COLUMBIA BEATS NEW DEFENDER

In Light Wind it is Demonstrated To be the Better Boat.

TRIAL OF TWENTY MINUTES

Outdistanced Reliance a Quarter of a Mile and the Latter Gave Up—Light Wind Prevailed.

Glencove, L. I., May 5.—It required just 20 minutes today for the peerless cup defender Columbia to demonstrate that in a light wind and beating to windward she is a better boat than the new Herreshoff cup yacht Reliance. Starting from a position to leeward and slightly astern of the Reliance, the Columbia sailed through the new boat's lee, tacked across her bow, and in the next leg of a mile and a half increased her lead to nearly a quarter of a mile. The Reliance then withdrew. When the Columbia went through her lee the Reliance kept off and voluntarily gave up the advantage of her wind position, but she was none the less decisively and emphatically outsailed. This was the first brush between the rivals.

The sea was as smooth as a pond and both boats carried mainsail, staysail, working jib and small topsail. At the start of the race the Reliance was a little ahead and to the windward of the Columbia. The Reliance held her position only a few minutes, for as the breeze freshened the Columbia drew up on her rival in astonishing fashion, ran through her leeward and in 10 minutes was leading the new boat by lengths. The Columbia heeled easily, while the Reliance stood up more stiffly, though carrying more canvas.

The Columbia went ahead and steadily drew away, seeming to foot faster and sail closer to the wind.

She was a quarter of a mile ahead after a 20 minutes' race.

CARTER KNOCKED OUT.

Sam McVey Lands Hard Left and Right to Jaw.

Los Angeles, Cal., May 5.—Sam McVey, the colored pugilist, knocked out Kid Carter in the eleventh round tonight. It appeared to be McVey's fight all the way through. In the second round his right connected with Carter's jaw and the Brooklyn lad went groggy for a time, but recuperated during the minute's intermission. From this stage to the finish McVey did most of the forcing. In the ninth he put Carter down twice for the count, with hard right hooks on the jaw. In the eleventh McVey brought his right across during a mix-up and Carter fell flat on his back. He managed to stagger to his feet just in time to be saved from being counted out. He was unable to protect himself, however, and a moment later went down and out from a left and right to the jaw. Carter took a severe beating and his gameness earned him the plaudits of the big crowd.

May Disband Crew.

New Haven, Conn., May 6.—Because there is a lack of money to support the Freshman crew this year the management of the Yale university crew has taken unusual means to secure funds for that purpose, threatening to disband the crew unless the money is subscribed. The Yale Freshman class has been represented for many years by a crew and has met the Harvard crew, and earlier in the season other crews in practise races every year. The following vote has been passed at the meeting of the managers of the Yale University Athletic association:

"The Freshman crew will be disbanded on June 1, unless by that date the Freshman crew management has raised an amount of money which the management of the university crew shall deem sufficient to meet the expenses of the freshman crew."

SIX ROUND BOUT.

Marvin Hart Bested by "Philadelphia" Jack O'Brien.

Philadelphia, May 5.—Marvin Hart of Louisville had the better of the six-round fight with "Philadelphia" Jack O'Brien tonight at the Pennsylvania Athletic club. O'Brien put up a wonderful fight against Hart, who was 24 pounds heavier than O'Brien. The Philadelphian had the better of the bout up to the fifth round, when he was almost knocked out by the Louisville man. In the sixth round O'Brien received severe punishment and was all but out when the bell sounded. Because Hart failed to weigh in at 170 pounds O'Brien received Hart's weight forfeit of $250.

Portland	8	22	.267

Portland, May 5.—The Browns pounded Hodson all over the field today and in the seventh bunched their hits with such rapidity that five men crossed the plate. The features of the game were three home runs, Lynch and Delmas, both of San Francisco, and Carlo Smith, Portland's big right fielder, knocked the ball over the fence and went around the circuit. Score:

	R.	H.	E.
San Francisco	4	12	4
Portland	9	16	3

Batteries—Hodson and Kelly; Slagle and Hurlburt. Umpire, O'Connell. Attendance, 900.

Seattle, May 5.—Three flies to right field, which Carath lost in the sun, enabled Seattle to make four runs in the seventh today and win the game. Dummy Hoy dropped two fly balls, his last error costing a run. Los Angeles' first run was due to the sun field. Wheeler getting a three-base hit on what would have been an easy out under ordinary circumstances. Score:

	R.	H.	E.
Seattle	4	5	3
Los Angeles	2	7	3

Batteries—Hughes and Wilson; Gray and Spies.

Oakland, Cal., May 5.—The game today was a pitchers' battle between Graham and Young, and the hitting on both sides was very light. Usually when a batter reached first he was forced at second by the succeeding player. The home club had its old infield intact with Johnson at short and the change proved beneficial. A base on balls, a triple and a double in the opening inning gave Oakland the lead and constituted the only bunched hitting of the game. Score:

Graney to Referee.

San Francisco, May 5.—Eddy Graney said today that he would accept the appointment to referee the Gans-Tracey fight at Portland if the club met his terms.

Willie Fitzgerald began training today for his battle with Joe Gans, which takes place in this city the latter part of the month. Jimmie Britt is spending a few days at Larkspur doing a little light training. He says that Gans must weigh 133 pounds ringside or there will be "nothing doing."

LOCAL EVENTS.

READY FOR TRACK MEET.

Big Events Take Place at University Grounds Saturday.

The athletes who are to take part in the interscholastic meet which is scheduled for Saturday afternoon, beginning at 2 o'clock, are working hard to get in perfect condition for the tests of strength and endurance. The contests will take place at the University grounds and for several days Manager Riser has had a force of men at work getting the grounds in first class condition for the meet. The present state of affairs indicates that the day will be the biggest one in the history of Utah school athletics. It is the purpose of those in charge of the events to have them run off as rapidly as possible in order to avoid long, tiresome waits. The following certificate has been received by the managing committee of the carnival from the B. Y. A. officials:

"To Salt Lake High School: Interstate Track Meet—This certifies that the following students are successfully carrying more than 10 hours' work in school; also that none of them are receiving compensation for any kind of work in the institution: Clarence Jarvis, Fred G. Gardener, William Lowe, Royal Lowe, William Stallings, J. A. Stallings, Theodore Johnson, A. E. Holman, Delbert Webb, Lynn Stewart, Morgan Adams, Hyrum Peterson, J. C. Peterson and John Reese; substitutes, J. L. Adams, George Higgs and C. D. Dewsnup.

"BENJ. CLUFF, JR.,
"President B. Y. A."

It is thought that this will settle the dispute that has been raised concerning Jarvis, who has been teaching at the academy. He has waived all right to compensation and has even refunded the money paid to him for past work.

BOXERS IN TRAINING.

Gibbs-McCarthy Bout Set for the 12th—To Make 150 Pounds.

The Gibbs-McCarthy bout has been set for the 12th instead of the 11th, and the weight question has been settled in a satisfactory manner. Both men agree to make 151 pounds on the afternoon of the bout. They have now begun active training and will be in fine shape when they step into the ring to settle the much mooted question as to who is the better man in the welterweight division of the game. Their last contest pleased a large crowd of loyal ring followers, and doubtless they will be greeted with a full house on the occasion of their second match. McCarthy is working out at Thompson's gymnasium and Gibbs is doing his training at the quarters he occupied in preparation for his first meeting with Jerry. The latter will have to work hard to make the weight but he says he will be able to get down to the notch all right. Gibbs will have but little trouble to make the required weight, and in fact he says he is able to do it in 24 hours.

WEATHER BUREAU'S CROP BULLETIN.

Washington, May 5.—The weather bureau's weekly crop bulletin is as follows:

The week ending May 4 was unseasonably cold over much of the greater part of the country, the minimum temperatures on April 30 and May 1 and 2 being the lowest recorded in the last of April and the first of May for the past 30 years at nearly all weather bureau stations from the central and west gulf coasts to the upper Missouri valley, and also at a number of stations in the central Mississippi and Ohio valleys, lake region and New England. Generally light rainfall or absence of rain has been favorable for farming operations, but the unseasonably low temperatures have checked the growth of all vegetation and heavy frosts and freezes have caused much damage. Drouth has been relieved over southeastern Texas and over limited areas in the central gulf states, but continues over the greater part of the last mentioned districts and in Northern Texas and rain is needed in Florida. Notwithstanding the decidedly cool weather during the latter part of the week, the temperature in New England and portions of the middle Atlantic states and lake region averaged above the normal. Rain is generally needed on the Pacific coast.

Winter wheat appears to have escaped material injury during the recent freeze over the western portion of the winter wheat belt and the general outlook for this crop continues very promising, although a slight deterioration is indicated in portions of the central Mississippi and Ohio valleys. On the Pacific coast the outlook is less favorable, especially in California.

Very little seeding of spring wheat could be done over the northern portion of the spring wheat region during the past week. The reoprts indicate that no serious damage has been done to early sown over the southern portion. On the North Pacific coast the crop is now in need of rain.

Nearly all fruits have suffered further damage from frosts and low temperatures, apples having apparently escaped with the least injury.

Postoffice Robber Pardoned.

Washington, May 5.—The president has pardoned Martin Guilford, who, in November, 1902, pleaded guilty to robbing a postoffice in Indiana and who was sentenced to 18 months' imprisonment at Fort Leavenworth, Kansas. The pardon was granted upon the representation of the prisoner's physicians that he was in the last stages of consumption.

INDIAN TO BECOME EPISCOPAL MINISTER.

Green Bay, Wis, May 5.—Cornelius O'Neill, chief of the Oenida Indians, last survivors of the famous Six Nations of New York, will be ordained as a priest of the Episcopal church, June 24, on the reservation near this city. Bishop Graton of Fon Du Lac, will conduct the ceremonies.

ELECTRICITY IN SURGERY.

Powerful Magnet Used to Draw Piece Of Iron from Boy's Face.

Vallejo, Cal., May 5.—John Gregg, an apprentice at the navy yard, was severely injured last week by a piece of steel which flew from a planing tool, imbedding itself in his face. It was thought that the metal had been entirely removed from the wound but yesterday the injury showed indications of the presence of a foreign substance. Master Electrician Petrie became interested in the case and rigged up a magnet after a design of his own, capable of lifting 500 pounds. The magnet was held directly over the orifice and the current turned on. In an instant the offending piece of metal flew from the wound and attached itself to the magnet, demanstrating a new method of applying electricity in surgical cases.

M. Smith's Strange Disappearance.

Denver, Colo., May 6.—The police of Denver are investigating a case of mysterious disappearance that rumor has it involves a man who, while in Denver, called himself Mark Smith, but who in reality is believed to be no other than Jim Cummings, whose name was associated with the Jesse James band of outlaws. M. S. Cunningham came to Denver several weeks ago and purchased a saloon. A few days later Smith appeared on the scene and made Cunningham's place his headquarters. The two men were much together and when Cunningham disappeared about a week ago investigation brought to light the fact that he had told his bartender that Smith was really Jim Cummings. Cunningham had a considerable sum of money when last seen, and the police fear that he met with foul play. They are trying to locate Smith. Cunningham came from Booneville, Mo., and several letters from there await him in this city.

Figures on Cotton Production.

Washington, May 5.—The census office today made public the final figures of cotton production obtained from the reports of cotton ginners. The quantity of cotton ginned from the growth of 1902, exclusive of linters, amounted to 11,078,882 running bales. Bales as pressed at the ginners equal to 10,630,945 bales of a 500-pound standard or counting round bales as half bales, 10,588,250. During the four years covered by the ginning reports of the census office the average crop, exclusive of linters, has been 9,902,277 bales of 500 pounds. The crop of 1902 shows an increase of 728,668 bales over the average while the crops of 1899 and 1901 show a decrease of 556,886 and 393,532 bales respectively. For the crop of 1902 there has been a general increase in all the states, both east and west of the Mississippi river with the exception of Alabama and Texas. Drouth in Alabama and drouth and the boll weevil in Texas are responsible for the losses in those states.

Goes to Take Marcum's Place.

Lexington, Ky., May 5.—Wood G. Dunlap of this city left today for Jackson as attorney for the Fusionists in the Breathitt county contested election cases. He succeeds as counsel Jas. B. Marcum, who was killed in the courthouse yesterday while filing papers in these cases. It is feared that the proceedings at this time will precipitate further trouble in the Cockrell-Hargis feud, in which half a dozen lives have already been lost.

Sideache, Backache, Headache,

And many other aches to which women are peculiarly subject are generally the result of a diseased condition of the womanly organism. When this diseased condition is cured, sideache, backache, headache, etc., are cured also.

Doctor Pierce's Favorite Prescription establishes regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. When these diseases are cured the aches they cause are also cured.

"I will drop you a few lines to-day to let you know that I am feeling well now," writes Miss Annie Stephens, of Belleville, Wood Co., West Va. "I feel like a new woman. I took several bottles of 'Favorite Prescription' and of the 'Golden Medical Discovery.' I have no headache now, no backache, and no pain in my side any more. No bearing-down pain any more. I think that there is no medicine like Dr. Pierce's medicine. I thank you very much for what you have done for me—your medicine has done me much good."

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps for expense of mailing *only*, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

HUMANITY *OUTRAGED.*

The United States dispensatory says conium PARALYZES the motor nerves; aconite reduces muscular strength; belladonna produces PARALYTIC symptoms; hyoscyamus and stramonium are same as belladonna; opium lessens the natural Peristaltic motion of the bowels, "Do NOT EXERCISE ANY CURATIVE INFLUENCE." Some of these are contained in all of the ancient pile medicines.

Of E-ru-sa, the ONLY non-poisonous Pile Cure on the market, 4,000 druggists and doctors of the highest commercial standing say in substance:

Brightens Lonely Homes

176 Warren Avenue,
Chicago, Ill., Oct. 22, 1902.

I am to-day enjoying perfect health, thanks to Wine of Cardui. For nearly four years I suffered from ovarian troubles. The doctor insisted on an operation as the only way to get well. I, however, strongly objected to an operation. My husband felt disheartened as well as I, for home with a sick woman is a disconsolate place at best.

A friendly druggist advised him to get a bottle of Wine of Cardui for me to try, and he did so. I am indeed thankful that he did so, for I began to improve in a few days, and my recovery was very rapid. It really seems nothing short of miraculous, but within eighteen weeks I was another being and in splendid health. It seems I can never praise your medicine enough.

How can a home be bright and happy when the mother or wife is enduring the pangs of menstral disorders, bearing-down pains or ovarian troubles?

Mrs. Stowe's letter shows every woman how a home is saddened by female weakness and how completely Wine of Cardui cures that weakness. She let four years go by when she could have lived them in health. She suffered the terrible agonies of ovarian troubles when Wine of Cardui would have cured her just as completely four years ago as now.

Do not go on suffering. There is nothing to gain by putting off treatment. Go to your druggist to-day and secure a $1.00 bottle of Wine of Cardui and the health Mrs. Stowe secured will soon be yours.
