted considerable routine business. In the absence of Mr. Cosgriff, Mr. Cotton presided.

Applications to teach, received from Jessie Reese, Mrs. Ida Jensen, Mrs. Gray, Dodge sullivan and Mrs. F. W. Jackson, were referred to the committee on teachers and school work, and the applications of H.E. Lawrence and B. H. Harper for employment as janitors were referred to the committee on sanitary and grounds.

On recommendation of the committee on sanitary and grounds, the action of the board authorizing the purchase of a contract with the Woodford Coal company, at the price of $4.50 per ton, was modified by stipulating the chute routine to accommodate the wagons of the company, entitled to contract for the delivery of coal at a less rate than is the ton. Contracts are to be made with the parties to be on hand in the schools could be used and the price bidding for same is not considered, and it is also stipulated by the committee on sanitary and grounds, to make no contracts for coal.

Bids were opened for 3 loads of crushed for the school situated on the Mercantile block, for the purchase of the furnace in the library building, was referred to be filled with bids, and the Thomas Kearns building was recommended by the committee on buildings and grounds.

It was also resolved, on recommendation of the same committee, that the contract of Tyrone Bell as the janitor of the 8 school rooms in the Horace Greeley School be taken on a monthly salary of $8 to care for the overflow school room.

Pleasant Valley Item.

Scofield, Oct. 5, 1897.—Winter Quarters was made quite lively this week by the arrival of twenty seven men from Castle Gate who have been employed by the Pleasant Valley Coal company. They were accompanied by Mr. Wm. Pressley, who is to be boss. The new men are working in the No. 2 mine which has been closed since last March. Every house in the camp is occupied, and some of the new comers will be obliged to live at Winnemucca, a distance of two miles from the mines, but they will have only a share of this pleasant walk, as about half the miners working at the mines live down at Scofield. An effort has been made to get the company to run a train to carry the miners back and forth which is thought will be successful in the near future.

Our merchants report a wonderful improvement in business in the last three months.

Winter quarters goods are very much in demand, and everybody is here now to go to the Scofield office for their mail and even their they cannot get a money order, as the boys have sent to 48 relations several months ago, since which he has absolutely refused to handle the money order business.
